SPEAKS TO ITHACANS

Pres. J. G. Schurman Is Here to Strengthen Sentiment for Cornell University.

In a Talk in Chapel at the "U" He Opposes Shortening of Academic Course.

President J. G. Schurman of Cornell University, visiting to-day in Minneapolis, is an excellent type of the Canadian who is more American than the American himself.

J. G. SCHURMAN.

Universities. Dr. Schurman defies the traditions of his class. Youthful, alert, shrewd, he suggests at no time the venerable, scholastic, unworried lord of learning.

He is visiting the West to address Cornell alumni and otherwise strengthen Cornell sentiment. He will talk to Minnesota Ithacans to-night at St. Paul.

When seen this morning at the residence of Theodore Wetmore, Dr. Schurman would not commit himself as to the relative merits of those athletic mediums through which Cornell has proclaimed its enfolding muscle.

There are all sorts of chances to buy, sell or exchange anything you have or haven't published daily in The Journal's classified columns.

Change of Time to Northfield, Cannon Falls and Faribault on the Milwaukee Road.

On and after Sunday, Jan. 4, the morning Milwaukee train for Northfield, Cannon Falls, Faribault, Owatonna and all points south will leave Minneapolis at 8:20 a. m. instead of 7:50 a. m.

All disorders caused by a billious state of the system can be cured by using Carter's Little Liver Pills. No pain, griping or discomfort attending their use.

Results Follow. As the needle follows the magnet, so do results follow Journal want ads. A fair trial will prove it.

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage.

The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form.

Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing.

Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

The Bradford Regulator Co., Atlanta, Ga.

then treat the remaining 1,500,000 Islanders, including the Moro cutthroats, as we have treated our red brother-in-law.

SHORTER ACADEMIC COURSE

President Schurman Discusses the Subject in Chapel at the "U."

President Schurman was a visitor at the university this morning and at the invitation of President Cyrus Northrop, spoke to the students on the shortening of the academic course to two years in order that those who intended to take professional work might obtain their degrees without so much general work.

He said that it was advisable, however, for all professional men to take the A. B. course if it were possible, but that it was possible for a man to become a good lawyer or doctor without it.

He also said that it is not fair to the young men of the country to raise the requirements for admission to the professional schools.

Every one who desires to enter a special line of work should have the opportunity to do so without being compelled to take the long academic course in preparation.

In speaking of the value of a college education he said that no better proof of its worth could be asked than the number of names of college graduates published in the annual called "Men of the Times."

Of the 12,000 names that it contains over four-fifths are college graduates.

MARRIAGE LICENSES. Thomas J. Lecher, Uthman, Mich., and Claire I. Paris.

Anthony Laurent and Hilda A. Greenough. Joseph Vas Hella and Mary Bliznos.

FROM SCIENTIFIC TOUR

Prof. Conway MacMillan Returns—Read Papers Before Several Societies in the East.

Professor Conway MacMillan of the University of Minnesota returned yesterday from an eastern trip in the course of which he attended the important group of scientific meetings in Washington and Boston on business connected with the botanical department of the university.

The Central Botanical association elected Professor MacMillan as its president and he was a prominent figure in the gathering of scientific men, being active in several of the associations. He was the representative of the botanists in an important discussion on "The Use of Endowments for Research Work," in which he advocated the competition of institutions. In opposition to the consolidation and co-operative principle put forth by Professor Chambers of Chicago, the representative of the geologists, the multiplication of institutions does not alarm Professor MacMillan, for he points out that some of the most important educational movements have started in the feeblest and most insignificant associations.

Individuality counts and great endowments and fine equipment will not make great scientists; they are the product of personal effort.

Before the meeting of the Botanical Society of America, made up of between twenty and thirty men who are heads of botanical departments, Professor MacMillan read a paper on "The Structure of the Seaweed Martell." For the Society of Plant Morphologists he presented a paper on "The Opportunities for Research at the Minnesota Sea-weed Station." He also presented lantern slides; and for the Botanical Club of the American Association for the Advancement of Science, a paper on the "Experiments of the North Shore of Lake Superior," also illustrated.

The simultaneous meetings of these and several other scientific societies in Washington was a fortunate and well-timed thing of complete satisfaction it had a number of advantages that were much appreciated. There is a tendency to an articulation of some of the most important of these. This is under consideration among the botanists and it is probable that the botanical societies will join forces, holding sectional meetings for two years and a joint triennial meeting. The Central Botanical Society will probably meet in Chicago next year.

RAILROAD RUMBLES

HANDSOME GAINS Northwestern Stocks That Made Good Advances in 1902.

The gain in railroad stocks for the year has been remarkable. The St. Paul stock sold at \$26 1/2 for the common and 93 for the preferred at the beginning of the year, has reached 76 and 123 1/2, a gain of 39% and 31% during the year. Transactions involved \$51,564 shares of common stock and 193,094 of preferred.

Of the roads entering Minneapolis the Milwaukee stands next with dealings in 8,500,000 shares of the common and 1,627,000 of the preferred. The Great Western common stock 1,749,000 shares were traded, and of Great Northern 160,589 shares.

The Milwaukee stock is listed up 13 1/2 points and the preferred 1 1/2. The Great Western common netted a gain of 3% and other securities made losses. The Great Northern preferred advanced 1 1/2. The Omaha made a gain of 1 1/2. The preferred closed unchanged. The Twin City Rapid Transit company gained 7 1/2 and 3 1/2 on common and preferred.

AFTER HIGHER WAGES

Tramline of Western Roads Negotiate with the Officials.

Negotiations for an advance in the wages of tramline began yesterday in the road contentions at the street meeting following the demand made by the men Dec. 20. The negotiations may continue two or more weeks. The men feel that the managers of the street roads have met them in a spirit of fairness. It is probable that compromises will be effected in the general demand of 20 per cent.

ANOTHER BOOST POSSIBLE

Western Roads May Give Commodity Rates Another Lift.

Commodity rates may be advanced further by the western roads. Officials met to-day to discuss the preliminary meeting yesterday a disposition to make greater increases was shown.

It is not a positive thing that the higher rates will be adopted, but the roads advance set for Jan. 1 will be made. It is suspected that some roads have made contracts extending several months into the year by which the old rates to Utah and Colorado will be continued to the big shippers.

State's Merger Suit.

The state suit against the Northwestern Securities company has been continued to Jan. 13 in New York city. Attorney General W. B. Douglas, who is ill in St. Anthony Park, hopes to attend. Senator Wilson will be engaged in the legislature.

RAILROAD NOTES.

A meeting will be held Jan. 11 at New York between officers of the company building the Atlantic and Pacific tunnel, through the range near Georgetown, and members of a syndicate of English and American capitalists, when the proffer of the syndicate to take the entire issue of bonds and assume indebtedness of the road will be discussed.

REAL ESTATE TRANSFERS.

PURE BLOOD

Necessary to Life. Vinol Makes it.

POOR BLOOD CAUSES ERUPTIONS AND WEAKNESS.

Vinol Makes Pure, Rich, Red Blood.

BECAUSE WE KNOW THIS WE GUARANTEE ITS ACTION.

Impoverished blood is a sure sign of internal disorders. We see every day too many people whose faces plainly show that there is something radically wrong.

We want all of our fellow-citizens to know of our splendid blood purifier and blood maker.

We refer to Vinol. Vinol, as we have before stated, is a purely scientific preparation.

Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles, taken from the livers of live cods—the same elements that formerly were found in cod-liver oil, and which made it famous.

Vinol does not contain the grease or fat that characterized cod-liver oil and made it in many cases worthless.

Vinol acts upon every one of the great vital organs, and by invigorating and giving them strength, enables them to properly perform their functions.

Vinol's effect on the stomach is marvelous. It tones up this, the greatest of the organs of the body, and enables it to obtain from the food which is taken into it the necessary elements to form the flesh and muscle tissue, bone structure and pure, rich, red blood.

We are in receipt of a letter from a Salvation Army woman which reads as follows:

"I took Vinol after a bad attack of grippe, and so much good did it do me that I persuaded my sister to take it. She was all tired out. Had no appetite and her blood was very poor. It did her as much good as it did me."

BETTS HABERSHAW, 718 River St., Fall River, Mass.

Don't you please come in and see us? We are always glad to extol the merits of Vinol.

We will give you back your money if you don't find Vinol will do all we claim it will. Could any one do more for you?
