The Plan to Help the Confederate Veterans Has Proven Popular.

Tidal Wave Carried Away Villages—Temples and Public Buildings Were Destroyed.

Arrangement With the North-Western Is Broken—Significance of the Switch.

New York Sun, Special Service

From The Journal Bureau, Room 45, Post Building, Washington, Oct. 16.—Pension Commissioner Ware was a very popular official during Grand Army week, and thousands of the veterans called to see him and look him over. The Grand Army doesn't yet know where to place Ware. The pension department has been running very smoothly since his advent, and nothing has developed to determine what his policy is to be. Should he follow in the footsteps of Henry Clay Evans, another cry will go up from the veterans, and another effort will be made to secure a new commissioner. It is highly probable that Mr. Ware will follow the Evans policy in its general features. The commissioner, however, has considerable discretionary authority within the law, and at this point Ware is expected to be a better friend to the soldiers than Evans was. It is charged that in the exercise of his discretionary authority, Evans almost invariably gave the veterans the worst of the argument. There were two reasons for the appointment of Ware. First in importance, he was at the head of the crusade which was organized against Evans, and naturally would not be expected to follow in the footsteps of things which had made Evans unpopular. In the next place, the appointment had something to do with the literary character which Ware sustains to the country. The president has given Ware a very favorable impression. He is a good entertainer, knows how to tell a good story, and withal is modest and unassuming. The veterans seem to like him.

Victoria, B. C., Oct. 16.—Several thousand lives were lost in the typhoon and tidal waves which recently swept northern Japan, according to cables received by the steamer Glenlochy to-day. The Glenlochy left Yokohama on Oct. 1. Previous advices from Japan have placed the loss of life in the storm among the hundreds. The breakwater of Yokohama was swept away. Inners were driven ashore, the Japanese battleship Shikishima stranded at Yessaki, temples, public buildings, houses, etc., were destroyed and their occupants drowned. It was along the Japanese coast from Kodzu to Odawara bay that the greatest damage occurred. Huge tidal waves swept away villages, over 600 lives being lost in the village of Koyawata alone. At Kohachimara it is estimated that a similar number lost their lives. From other points the tale of deaths is a heavy, for the typhoon seems to have spread disaster all over the northern part of Japan. At Kohachimara it is estimated that a similar number lost their lives. From other points the tale of deaths is a heavy, for the typhoon seems to have spread disaster all over the northern part of Japan. At Kohachimara it is estimated that a similar number lost their lives. From other points the tale of deaths is a heavy, for the typhoon seems to have spread disaster all over the northern part of Japan.

Special to The Journal. Omaha, Neb., Oct. 16.—The much-talked-of close traffic agreement between the Milwaukee and Union Pacific is now a fact. Yesterday, a Wash. Post special agent of the Milwaukee, said: "It is a fact that a close working agreement has been entered into between the two roads. The long exclusive arrangement with the Missouri Pacific, which has been in force for so long, is really in a better position than any other line as regards the Union Pacific for the reason that the Milwaukee connects at both Omaha and Kansas City, giving us two points of exchange. "The Milwaukee now has through service to all Union Pacific points as well as to the other Harriman lines and new passenger trains will be added as soon as the necessary equipment can be had. We will run through trains into San Francisco. "Since the announcement that the Milwaukee and Union Pacific have entered into a close traffic alliance, all sorts of rumors have been afloat at Union Pacific headquarters in Omaha concerning a tie-up between Harriman and Rockefeller and a rupture between George Gould and the Standard Oil interests. This tie-up is said to be responsible for the failure of the Missouri Pacific. "The Milwaukee, although it is said efforts were made by Gould to form a Missouri Pacific-Milwaukee alliance very recently, it is thought at Union Pacific headquarters that the Milwaukee is more to gain than Harriman in the agreement but that Harriman thus broke up what would have been a formidable rival getting the Milwaukee and Union Pacific together.

Special to The Journal. Winnipeg, Man., Oct. 16.—Another sale of Manitoba lands amounting to \$250,000 has just been completed in the district east and northeast from Carman and Houghton, Mich. The purchasers are capitalists from Iowa at the head of whom are T. J. Masterson, an implement jobber of Dubuque, and Silas X. Way, president of the First National bank of Westley. The Western Canada Portland Cement company, limited, of which A. F. Macdonald, M. P. of Stratford, Ont., and Dr. David Jamieson, M. P. of Durham, Ont., are the heads, have made application to the provincial government for a charter to incorporate a company for the manufacture of cement, the capital of which is to be \$1,000,000.

THE CORN KING

Armour Compels the Shorts to Take Their Medicine. Chicago, Oct. 16.—J. Ogden Armour to-day compelled John Cudahy, chief of the shorts in December corn, to run to cover. James A. Patten, who had also covered a line estimated at 1,000,000 bushels, proclaimed the supremacy of Armour, and declared: "I have taken my medicine." "Covering of 5,000,000 bushels of short corn was credited to John Cudahy as the result of the operations. He had made a speculative bet on the shorts, and was in a position to find the corn sold. "Armour is king of December corn," the traders cried, and ascribed to him speculative skill and success on a scale even greater than that of his father, P. D. Armour. The long line of December corn credited to J. Ogden Armour was estimated at 10,000,000 bushels, of which the profit already averaged about 5 cents, with far more in sight. How tight in his grip on the option is shown by the figures which changed the views of Patten and Cudahy. The contract was reduced 500,000 bushels, leaving the total only 975,000 bushels. Instead of the total stock of nearly 12,000,000 bushels in all positions a year ago, the figure to-day are 317,000. Armour has all the cash corn and is buying whenever he can, throughout the country. "I've covered my shorts and taken my medicine. There may also be a change in the grading of corn and I am afraid of this," the present market is very uncertain.

LAND SWINDLE EXPOSED

Several Minnesotans Believed to Have Been Caught on Bogus Titles in Montana. Special to The Journal. Butte, Mont., Oct. 16.—In a cancellation of a claim in Teton county, of the department of the interior, the authorities believe they have unearthed a wholesale system of land swindling. The canceled entry was based on the alleged assignment of the rights of one John Stone, who was purported to have made an entry in the Minneapolis district. Claude Conroy, a resident of Minneapolis, was found to have forged the alleged assignment. It is now thought that for years Conroy made a business of forging assignments of soldiers' claims and disposing of them to "tenderfeet." Several Minnesotans are believed to hold land in this section on bogus titles conferred in this manner.

IOWANS BUY MORE LAND

Capitalists Take on 20,000 Acres East and Northeast of Carman in Manitoba. Special to The Journal. Winnipeg, Man., Oct. 16.—Another sale of Manitoba lands amounting to \$250,000 has just been completed in the district east and northeast from Carman and Houghton, Mich. The purchasers are capitalists from Iowa at the head of whom are T. J. Masterson, an implement jobber of Dubuque, and Silas X. Way, president of the First National bank of Westley. The Western Canada Portland Cement company, limited, of which A. F. Macdonald, M. P. of Stratford, Ont., and Dr. David Jamieson, M. P. of Durham, Ont., are the heads, have made application to the provincial government for a charter to incorporate a company for the manufacture of cement, the capital of which is to be \$1,000,000.

THE COPPER HAND BOOK

A Foundation for Interest in the Great Bitter Root Copper Mine. Interest in copper properties grows by what it feeds on. Hence J. Stevens of Houghton, Mich. issues annually "The Copper Handbook." It is not a library production, nor a scientific treatise, but a plain book, written in good plain English and every paragraph is a nugget of information. This is not an advertisement of Mr. Stevens' book, but the fact remains that no one who has studied the subject of copper, or who is interested in it, will fail to appreciate the magnificent proposition which is presented in the Bitter Root Copper Mining Company's prospectus. Some people are beginning to see that the mere fact that a stock is advertised is worthless. There are two things that are discovered; one of these is the management that will get the value out of the other is the money to do it with. The Bitter Root Copper Mine has been lying in the earth thousands of years, quite as though it were not worth a dollar. The copper ore is there still (all except a few car loads that have been shipped) in the earth thousands of years, quite as though it were not worth a dollar. A company has been organized to take the mine out, and the man whose reputation is very best—men whom the public is trusting with thousands of dollars every day of the year—bankers and public officials. They are developing the Bitter Root Copper Mine and they have reports from reliable mining experts which indicate that this will be one of the greatest mines in America. Is it any wonder people want to get an interest in such a property? This stock is now selling at 25 cents a share. It will be selling at 50 cents in a short time. One man said he could place every share sold in Montana in ten days if the facts were known. He will be free to try it in about two weeks. When it goes it will be in big chunks. Send for a prospectus, call day-to-morrow; or better still, call at the office. Bitter Root Copper Mining Company, 1039 Guaranty Building, Minneapolis.

BOERS FOR MEXICO.

El Paso, Texas, Oct. 16.—Commander J. D. Boyman, a noted Boer fighter, is here on route to Mexico city to confer with President Diaz on a large tract of land in the southern republic to be colonized by Boer refugees. He was accompanied by E. H. Meritt, president of the Union Trust company of New York, and Marshall Bond of the same city. General Snyder said he was going to Mexico to see President Diaz. Dr. Miller, mayor of the Orange Free State, who visited Mexico about five months ago. THE DENVER, N. W. & PACIFIC. Denver, Oct. 16.—David H. Moffat, president and principal promoter of the Denver, Northwestern & Pacific railway, who has just returned from New York, has issued a signed statement in which he says that he has presented the Denver, Northwestern & Pacific railway enterprise to prominent men in New York and New England, and I have the direct pledge of their assistance in securing the funds to build the railway.

COLOMBIA OVERTURNED

The President Seized and General Fernandez Proclaimed Dictator. Frankfurt-on-the-Main, Germany, Oct. 16.—The Zeitung publishes a dispatch saying that General Fernandez has captured President Marroquin of Colombia, and has proclaimed himself dictator. President Marroquin procured the office of president of Colombia by arbitrarily deposing former President Sanclemente July 31, 1900. Marroquin was vice president of the country. In October of last year a conspiracy to overthrow Marroquin was discovered. The then minister of war and several prominent conservatives were implicated in the conspiracy. Marroquin was forced to resign, and President Sanclemente in office. The plot failed and the conspirators were locked up. General Fernandez was the Colombian minister of war. He was appointed to office in February, 1902. Urged to Cease Fighting. Panama, Oct. 16.—El Tempo, a newspaper published in Bogota by certain well-known members of the liberal or revolutionary party, said in a recent editorial article that the prolongation of the war on the isthmus of Panama was greatly in favor of the interests of Nicaragua in the matter of an isthmian canal because it prevents Colombia from receiving the benefit within a reasonable length of time. The paper expressed the hope that political obstinacy and the feat of the field of battle would not blind General Fernandez to the interests of the country. The article ends with a warning to the revolutionists that to continue fighting on the isthmus is to serve openly the interests of Nicaragua. It is an immense detriment to those of Colombia.

MORE 'BONESSETTING'

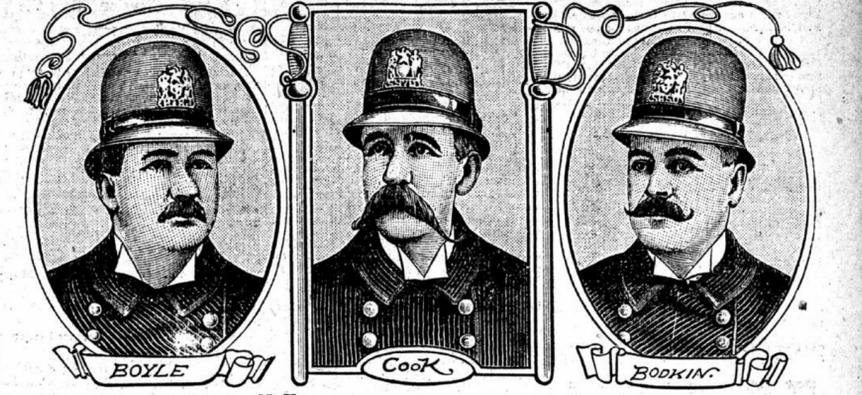

Dr. Adolph Lorenz Operates at Mercy Hospital. Chicago, Oct. 16.—Dr. Adolph Lorenz, the eminent specialist of Vienna, operated upon three children last night at the Mercy hospital before a large audience composed of physicians and medical students. Prominent surgeons from all the leading cities of the country were also present. Little Kitty Brown, 6 years old, who had a double posterior dislocation of the hip, was the first one the great surgeon operated upon. Elizabeth Burnett, 4 years old, III, 5 years old, who had a single dislocation, was the second subject. The specialist said this was one of the most difficult cases he had ever seen. Edna Keckley, 4 years old, suffering from a double posterior dislocation, was the third to receive attention. The surgeon predicted that all the operations would be successful. Walter New York, 13 years old, whose legs are being brought to Chicago in the hope that Dr. Lorenz can operate upon them. There are fifteen children in Mercy hospital who are awaiting treatment. Dr. Lorenz refuses to consider any child over 9 years old. He will demonstrate his method again this morning at Mercy hospital at 9 o'clock. None but physicians will be admitted to the clinic.

BRYAN IN 1908

He Will Be the Candidate then, Says Secretary Walsh. Ottumwa, Iowa, Oct. 16.—Charles A. Walsh, secretary of the democratic national committee, says he does not think Bryan will be the nominee of the democratic party for president in 1908. He picks either Governor Stone of Missouri or former Governor Francis of the same state to win. He says that H. R. S. Cole of New York is a good possibility. He believes that Mr. Bryan will be named in 1908. TOLD IN A LINE. Newcastle, Pa.—F. J. Field has been arrested, charged with the murder of John Blevins in January. Washington—Surgeon General Risley recommends the establishment of a woman's nurse corps for the navy. Washington—President Roosevelt, minus his crutches, attended a social function last night, the first since the operation on his leg. Washington—Boys' Bismillah delivery service of the postoffice department has been reformed and the service materially improved. Laredo, Texas—Striking firemen on the Texas-Mexican National railway are on strike and applied for the reinstatement of those not active in the strike. Chicago—Fire insurance men in Illinois claim to be badly handicapped by adverse legislation, and claim that they would be as free as air if other companies were treated alike. New York—An apartment house, sixteen stories high, is projected on Fifth avenue between Sixty-fourth and Sixty-fifth streets, and the wealthy inhabitants of that aristocratic section are up in arms to prevent it. FOREIGN FLASHES. London—If prize of \$200,000 is offered, Santos-Dumont may attempt traveling from Paris to San Francisco in his airship, the money not to be paid unless the trip is successful. San Juan—The report of judges refuse to register members of the federal party, and more trouble is eminent. Manila—"The Disob" are active again in Samar, levying tribute upon towns and driving foreign traders away. Manila—The government is having to acquire six of the railroads remaining in private hands. Compagnie—New York is a tender discussion the session of the Danish West Indies to the United States.

Test for Yourself the Wonderful Curative Properties of Swamp-Root

To Prove What Swamp-Root, the World-Famous Kidney and Bladder Remedy Will do for YOU, Every Reader of "Journal" May Have a Sample Bottle Free

Dr. Kilmer & Co., Binghamton, N. Y. Gentlemen—In justice to you, I feel it my duty to send you an acknowledgment of the receipt of the sample bottle of Swamp-Root you so kindly sent me. I had been out of health for the past five years with kidney and bladder trouble. Had our best physicians prescribe for me. They would relieve me for the time being, but the old complaint would in a short time return again. I sent for a sample bottle of Swamp-Root, and I found it did me a world of good. Since then I have taken eight small bottles bought at my drug store, and I consider myself perfectly cured. It seemed as though my back would break in two after stooping. I do not have the smarting and irritation, nor do I have to get up during the night to urinate, as I formerly did three or four times a night, but now sleep the sleep of peace. My back is all right again, and in every way I am a new man. Two of my brother officers are still using Swamp-Root. They, like myself, cannot say too much in praise of it. It is a boon to mankind. We recommend it to all who are suffering from kidney and bladder diseases. My brother officers (whose signatures accompany this letter) as well as myself, thank you for the blessing you have brought to the human race in the compounding of Swamp-Root. We remain, yours very truly, Police Officers of Greater New York. JAMES E. BOYLE, 58th Precinct. HUGH J. BODKIN, 65th Precinct. JOHN H. EDDY, 5th Precinct.

If you are sick or "feel badly," begin taking the famous new discovery, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to heal. A trial will convince any one who has had any ailment with fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away. Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves, because they recognize in it the greatest and most successful remedy that science has ever been able to compound. Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root—Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle. SPECIAL NOTICE—Swamp-Root, the great kidney, liver and bladder remedy, is so remarkably successful that a special arrangement has been made by which all of our readers who have not already tried it may have a sample bottle sent absolutely free by mail. Also a book telling all about kidney and bladder troubles and containing many of the thousands upon thousands of testimonial letters received from men and women cured by Swamp-Root. In writing, be sure and mention reading this generous offer in The Minneapolis Daily Journal when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

GRATEFUL FOR FOOD.

Lived Seven Weeks on Milk. "Three years ago this month, I was a great sufferer with stomach trouble," writes Mrs. William Leigh of Prairie du Sac, Wis. "I could give up neither potatoes and sweets and lived simply on bread and tea; finally that too had to be given up. I got so weak I could not work and I took nothing into my stomach for seven weeks but bread. I tried three doctors and all for no purpose; the last doctor advised me to stop all medicine. I had to anyway. I was so weak I was prostrate in bed. "A friend advised me to try Grape-Nuts, but I was afraid to when a teaspoonful of milk brought tears to my eyes, my stomach was so raw. But I tried one teaspoonful of Grape-Nuts for one week, and finding it agreed with me, increased the quantity. In two weeks, I could walk out to the kitchen; in four weeks I walked half a block, and in four days I do my own light housekeeping. "I live on Grape-Nuts and know they saved my life; my people all thought I could not live a month when I commenced using them, but they were mistaken at the change in me. I am very grateful that there is such a food to be obtained for those who have weak stomachs."

IT HAS TWO SIDES

The Turko-Bulgarian Affair Is Dangerous. Sofia, Bulgaria, Oct. 16.—A report has been received here from the frontier that in the vicinity of Dubnitza 600 Macedonian women and children have fled into Bulgaria. They report the destruction of the Christian villages of Stamer, Drenovo, Zerbino and Pirine, and that the village of Orizovo has been burned and its inhabitants massacred. This information has led to an agreement between the two Macedonian committees and M. Zontareff, a committee. They jointly decided to call a mass meeting for Oct. 19 of representatives of the provincial Macedonian societies and to send a telegram to the capitals of Europe, praying European statesmen to protect the Christians of Macedonia against Turkish atrocities. According to the Turke. Constantinople, Oct. 16.—It is declared in governmental circles that the Bulgarian bands have everywhere been defeated and that after a sharp engagement in the Kresna defile between a force of Turkish troops and insurgents, the Bulgarians were dispersed. The porte understands that the Bulgarian government has finally decided to suppress the Macedonian committee.
