BIRDSALL THE MAN IS IT AFTER SHAW? WOULD DO NO WORK NEWSHAPETOWORLD IT WILL SPRAIN HIM

Name Him to Succeed the Speaker.

He Will Stand on State Platform-Albrook and Harriman Pulled Out Early.

Special to The Journal. Hampton, Iowa, Sept. 26.—The third district convention nominated Judge B. P. Birdsall on the second ballot by accla-

mation.

Prior to the meeting Albrook of Eldora and Senator Harriman withdrew, the forces of both going to Judge B. P. Bird-sall of Clarion. Ransier of Independence

was next in strength.

An effort was made by Ed Knott and others to secure the renomination of Speaker Henderson, but the movement fell flat and it is charged that even those undertaking it were lukewarm.

The convention was one of the most largely attended congressional conven-

tions ever held in the state. Amid great applause Judge Birdsall accepted the nomination and declared he would stand firmly on the Iowa platform.

Several members of the Dubuque delegation spoke for the indorsement of the Iowa platform.

It was averred that there the two were at loggerheads over the Wall street situation and over the political situation in Iowa.

State Platform Approved. The report of the committee on reso-

lutions was adopted by the convention, as

s. Louis plank of 1896, which recited:

"We are not pledged to any particular sched ules. The question of rates is a practical question to be governed by the conditions of the times and of production. The ruling and uncompromising principle is the protection and excopenent of American labor and industry."

"We control where the production is a probable that the situation has had something to do with the president coming to

We most earnestly regret the declination of the nomination which the republicans of this district for the eleventh time unanimously ten dered D. B. Henderson.

D. C. Glasser of Dubuque resigned as chairman of the congressional committee, and George E. Wright of Eagle Grove was elected to fill the vacancy. Judge Birdsall is about 45 years old. The only

office he has ever held is the judgeship of the district court, which he resigned a year ago to resume the practice of law in Clarion.

CAR AND WAGON

Collision at Stillwater in Which a Driver Has a Miraculous Escape

Special to The Journal. Stillwater, Minn., Sept. 26.—Herbert Davis, a driver for Levi Thompson, had a miraculous escape from death last night. His wagon was struck by an interurban car and smashed into splinters. He was thrown to one side, though those who saw the accident thought he was under the wagon box and was probably killed. The back of his head was cut open and his back wrenched.

Mrs. J. R. Kallinder has received word of the death of her sister, Mrs. Will Wing Pasadena, Cal.

The Isaac Staples left yesterday with a raft of lumber for Muscatine, Moline and Lyons. The Ben Hershey started with a raft for the Empire Lumber company of

A QUIETER DAY

Some of the Non-Union Miners Are

Frightened Out of Working. Scranton, Pa., Sept. 26.—Quiet reigns in the Lackawanna region to-day. There was no repetition of yesterday's disturb-

As an effect of yesterday's rioting twenty-five of the non-union men employed at the Delaware & Hudson company's Grassy Island, Eddy Creek and Oliphant No. 2 collieries gult work to-day. Twenty-one men employed at Johnson No. 2 colliery of the Ontario & Western company also quit. They told their foremen that they were afraid to continu working.

The Lebanon Strike. Lebanon, Pa., Sept. 26.-There is no

sign of settlement of the strike at the American Iron Steel company's plant. The modified offer of the striking employes includes the discharge of the southern ne-groes brought here to take their places and to this President Sternberg has so far refused to accede. It is rumored that Pinkerton detectives have arrived to investigate the promiscuous shooting. There are now about 1,250 men and boys at work at the plant. The men who remain out number about 800. Soldiers are guarding the works and all is quiet.

BULGARIANS FIGHT

Surrounded by Turks They Cut Their the fire. Way Through.

Constantinople, Sept. 26.—Three hundred Bulgarian revolutionists who were surrounded by Turkish troops in the Villayet of Salonika, succeeded in forcing the cordon after a sanguinary fight, during which both sides suffered severe losses. Reinforcements of troops have been sent in pursuit of the Bulgarians.

THE STRENGTH OF ST. PAUL. New York, Sept. 26.—There is excellent authority for the statement current in Wall street that the surprising strength of St. Paul stock in the face of market liquidation is due to the fact that a new issue of stock is contemplated by the company, which is to be issued at an atby the company, which is to be issued at an attractive price to shareholders. According to one rumor, the St. Paul directors have under consideration a plan to increase the share capital by \$10,000,000 or thereabouts, offering the new stock at par to shareholders. It is understood that the proposition is likely to be presented to the shareholders at the annual meeting to be held Saturday.

HARD ON CHILDREN When Teacher Has Coffee Habit.

"Best is best, and best will ever live." When a person feels this way about Postum Food Coffee, they are glad to give testimony for the benefit of others. Miss Evelyn Purvis, of Free Run, Miss. -'I have been a coffee drinker since my childhood, and the last few years it has injured me seriously. One cup of coffee taken at breakfast would cause me to become so nervous that I could scarcely go through with the day's duties, and this nervousness was often accompanied by deep depression of spirits and heart palpi-

'I am a teacher by profession, and when under the influence of coffee, have to struggle against crossness when in the schoolroom. When talking this over with my physician, Doctor Johnson, of Eden. Missi, he suggested that I try Postum Cof-fee, so I purchased a package and made Miss, he suggested that I try Postum Coffee, so I purchased a package and made it carefully according to directions; found it excellent of flavor and nourishing. In a short time I noticed very gratifying effects; my nervousness disappeared, I was for auditor. Everett Baker for clerk of not irritated by my pupils, life seemed courts, W. Huffman for sheriff, Professor full of sunshine, and my heart troubled me Lawyer for superintendent, Ed A. Smith no longer. I attribute my change in health of the Oakes Republican for register of and spirits to Postum alone." deeds and Bert Peek for treasurer.

'TIS NOT WELL INFORMED

An Argentine Paper Makes a Bad Break by Not Knowing the Treaty Stipulations.

Buenos Aires, Sept. 26 .- The Prinza (Press), a daily paper of this city, publishes to-day a very violent article calling attention to the alleged tendency of the United States towards imperialism, which it says is illustrated by the landing of American marines in Colombia and protests energetically against it The paper says the United States "does not exercise any political protection over South America, which will never accept European or North American intervention in its af-

fairs. The Prinza concludes with saving that the Argentine government should make an inquiry into the matter and find out the real character of the aims of the United States so as to inaugurate a diplomatic movement, to prepare for defence and to destroy the idea of the possibility of any intervention.

DIVORCED FROM A COUNT

Mrs. Koehsel at Once United to Oscar B. Stillman.

Sioux Falls, S. D., Sept. 26.—Mrs. Bertha M. Koehsel of New York has been NOR. SECURITIES CASE granted a divorce from Count Conrad von Rhoden Koehsel on the ground of non-support. After receiving her decree, she support. married Oscar B. Stillman of New York. Soon after the ceremony the couple parted for New York, on their way to the West Indies, where Stillman extensive sugar plantations.

ELEVATOR FELL

Twenty-five Girls Are Dropped Three

Stories. Kansas City, Sept. 26.—An elevator at the Emery Bird Thayer Dry Goods company, carrying twenty-five young women employes, fell three stories yesterday. dozen girls were injured, but with the exception of Emma Parish, aged 18, who was hurt internally and who was unconscious when removed to her home, it is believed that none were seriously hurt. Several fainted and for a time it was thought many had been killed.

The Panama Governor Shown That He Is Not "Next" to Our Obligations.

Washington, Sept. 26 .- In regard to the protest against the landing of American marines on the isthmus made to Com-mander McLean of the Cincinnati by Governor Salazar of Panama, on the ground that the Colombian government has ample force to protect the lives and property of foreigners, it is pointed out here that the governor's argument takes in only one-half of the main treaty obligations with regard to the isthmus, as-sumed in the convention of New Granada, signed in 1846 by the United States and Colombia. The dominant factor which influenced the landing of the marines was the obligation which the United States took upon itself by the treaty of

1846 in these words:

The United States guarantees positively and efficaciously to New Granada, by the present stipulation, the perfect neutrality of the beforementioned isthmus, with the view that the free transit from one to the other sea may not be interrupted or embarrassed in any future time while this treaty exists.

Furthermore, in respect to the governor's reported declaration that he considered the landing of the United States. 1846 in these words: sidered the landing of the United States naval forces an attempt to assume the sovereignty of Colombia, attention is directed to this declaration in the same paragraph of the treaty:

The United States also guarantees the rights of sovereignty and property which New Granada has and possesses over the said territory.

The Hearing in New York Is Resumed Before the Special Examiner.

New York, Sept. 26 .- The hearing in the action of the United States to prevent the Northern Securities company from holding the stock of the Northern Pacific and Great Northern railroads was resume vesterday before the special eaminer appointed by the Minnesota federal court. Colonel W. P. Clough, general counse and director for the Northern Securities ybwas the first witness. In the company's answer it says the five-sixths of the stock of the Great Northern has been "negoti ated for." Solicitor General Richards wanted to know what the words meant and Colonel Clough explained that of the 1,250,000 shares of \$100 each, the Northern Securities company actually owns 1,238,

The holders of the smaller amount h said virtually hold them as trustees for the Northern Securities. Colonel Clough could not remember the date of the first transaction of the company in the stock but he promised to find the date and send

it to the solicitor general.
"We were carrying a considerable quan tity of Northern Pacific in the same way," Colonel Clough said, "and we thought it desirable to carry some proportion of Great Northern in the same

"How much Northern Pacific were you "About twenty odd millions. Late more was acquired."

"Did you pay for it with stock of the Northern Securities company?"
"On Sept. 1, 1901, we purchased \$37,-023,000 common and \$41,085,000 preferred stock and other shares later, for which Special to The Journal.

A stood by them. member of the seminary faculty said to be used for the extention of the intellec tual side of the seminary. It is also probable that a large gymnasium will be erected on the south side of the campus

Long Accepted Belief That It Is a Globe.

Scientists That It Is a Circular Plane.

Special to The Journal. Tacoma, Wash., Sept. 26,—Rod A. Rob-ertson, who is visiting the Puget sound country in the interest of Scotch investors, maintains that the world is not round but that it is a circular plane. He is on his way from Glasgow to Tasmania. Of his theory of the shape of the earth he says:
"College professors and scientists have was divorced upon her husband being

been duping the people long enough. Every law of nature leads us to doubt the much-canvassed 'globe' theory which has obtained credence for many years past. They have forced down our throats the old 'globe' theory that the earth is round, when as a matter of fact it is a circular plane. The center is the north. Meridians of longitude are the radii from this center to the circumference, which is the southern boundary. This boundary is described by navigators as the 'great ice barrier,' a wall o fice round and round beyond that outer darkness.

'The compass and magnetism are stand-ing proofs of the shape of the world. Water is level. The earth has its foundations in the deep. The world is established so that it cannot be moved. Parallels of latitude are the circles round the central north. Looking to the north, to the right is east, to the left west. All practical pavigation is done by plane triangulation which can only apply to a level surface. Sailing due east or west describes a circle. The sun, moon and stars are lights to the earth, and given for days and years and for signs and seasons and make their circuits in the firament. The flood of Noah's swer will probably be that each of the big days bears evidence on every high mountain. Fire will finally destroy this world. "Experiments on the surface of stand-

ing water have found it everywhere throughout the world horizontally level. If it were a globe the surface of all standing water would be convex. It is commonly asserted that 'the earth must be a globe because ships have sailed around it.' Ships taken down one side, then underneath, and brought up on the other side to get home again, except in a dream is one of the impossibilities. The earth i sailed around just as an island is sailed

When the old fact of a ship's topmasts appearing first to view was mentioned Mr Robertson took issue at once

"The laws of vision and perspective," he said, "are not yet understood. Because a ship sailing away from us becomes apparently 'hull down's is explained by the fact that it is lost to our unaided vision. Given a calm sea and a clear atmosphere a good telescope will restore it to view. Telescopes do not enable us to see through hins of water. The laws of vision or per-spective account for the appearance and disappearance of ships at sea. The manner in which objects appear and disap-pear is only possible on a plane, giving indisputable evidence the world is not a

DR. MARY WALKER AGAIN

The Women in the Depot Waiting Room Shocked at Her

Presence.

New York Sun Special Service Syracuse, N. Y., Sept. 26.—Dr. Mary Walker of Oswego strolled into the women's waiting room of the New York Central railway yesterday afternoon. Mar-tha the colored attendant, not knowing her, approached her and said:

"You must get out of heah, sah."
"Why?" asked Dr. Mary. "Cause men ain't allowed here," was the

"Well, I want you to distinctly understand that I am not a man," said the doctor with a stamp of her foot. The other women in the room, thinking that she was an imposter, left and Dr. Walker soon had the whole room to her self. She wore a long black coat, colored trousers and waistocat of the same material, a high hat and a diamond stud looking jauntier than ever before.

FROST DUE TO-DAY

Head of the Northwestern Bible and Missionary Training School-Will Preach Sunday.

Dr. A. J. Frost, the newly elected dean of the Northwestern Bible and Missionary Training school is expected to reach the city to-day. He has been on his journey from Los Angeles, Cal., for ten days pas having come by way of the Canadian Pa-

Dr. Frost is a man who has played onspicuous part as pastor and Bible teacher for thirty years. His early pastorates were in New England, where he was much esteemed as a young man. At a later period in his history he was pastor of the important University Place church Chicago. And in the day of the old university his eloquence attracted a large hearing, both of students and general public. For several years he has been pastor of the Orchard Avenue Baptist church of Los Angeles. And everywhere on the coast he has been heard with delight. Dr. Frost is some six feet six inches tall and weighs about 300 pounds, and, like Philips Brooks, his ability corresponds

with his bulk. The Northwestern Bible and Missionary 1. Dr. Frost will preach in the First Bap-tist church Sunday morning. In the evening a special meeting in the interest of the school will be held. Dr. Frost and the other fourteen members of the faculty will be in the pulpit with Rev. W. B. Riley and a chorus of a hundred voices will furnish music, under the direction of Francis E. Woodward.

The enrollment of the school has been excellent, and it is expected that after Sunday night many more will decide take at least some of the studies in the

Compelled to Work for a

Living.

Be Working Well in the Northwest.

From The Journal Bureau, Room 65. Pod uilding, Washington.

Washington, Sept. 26.-The success of the plan inaugurated by Indian Commissioner Jones for making able bodied In-dians earn their own living will be dis-cussed at length in his annual report to Secretary Hitchcock. Under this plan In-dian agents all over the country were instructed to make efforts to have all the Indians in their charge who were able to work leave the reservations and find emplayment at farming or any other kind of abor. The order has been followed and the results as reported to Commissioner ones have been eminently satisfactory. The commissioner thought that there would be opposition to earning their living on the part of the Indians themselves, but he finds that when the plan was explained to them by the agents they fell in with it and are doing their best to carry it out. The place where it has been most It out. The place where it has been most successful is the Rosebud reservation in South Dakota. There, through the efforts of Agent McChesney, a large percentage of able bodied Indians have been earning their own living during the past summer and the government has not is-sued them any rations. On one reservation ing on the railroads, the contractors pre ing on the railroads, the contractors pre-ferring to pay them \$1.25 and \$1.50 per day in preference to employing Japanese at \$1 a day. At other reservations in North and South Dakota and throughout the Indian country generally the plan is working fairly well, much depending upon the agents themselves and the enthusiasn with which they go into the scheme. In discussing the plan to-day the commissioner said it was not the intention off rations during the winter or at times when the Indians could not get work, but enly when work was plenty and available for the Indians. He expects that in the course of time the Indians will be able to expects that in the

get work all the year round and rations will then be entirely cut off.

NOME IN STORM'S THROES

Schooner and Lives of Two of the Crew Lost-Shipping Heavily Damaged.

Seattle, Wash., Sept. 26.-Nome has een storm-swept again with the loss of wo lives and heavy damge to shipping. The dead are: Captain Basil Danieloff and Captain ohn Slater Master, mate of the schooner

Goodhope.

The vessel was lost. Both bodies were recovered, Captain Danieloff's being washed ashore three miles, up from Nome. The storm came Sept. 17, the anniver sary of the terrible gale which swept Nome harbor in 1900, doing terrible damage to shipping. About 10 o'clock that night the wind swooped down upon the harbor and town from the southeast, shaking up the buildings generally.

GUIDI WILL HELP THE U.S.

A Pontifical Bull on the Aims of the Archbishop of Manila.

Rome, Sept. 26 .- The publication of a pontifical bull on the apostolic constitu-tion of the Philippines is imminent. It will indicate the general object and aims of Archbishop Guidi's mission to Manila. The apostolic delegate will have to reorganize the whole ecclesiastic hierarchy of the archipelago, will create three new dioceses and will suggest candidates for the bishopric of Manila, after which he will establish rules for governing ecclesiastic affairs in harmony with the customs of the islands, as is done in South America. Archbishop Guidi is animated by the most liberal ideas regarding the settlement of the Philippine questions. In his letter to Governor Taft he said he was glad he had been chosen to co-operate with him in the pacification of the island

and hoped to be able to count on his assistance.
One of the first projects of the archbishop is the establishment at Manila of two seminaries to educate the native clergy which are destined ultimately to replace the foreigners. These seminaries will be entrusted to a religious order which has not hitherto been represented

in the archipelago. OF THE CANTEEN

To It Gen. Funston Attributes Many Deplorable Results Among

the Soldiers.

Washington, Sept. 26 .- Brigadier General Funston in his annual report of the department of the Colorado declares that the recent anti-canteen legislation of congress has lowered the discipline of the army, ruined scores of good soldiers and enriched saloon keepers, gamblers and dissolute women. His report announces a deplorable increase in offenses, particu-Training school will open its sessions Oct. larly desertion, attributed to the abolition of the canteen and to the garrison life restrictions of men returning from field service.

THE ROYAL LIMB

Surgeons Found the President's Leg in Good Shape.

Washington, Sept. 26 .- The condition of resident Roosevelt's injured limb is considered satisfactory by his physicians. There is no appreciable variation in his temperature since yesterday, and after the examination of the wound this morning by Drs. Rixey and Lung, it was aning by Drs. Rixey and Lung, it was announced that the president was progressing favorably. The inflammation around the wound is slowly subsiding. The president sat up on a lounge in his room, read the papers and attended to some executive business

None of the members of the cabinet called before noon and no visitors were admitted. The president is obeying strictly the injunctions of the physicians for absolute rest and quiet, although the inactivity is exceedingly irksome. Much of the time of Secretary Cortelyou and the White House force is employed in ex-plaining to committees in the places which the president was to have visited on his western trip the keen regret which the president experienced on being obliged to abandon his journey. To some of these letters the president is giving his personal attention. Dreary, rainy weather outside yesterday and to-day has in no wise affected the president's spirits and he is as cheerful as possible.

Transit company and, therefore, is unable to say if he is the man.

Mr. Oleson maintains that the dispatch is a mistake and that he has no other wife than the one who has been living with him here. Although the story has had publicity both here and in Toledo, he continues his work and appears to show no apprehension.

Dispatches from Toledo to-day say that the affair has created a great wares.

Rally to Gjertsen's Support. There was no warmer fight in the late primary campaign than the contest for the senatorship in the forty-second dis-trict between Gustave Theden, Benjamin F. Ward and Henry J. Gjertsen. So vi-

gorous was the contest that it was feared

personal animosities had been engen-dered and post-election difficulties would result. But Mr. Ward has written to Mr. Gjertsen tendering his services for the coming campaign and Mr. Theden's friends say that they will gracefully yield

MYSTERY OF A MARRIAGE

A Certain Olaf Oleson of Minneapolis Treats Serious Charges From Ohio With Indifference.

The mystery which surrounds the case not one word of truth in it. I sent notice of Olaf E. Oleson, an engineer in the emto-day to the secretary of state that I ploy of the Twin City Rapid Transit company, who is said to have married Miss Blanche E. Crane in this city, hinges upon the identity of the man who was married by Rev. M. D. Shutter at his residence ept. 8. If it proves that the men who bore the same name are identical, then Oleson already has a wife and six children n Toledo, Ohio. But if, on the other hand, it develops that it was simply a case of mistaken identity, then Mr. Oleson has been made to suffer needlessly from gos-

The story emanated from dispatches received from Toledo, Ohio, stating that Olaf E. Oleson, who left that city a few weeks ago to accept a position with the Rapid Transit company of Minneapolis, had been married to Miss Crane here on Sept. 8, and that he had telegraphed his former wife that he had married the woman because she had threatened to kill him if he refused. The telegram also stated that the Oleson referred to was holding a position as chief engineer of the Twin

City Rapid Transit company.

Mr. Oleson is employed as chief engineer wife since August 28, and says that the Toledo story is a mistake. He says that his wife has gone to her home and that she will return as soon as the house which he is having renovated is ready for occu-

husband by long distance telephone and he told her that Miss Crane had threatened his life if he refused to marry her, and to his life if he refused to many her, and save his life he had done so.

Rev. Mr. Shutter, who performed a marriage ceremonly for Olaf E. Oleson and Blanche Elizabeth Crane at his resigned. dence on Sept. 8, was seen by a reporter for The Journal to-day and said that the ceremony had been performed. The license had been issued in Washington county and was made out in such form that the ceremony might be performed in any Minnesota county. Mr. Oleson and Miss Crane appeared unattended. ceremony was performed and since that time Mr. Shutter has seen neither of them. He says that he is able to identi man, but has not seen Mr. Oleson that he is able to identify the

transit company and, therefore, is unable

Dispatches from Toledo to-day say that the affair has created a great uproar there and that last evening the home of the Mrs. Oleson of that city was stoned by unknown persons.
