upon Chicago for currency in the past three or four weeks for this season of the year.

The country banks have been reducing their balances in Minneapolis and other heavy demands for money have forced this center to and thus the district court has gone on call upon Chicago. In turn Chicago has made heavy drafts upon New York. This has at-tracted attention in the east to the lively demand for money in the west and north-

he land boom has created a money den the northwest which has been afactor in the movement. In addition to this, the high price of cash wheat and the sentiment of the farmer that it is a good time to market his remaining grain, has greatly increased the demand. This forced the demand to the farmer that it is a good against the defendant, he replied: "Well, according to the papers they are all guilty, every policeman in town." a movement of money from Chicago into the northwest in advance of the usual annual

novement for handling the grain crop.

Local bankers are not inclined to accept eastern estimates of money shipped into the northwest by Chicago since July 1. They place the amount at \$500,000 daily since that date. One of the local bankers says that the northwest may have used \$1,500,000 of Chicago money in the past three or four weeks.

ARTISTS DISAPPROVE

Withdraw Support From a Local Exhibition of Original Sketches.

A proposition was made recently to local artists, newspaper cartoonists and illustra-tors to have an exhibition in this city of the originals of their drawings. The plan seemed to be all right as first proposed and most of the artists agreed to it. It now appears that the local artists are, for the most part at least, not at all satisfied with the methods of those who undertook to conduct this exhibition and sale, and are disposed to with draw their support from the scheme. For one thing, they object to the solicitation of subscriptions among their friends and others for the benefit of this undertaking. Other nts are not to the liking of the local artists, and they and some who have agreed to be known as patrons of the enterprise out of friendship for the artists, wish to let it be known that the solicitation of subscriptions is particularly disapproved, and that ing this undertaking as now conducted.

Four additional jurers were secured to pass upon the evidence in the case of the state against Captain "Coffee John" Fitchette, at the morning session of court to-day. They were Edward A. Girard, a motorman, 3140 Blaisdell avenue; David S. Quinn, shipping clerk for the Lyman-Eliel Drug company, 532 Sixth avenue N Alexander Orr, a school janitor, Emerson avenue N; and Sylvester B. Charles S. Gale escaped service through a rather fine drawn ruling of the triers.

Mr. Gale admitted he was prejudiced against the defendant, but explained that prejudice and judgment were two different things and said he could and would try the case fairly if sworn. The triers, however, old him to step down, and he did so with

An amusing incident came when the name of Martin Ginsberg was called. Ginsberg is a police lieutenant and re-sponded in full uniform, the effect of which was heightened by a resplendent N. E. The defense did not object to his serving, and the state was satisfied, so he was accepted. However, a largedy reached his majority. It is simply the when-does-the-twentieth-century-begin? problem in a new form. At any rate, he has been accepted to serve in the case record on a problem that excited considerable discussion a year or so ago.

Mr. Lane apparently feels much grieved at the way his client has been treated by the papers. In the course of Daniel C. Hagen's examination, this morning, the juror said he had read about "Office John" in the papers. Asked

"The papers do seem to have busied themselves unnecessarily about this case," agreed the attorney. William C. Baxter, the first venirema called, had no opinion on the case, but Mr. Lane had once had a suit against him and was unwilling to let him serve. He cost the defense another peremptory challenge, the fourth. Charles E. Ovenshire, a manufacturer,

living at 71 Highland avenue, was sworn this afternoon as the eleventh juror. James A. Fagan, the fifth called this afternoon, and the sixty-sixth since the trial began, was accepted as the twelfth man. He is a builder and resides at 2440 Humbodt avenue. Apparently the jury is

The Case Is Opened.

At 2:15 County Attorney Boardman be gan his opening address. He spoke briefly saying that the indictment accused "Coffee John" of having received a gratuity of \$200 from "Davy" Johnson, for which he secured the appointment of John Long to the police force. He then called City Clerk L. A. Lydiard. The state proved by him the defendant's appointment, his acceptance, the filing of his bond and oath of office. Mr. Lydiard also testified to Long's appointment as a patrolman.

John Long was then called. He was dis-

charged from the force a few days ago by Mayor Ames, and consequently appeared in court in civilian attire. He said he had been removed when Mayor Ames first took office, having then been a patrolman, but had been reinstated the following August.
"I gave David Johnson \$200;" explained the defendant, "to get me back on the

One of the educators feels that he has been splendidly repaid for a journey half way across the continent to attend the National Educational Association. That man is Edward R. He is brimming over with en-thusiasm for the convention, more especially for the industrial exhibit at the Eas high school. This he has given a most Snyder of the normal school of Greeley Col., and Wilbur S. One of the men said to one of the others: 'If we do this will you stand pat?" and he answered "Yes"; then he said to one of the other men, "Will you stand pat?" to which this man answered "yes."

I looked over the partition in the tollet room which separated me from these men, for the

purpose of seeing who they were, and I saw the three men. Last May when I saw that the chief of police was in trouble over certain alleged disclosures of certain swindlers, I connected this with the conversation that I had heard and wrote Colonel Ames about it. I came to Minneapolis on June 16 at the request of his attorneys to see if I could identify the men who carried on this conversation. I went to Judge Harrison's courtroom where one of the trials was in progress, and without having him pointed out to me, I immediately recognized L. G. Crossman as the man who had carried on the principal part of the con-versation above referred to. I was unable to get a good opportunity to see Wm. Edwards and therefore am not now certain whether he was one of the three men, and I understand that Charles Howard was not in the courtroom when I was present.

I expected to be present at the trial of Colonel Ames and was requested by wire on July 4 to be in Minneapolis the next day, but my business made it impossible for me to come, and I stated over the telephone to Mr. Ames' attorneys that I would be present on Ames' attorneys that I would be present on Monday, July 7. SHERIFF DREGER RETURNS

He Was a Minnesota Delegate for the Turners. Sheriff J. W. Dreger returned this morning from Davenport, Iowa, where he attended the German turnfest as a delegate from Minne The whole affair was most pleasant with the excueption of the Herr Most incident buked by a decisive vote and the mover o the resolution received personally a sharp criticism from the president of the bund. One of the pleasant incidents of the fes was the attention shown to Colonel Pfaender of New Ulm, whose seventy-fifth birthday fell on the opening day. He was the oldest

From Serious Accident. pecial to The Journal. Oyster Bay, July 10.—President Roosevelt's daughter, Ethel, had a narrow escape from serious accident. While out riding to-day with her father and mother the saddle girth broke and the horse bolted. After an exciting chase President Roosevelt overtook the animal and saved his daughter from being trampled to death. Ethel clung to the horse It would save inestimable trouble desperately and Mrs. Roosevelt was severely

SOFT COAL STRIKE

Mr. Gompers Thinks the Convention Will Not Favor It.

BUT WILL AID THE STRIKERS

A Concentration of Strength on the Anthracite Strike Is Favored.

Denver, Col., July 10.-President Gompers of the American Federation of La-bor, who is in the city, said: The convention of the United Mine Workers meets in Indianapolis soon and the matter of the strike fund will then be taken up. The convention will also vote on the proposition of calling out all the soft coal miners of the United States on a general strike. I hardly believe they will do this, because it would be better to keep them at work and con-centrate our strength on the anthracite strike. The miners will win. We are with

Locomotive Firemen's Statement. Peoria, Ill., July 10 .- Frank W. Arnold,

grand treasurer of the Brotherhood of Locomotive Firemen, gave out the folowing statement to-day:
The Brotherhood of Locomotive Firemen will not strike in sympathy with the miners unless enough non-union miners go to work to threaten the chances of the union miners winning the strike. In that event the striking miners will ask engineers and firemen to refuse to haul coal mined by non-union miners and they will receive the co-operation of the railroad men. The situation is critical and I should not be surprised if the minera ask for the assistance of other unions, includ-

ROCKEFELLER STARVING.

It is said that Mr. John D. Rockefeller, the Standard Oil magnate, is starving to death because of indigestion. The statement is startling because of the irony of it. The fact, if true, is neither excep-

tional or strange.

Very many men, and especially men of means, who lead busy lives, overlook the fact that their digestive organs are their main stay. The hastily bolted breakfast, the hurried business lunch, the heavy and elegant dinner, the very late and not too hygienic supper—these, with the addition of extreme and continued mental strain, overtax the vital forces and collapse occurs. Malta-Vita should make up a large part

of the diet of the hard working business man. It should constitute the greater part of his hurried breakfast and hur-ried luncheon. It should constitute all of his midnight supper, if he desires such. Malta-Vita is palatable and easy to di-
