## VOTED AT AGE OF 95

Dr. L. W. Bacon Who Cast His First Ballot for Andrew Jackson in 1828.

## He Quit the Democrats Long Ago, Voted for Van Sant Yesterday.

An old man followed a young man yesterday into the voting booth at Tenth street and Nicollet avenue. "This is my first vote," remarked the youth, smiling, as he accepted a blank ballot. "The old man smiled also, and observed, "Well, I cast my first vote for Andrew Jackson, seventy-four years ago." The veteran voter was Dr. Liberty W. Bacon, of 1229 Hennepin avenue. He is prominent among the robust nonagenarians of Minneapolis. He celebrated his 95th birthday a week ago last Friday. He cannot hear as well as he did once. "I couldn't hear the democrats at all to-day," said he yesterday afternoon, "and I voted for Van Sant."

"I've lived under all the American presidents except two, continued the old gentleman, "and I stuck to the democrats from the time I voted for Jackson, in 1828, until the democrats seemed to be 'throwing over their principles. Then I quit the party. Why, Andrew Jackson was as like the democrats we have now. No, indeed, I don't call these fellows democrats!"

"For several years I was rather undecided. But as soon as the republican party started I began to vote for it, and I've cast a ballot for every republican president beginning with Fremont in '56."

This oldest physician in the northwest is a native of Maine, where he was born while Bonaparte was emperor, eight years before the battle of Waterloo.

In 1830 Dr. Bacon was graduated from the medical school of Bowdoin college. "I'm the only survivor of Bowdoin college," mentioned the venerable alumnus. "In fact, there's nobody left out of several classes after mine. I guess I was the best doctor in the lot. I knew enough to keep myself well."

## Winters in Maine.

For many years Dr. Bacon practiced his profession in the town of Lee, near Bangor. "It was a hard enough life, too, for I thought nothing of driving thirty miles on a winter's night—it gets cold in those nights—to see a patient somewhere in the country. At times I drove clear over into the state of New Brunswick, and I'd come back chilled to the bone and winter or soaked to the hide during a summer storm, perhaps. That's why I never could join a temperance society, though I think saloons haven't any excuse for doing business. I had to have a little hot liquid after one of those cold rides, or I wouldn't be here now."

The doctor was not averse to tobacco either during his many active years. He swore off smoking and chewing fifteen or twenty years ago. But before that—"funny how I remember those things—the first thing I did when I got out of bed was to reach down for my breeches and take out a plug of tobacco. I used to smoke pipes and cigars a good deal, also. Nowadays I don't use either pipe or whiskey. Never was a steady drinker, for that matter."

It was in his seventy-third year that Dr. Bacon retired from practice. "Thought I was getting old, then, but I wasn't a young man. Might have kept a-going fifteen years longer." He came to Minneapolis in 1888, and has since been living with two daughters, his only surviving relatives. They are Mrs. Frank H. Lewis and Miss Florence R. Bacon.

## "Another Old Fellow."

"I hear there's another old fellow in town," complained the doctor, as his visitor was about to leave, "that says he's more than 100. Well, maybe he is. But he isn't American born. He didn't live under all the presidents but two!"

## "MERRY MAIDENS" ARE COMING.

The beautiful scenic display, consisting of the unique electrical effects to be given by the "Merry Maidens" company at the new theater here, is a very attractive thing of the kind ever attempted by any similar organization and will have a splendid success. The company is composed of eight girls, all of whom are full of pretty girls and enjoyment for some and old.

## Startling Announcement Causes Doctors to Marvel and Stand Dumbfounded at the Wonderful Cures.

The Discoverer Sends Free Trial Packages to All Who Write.

After half a century spent in the laboratory, crowned with high honors for his many world-famous discoveries, the celebrated

## MISS CLARISSA KERBY and Her Marvelous Growth of Hair.

Miss Clarissa Kerby, a young woman of 21, who has just made the startling announcement that she has produced a compound that grows hair on any bald head in a single night. The doctor makes the claim that after experiments, taking years to complete, he has at last reached the goal of his ambition, to the doctor all heads are alike. There are none which cannot be cured by this remarkable remedy. The record of the cures already made is truly marvelous and were it not for the high standing of the great physician and the convincing testimony of thousands of citizens all over the country it would seem too miraculous to be true.

There can be no doubt of the doctor's earnestness in making his claims nor can his cures be disputed. He does not ask any man, woman or child to take his or any one else's word for it, but he stands ready and willing to send free trial packages of this great hair restorative to any one who will write to him for it, enclosing a 2-cent stamp to prepay postage. In a single night it has started hair to growing on heads bald for years. It has stopped falling hair in one hour. It never fails, no matter what the condition, age or sex. Old men and young men, women and children all have profited by the free use of this great new discovery. If you are bald, if your hair is falling out or if your hair, eyebrows or eyelashes are thin or short, write the Altemheim Medical Dispensary, 7006 Butterfield Building, Cincinnati, Ohio, enclosing a 2-cent stamp to prepay postage for free package, and in a short time you will be entirely restored.

## WILL TOUR WEST INDIES

Minneapolis Will Escape Rigors of Minnesota January in the South.

Indications are that the West Indies are to be popular wintering resorts for travelers from Minneapolis. A booking remarkable for an inland town has been made by W. B. Chandler, agent of the Soo line. He has engaged passage for ninety Minneapolis people on a steamer which is to sail from New York in January for a twenty-two days' trip, which will include Porto Rico, the Barbados, St. Vincent, Martinique and the Windward Islands.

The steamer will be one of the finest transatlantic boats in commission. Although the booking was the result of hard work on the part of Mr. Chandler, nevertheless it shows that Minneapolis people have money and leisure to travel. They have taken the best quarters on the boat.

## G. N. REPORT DELAYED

Figures of the Eastern Minnesota and of the W. & S. F.  
The Great Northern road has filed with the state railway commission a preliminary report for two subsidiary companies, the Eastern Railway company of Minnesota and the Willmar & Sioux Falls company. The Eastern company was conducted independently for ten months of the fiscal year, and was then formally absorbed by the Great Northern company. During those ten months the gross earnings of the Eastern company were \$1,845,632, and the income from operation, \$2,614,061. After paying 5 per cent in dividends for the ten months, the Eastern laid away the remarkable surplus of \$1,697,376. During the remaining two months of the year the Eastern earned \$232,500 net, and paid dividends at the rate of 6 per cent per annum.

The gross earnings of the Willmar & Sioux Falls company were \$1,522,738.80, the operating expenses \$858,035.87, and the income from operation, \$664,702.93. The Eastern company's surplus and income from operation, \$664,702.93, plus the surplus set aside that brings the total surplus for the company, on June 30, up to \$429,479.19.

The Great Northern's main report, that of its own company, will not be ready "for a day or two."

## MR. STICKNEY SILENT

Rumor that Morgan is After Great Western Comes Up Again.  
President Stickney and other officers of the Chicago Great Western road refused yesterday, at St. Paul, to discuss the rumor that J. P. Morgan is trying to secure control of the Great Western. The refusal was based on the assumption that this matter concerns especially the owners of the road and not its officers.

The chief reason for believing that the report may have solid foundation is the familiar fact that the Great Western, being controlled by foreign capitalists, has seldom worked in harmony with Wall street dictation.

## Leases Locomotives.

As evidence of the wide-spread demand for additional motive power on almost every railway in the country, it is announced that the Pennsylvania system has leased temporarily from a western company a number of locomotives just out of the factory. The owners' engines is not quite ready to make use of them.

## Iron Ore Shipments.

Iron ore shipments from the Minnesota ranges in October amounted to 1,902,201 tons, as compared with 1,833,188 tons in October of last year. Shipments for the season to Nov. 1 are given as 12,764,530 tons, a gain of 3,950,758 tons over the same period last year. The total ore shipments for 1902 are estimated at 25,000,000 tons.

## To Inspect the N. P.

President Mellen, Vice President Hanford and General Manager Cooper will start this morning for the Pacific coast on a two weeks' inspection trip of the Northern Pacific system.

## IS HE FROM FLOUR CITY?

Don Gray Who Raises Money at Marshfield, Wis.  
Don Gray, who says he is a Minneapolis printer, created a sensation and made a considerable addition to his cash on hand a few days ago by pushing a wheelbarrow up the middle of the main street of Marshfield, Wis. Wheelbarrows are common enough in Marshfield, but Gray's generally outlandish garb and ambitious growth of whiskers aroused curiosity. When questioned as to his antecedents, he said he was from Minneapolis, and that he had just received a check for \$250,000 wager that he could push a wheelbarrow around the United States, the stipulation being that he must cover 1,400 miles in 70 days or forfeit the wager. He informed the crowd at Marshfield that he was twenty-eight hours ahead of his schedule, and incidentally sold photographs like hot cakes at 10 cents apiece. No Minneapolis printer could be found today who had ever heard of Gray.

## COLE YOUNGER'S CASE

Will Probably Not Be Taken Up at Adjourned Session of Board of Pardon.

The state board of pardons will probably not consider the case of Cole Younger at the adjourned session of the board next Saturday. Applications for pardons must be presented under the board's rules, not later than ten days before a regular session, and the Youngers' application was delayed. Hence there is little prospect of action on his case until the board holds its next regular meeting in January.
