

OUT OF THE FOR GOOD NINTH IS RED HOT

Congressman Morris Would Not Reconsider His Decision.

HIS WINDFALL IS NOT SO GREAT

Senator Nelson Returns to Duluth With Nelson Bearing the Palm.

Special to The Journal.

Duluth, Minn., Aug. 15.—The movement which started in this city this week to get Congressman Morris to reconsider his determination not to be a congressional candidate has come to naught.

The movement to bring Mr. Morris out again started with an announcement that a piece of mining land in which he was interested had been taken by the United States Steel corporation upon terms which assured him an income of from \$5,000 to \$7,000 annually, which sum would place him in a position where he would not have to depend upon his congressional salary for support of himself and family.

It is said that the reported good fortune of the congressman is greatly exaggerated; that he actually owns a thirty-second interest in the forty acres and will get only about \$1,000 a year out of it.

Both Senators Clapp and Nelson deny that politics played any part in their fishing trip. They say that subject was entirely tabooed. Senator Nelson said he had heard nothing of the possibility that Judge Morris might change his mind and run.

"Personally, I do not know whether Judge Morris would or would not consider a proposition to run at this late hour, but I do know that he is an awfully good man, and his place will be hard to fill," said Senator Nelson.

Senator Clapp talked similarly. He said the entire Minnesota delegation appealed to Congressman Morris. They know his worth and regretted his decision not to run, but recognized it as final. The senators say they enjoyed their fishing trip immensely. Senator Nelson made the best record as a fisherman, getting about fifty fish speckled trout. Senator Clapp put in much time buying Indian curios, and walked down Superior street this morning carrying under his arm a huge roll of matting which he picked up from the Indian store.

Clapp left for St. Paul on the morning train, but Senator Nelson remained until the afternoon.

No One Brash Enough to Pick the Winner—Exhaustive Fight Not So Slow.

Special to The Journal.

Crookston, Minn., Aug. 15.—No congressional contest has ever excited as much general interest in this part of the state as the present four-cornered fight in the ninth district. The candidates are making a canvass for votes which for thoroughness holds the record in Minnesota. Many theories are advanced touching upon the result, but so far few have been willing to risk their reputations as prophets in attempting to pick the winner.

Andrew Grindeland of Warren and Halvor Steenerson of Crookston are making a hot fight for preference in the northern half of the district. It is this struggle which has led the supporters of Ezra G. Valentine of Breckenridge to hope that the north end of the district may be so divided as to make his strength in the south the deciding factor. S. G. Comstock of Moorhead is not making as aggressive a fight as the other three, which partly explains the faith in Valentine's ability to line up a big majority of the voters in the southern end. Valentine has been making a careful canvass for several weeks. Politicians say that his canvass is the most systematic. He is asking for preference partly on his record as an active member of the drainage board.

The district is being flooded with the campaign literature of all four candidates. Valentine in sending out appeals for support accidentally mailed one to Crookston. The latter replied assuring Valentine that he liked him as a candidate, liked his kind of a campaign and he would willingly support him if he were not out for the position himself.

There will be a hot fight for the state senatorship between A. D. Stephens, the Crookston banker, and Hugh Thompson of East Grand Forks. Stephens has informed the voters of the district that if elected he will endeavor to have a law passed by which the state will lend money at 2 per cent on drainage bonds issued by counties.

At the present time the counties are forced to pay seven per cent on drainage bonds. Stephens believes that borrowing money of the state at two per cent would greatly assist the work of draining the wet portions of the northern counties and as the state is already loaning some funds at that rate the counties would be asking for nothing unusual. Stephens also desires to secure legislation making the farmers' hail insurance more reliable.

He is a good campaigner, has a wide acquaintance throughout the district and will put much ginger into the fight.

SENDING LAST PARTIES

Outing Association Will Return Children for School.

The work of the Outing association of sending out children to the country is nearly finished, as most of its members have returned to Minneapolis for the opening of school. Several parties have been sent out during the week to Duluth, Rush City, Elbow Lake and Glenwood. The number of children sent out will be about the same as last year and not one has been sent home on account of bad behavior. This is a remarkable record, considering that among the hundreds of children many are neglected and know nothing of discipline or refined living. A warning given this year that had behavior would cut off the offender from any future outings doubtless had a wholesome restraining effect upon those that needed it.

Picnic at White Bear.

The Political Equality club of Minneapolis will picnic at White Bear home Mrs. Lizzie McClary, at Mahomed Tuesday afternoon. The members and their friends will meet at Masonic Temple and take the 1 o'clock Commuter car. Baskets lunches will be taken.

The Minneapolis Primary Sunday School union will hold a joint meeting with the St. Paul union at the summer home of Mrs. D. W. Lansing, Mahomed, White Bear, The Minneapolis Primary Sunday school will picnic at Lake Park and have a steamer trip.
