TURKEY AT SNELLING
Yesterday's Dinner in Contrast With the Regiment's Thanksgiving in China.
Excellent dinners were enjoyed yesterday by the soldiers of the Twenty-first Infantry at Fort Snelling. E. company's bill of fare, for example, included oyster stew, roast turkey, oyster dressing, cranberry sauce, baked sweet potatoes, green corn, celery and cauliflower, chocolate cakes, mince pie, apples, bananas, oranges, candy, cigars and coffee. These eminently edible dishes suggested to the regiment that Thanksgiving dinner at Peking two years ago. The menu then was roast pork, young goat, "plum-duff" pudding, a vegetable that might have been lettuce, and a number of cabbage, and rubberneck clams. The sugar was rock candy. Before enough pork could be secured the soldiers had to make dangerous raids into Chinese territory after slaying and capturing several greyhounds. The goats were brought from the heathen in his blindness. Both goat and pig were cooked in the courtyard of the Imperial temple of agriculture over a fire fed with the wood of sacred cedars 2,000 years old.

FOOT AND MOUTH DISEASE
It Has Caused Closing of the Brighton, Mass., Stock Yards, and Quarantine Regulations.
Boston, Mass., Nov. 28.—The cattle bureau of the state board of agriculture up to-day had received about one hundred individual reports of the presence of the foot and mouth disease in this state, caused the secretary of agriculture to prohibit the exportation of cattle from Boston and to establish a quarantine of cattle, sheep and swine in New England. It was stated that reports received had come from localities within seventy-five miles of Boston.
The closing of the Brighton stock yards, the principal stock market in New England, by the state board of agriculture will cause an interruption to traffic which under ordinary circumstances aggregate \$500 to 700 a day of cattle a day.

FATAL FLAW FOUND

The Inheritance Tax Law of 1901 Is Declared Illegal by the Supreme Court.
In Trying to Remedy One Defect the Legislature Had Created Another.
A decision by Judge Brown of the supreme court, handed down to-day, gives the quietus to the inheritance tax law of 1901. It is held unconstitutional because it operates unequally. By an error in drafting it has created a "fatal flaw" of collateral inheritances when they exceed \$5,000, but when the inheritance is in a lineal descendant only, the excess over \$5,000 is not subject to tax.
The mistake was discovered and the extra session endeavored to correct the mistake, but made another in so doing. The case decided to-day was carried up from Ramsey county in order to definitely settle the point and clear the decks for the new legislation, which is expected to pass a valid law.
The syllabus of the decision is as follows:
State of Minnesota ex. rel. Jeannette T. Frye, as administratrix of the estate of Stina Johnson, deceased, respondent, vs. Edmund W. Basile, as judge of probate, Ramsey county, appellant. Chapter 235 Laws 1901, known as the Inheritance Tax Law, is held unconstitutional and void, because it operates unequally as between collateral and lineal inheritances, and lineal descendants. Transfers of property to the former are taxed to the full value, when such value exceeds \$5,000, whereas, to the latter, the tax is imposed only upon the excess over and above a fixed valuation of \$5,000. Drew vs. Tift, 79 Minn., 175, followed and applied. Judgment affirmed. —Brown, J.

A MILWAUKEE IDEA

It Is That a Conference of Convention Hustlers Be Held in Milwaukee.
An Arbitration Commission to Place Conventions Suggested by Wallace G. Nye.
They Are Returned When Men Are Released—But Many Are Not Called For.
It frequently occurs to the man on the street to ask what is done with the property found upon prisoners when they are searched before being locked up at the police station. It is known that valuable property is often found upon prisoners and the public wonders what becomes of it.
In this city the custom, which by the way is prescribed by law, is to take from the prisoner only his weapons, such articles as might aid him in effecting his escape from the jail and things which he might use in doing himself or his fellow prisoners, bodily injury. These are held until he is either released by the court or has served his sentence, when they are returned if asked for.
Officers frequently find on arrested men bank notes, jewelry and other articles which are supposed to be stolen property. Such property is taken and held in the care of the officers while the man is under arrest. If the true owner of the property is not learned before the man is released, the valuables are given to the man on whom they were found.
Every case of this nature, however, the presumption that a crime has been committed is great before it is taken from the prisoner. A case of this nature occurred in Texas a few years ago which illustrates the method of procedure under the law.
A Case in Point.
A man was arrested upon suspicion of being connected with a bank robbery. About \$25,000 in cash was found upon this person, but before he was committed to jail, the bank officials could not identify the money found in his possession and his sister, who was his only heir, sued for the money. The court held that, as the man was not convicted of the robbery and the bank officials were unable to identify the bank notes, the money belonged to the deceased prisoner or his heirs and ordered the money turned over to the sister.
In the course of a few years' time a large amount of concealed property falls into the hands of the officers at a police station. This consists of knives, revolvers, razors, etc. It is kept against future contingencies and no provision is made for disposing of it. The worthless articles are usually consigned to the rubbish pile, that which is of value is kept.
Supplies for an Arsenal.
At the central police station in this city there are a number of revolvers and razors which undoubtedly have lain there for many years and will lie there much longer if some jailer does not get tired of seeing the stuff lying about and dispose of it via the furnace. It is suggested that one article can be sold or given away.

FOUND HUSBAND'S GRAVE
Mrs. Eleanor McBride's Search of Forty Years Rewarded in Arlington Cemetery.
After a forty years' search for the grave of her husband who died in the first year of the civil war, Mrs. Eleanor McBride, of Watouan, N. Y., now visiting her daughter, Mrs. Thurston, at Merriam Park, succeeded in the course of the recent Grand Army encampment at Washington, D. C., in finding the last resting place of her loved one. With other wounded men Mr. McBride was taken to Emory hospital, Alexandria, Va., where after exchanging a few letters with his wife, he suddenly died. The big battles that immediately followed his death so thronged the hospitals with wounded that no record was kept of his death or of the disposition of his remains. In looking through the archives of the war department at Washington in September, Mrs. McBride found the information which led her to Arlington cemetery, where, in the ranks of thousands of unknown dead, she found his grave beneath a simple stone, giving his name and the date of his death.

PLUCK VERSUS BRAUN
An Unequal and Pitiful Encounter in the Philadelphia Zoo.
Philadelphia, Nov. 28.—A desperate battle ended in the death of one of the animals. One of the buffaloes was a two-year-old named Little Ben and the other a vicious brute called Old Tom. Nellie and Little Ben were exchanging endearing terms in a corner of the buffalo pen when Tom suddenly bore down upon them with a bellow of rage. Little Ben, although he realized that he was outclassed, gamely turned to fight him. Several times the horns of the big animal tore Ben's sides, but the little fellow never flinched.
Suddenly Tom withdrew a few feet and looked on like an avenger upon his puny enemy, forcing the latter against the side of the pen. There he gored him unmercifully, although Little Ben struggled bravely to the last. One of Old Tom's horns crashed through flesh and bone and found its way into the heart of Little Ben. After the little one had fallen to the ground the victor continued to gore the lifeless body until driven away by several of the keepers.

A HIDDEN TITIAN
Orazio Raffa Says There Is One in Frisco.
San Francisco, Nov. 28.—Orazio Raffa, who is said to have discovered the long lost secret of making the Stradivarius violins, died in this city yesterday.
The Raffa, who had been soldier of Garibaldi, was the victim of a Sicilian soldier, the members of which had persecuted him thirty years and reduced him to poverty.
The old violin-maker said recently: "Concealed in this city, I have an original painting by the great old Venetian, 'Tiziano' (Titian). It is valued at \$100,000. I have not been able to find the market, for it was stolen shortly before I marched with the 'red shirts' through the streets of Naples behind Lord Cardibelli. Our fellows had captured and looted a castle. This great painting fell to my lot. A number of my fellow Sicilians, knowing this and other facts, have for years blackmailed me, threatening me with arrest or death."
The painting referred to is that of a woman.
