IT WILL NOT DOWN

Report as to Henderson's Candidacy Finds Many Believers at Des Moines.

Cummins Men Say the Speaker Will Be Badly Whipped if He Enters the Race.

Special to The Journal. Des Moines, Iowa, Nov. 8.—The rumor that Speaker Henderson is likely to launch into the campaign for the governorship through Cummins has spread like wildfire through the state and is arousing the keenest sort of political interest. Coupled with this is the rumor that he will resign the speakership in order to make the starting of his campaign for the governorship the more effective. Here in Des Moines the reports have stirred up no end of gossip, and while giving satisfaction to the old machine element have given the Cummins faction not a little anxiety.

From Dubuque, the reports say Henderson refuses to discuss the matter and to deny or affirm that he will be a candidate. His attitude, and the recent conference here at which the matter was discussed, leave no question that he is considering entering the race. Up to this time it has been generally supposed that after looking over the field he would conclude not to make the attempt. The story is going the rounds, however, in the inner circles of politics that while the odds may be in favor of Cummins, the anti-Cummins and railroad element need someone to lead the campaign next year. In order to crystallize the strength that is relied on to elect a legislature that will not be of the Cummins stamp, it is believed Henderson would be just the sort of man to do this.

Itching Skin

Distress by day and night—That's the complaint of those who are so unfortunate as to be afflicted with eczema or salt rheum—and outward applications do not cure. They can't.

The source of the trouble is in the blood—make that pure and this scaling, burning, itching skin disease will disappear.

"I was taken with an itching on my arms which proved very disagreeable. I concluded it was salt rheum and bought a bottle of Hood's Sarsaparilla. In two days after I began taking it I felt better and it was not long before I was cured. Have never had any skin disease since." Mrs. Ida E. Ward, Cove Point, Md.

TWO BYE-ELECTIONS

Liberals Are Jubilant and Conservatives Depressed Over the Results.

A Curious Ritualistic Feature to the Recent East Toxeth Election.

London, Nov. 8.—Liberals are jubilant and the unionists are proportionately dispirited over the results of the bye-elections in the Cleveland and East Toxeth divisions. The large increase in the liberal majority in the Cleveland division is generally admitted, even by the conservative organs, to be due to dissatisfaction with the education bill, which is still wending its way through the house of commons. In the East Toxeth division the reduction of the unionist majority by over 1,500 was due to a curious feature unassociated with current political controversies. Austin Taylor, who just managed to win the seat had taken a prominent part in Liverpool, to which the division belongs, against the ritualists, whose practices caused the crusade which recently ended in the tragic death of John Kensit, the anti-ritualist leader. In fact Mr. Taylor had gone so far as to support a liberal in a neighboring constituency against a conservative churchman. This stirred up the ritualists of East Toxeth to such an extent that they entered upon a vigorous campaign against Mr. Taylor and prominent unionists issued an appeal for aid for the liberal candidate, Premier Balfour and Colonial Secretary Chamberlain intervened but were unable to restore harmony. The curious spectacle was then presented of a liberal backed up by non-conformists daily denouncing the clerical tendencies of the education bill yet abating the support of the fashionable clergy and their congregations.

A CURRENCY DANGER

Why the Sound Money Issue Is Not a Dead One by Any Means.

How It Is Possible for a Secretary of the Treasury to Put the Country on a Silver Basis.

From The Journal Bureau, Room 45, Post Building, Washington. Washington, Nov. 8.—"Members of the republican as well as of the democratic party are making a great mistake in going on the assumption that the sound money issue is dead." So spoke a high official of the treasury department last week.

So long as it is possible for a secretary of the treasury to put the country on a silver basis, by a purely administrative act, and without any violation of law, the question ought to be an issue. So long as a president has it in his power, by a mere reversal of an administrative policy, to debase the standard currency, both parties should see that the president is pledged to maintain the gold standard. So long as there is no law to protect the currency from an attack of this kind, it should be made the subject of definite declaration in the platform to which the candidate pledges adherence.

The Live Stock-Railroad Hearing Is Brought to an Abrupt Close in Chicago.

Chicago, Nov. 8.—T. W. Tomlinson, traffic representative for the Chicago Live Stock Association, appeared before the interstate commerce commission to-day and denied the charge made by President Stickney of the Chicago Great Western yesterday that the live stock association is an absolute monopoly. Mr. Tomlinson asserted that shippers were not compelled to do business with the live stock association, but that it had been found advantageous for shippers to get their live stock consigned to a better port. In regard to the statement of President Stickney made yesterday that the reason the rate on dressed beef is lower than on live stock from the Missouri river points is because dressed beef is a more regular traffic, Mr. Tomlinson said:

104 YEARS OLD.

Strong, Healthy and Full of Vigor, Thanks to DUFFY'S PURE MALT WHISKEY.

Mr. Ralph Bullock, Who is in His 105th Year, Says: "I Owe My Great Age to Duffy's Pure Malt Whiskey."

RALPH BULLOCK, 104 YEARS OLD. AS WELL AS 40 YEARS AGO.

Gentlemen: The benefit I derive from Duffy's Pure Malt Whiskey is marvellous. I owe my great age, vigorous constitution and remarkable freedom from disease to its daily use for many years. Though 104 years of age I feel as young as a healthy forty year old. My appetite is good and I still do all the chores. I cannot say too much in favor of Duffy's Pure Malt Whiskey. It is a blessing to the old and sick. The Lord will surely bless the discoverer of such a great medicine and prolonger of life. RALPH BULLOCK, Brooklyn, N. Y.

Duffy's Pure Malt Whiskey

aids digestion, stimulates and enriches the blood, invigorates the brain, builds nerve tissue, tones up the heart, fortifies the system against all disease germs and prolongs life. If you wish to keep young, strong and vigorous, and have on your cheek the glow of perfect health, take DUFFY'S PURE MALT WHISKEY REGULARLY, a teaspoonful in a half glass of water or milk, three times a day, and take no other medicine. It is dangerous to fill your system with drugs; they poison the system and depress the heart (Quinine depresses the heart), while DUFFY'S PURE MALT WHISKEY tones up and strengthens the heart action and purifies the entire system.

Duffy's Pure Malt Whiskey has stood severe tests for fifty years and has always been found absolutely pure and to contain great medicinal properties. Caution—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous persons, mindful of the excellence of this preparation, are seeking continually to put upon the market cheap imitations and so-called malt whiskey substitutes, which, far from relieving the sick, are positively harmful. Demand Duffy's and be sure to get it. It is the only absolutely pure malt whiskey which contains medicinal, health-giving qualities. Look for the trade-mark, "The Old Blend" on every bottle.

The genuine at all druggists' and grocers, or direct, \$1.00 a bottle. A valuable medical booklet containing symptoms and treatment of each disease and many testimonials will be sent free to any reader of this paper who will write Duffy Malt Whiskey Co., Rochester, N. Y.

FOOD CHANGES PEOPLE.

Both Adults and Babies. Babies can eat and thrive on the same kind of food that their elders do, when that food happens to be Grape-Nuts.

"Our little baby girl had spasms," writes Mrs. Geo. B. Noble of West Union, Ia., "caused, the physician said, by improper food. He advised a diet of milk, but she did not gain in either health, weight or brightness, and we had to continually use physic. We were simply wild, hopeless and miserable over our little one. For a long time I had been reading Grape-Nuts, and perhaps by inspiration I bought a package and began feeding them to her. After the second meal, we used no more physic, and she had never used any since. It was wonderful to see her improve. Her weight was 17½ pounds at two years; now it is 27 pounds at four years and her brain, the spasms having come from her spine, but the continued use of Grape-Nuts has made her perfectly well, and there is not a brighter child in the State to-day than our little girl. Everybody remarks about her beautiful complexion and her bright, witty speeches. We are never now without Grape-Nuts and often think of the awful period when we were in such desperate straits. If I can in any way interest others, I am more than willing to tell them all I can about Grape-Nuts."
