GALLANT FIRST MINN. ANNUAL REUNION IN ST. PAUL. Tattered, Battle Flags Viewed on Capitol Steps—Reception at J. J. Hill's Residence.

The annual reunion of the survivors of the world-famous First Minnesota regiment opened this morning at the Auditorium hall Thursday evening. Judge E. P. Holmes, supreme vice-president of the order, will speak and there will be music and refreshments.

At 11 o'clock the members marched to the capitol, where they viewed the tattered battle flags wrested from the boys in gray in fierce conflicts under southern skies. The flags, which were displayed on the capitol steps, were held by survivors of the veterans and guarded by a special detachment from the Sons of Veterans. After visiting the residence of James J. Hill, where a reception awaited them, the old soldiers went down town in time to witness a special run of the St. Paul first department.

A POWER DEVELOPER. A Combination of Electricity and Compressed Air. Great Barrington, Mass., June 20.—A new development in electrical transportation was announced by Blon J. Arnold addressing the American Institute of Electrical Engineers in convention here. Briefly stated, Mr. Arnold's system lies in a combination of electrical power and compressed air. The energy that is always wanted in overcoming resistances in stopping or starting motor cars is employed in compressing air, and this storing away power for use when needed. This air power is utilized either as an auxiliary to the motor, or as a substitute for the electric power should the motor be deprived of current at any time.

SEED MEN'S CONVENTION. It Will Be Held Here Next Week, Beginning Tuesday.

Members of the American Seed Trade association will meet at the West hotel in annual convention Tuesday, the meeting continuing two days. About 200 delegates are expected. The association includes in its membership leading wholesale seed dealers of the country. The Secretary of Agriculture Wilson will deliver an address. An address will also be delivered by Dr. Galloway, chief of the bureau of industry. Professor Conway MacMillan of the same university will give an address of welcome in behalf of the Commercial club.

MARRIED IN ST. LOUIS. Minneapolis Girl and Newport, Minn., Young Man. Miss Iva D. Blackman, 1115 Monroe street NE, and Albert Schebecker of Newport, Minn., were married Wednesday in St. Louis, where they had gone in order to escape parental obstacles. Miss Blackman, who has been staying with her sister, Mrs. L. A. Van Tassel, left the city Saturday, saying that she would be gone a few days, and nothing more was heard from her until the report of her marriage in St. Louis was received. Mr. Schebecker's home is in Newport. He is 24 years of age, and his parents are well to do. Miss Blackman is 19 years old, and has been working as a telephone operator for a year.

TO STORE THE GRAIN THIS CAPS CLIMAX ANTIPODAL TRAFFIC. Canadian Northwest Is Largely Increasing Its Elevator Capacity.

LINE AND TERMINAL HOUSES. It Is Still a Question Whether Capacity Will Grow as Fast as the Yield.

Millions of bushels will be added to the grain storage capacity of the Canadian northwest this year and when the new crop comes in the facilities for handling it will be greatly superior to those of last year. The progress of the program of fifty-three country elevators at widely scattered points—many other houses are being planned daily and many places of long standing will be put into small change late this year for delay being the difficulty of obtaining building material.

At 11 o'clock the members marched to the capitol, where they viewed the tattered battle flags wrested from the boys in gray in fierce conflicts under southern skies. The flags, which were displayed on the capitol steps, were held by survivors of the veterans and guarded by a special detachment from the Sons of Veterans.

Summing it all up, there is capacity to carry safely 10,000,000 bushels over and considerably less than one-half the estimated wheat yield of Manitoba last year. It is evident that if the Canadian northwest is to continue producing larger crops from year to year, elevator building must proceed rapidly and on a considerable scale. The country elevators now getting under way, twenty are being built by the Ogilvie Milling company and have 30,000 bushels capacity each. The Lake of the Woods Milling company is building fifteen houses of 30,000 bushels each. The Winnipeg Elevator company is building twelve houses of 25,000 bushels each, while the Western Elevator company is building ten of 25,000 bushels each. The London Milling company has plans for twelve houses. Along the Soo line a number of houses are being built by American capital. These can be of no less than 25,000 bu., each, as this matter is under strict control of the Royal Commission, which exercises supervision over all such houses, does not encourage the building of small houses and from the Winnipeg office will not issue a permit for a house of less than 25,000 bushels.

MID KNOBS OF TENNESSEE. Robert Scott Chose a Remote Country for His Vacation. Robert Scott, resident manager of the Metropolitan theater, has returned from a three-weeks' sojourn in a mountainous region of Tennessee, where he was accompanied by his wife, had a most interesting and delightful vacation. His trip included a 500-mile ride on the Tennessee river, the most important waterway removed from the influence of newspapers and other nerve-wracking creations of civilization. When, therefore, he read about the police scandal in New York, he was not deterred to think such things could be and overcome him like a summer's cloud without his special wonder. At least, that is what he said.

HO! FOR LAKE HARRIET. The Season Opens to-morrow—Ellery's Famous Band. The opening of the Lake Harriet season, which has been eagerly awaited by the public, is now definitely announced for to-morrow, the opening concert of Ellery's Electric band taking place in the afternoon. Every artist will see to it that the program is of artistic execution. This rare combination of qualities explains the wonderful success attained by Mr. Ellery's organization. Following is the opening program:
