Pink roses were also in the drawing-room, which is hung in green. The library was in red and yellow chrysanthemums were resplendent against the Indian hangings in the dining-room. A great cluster of white and yellow chrysanthemums was on the newel post in the hall and a string orchestra played from the landing on the stairs, which was screened with palms.

Miss Henry will remain about a week longer.

THINGS WORTH KNOWING

Bits of Scrapbook Wisdom on Various Household Topics.

Keep a fry-pan expressly for omelets. Dip Hamburg steaks in melted butter before broiling.

Spread a properly shaped piece of manila paper on a warm platter under fried fish.

Drain fried bacon on manila paper the minute it is done, and stand in the oven five minutes to crisp it.

Broil a few drops of lemon juice on broiled fish or ham just before serving.

Give a young infant drink from a saucer instead of a cup or spoon. The uncertain little lip will close upon it more easily and there will be no slopping.

An old physician told me this, which I found to be true.

The fashionable way to light a room is from the side, and brass is much used with crystal in forming settings for the lights.

Mirrors over mantels have given place to paintings, and, generally speaking, mirrors are less in use than they were formerly. Mantel paintings are large and handsome, but they have to conform in general way to the scheme of coloring and decoration in the tapestried walls and furniture.

For one of the decorative plants, for use in the house in pots, do not fail to try a single specimen of canna. They are very satisfactory for this use, having a tropical look equal to the rubber plant, if one only thinks so; indeed, I prefer my canna to my rubber plant, though the latter is four feet tall and grows without fuss or trouble.

Comparatively few housekeepers know the comfort of using a dish mop instead of a cloth for washing the table dishes. It not only saves the hands, but as very hot water can be used, the work is much easier and is more quickly done, while the water is quite as hot as the hand can bear by the time you need to use a cloth for the cooking utensils. The mops cost but a trifle, and one will last a long time if its use is confined to the tableware.

An old man who runs a "home bakery" gave me a pie hint the other day which I have found invaluable, says Good Housekeeping. His way is to roll out the pie crust and allow it to stand in the coolest possible atmosphere, of course, for five minutes or so before cutting it to lay in the pie plate. It does no more shrinking then and your pie has its full allowance of crust.

Fruit punch—This punch is delicious and is nice to serve at teas. Sweeten the juice of six large lemons and three oranges. Put into a punch bowl with a small block of ice, add a few slices of orange, a few Malaga grapes, or preserved cherries, also enough raspberry or blueberry juice (from canned berries) to give a pretty color, as well as flavor. When time to serve, pour over two quarts of some aerated table water. A large cluster of grapes is a pretty garniture. Do not open the aerated water until ready to use, as it loses its sparkle very soon.

GOOD SEATS LEFT

Sale of Teachers' Club Course Tickets Has Not Yet Exhausted the Supply.

While the advance sale of course tickets for the Teachers' club entertainment course largely exceeded that of last year, on the opening day, there are still a considerable number of excellent seats remaining and the course seat sale will continue until the first entertainment, the song recital by Mme. Charlotte Macconda, Nov. 25. The single seat sale of this recital will open Saturday morning.

The First Baptist church, in which the course will be given, has been frequently tested as a concert hall with the most complete satisfaction. Not only are its acoustics admirable, but its arrangement makes all the seats desirable both for seeing and hearing. The Macconda concert is the only entertainment of the course that will come before the holidays. Beginning with Albert Kelsey the entertainments will come at conveniently arranged intervals of two and three weeks throughout the season, closing with the concert of the Kiesel quart in May.

ST. PAUL TAX TANGLE

It Grows Out of Supreme Court Decision Affecting 1891-1900 Tax Sales Held Illegal.

Franklin H. Griggs, appearing for a Chicago client, made formal application to the city attorney of St. Paul yesterday for the redemption of certain city property sold under tax sale by the St. Paul city authorities between 1891 and 1900, when the present charter was adopted. Mr. Griggs said that the then city treasurer, Nov. 25, had given public notice of his intention to take judgment instead of two notices as required by the old charter, and that the sale was consequently illegal. His claim is based upon a recent supreme court decision in which all of St. Paul's tax sales between 1891 and 1900 are held, inferentially, to have been illegal.

The decision is expected to cause the city considerable trouble, but little loss as the tax judgments, together with interest and penalties, still remain a lien upon the property involved. It will, however, permit former owners to redeem their land. The city will contest the point.

THE "PENNY SAVED"

Spirit of Economy and Not Miserliness Makes Men Rich.

The best things are the cheapest. When the prudent housewife stops to figure out the cost she finds that Baker's Barrington Hall steel cut coffee is not only better than any other coffee she can buy at any price, but that it is really cheaper than coffee which sell for less money per pound. It is a demonstrable fact that this steel cut coffee will go half as far again as it would if the same kernels were ground in the old-fashioned way. That means that it is one of the most economical coffees that can be used.

But people drink coffee because they like it, not because it is cheap; so people drink Barrington Hall because it suits them better than any other, regardless of price. About 200 Twin City grocers sell it; a few refuse to sell it because it is superior to their favorite brands upon which they make a larger profit. Ask your grocer and try Steel Cut Barrington Hall.
