

TRADE.

REDUCED THE CUT Lumber Production Locally Less Than Last Year.

NO SURPLUS STOCK ON HAND Manufacturers Will Not Have Usual Surplus by First of July—Oil and Paints Are Steady.

Statistics giving the scale of log at Minneapolis, both rail and boom, from the opening of the sawing season till June 1, were made public this week, and indicate a curtailment in the production of white pine lumber, as compared with a year ago.

The total survey of logs a year ago to June 1 was approximately 105,000,000 feet, as compared with only 77,000,000 feet surveyed to the same date this year. This was a falling off of 28,000,000 feet, and consequently it is safe to assume that manufacturers reduced their output of white pine lumber in proportion.

These statistical conditions are more than likely to have a very firm influence on the market in the near future. It is always the expectation of manufacturers to accumulate a considerable surplus by July 1 of each year, over their movement out, in anticipation of an increased demand from that time forward.

This season there will be no such surplus available. The continued demand throughout the spring, accompanied by the shortage in production thus far into the year, has resulted in all dry lumber going into consumption as fast as it was available, so that even moderate surplus stocks are out of the question.

Demand for white pine is actively increasing this month, and it now looks as if the total shipments for June would be very nearly as heavy as those for the same month a year ago. In July a heavy demand is always expected, owing to the fact that yellow pine manufacturers are restricted in their shipments, due to a lack of cars, this short-coming being caused by the movement of southern and southwestern grain and fruit crops.

White pine prices are held very stiff and are as strong as they have been at any time since the recent advance went into effect.

The Copra Situation. The local copra situation is without special features. Shops in operation are largely consuming stock bought on old contracts and are not actively in the market for new supplies, which is resulting in a quiet market.

Paints and Oils Firm. More favorable weather recently is resulting in a better demand for these commodities. With a continuation of the comparatively cool weather, exterior work can be continued all summer, and this will round out the season in good shape.

Decline in Tin. A heavy break in tin prices abroad, followed by a decline in tin prices at New York, and a sharp break in prices for copper at London and a decline of moderate proportions in quoted values here, are the features of the market yesterday.

Iron ruled fairly steady, with no change in the general list. Warrants were nominal. No. 1 foundry northern was quoted at \$21.22; No. 2 foundry, northern, \$20.50; No. 1 foundry southern, \$20.50; No. 2 foundry southern, \$20.50. English markets were higher. Glasgow closed at 54 1/2 and Middleboro at 48 1/2.

Hides, Pelts, Tallow and Wool. Green salted heavy steer hides, No. 1, 74; No. 2, 72; No. 3, 70; No. 4, 68; No. 5, 66; No. 6, 64; No. 7, 62; No. 8, 60; No. 9, 58; No. 10, 56; No. 11, 54; No. 12, 52; No. 13, 50; No. 14, 48; No. 15, 46; No. 16, 44; No. 17, 42; No. 18, 40; No. 19, 38; No. 20, 36; No. 21, 34; No. 22, 32; No. 23, 30; No. 24, 28; No. 25, 26; No. 26, 24; No. 27, 22; No. 28, 20; No. 29, 18; No. 30, 16; No. 31, 14; No. 32, 12; No. 33, 10; No. 34, 8; No. 35, 6; No. 36, 4; No. 37, 2; No. 38, 0; No. 39, 0; No. 40, 0; No. 41, 0; No. 42, 0; No. 43, 0; No. 44, 0; No. 45, 0; No. 46, 0; No. 47, 0; No. 48, 0; No. 49, 0; No. 50, 0.
