

Flickertail Statesmen Caught at Fargo on the Fly

JOE DEVINE, "MORT" CASSELL, STEELE & CO., GEO. H. BINGENHEIMER, INDIAN AGENT, STANDING ROCK, E. COOPER, JUD LA MOURE, FRED DENNETT, MILTON, SECRETARY TO SENATOR HANDBROUGH, SENATOR MC CUMBER AND JUDGE WALLIN, GRAND JURORS

passed by the Scandinavian league was considered important. This movement has been led in this state by the Grand Forks Herald, and its endorsement by representative body of Scandinavians will assist its promoters materially.

George B. Winslip of Grand Forks took no part in the convention primaries. His absence was much discussed. Winslip has been placed in an unfortunate position. He is much opposed to Jud La Moure and his political methods. He is a personal friend of J. M. Cochrane of Grand Forks and assisted him in securing the Grand Forks county delegation for supreme court judge. The Grand Forks county delegation was forced to train with La Moure in order to land his candidate. There is much interest in the Herald's probable attitude toward the ticket. Although Winslip is a federal office holder he has already served notices that he will not allow that fact to interfere with the independent position of the Herald in the affairs of North Dakota.

Chairman William Budge of the republican state central committee intends to resign. Secretary M. H. Jewell also desires to be slated for the chairmanship. An effort will be made to induce Mr. Jewell to continue as secretary. It is likely that Fargo will be the headquarters of the republican state committee this year.

Senator H. C. Handbrough has been circulating among delegates for the past three days. Friends of the senator say he has taken no part in the fight; that he is here simply to guard his own interests. Some of Banker Saries' friends in Traill county profess to believe that the senator has assisted some in forming the slate against their candidate, and they are promising him a warm return in the legislative conventions in Traill county. Saries' friends made several efforts to get help from Handbrough, but he repeatedly told them he was taking no part in the battle.

Senator McCumber is said to have exercised mighty influence in the Richard county delegation yesterday. J. P. Shea, candidate for railway commissioner, was ready to assist him, but McCumber turned the delegation to White.

Alexander McKenzie has not been present during the convention or its primaries. He is said to be ill at one of the eastern resorts.

Col. Hepburn's Fight. The report comes from Iowa that Colonel "Pete" Hepburn is to have a hard fight for re-election to congress this year. He will win, say the reports, by a much smaller margin than usual. After a much more determined fight. Two years ago his majority was 5,000. The chief argument against him, strange as it may seem, is that he has been in congress eight terms, and it is time to pass the honor on to somebody else. In the east a membership of eight terms would be considered one of the strongest commercial assets a congressional district could have.

Minnesota on G. A. R. Week. Eighteen states have selected headquarters for the G. A. R. encampment in October. Judge Torrance, commander-in-chief, and his staff will be housed at the Ebbitt, where, also, Minnesota will stop. Illinois will be at the Regent, Indiana at the Riggs and Iowa at the Barton.

KILLED BY HIS FATHER. A St. Paul Man Named Edgar Baker Fatally Stabbed. Morrow, Ohio, July 23.—Edward Baker, a farmer living two miles from this town, last night stabbed to death his son, Edgar Baker. The older Baker had been to town to dispose of a load of wood and returned home intoxicated. He quarreled with his son, and in the encounter which followed stabbed him to death. The father was arrested and taken to the Lebanon jail.

Sun Bonnet Baby. Fans free for the ladies at new office Omaha Road, Pillsbury Building, Nicollet Ave and 6th St. Office opens today.

Montana's Assessment. All Counties, Save Three, Show a Substantial Gain. Helena, Mont., July 23.—The county assessors of Montana have completed their assessment and reported to the state board of equalization. The total valuation of the property of Montana, not including the railroads, is \$152,720,361. This is a gain of \$1,418,439 over last year.

How About This? Strange Story of Hungarian Peasant Supercatation. New York Sun Special Service. New Haven, July 23.—With a round loaf of rye bread, three lighted candles stuck through the crust as points of an equilateral triangle, Noriz Kopper, an Austro-Hungarian, located a drowned body in West river last evening after all other efforts had failed.

Salt Rheum. You may call it eczema, tetter or milk crust. But no matter what you call it, this skin disease which comes in patches that burn, itch, discharge a watery matter, dry and scale, owes its existence to the presence of humors in the system. It will continue to exist, annoy, and perhaps agonize, as long as these humors remain. It is always radically and permanently cured by Hood's Sarsaparilla which expels all humors, and is positively unequalled for all cutaneous eruptions.

Catholic Total Abstinence Union of America, Dubuque, Iowa, Aug. 5-11, 1902. For this annual convention the Chicago-Great Western Railway will on August 1-3 sell excursion tickets to Dubuque, good to return Aug. 12th (or August 31 by payment of 50c) at one fare for the round trip. For further information inquire of L. C. Rains, Agent, Cor. Nicollet Ave. and 6th St., Minneapolis.

Men's \$5 Johnson & Murphy velour calf and patent leather Oxford's; Removal sale... \$3.50.

CROP WEEK A GOOD ONE COLONIAL CONFERENCES WHO KILLED LATTIMER?

OFFICIAL REPORT FROM N. DAK. Heavy Showers in Most Localities and Rising Temperature—Scattered Hailstorms.

TO BE HELD EVERY THREE YEARS Colonies to Help Pay for Navy—Certain Tariff Arrangements Likely.

Evidence To-day Pointing to Tat-Hill. New York, July 23.—Harry J. Parker, an insurance adjuster, who also worked as a private detective, was a witness to-day in the coroner's investigation of the shooting of Albert C. Lattimer in his home in Brooklyn on the morning of July 2. Parker testified that on May 10, 1901, Lattimer visited him and employed him.

Special to The Journal. Bismarck, N. D., July 23.—The North Dakota section of the weather bureau department of the government publishes the following crop summary: Generally favorable weather for crops of all kinds during the past week. Although the temperature was slightly below the average, it seemed warm by comparison with previous weather, and this, with heavy showers in most parts of the state, caused a vigorous growth of vegetation. Some localities that were not favored with showers are complaining that rain is needed. Scattered hail storms are reported, but it is said that but little damage, except in some narrow strips, has resulted to the crop. Wheat is blossoming and filling very well, with long heads, and as a rule, heavy straw. In some sections rust is appearing, and on low gumbo land in the eastern portion the crop is very poor.

New York Sun Special Service. London, July 23.—A forecast of the result of the conference of colonial prime ministers makes it appear that not much has been accomplished. The chief decisions that can be expected are that the prime ministers will meet in London in September every three years, and that the colonies will increase their contributions to the imperial war. Some of the colonies will grant certain increased preferential trade to England, not in exchange for similar concessions, but as an evidence of imperial feeling. Great Britain will not grant preferential treatment, but will make isolated revenue and tariff alterations, as for instance, in favor of Australian wines. It is not expected that any action will be taken on the question of ship subsidies.

A SENTENCE COMMUTED. Washington, July 23.—President Roosevelt has commuted to dishonorable discharge and fifteen years imprisonment the death sentence of Private Guy Stevenson, Troop M, Ninth cavalry. He was convicted by a court-martial in Samar, Philippines, of rape.

Washington, July 23.—Brother Austin of the treasury bureau of statistics is responsible for an addition to political nomenclature.—Non-contiguous territory of the United States is the way he speaks. That avoids much of offense. "Colonial possessions" never did sound well, and might be the undoing of a party—for catchwords are tremendously important in a campaign. Neither have "territorial possessions" or "subject territories" been entirely satisfactory. But "non-contiguous territory" meets the bill quite satisfactorily. It is non-committal, non-political and quite inclusive. It takes in Alaska, Hawaii and Porto Rico, as well as the Philippines.

Chicago, July 23.—Under threatening weather conditions play was begun to-day in the qualifying round for the Ravinooks cup on the golf links of the Owen's club. One hundred and thirty players have entered, representing the following clubs: Princeton, New Haven, Chevy Chase, Detroit, Buffalo, Cleveland, Springfield, Lake Geneva, Kenosha, Watkegan, Onondaga, Chicago, Skokie, Belmont, Evanston, Homewood, Glenview, Evanston, Midlothian, Riverforest, Westward Ho and Riverdale.

TROUBLE OFF VENEZUELA. Washington, July 23.—President Roosevelt has commuted to dishonorable discharge and fifteen years imprisonment the death sentence of Private Guy Stevenson, Troop M, Ninth cavalry. He was convicted by a court-martial in Samar, Philippines, of rape.

Washington, July 23.—The past week has been an ideal crop weather. Corn is tasseling in early fields, it has a very healthy color, and in height measures four to five feet. Wheat is in the green stage, just advancing into the milk period. With continued favorable weather for ten days, this locality will see many quarter section fields of wheat averaging 25 to 35 bushels an acre. Flax is about through the blossom; some earliest sown is in the pod. Oats promise large results. From the fact, however, that Richmond county has not yet seen oats late in the season, it is probable that the crop will be about average. Corn and potatoes are making a rapid growth.

Wahpeton, N. D., July 23.—The past week has been an ideal crop weather. Corn is tasseling in early fields, it has a very healthy color, and in height measures four to five feet. Wheat is in the green stage, just advancing into the milk period. With continued favorable weather for ten days, this locality will see many quarter section fields of wheat averaging 25 to 35 bushels an acre.
