

PAIN'S Celery Compound
Has Proved a Blessing to All Ranks and Conditions of People in Summer.

A Prominent and Popular Chicago Lady Restored to Health.

The success of Paine's Celery Compound in banishing the ill and diseases that follow people into the summer time, has not been confined to any particular class of society. Men esteemed in business and professional life, mechanics, farmers, women leaders in society, and the wives and mothers of humble homes, have all by voice and pen, contributed strong testimony in favor of the medicine that restored them to health and strength.

When Paine's Celery compound is used there is no more neuralgia, rheumatism, dyspepsia, stomach derangement, liver or kidney troubles. The blood, once foul and stagnant, is made fresh and pure, and courses with a regularity that brings vigor and happiness. The use of one bottle is often sufficient to establish a healthy and robust enough to combat the dangers and perils that are common in hot weather.

Mrs. A. T. Leonard, Chicago, Ill., corresponding secretary of the W. C. T. U., tells of her complete restoration to health through the use of Paine's Celery Compound. The great medicine was prescribed by one of Chicago's ablest physicians. Mrs. Leonard says:

"A few years ago I went through a surgical operation. After being in bed for four months I was able to be up, but was exceedingly weak and worn. Nervous, and unable to sleep or eat. My physician prescribed Paine's Celery Compound, and I at once began to feel stronger, and after using a few bottles my health and strength were completely restored, and I am glad to give this testimonial in its favor."

BACK FROM MOHONK
S. R. Thayer Attended the International Arbitration Conference.
IT WAS A NOTABLE GATHERING
Prominent Men Were There and the Attendance Was the Largest of the Series.
Samuel R. Thayer has returned from the Lake Mohonk Conference of International Arbitration, held May 28-30. Among other prominent men of the country, he was in attendance at the conference. Mr. Thayer was present by invitation.
Referring to the conference Mr. Thayer said to-day that the Associated Press dispatches comprehended nearly everything of general public interest, including the substance of the resolution adopted by the conference, leaving little or nothing to be added at this date.
"The conference just closed," said he, "was the eighth in the series and the largest in attendance of any. The composition of the conference embraced statesmen, publicists, clergymen, bankers, representative men in all classes of society, and was altogether an assemblage of exceptional interest."
"The discussion covered almost every phase of the subject, and many speeches were of an exceedingly high quality. As you know, John W. Foster, late secretary of state and ambassador to Russia, Spain and Mexico, presided and his large experience in dealing with international questions enabled him to speak with authority on many points, and the discussions were enlivened by his frequent observations, always pertinent and full of interest. As has been often stated, and I think well understood, this was not a peace conference in an arbitration conference, its purpose being to create a public sentiment in favor of the settlement of international disputes by arbitration rather than war, so that the forces that make for arbitration and the education of public opinion in that direction were among the prominent topics considered. I think the delegates in attendance numbered about 350; the conference lasted three days. The entire proceedings will be published in due time and will be accessible to any specially interested in this most important question."

VALUABLE COWS DIE
Stock at State Experiment Station Have Peculiar Disease.
Nine pure-blood cows belonging to the state experiment farm at St. Anthony Park have died within a few days of a mysterious disease. From their actions the malady was supposed to be cerebro-spinal meningitis, but on examination evidence was found of hemorrhages under the skin and in other parts of the body. It is thought possible that there was infection from sewage, or that the cows were bitten by a mad dog. A laboratory investigation is being conducted. The animals were valued at over \$1,000.

FIRST OPEN AIR CONCERT
Big Crowd Gathered at Loring Park to Hear It.
The first of the series of open air concerts arranged by the citizens' amusement committee was given last evening at Loring park by a band of thirteen pieces, led by Professor Oscar Ringwall. Four thousand people enjoyed the program. The only drawback to the concert was that the band had no stand. With people packed in close about the musicians who were seated, the lighter instruments could hardly be heard on the outskirts of the crowd. Byron Morgan's cornet solo, "The Holy City," was particularly well received.
The program will be repeated to-night at Fairview park; Wednesday at Windom; Thursday, Franklin-Steele square; Friday, Loring park; Saturday, Powderhorn; Sunday afternoon, Minneapolis; Sunday night, Riverside.

PEOPLE'S MISSION OUTING
Over 1,000 Enjoy Trip Down the River.
The seventh annual excursion under the auspices of the People's Mission outing fund, Rev. C. H. Sweat, superintendent, was taken down the river to Hastings yesterday. The steamer, J. Hill, was in charge. It was the most successful of the series. The weather was perfect and nothing marred the day. Luncheon was served to all on board. The J. Hill band accompanied the excursion, and never played better, the excursionists say.
The party numbered over 1,000, mostly mothers and children. The outing was possible through the generosity of the people of Minneapolis. At least 100 would not have been able to enjoy the river scenery and such an outing were it not for the fund of the People's Mission.

The B. C. R. & N. Minority Prepares to Fight the Rock Island Lease.
Reports from Detroit, Mich., say that railroad men there are convinced that the Detroit & Mackinac road will join with the Soo line in a through route from Detroit to the northwest. Detroit advises say that the Detroit & Mackinac is figuring on an extension and a car ferry service across the north end of Lake Huron, and Detroit is favored, as it could handle lake traffic as well as rail traffic to southern Michigan.
