

CITY NEWS

First Car of New Eye—The first car of new Minnesota eye came upon the Minneapolis market today, designed by the T. McCord company.

If You Want a Sidewalk—Property owners who want to put in new sidewalks next year would better call upon their aldermen at once. The council meeting of August 1 will be the last chance for ordering sidewalks for next year.

Bound Over to Grand Jury—W. M. Bosby, the colored man arrested by Pawnbroker Inspector Price upon a charge of stealing \$7 and gold watch from E. J. Green, a laboring man, was arraigned in police court this morning and bound over to the grand jury for the watch, and it came into the possession of Budd Reed, another colored man, who was arrested for the crime. Reed will now be released.

Burglars Chased Away—A persistent attempt of two burglars to break into the residence of Harry Wallace, 129 E. Grant street, last night, was frustrated by officers of the 15th precinct police station. At 12:30 a telephone message was received at the station stating that the men were trying to force an entrance to the building. Detective Nelson and Sergeant Extrom were sent to the house but could find no trace of the men. At 2:30, Patrolman Collins saw the men trying to break into the residence again, and he called them away, but the officer thinks one of them was hit.

MISSIONARY GONE

Rev. Dr. Moses N. Adams Passes Away at Buffalo. Rev. Dr. Moses N. Adams of St. Paul died Wednesday at Buffalo, N. Y. The body will be brought to St. Paul by Adams from Buffalo and will be buried in the St. Paul cemetery. He was 81 years old, and was a Presbyterian minister, having been a pioneer missionary to the Minnesota Indians. He studied at Lane Theological seminary, Cincinnati, with Henry Ward Beecher. He came to St. Paul when it was a struggling settlement, and he pointed government agents, and an American agency was established. He was at St. Peter in 1861 during the Sioux outbreak, and assisted many whites to escape to safety. He was a regular army chaplain, retiring at the age of 64. He helped to build the Good Will mission in South Dakota, where he resided five years.

Mrs. Newton B. Frost of St. Paul is a surviving daughter. JOHN A. PHILLIPS, 2009 Marshall street N.E., died Wednesday after a lingering illness. He was a member of the supreme court, knight of the Minutemen. The funeral will be held Sunday at 2:30 p. m. from the family residence, and will be under the auspices of the Methodist church of this city. Interment at Leyman's cemetery.

D. W. GEMIO, aged 60 years, died Wednesday at the home of his son, William Gemio, 55 Twelfth street N. Funeral from Shiloh Presbyterian church, Saturday, July 26, at 2:30 p. m.

CARD OF THANKS Mr. Loyde: I beg to thank you most sincerely for the kindness you have shown in closing your factory and furnishing carriages for the employees. I also wish to thank all his friends for their assistance at the funeral and for the beautiful flowers for my dear friend. —Joseph Menard.

ALPHA PHIS INCORPORATE

Will Build in "Fraternity Row" on University Avenue. The Alpha Phi association of Minnesota has been incorporated. The membership includes members of the active chapter and alumnae. The incorporators are Mrs. Charlotte McLaughlin, Mrs. Jessie McLaughlin, Mrs. Rebecca Moffet, Mrs. Louise C. Zonne, Mrs. Grace Matthews, Miss Mary E. Bowler and Laura Robb. It is a non-stock corporation. The organization has purchased from John C. Sweet a lot 50x165 feet directly opposite the university at the corner of Seventeenth and Eighteenth avenues. It is proposed to build a chapter-house in this summer. The frontage on the campus is becoming known as "Fraternity Row." The Chi Psi and the Beta Theta Pi fraternities already have buildings on the campus, and Alpha Phi will own lots upon which they will build. The Phi Kappa Psi have in mind a site between Sixteenth and Seventeenth avenues. The chapter-house to be built within a year. The Psi Upsilon, lot is in this same row and the Theta Delta Chi building committee is negotiating for a lot. The house will be bought by the Alpha Phi association.

BUFFALO BILL'S LIFE

Sister's Story Under Title "Last of the Great Scouts." Helen Cody Wetmore, a sister of "Buffalo Bill," has written a biography of her celebrated brother under the title of "The Last of the Great Scouts." The book is a vivid portrait of a figure unique in the present generation. It is well written and intensely interesting, as any work that adequately describes the strange and fascinating adventures of such a man as Colonel Cody must be. Mrs. Wetmore told her brother's story from his boyhood to the present time. She lifts the curtain and gives the public glimpses of his home life. She sees her hero only with a loving sister's eyes and recounts many incidents that are unknown to the general reader. The book pleases because of the simplicity and the beauty of its diction, the great interest of its subject, and because, in this case, truth is stranger than fiction, for surely the adventures of "Buffalo Bill" are much more wonderful than the experiences of Captain Cuttle, even when the latter is such a master of imaginary history as Cutcliffe Hune.

P. POWER'S ANSWERS

Will Be Taken Next Week by Examiner Mabey. Richard A. Mabey, special examiner of the United States court in the famous case of Peter Power against the Northern Pacific, will leave Saturday night for New York, where, on Tuesday, the defense will ask Mr. Power a few questions under oath. At the present time, the Stetson, attorney for the Morgan interests, says that Power is subpoenaed for that day. George Alfred Lamb, the plaintiff's attorney, says that Power was not legally served with the subpoena, and that he will not produce Power unless the defense makes a Bowler motion. Lamb wants to leave to-morrow for a European pleasure trip, and asked Mr. Stetson for a delay until Sept. 15. Mr. Stetson would not consent, but offered to compromise by having a notary take the testimony at once.

CLOSE UP ON COHEN

He Barely Escaped Capture at Spirit Lake, Iowa. Joe (Reddy) Cohen is believed to be in Chicago. He was located at Spirit Lake, Iowa, and a deputy sheriff went down to get him. He must have been suspicious, for when the deputy reached the Cohen cottage at the lake, it was learned that he had gone to Esterville. The deputy followed with all possible speed in an automobile, but arrived too late, for Cohen had taken the train for Chicago. No definite clue as to his whereabouts has since been discovered.

CLOTHING STORE ROBBED

\$800 Worth of Clothing, Shoes, Etc., Taken. The Union Clothing company, 1101 Washington avenue S., was robbed last night. Clothing and jewelry of the value of \$800 were taken. The thieves secured entrance by cutting a hole through the rear door and turning the key. The articles taken consisted of clothing, shoes and some cheap jewelry. Officers from the South side police station were detailed on the case.

TRIPLE TANK ELEVATOR

New House for the St. Anthony Elevator Co.

A WASHBURN-CROSBY COMPANY

It Will Be in Southeast Minneapolis and Will Be Rushed for Fall Crop. The Washburn-Crosby company has been ordered to erect a triple tank elevator in Minneapolis and ground will be broken in a few days for another large grain elevator. The elevator will be erected by the Washburn-Crosby company, a corporation controlled by the directorate of the Washburn-Crosby company, upon a piece of ground adjoining the present plant of the Washburn-Crosby company in Southeast Minneapolis. The new house will be of tile tank construction. The capacity will be 500,000 bushels and the structure will be so built that the capacity can be enlarged later if desirable by building additional tanks. At present four tanks will be erected, and they will hold a trifle over 125,000 bushels each. Barnett & Record have the contract for the new house.

It is a fact that a heavy movement of grain is looked for this year and an effort will be made to rush the building to early completion, to share in the handling of the new crop. The contractors say the new elevator will be ready for operation by the middle of November.

R. Y. AGENTS GOING HOME

WORK WAS FINISHED YESTERDAY. Some Remain to See City's Sights—All Highly Pleased With Treatment Here. About half of the delegates to the convention of the National Association of Railway Agents left for home Thursday night, the work of the body having been completed yesterday. This morning, those who were left, took a stroll around the business district of the city, visiting, among other places, the Commercial Club and the newspaper offices. This afternoon they enjoyed a trolley ride to Minneapolis and St. Paul, returning by way of Como park. An extra coach will be attached to the Pioneer Limited to Chicago to-night, and it will carry a number of the delegates to their homes. Others will leave in the morning or on other trains to-night. All expressing themselves as highly pleased with Minneapolis and the hospitality of the Commercial Club. The convention was not largely attended, but Secretary N. A. Cottrell said, in his closing address, that it was most enjoyable and the most successful meeting from every point of view, save that of attendance, ever held by the association.

OFFICERS RE-ELECTED

Presents for Railway Agents' President and Secretary. Members of the National Association of Railway Agents unanimously re-elected the present officers of their organization Thursday afternoon and presented President W. Platt with a handsome silver and gold loving cup and Secretary Cottrell with a pair of link cut buttons. Papers on technical subjects were read and in the evening the visiting delegates were taken to the Royal Italian band. The officers are: President—W. H. Mills, Lake Shore and Michigan Eastern railway, Chicago, Ill.; Vice president—C. C. Goss, St. Louis, Iron Mountain & Southern railway, Little Rock, Ark.; Secretary—N. A. Cottrell, St. Louis, Iron Mountain & Southern railway, Bismarck, Mo.; Treasurer—A. N. Dietz, Cincinnati, Tennessee, Virginia and Baltimore & Ohio railways, Cleveland, Ohio.

EXTINCTION OF WILD FLOWER

In Gathering Buds the Stars Should Be Cut and Not Broke Off. Boston Transcript. It seems that it is high time persons of influence exerted themselves to save the wild flowers of the country. It has been necessary to check the slaughter of birds, for eating, or to secure their plumage for hat trimmings. Somehow there seems to be a careless killing of flowers, because a flower is wild it is bound to grow whether one wants it to do so or not; while in very careless minds there is present a deadly enemy to the effect that it is not a matter to be given a second thought if flowers do stop growing altogether in the woods and fields. So, after a summer of the phases of the situation, numerous public spirited people got together and formed a Society for the protection of Native Plants. As a means of carrying out their purpose, the society propose to publish brief articles or leaflets for distribution to teachers in our schools, to village improvement societies, and to all persons willing to make a contribution. Dwellers in cities clap their hands and rejoice when street stands laden with arbutus announce the official coming of spring. They are glad to see the streets smell like the heart of the Maine pine. But, alas! they are not aware that it is not a matter to be given a second thought if flowers do stop growing altogether in the woods and fields.

HUNTER'S BIG DEAL

His Company Sells a Large Piece of North Dakota. H. A. Hunter, manager for the Missouri Slope Land and Improvement company, has closed a deal with the Interstate Land company of St. Paul whereby the latter company takes the holdings of the Missouri Slope company in western North Dakota, mostly in Billings county. The consideration is understood to be in the neighborhood of \$250,000.

THIRD WARD WIGWAM

Plans for Building of Classic Style and Complete Appointments. Contracts for the erection of the Third Ward Wigwam will be let shortly. Hertrand & Chamberlain have recently completed work upon the plans of the building, which will be of classic design and will cost about \$150,000. It is to be built by the Third Ward Republican Club at Plymouth and Aldrich avenue N., will be 44 by 120 feet, with an auditorium capable of seating 1,000 people, a stage 12 by 35 feet, kitchen, cloak room, toilet rooms, two galleries and living apartments for the janitor. It is expected that the building will be completed in time for use in the fall campaign.

CONNOR IN DANGER

Minneapolis Detective Narrowly Escapes Being Mobbbed. Bicycle Inspector Connor, colored, had a narrow escape from being injured by a mob at Anandale yesterday. It appears from the stories told by witnesses, that Connor attended the picnic in company with a white woman, and one of the citizens of the country village pressed himself forcibly upon the matter; Connor refused by knocking the man down. The fight was taken up by a number of the man's friends and had it not been for the intervention of Detective Nick Smith and Captain J. H. Alexander, Connor would undoubtedly have been handled roughly.

POLICE INTERFERE

To Prevent a Political Riot in St. Paul. The St. Paul police were called upon to quell an incipient riot last night at Third and Wabasha streets, the result of an attempt of the social democrats to hold an open air meeting. Ex-Mayor Chase of Haverhill, Mass., had spoken and State Organizer G. H. Lockwood of Minneapolis was speaking when the meeting was broken up by the socialist labor people of St. Paul. There was an exchange of words and blows between the meeting and the police. Interference at the meeting was broken up.

COFFEE JOHN'S PURPOSE

GOING TO CLEAN UP THE CITY Says He Will Hit Violators of the Law Wherever He Sees Them.

Captain "Coffee" John Fichette returned from and has accepting trip to Anandale yesterday, staggering under the weight of 153 fish of all kinds and with the firm resolution to clean up the city regarding the consequences. "I am going to hit violators of the law wherever I see them. I am going to make this a clean city. I believe that the laws on the books should be enforced, and that it is the duty of the officials in authority to enforce them to the very letter. Then if the laws are not popular, they will be repealed." I see that Krumwiede reports that Mayor Ames said he never gave me any orders to raid the wineries. Well, maybe he didn't, but you will recollect that the chief did give me specific orders that on several occasions, and they were sanctioned by the mayor. I take it that he meant what he said, and I was simply obeying orders. And I am going to do more of it, too. There is a good stiff winery ordinance in effect and I am going to see that it is enforced. The report going the rounds that he has been offered a job in the Union is very unfavorable. The little grass plot and statue would make a vast difference. Other is to officiate as chief surgeon, Captain Fichette brandy declaratory, and I don't know of any better use for that little triangle could be put to. It is said the city could get \$25,000 for the building and the site. I am present at the little party which will be in business at the old stand Aug. 1 and a long time thereafter.

BUILDING LABORERS STRIKE

They Demand an Advance in Pay and Quit Work. About twenty laborers employed on the new building in process of construction on the North Star Boat & Shoe company, on First avenue at the corner, higher wages this morning. They are what are technically known as building laborers, and are organized in a union of that name. They are receiving an hour for nine hours' work, and struck for an advance of 20 cents per day. When Contractor G. F. Haglin refused the advance, they went to work. The men of the building trades employed on the building with this zeal in an effort to get them to go out on strike. The police were sent for. Some of the men will be back at work in the morning at the old wages, it is said, and the other places will be filled by new men.

THE HORN FLY

Comes Out of Southwest to Pester Minnesota Cows. The horn fly, known scientifically as haematobia serrata, imported from Europe in 1887, and common in the southwest, is making its way northward. These flies are a cattle pest. Their bite causes inflammation, a reduced flow of milk and nervousness. State Entomologist E. L. Wainwright says that the fly hatches in moist weather. Eggs are laid in fresh manure. Dry weather is unfavorable to their growth. Anointing with oil, spraying with kerosene, brushing the flies off the backs of cows by a curtain as the animals enter the barn are protective measures.

TOO LARGE A PROFIT

Dealers Said to Make 'Too Much on That State Pigeon Twine. Warden Wolf of the state prison has discovered that certain dealers in the state have been selling prison twine at more than the 1 cent a pound profit the law allows. He has instructed by the board of control to make a complete investigation. Evidence has been secured against six or seven dealers, who will be prosecuted. The penalty for violation of the law is a fine of not less than \$25 nor more than \$300 for each offense.

TWO GIRLS DROWN

They Were Playing on a Raft at Long Lake. Josephine Kastner and Mary Soller of St. Paul were drowned at Long Lake on New Brighton on Monday. With a little brother the Kastner and Soller girls were on a raft and floated off to deep water where Mary Soller fell overboard. The other girl tried to save her and bath sank. The girls were about 15 years of age, and were visiting Josephine Kastner's gray and white boat. The Soller girls live at 472 Gray street, and the Kastners at 605 Western avenue.

BANK FAILURE'S ECHO

Mrs. E. A. Clement Seeks to Recover in the Courts. Senator Thompson of Preston was in the city today looking after the interests of the creditors of the Fillmore County bank in the suit of Edith A. Clement against the bank. The suit involves a valuable real estate in this city worth about \$25,000, of which the creditors have secured possession. Judge Harrison this morning heard an application for a new trial made by Mrs. Clement.

FILTER BEDS WORK

They Purify Sewage From the Asylum at Anoka. Purification of the sewage of the Anoka hospital is now an accomplished fact, according to Superintendent Pleasants, and all danger of contamination of the waters of the Rum and Mississippi rivers from this source is obviated. The sewage is now filtered through a system of filter beds located along the Rum river. A Great Improvement. Whenever a person had in contemplation a trip on a railroad in the days gone by, many discomforts incident to the journey were anticipated. As time went on, however, the facilities for transportation were greatly improved until, at the present time, the contemporary passenger looks for to his tour with much pleasure. This is particularly true when the route chosen is the Chicago, Milwaukee & St. Paul Railway, and the train to be used the Pioneer Limited running daily via that line between the Twin Cities, Milwaukee and Chicago—the famous train of the world.

MAKE IT A PARK

Senator Potter's Plan for Old City Hall Site.

STATUE OF COL. JOHN H. STEVENS

That Could Be Erected in Center—Plan Valuable for Impression on Newcomers. Senator E. G. Potter is greatly interested in the proposition to sell the city hall and use the money for permanent improvements. He admits that the city hall itself should be sold, but he believes he has a better suggestion to make regarding the site. He says: "I would suggest that after the city offices have all moved to the new building the structure be sold, and the money for permanent improvements. It would be only a little grass plot, of course, but it could be enclosed with an iron fence. I would have in the center a statue of Colonel John H. Stevens. The people of Minneapolis would give the money for the statue readily. The great impression of Minneapolis on people who come in by the Union is very unfavorable. The little grass plot and statue would make a vast difference. Other is to officiate as chief surgeon, Captain Fichette brandy declaratory, and I don't know of any better use for that little triangle could be put to. It is said the city could get \$25,000 for the building and the site. I am present at the little party which will be in business at the old stand Aug. 1 and a long time thereafter."

PRICES FOR SMOKERS

Dept. Store Competition Brings Other Dealers into Conference. A meeting of druggists and cigar manufacturers and dealers was held yesterday to consider the question of rate cutting. Cigar prices have been much demoralized in Minneapolis recently, some of the dealers are making prices that have caused all sorts of trouble. In most cases the cuts had been met by druggists and others and it was to secure an agreement to extend it to every corner of Minnesota action, however, was postponed until next Thursday. At the meeting yesterday the fact developed that at least one firm was selling 6-cent goods at seven for a quarter.

LUCE A CANDIDATE

He Will Seek the Republican Nomination for Mayor. William L. Luce, owner of the Phoenix building and Hampshire Arms, will be a republican candidate for the mayoralty nomination. His announcement was delayed by the party of the Republican nomination, as Mr. Luce wished to support the former mayor. Now that Mr. Pratt seems disposed to stay out of the race, Mr. Luce will get into the game. He has resided in Minneapolis twenty-two years and is a member of the Chamber of Commerce. He resides at Hampshire Arms in the fifth ward.

WILL VISIT STATE'S PRISON

Journal Excursionists Will Go Through Minnesota's Great Penitentiary. Have you ever taken the steamer ride up the St. Croix river and visited the interesting State Prison? If you haven't, don't miss going on the Journal Excursion next Tuesday, July 29th. This trip offers you a chance to enjoy the most interesting institutions in the state. The Journal special train will leave the union depot Tuesday morning, 9 o'clock sharp, affording everybody ample time to reach the station. The return will be made by fast special, which will bring you back in time for supper. The Journal Excursionists' band will give a fine concert on board the steamer Lora. The Journal party will be escorted by Warden Wolf and guides through the prison, which shows all the workings of that great institution. They will then leave Stillwater Union Depot for a direct run to Minneapolis. You are sure to be one of Minneapolis' best excursions and the tickets are selling fast. Remember, when the limit is reached, tickets will not be obtainable at any price. Get yours early.

NATIVE SONS' REUNION. They Plan to Get Together State Fair Week. President P. M. Holl of the recently organized Native Sons of Minnesota association, has appointed a committee to make arrangements for a fair-week reunion of the natives of this state. The committee consists of Dr. Leo M. Crafts, Dr. W. E. Leonard, George C. Andrews, George D. Craig and Charles H. Babcock, all of Minneapolis. The reunion will be held in the log cabin erected by the Territorial Pioneers on the fair grounds and will be in connection with the reunion of the pioneers. Many of the latter are eligible to membership in the Native Sons' association and an effort will be made to interest them. The opportunity will also be improved to make known the organization to visitors from all parts of the state, to extend it to every corner of Minnesota and to establish local societies in every city. In connection with the reunion, a dinner will be held and the principal duty of the committee appointed by Dr. Holl will be to make the dinner a success, by securing a large attendance.
