Mr. Nye's humorous account of how he broke into politics in South Minneapolis after hanging out his shingle on Franklin and Bloomington avenues six years ago, was particularly happy. He talked with unrestricted freedom, because, he said, he was not a candidate. Other speakers were Fred M. Powers, Alderman Claus Peterson, John Wall, Jay W. Phillips, Swan Nelson, Dr. Gold, John E. Bichfeldt, L. B. Johnson and Luke Carrol.

This action was taken because of the consensus of opinion that the action proposed would be a breach of faith with the ice dealers. It was felt that such action would be a practical violation of the agreement made when the recent wage dispute between the drivers and dealers was settled.

PASTED-ON PATCHES

They Are Better Adapted for Winter Than for Summer Use.

New York Sun. "When I made up my laundry bundle early in the week," said the middle-aged bachelor, "I found one of the shirts that were to go in so torn that I had some doubts about sending it, but I let it go. To-day when my laundry came back and I looked it over, I didn't see that torn shirt at first. There was the right number of shirts there, but no torn one. But looking again I discovered that the torn one was there, but now it was mended. The body of the shirt, which had been torn in one place away from the bosom for a space of three or four inches, had been drawn back to its place and was held there securely by a patch pasted on the under side and ironed on.

"I had heard of mending table cloths in that way by pasting on a patch and ironing it down, but I never before heard of mending shirts in that way. Yet it's certainly all right for shirts at some seasons.

"The paste patch in this use would really be better as a winter than as a summer patch. It might be melted off in summer."
