

GIVE THEM STOCK

Indians Will Then Become Self-Supporting, Says Bingenheimer of Standing Rock. Gatchell at Totten Advises the Government to Settle the Turtle Mountain Claim.

From The Journal Bureau, Room 45, Post Building, Washington. Washington, Oct. 24.—The annual reports of Indian agents in North Dakota for the last fiscal year have been received by the commissioner of Indian affairs, Major Bingenheimer, at Standing Rock. In his report says that a census of Indians there on the date of the report shows a total of 3,564. There are nine schools on the reservation. The school plant is in fair condition, but is in need of many repairs. There is a great need for employed quarters. A steadily increasing interest is manifested by the Indians of the agency in the education of their children and few object to placing their children in the reservation schools. The Indians are availing themselves of the use of the hospital to a greater degree than heretofore.

Reds Earned \$4,000. Major Bingenheimer says that under the new system established by the Indian office of employing the Indians at \$1.25 a day in lieu of rations, extensive repairs have been made to roads and bridges. The total expenditures for wages and teams was \$2,985. The Indians spent the most of this for subsistence. Major Bingenheimer says it is his intention to strike from the ration rolls every able bodied Indian with their families from the ages of 18 to 40. These will number 297 heads of families and 879 women and children dependent upon them, or a total of 1,276, leaving 2,288 to whom rations must still be issued.

Work was secured for fifty-eight Indians on the railway west of Mandan at \$1.40 a day each. Some remained only a few days, while eight or nine remained thirty days. Work could have been secured for 150 men, but they would not go. The agent says he believes if full rations were issued for six years to the Indians encouraged to pursue stock raising, they would be self supporting from this industry alone in that time. The Indians now own 10,000 head of cattle and 10,000 horses. The agent also says he believes the Indians will see the advantage accruing from leasing a portion of the reservation, notwithstanding the outside agitation against it.

Totten and Fort Berthold. F. O. Gatchell, agent at Devils Lake, urges the speedy settlement of the old Turtle Mountain claim, saying the Indians are intelligent and would become self supporting with the aid derived from the payment of that claim. Then, he says, the Turtle Mountain reservation could be abandoned, the full bloods attached to some other reservation and the mixed bloods paid the share in cash and sent into the world to win their way. The census roll showed the population at the Devils Lake reservation at 1,043.

Agent Thomas at the Fort Berthold agency presents a short report, in which he says that instead of a lack of moisture being responsible for the crop failure on that reservation, it should be charged to "a spirit of idleness, sloth and neglect." The census shows 1,058 Indians on the rolls.

CAUGHT IN KAN. CITY

Charles Clark, Colored, Believed to Have Been the Minneapolis Porch Climber. He and His Wife Are Arrested—Rich Plunder Found in Their Rooms.

Dispatches from Kansas City, Mo., announce the arrest at that place of Charles Clark, a negro, and a mulatto woman who claims to be his wife, upon telegraphic instructions received from Minneapolis. A large amount of stolen property found in the possession of the pair indicates that they are members of the gang of porch climbers who operated in this city during the last month. After the couple was arrested, the officers forced an entrance into Clark's apartments and there found three large trunks filled with what is supposed to be stolen property. Among the things found were a large quantity of men and women's new clothing, gloves, silks, fancy vests and lingerie. Hidden in the lining of a fine overcoat was a bag filled with jewelry, part of which was engraved with initials. Nearly fifty pawn tickets issued by Minneapolis and Chicago pawnbrokers were found in the pocket of a woman's jacket. A complete burglar's outfit was also found in Clark's possession.

Superintendent of Police E. F. Waite says he has received no advice from Kansas City. He said, however, that he learned that the couple had gone to Kansas City. Advice was sent to Kansas City and the arrest has likely followed the receipt of this information. The Minneapolis police believe that there were three in the gang. Clark, his wife and another colored man, and that they did considerable work in this city.

When asked if Clark was a member of the gang of porch climbers who operated in Minneapolis, Mr. Waite said he was sure that the robberies of the Pillsbury and Lowry residences were by colored people. Whether the same ones robbed the other residences that vicinity is not definitely known, but the police believe they did.

It is rumored that the police department has succeeded in recovering a part of the property stolen by porch climbers in Minneapolis and know where still more of this property can be secured.

Connected with Adams.

A later telegram from Kansas City states that when arrested Clark had a newspaper clipping on his person announcing the arrest of George Adams, the colored man who with two others of his race walked into Mrs. Margulis' cigar store on Washington avenue N and robbed the till in broad daylight. His pals escaped but Adams was caught and was recently sentenced to three years in Stillwater. It is thought that Clark was Adams' partner in crime and that the two were members of the gang that has been operating here for some time.

Pawnshop tickets found in his possession show that he has considerable loot in Minneapolis pawnshops and by this the police may be able to fix several crimes upon him. He will probably be brought back to Minneapolis at once.

Swedish Lutheran Conference Is Still Wrestling With the College Removal Issue. Eckander Has a Change of Heart—Strong Statement by Dr. Walstrom.

Special to The Journal. New London, Minn., Oct. 24.—Yesterday's session marked a lively and interesting discussion of the school question and both sides were ably presented. Among those who spoke in favor of removing Gustavus Adolphus college were Dr. Sjoblom, Rev. Mr. Pilgren, Rev. J. Magny, Rev. C. J. Carlson, Dr. A. Lind and Dr. C. J. Petri. On the opposite side forcible arguments were presented by B. R. Norell, Dr. W. M. Walstrom, Rev. J. H. Nelson and J. W. Peterson.

This morning the discussion was continued. Rev. J. Magny and Rev. G. Rast made forcible pleas in favor of removing the school. Rev. A. J. Eckander had come to the meeting opposed to removal, but he said, when he had heard the proposition made, he, with many others, had come to the conclusion that it was to the best interests of the conference to remove the school to the twin cities.

Rev. John Sander, of St. Peter, pleaded for retaining the school at St. Peter. Rev. P. M. Eickman spoke in reply to Rev. Mr. Sander. Dr. M. Walstrom, president of Gustavus Adolphus, made an itemized statement showing that \$70,000 were needed for buildings and repairs at St. Peter at the present time. He said that if the delegates were not willing to subscribe this he advised the delegates to remove the school.

Attorney Henry Benson of St. Peter closed the forenoon's session with a plea for retaining the school.

Services were held last night in the different churches. The speakers were Rev. L. G. Almquist, Dr. P. S. Sjoblom, Rev. J. E. Carlson, Rev. M. A. Nordstrom, Rev. A. W. Edwins, Rev. S. L. Wilson, Rev. J. A. Gustafson and Rev. A. F. Tornell.

J. A. LANE'S DILEMMA

If He's a Bona Fide Homesteader, He Can't Be a Candidate Here.

J. A. Lane, a prohibitionist of the city, is said to be in a dilemma. He is reported as contemplating running for alderman from the tenth ward. At the same time it has been discovered by those who have been looking up his record since this intention was announced, that he has recently taken land under the homestead law in North Dakota. Attorney General Douglas says that if Mr. Lane's homestead claim is on the square he cannot go on a ticket for any office in Minneapolis. On the other hand if he does file, he will endanger the homestead claim which he is reported to have made.

"HURRY UP" ALL HE SAID

Allen Walking Shield, the Sioux Indian Murderer, Executed at Sioux Falls. Special to The Journal.

Sioux Falls, S. D., Oct. 24.—The hanging of Allen Walking Shield, the Sioux Indian murderer, at the county court-house this forenoon, was one of the most successful in the history of the north-west. He was brought to the scaffold at 9:03, the trap was sprung at 9:04, and he was pronounced dead at 9:22. Everything went without the slightest hitch.

Walking Shield did not flinch in the least degree. "Hurry up" was all he said while the deputies were arranging the rope and black cap.

Unprovoked Murder. The story of the crime for which Walking Shield was hanged shows it to have been wholly needless and unprovoked. The victim was Mrs. Ghost Faced Bear, an Indian woman, who with her daughter lived at an isolated spot on Little White river, on the Rosebud reservation. Walking Shield was enamored of the daughter, whose name is Mabel. His love for the girl was the direct cause of the murder of her mother.

The crime was committed on May 8 last. Walking Shield procured a gun and rode on horseback to the home of Mrs. Ghost Faced Bear. He must have loitered along the way, or concealed himself for several hours in the vicinity of the house, for it was not until about 10 o'clock that night that he made his presence known to the occupants of the house.

The widow and her daughter heard a rap at the door, and soon afterwards a shot was fired outside the house. They were naturally greatly alarmed, and both arose without delay and lighted lamps in each of the two rooms.

Soon after this had been done a shot was fired through a window, the charge striking the widow a little back of and below the right ear at the base of the skull. The charge went completely through the head, tearing out the woman's left eye as it emerged.

After killing the woman, Walking Shield broke through the door leading from the outside to the room where the body lay, and from there went to the room occupied by the daughter, Mabel, and there he shot that she run away with him. This request was refused, and the murderer immediately attacked her. She has since stated that she fought him until daylight, when she succeeded in escaping from the house, with her assailant in pursuit. Walking Shield admitted to the girl that he had killed her mother.

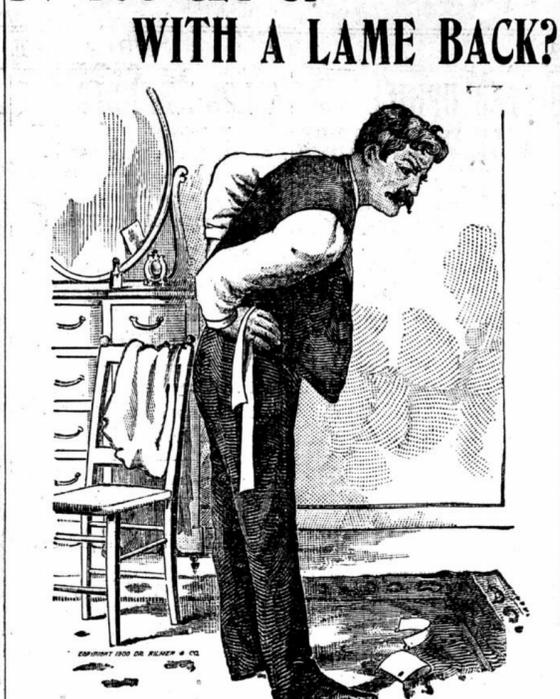

When the half-crazed girl escaped from the house about daylight and was closely pursued by Walking Shield, the murderer, to terrify her still more, swung a lariat around her as if to fasten its coils about her body. He then mounted his horse and told her she must go with him. Frightened into obedience she complied and trudged along on foot beside his horse until an opportunity came for her to run into a house where they were passing.

Walking Shield, as soon as the girl had succeeded in escaping, rode away and for about eight days eluded the Indian policemen. He was captured about 5 o'clock on the morning of May 18 by two Indian policemen, named Kills Two and Little Day.

The prisoner was taken to Rosebud agency, where he was placed in jail, afterwards being turned over to Deputy Petrie, who took him to Chamberlain, where his preliminary examination was held and where he remained in custody until taken to Deadwood in September for trial. The death penalty was imposed by Judge John E. Carland, of the United States court, in accordance with the verdict of the jury. Walking Shield was then brought to Sioux Falls.

In one of his confessions, which was made to A. McFarland, school teacher at Rosebud agency, and there, he stated in effect, that he had had trouble with Mrs. Ghost Faced Bear and that was why he killed her. To others he said he killed the woman because she would not permit her daughter to become his wife. This unquestionably was the true motive.

MONEY IN COPPER

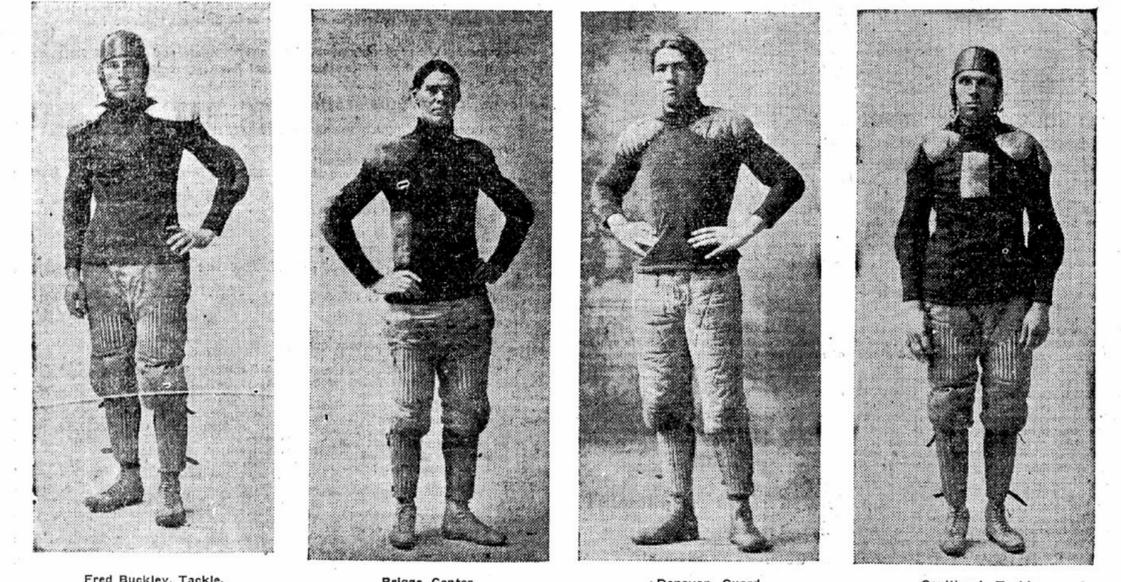

SOMETHING ABOUT ONE OF THE FAMOUS CALUMET & HECLA—PAR AT \$25, NOW \$530 A SHARE.

The people who look to gold mining alone for profitable investment ignore entirely the immense fortunes made in copper mining. There is really more money made per dollar invested in copper, lead and iron mining than in mining the precious metals. The reason probably lies in the fact that these baser metals are mined for their utility alone and that the growth of the use of metals in civilization has been phenomenal, while gold has largely sentimental and monetary value.

The history of the Calumet & Hecla mine reads like a novel by Victor Hugo. To say that its stock is par at \$25 is a market value of \$50 a share over twenty-one times as much as was invested, tells something of the story, but is like saying the company paid up to the end of 1901 in dividends to its shareholders \$78,850,000, and had declared another dividend of \$1,000,000 payable last January. These figures are so stupendous that they really lose their effect. If it were \$78,000 most people would understand what sum meant, but a thousand times that sum is beyond human comprehension.

LINE MEN OF THE IOWA TEAM WHICH PLAYS MINNESOTA AT IOWA CITY TO-MORROW

ON THE RANGH. Western Air and Proper Food Give Long Life. The fine bracing air of the far west is sometimes counteracted by bad food. A combination of good food and air, however, is pretty hard to get. Out in Wood Lake, Neb., Mrs. Paul Kennelott lives on a ranch; she has to send in to Omaha for most of the necessities of life and got her first supply of Postum in that way. She writes that for nearly a year she had used Postum Coffee exclusively and many who stopped with her, as they frequently do on the ranch, could not tell her from the best brand of coffee. We quote a portion of her letter as her reason for using Postum exclusively in the household. She says, 'I know it has had a beneficial effect on my family; I hear very little complaint of dull headache as I used to when we drank coffee; as for myself, I was so troubled with palpitation and aching in my heart that I consulted a physician and was told that I had serious heart trouble which would necessitate my giving up everything but the lightest housework. But now after a busy summer's work, doing the cooking for my family, which with the hired help numbers eight and ten persons, I can say that my heart and my digestion are in the best of health and my general health is excellent. I wish all coffee drinkers could realize how they are undermining their health by its use and would change to that best of all drinks, Postum Coffee. I wish to add that we use a package of Grape-Nuts a day, which will attest the favor in which the food as well as the coffee is held by my family.'

KEEPING HANDS OFF Mr. Bryan Will Let New York Democrats Settle Their Own Household Affairs. So-Called Bryan Democrats Are Not Authorized to Do Any Speaking for Him. Special to The Journal. New York, Oct. 24.—Mr. Bryan says he does not feel it incumbent upon him to urge either support or defeat of the democratic ticket in New York. In explanation he says: 'An enquirer asks whether I approve of the light which is being made by various democratic organizations in New York, some calling themselves Bryan democrats, against the democratic state ticket headed by Mr. Cole. The question can be best answered by a general statement of my position in all such cases. When the campaign of 1900 was over I asked all Bryan clubs to drop my name and take some name indicating adherence to democratic principles, rather than to any person. I stated that my reasons for doing so were, first, that I did not want to be embarrassed by anything the clubs might feel called upon to do. Events have justified my fears and it has sometimes become necessary for me to explain that any person or association is not authorized to speak for me either in endorsing or opposing any ticket. I apply to all other states as well as to New York. What I desire to say, I say for myself and what I don't say myself, I don't care to have said for me. 'Believing the Kansas City platform is sound and that its principles must be applied to public questions, believing that the contest between the money changers and the common people is an unending one and that the money question in one form or another will be before every congress. Believing that those who can be frightened away from the money question can also be frightened away from any other question by the same influence, I have felt it my duty to criticize those conventions which have refused to endorse the Kansas City platform. The party is weak because eastern conventions have been running away from the party platform and the republicans have taken advantage of the weakness to represent the democratic position and vilify those standing for democratic principles.'
