### A BLIND PIG FIGHT

Leonard Stockwell Nearly Loses an Eye in a Tough Midway Joint.

Police Take Care of Wounded Man—But Proprietor of Place Is Not Arrested.

Leonard Stockwell, a laborer residing at 567 Fairview Avenue N. between Merriam Park and Hamlin, was near losing an eye in a fight in Lotus Stein's "blind pig" at Midway last night. As it was he had to be taken to the Prior Avenue police station where a physician was summoned to dress his wounds.

According to the story told by bystanders, the trouble occurred over the non-payment of a bill. Stockwell became abusive and while the two men were quarreling, Stein suddenly struck Stockwell in the forehead with a leather "billy." The blow failed to knock him down and two men who followed in quick succession. An officer took Stockwell from the place.

When Stockwell arrived at the Prior Avenue police station it was found that his eye was badly injured by the blow and a physician was called. He examined the injured man and decided that the sight of the eye would be lost but that the man was badly injured.

Stein was not arrested.

This is the second serious fight that occurred in the "blind pig" of the Midway district recently. It is only a short time since another man lost an eye in a fight.

Many citizens of the Midway district are incensed at the way the police apparently close their eyes to the operation of the places which are said to be as tough as a rock.

Fights occur, complaints are made and the police even visit the places in person and yet the proprietors continue their business as usual.

It is said that a certain official warns the proprietors of the places when a raid is being planned.

## LEVIATHAN, 9 to 10, Won

Our New Orleans Special Yesterday.

Sixty winners to date is our record in spite of a spell of adverse track conditions, just overcome.

The track is now in first-class condition, the horses are up to their work and we will henceforth eclipse our splendid record of last season. The week is young and we have selected for our clients two out of three winners. The prices have been short, but we have been compelled to play conservatively because of the bad condition of the track, and now that the track is good, and all indications point to a continuance of fair weather, we will go right ahead and pick winners at good prices. Our facilities for landing them were never greater.

Here is a complete record of every horse played to win by for our one-horse per day subscribers at New Orleans to date. This statement gives the name of every winner, as well as of every loser. Look it over:

November 27	Cambridge, 9 to 10, won	December 4	Moohan, withdrawn
November 28	Federal, 1 to 1, second	December 5	John Peter, 5 to 5, won
November 29	The Lady, 1 to 1, won	December 6	Moroni, 2 to 1, lost
December 1	Yankee, 10 to 10, second	December 7	W. J. Deboe, 4 to 5, won
December 2	Harrick, 1 to 1, lost	December 8	Leviathan, 9 to 10, won
December 3	Jack Demond, withdrawn	December 9	Leviathan, 9 to 10, won

We print below the record of our One-Horse Guaranteed Wire at New Orleans last winter, showing what a twenty-dollar daily bet accomplished for our clients.

**WE WILL HANDLE YOUR MONEY.**

The arrangements which we have made for this winter are perfect. For the past two years we have been handicapped at this track by the publicity which has been given our information by its early sale. This year we have provided against this. The name of the horse we select is not communicated to anybody before the races. In order to enable clients to back our choices, we have secured the services of Mr. Sol Lichtenstein, a noted eastern bookmaker and member of the Metropolitan Association, who places the money in the track. Accounts will be accepted, subject to conditions which are given below. As a pledge of good faith, the Maxim & Gay Company guarantees to place in the hands of the editor of the New Orleans Item the selections to money will be played on, and also to mail the selections to out-of-town subscribers before noon each day of the races, such letters to bear postmark of not later than 1 p. m. of the day the races are to be run. It is also undertaken to telegraph on request to any subscriber every evening the odds secured and the names of the horses played.

Conditions of subscriptions to our service at New Orleans are as follows:

Fee for information, \$10 weekly.

Charge for placing your money at the track is five per cent of the net weekly winnings. Weekly remittances of profits. Accounts subject to withdrawal at a moment's notice. Official closing odds guaranteed. REMIT DIRECT TO MAXIM & GAY CO., 928 CANAL STREET, NEW ORLEANS.

The following are the minimum accounts that will be accepted:

For \$10 daily play on each horse, \$50. For \$20 daily play on each horse, \$100. For \$50 daily play on each horse, \$250. For \$100 daily play on each horse, \$500.

## RAILROAD RUMBLIES

### RAILROADS DEFENDED

The Railway Age on Overcrowded Freight Conditions.

The Railway Age thus speaks of the position of the railroads in the present unsatisfactory freight conditions:

"The recent congestion of freight traffic has served to emphasize the great need in railroad service. The business of the country moves in cycles. A period of depression is followed by a corresponding period of expansion, which in turn gives way to another of contraction, and so on. It has been the evident aim of the railroads to keep somewhat in advance of the normal average requirements and under the circumstances they cannot be blamed. It costs money to provide second, third and fourth tracks, yard facilities, engines and cars, and with a constantly declining scale of railway rates it was the exercise of the soundest business sense to proceed cautiously."

The general notion that a railroad is obliged to be at all times fully equipped for promptly handling everything that may be offered for transportation is altogether a mistaken one. The railroads are the country that could have afforded to provide itself with adequate facilities for the present year's business. To have done so would have required the outlay of immense sums of money in the way of track, engines and cars which probably would be forced to lie idle much of the time in the next few years to come. It is easy to say that the new conditions must be met, but if railroads are to make the maximum requirements the measure of regular supply, they will have to be put in a position to earn a great deal more money.

It should be understood that the ultimate cost of all railroads is paid for by the people, and that the railroads on their part are willing to do all that is necessary, provided only that the bills are paid. The amount of profit against any advance in rates in the face of the continual and urgent demands for greater facilities one of the inconsistencies which abound in all of the dealings of the public with the railroads."
