BURGLARY LOSSES HEAVY

ONE COMPANY QUILTS INSURING

Police Conditions in Minneapolis May Have Contributed to This Result.

Residence, mercantile and mercantile safe risks will no longer be handled in Minnesota by the United States Fidelity and Guaranty company. The company has informed Fred L. Gray, its northern representative, that all business of this character in Minnesota has been reinsured in another corporation, and that risks of the kind will no longer be accepted.

The United States Fidelity and Guaranty company deals in burglary insurance, and when the company's announcement became known, the reason for the action was immediately apparent. It had become a matter of fact that the United States company get rid of its Minnesota business on account of the frequency of burglaries in Minneapolis for the last two years? was the question. Local officials of the company replied to inquiries that no reason had been assigned for the order received from the central office of the company. They could not say positively that distrust of the adequacy of Minneapolis police protection was the cause of the action taken. They did not hesitate to admit, however, that it was possible, and even probable, that this was the reason for the issuance of this order.

One of the local officials of the company said that he had no official notification of the reason why the company had decided to discontinue its Minnesota business in Minneapolis. He said, however, that losses on burglaries of mercantile establishments and residences were heavier than the average in Minneapolis. It was late last night that the managers of the company had found Minnesota business profitable. This theory seemed more probable from the fact that the company continue to write bank insurance as before.

NO PROHIB. CONVENTION AT FARGO.

Fargo, N. D., June 13.—According to some of the prominent workers in prohibition ranks, Chairman Snow misunderstood the situation when he called a state convention of prohibitionists to meet here to-day to nominate a state ticket. The meeting will be a conference to arrange for calling a state convention at a later date, probably the first week in August.
