Marvelous Growth of Hair

A Famous Doctor-Chemist Has Discovered a Compound That Grows Hair on a Bald Head in a Single Night.

Startling Announcement Causes Doctors to Marvel and Stand Dumbfounded at the Wonderful Cures.

The Discoverer Sends Free Trial Packages to All Who Write.

After half a century spent in the laboratory, tomes with his many world-famous discoveries, the celebrated physician and chemist at the head of the great Altheim Medical Dispensary, has just made the startling announcement that he has discovered a certain plant that grows hair on any bald head.

Miss Clarissa Kerby and her marvelous growth of hair. The doctor makes the claim that after experiments, taking years to complete, he has at last reached the goal of his ambition. To the doctor all heads are alike. There are none which cannot be cured by this remarkable remedy. The record of the cures already made is truly marvelous and were it not for the high standing of the great physician and the convincing testimony of thousands of citizens all over the country, it would seem to miraculous to be true.

'KING PAT' IS PLACED

The Original Potentate of Boom Island Will Join the City Court Detail.

Mayor Haynes' Deliberate Policy Is Keeping Many on the Anxious Seat.

"Pat" Callaghan, the original "King of Boom Island," is among the faithful who will be rewarded by Mayor Haynes. He is to succeed Lieutenant George Copeland at the municipal court. Callaghan worked hard for Haynes. Captain Henry Getchell will be detailed to his old assignment, the first precinct station.

Mayor Haynes is determined to be exceedingly fair and careful in making dismissals and appointments. He has already said that no conclusions will be jumped at and that every man will have a chance to say something in his own behalf.

A DIAMOND ROBBERY

Burglars Smeared Jewelry and Plate and Took Nothing but the Anthracite.

Some 400 Pounds of the Valuable Stuff Carried Away in Sacks.

Gold, silver and precious stones offered no temptations to the discriminating burglars who yesterday afternoon visited the residence of Mrs. Adelaide Anderson, 802 Fourth avenue S. They were after something more useful in zero weather.

The burglary occurred while Mrs. Anderson and her daughter were shopping. The burglars ransacked the house from cellar to attic, but the only thing of value carried off beside the black diamonds was a bottle of perfume, and Mrs. Anderson thinks they took this along as a disguise.

"They were certainly heavy villains," said Mrs. Anderson, "for they carried 400 pounds of coal up stairs in sacks and must have carried it some distance after that, for there were no signs of a wagon having been backed close up to the house. They must have been looking for coal or money, because they touched none of our jewelry or plate."

VERMONTERS MEET

Annual Election of the Minneapolis Association—W. R. Gray Is Made President.

At a business meeting held at the Nicollet hotel last night, the Vermont association of Minnesota elected officers. It also decided to hold its nineteenth annual reunion and banquet in Minneapolis Monday evening, Feb. 2. The officers elected were:

President, Judge W. R. Gray; first vice president, P. D. Boutell; second vice president, M. W. Skinner; Northfield, third vice president, Judge F. W. Crosby; Hastings; secretary and treasurer, Charles M. Drew; 509 New York Life building, Minneapolis; executive committee, J. B. Gillilan, F. G. McMillan, Walter Brown, J. C. Rockwood, P. D. Boutell, R. Chase, George A. Henry.

HOME FROM HAWAII

William Henry Enstis Returns From an Official Visit to the Islands.

He Made Many Interesting Observations on Various Conditions While There.

"Generous, kindly people those Sandwich men!" exclaimed William Henry Enstis, who returned this morning from Hawaii, whether he was sent as special United States commissioner to inspect federal buildings and sites.

"Now, for example! While I was going through a little village I saw an old native seated on a bench before his hut eating poi, that is, he was being fed by a couple of agreeable looking native girls, one on each side of him."

"The natives are inferior to the Chinese and the Japanese in their character, but they are not so restless, too fond of changing his job, getting full and laying off on holidays."

A. F. KELLEY IS INDICTED

Charged With Embezzlement on Three Counts—In Jail in Default of Bail.

Austin F. Kelley, well known in Minneapolis real estate circles for many years is an inmate of the Hennepin county jail accused of embezzlement. He was arrested yesterday afternoon and arraigned before Judge Harrison on three separate indictments returned by the present grand jury.

The first indictment charges that on Dec. 15, 1900, A. F. Kelley collected \$928 on a real estate mortgage belonging to N. D. Jenness. This money, it is charged, was not turned over to Jenness, but was appropriated by Kelley to his own personal use and no accounting has ever been given to the owner of the mortgage.

Another indictment alleges that \$428.55 was collected by the defendant on a mortgage held by Henry Gillilan. The money was never turned over and embezzlement is charged. Indictment charges the embezzlement of \$1,251.70 belonging to Thomas C. Weeden, the same being collected on a real estate mortgage.

On his part Mr. Kelley says he can disprove any criminality in connection with all three cases. For one thing he has Weeden's receipt for the \$1,251.70 and he says he can refute the other charges by equally strong proofs.

GAS FOR LINDEN HILLS

Secretary of Gas Light Co. Says Probably Within the Year.

Many were present last evening at the meeting of the Linden Hills Improvement association to consider securing gas for the Linden Hills district. Secretary W. H. Levings of the Gas Light company explained the difficulties to be encountered in the proposed extension. There are gas mains within a comparatively short distance of the Lake Harriet district, but it would not do to extend these. A large main commencing at Twenty-second street would be necessary. The high price of labor and material would make this a heavy expense. Moreover, the company had difficulty in meeting the demands already made upon it. Mr. Levings said the company appreciated the need of the Lake Harriet district and would get pipes out there as soon as possible if enough consumers could be secured, probably this year. A canvass is being made now. Those who want gas are urged to notify the company.

Mr. Levings also gave the meeting the benefit of his experience with the Kenwood Improvement association, telling of the good results secured and some of the effective methods employed.

TWIN CITY P. O. RECEIPTS

They Were \$99,016 for Minneapolis in December.

From The Journal Bureau, Room 45, Post Building, Washington. Washington, Jan. 14.—Postal receipts at Minneapolis for December aggregated \$99,016, against \$86,831 in the corresponding month of 1902, an increase of \$12,385, or 14.2 per cent. At St. Paul receipts for the two months respectively were \$62,199 and \$54,928, an increase of \$7,271, or 15 per cent.

SAVING IN PREMIUMS

An Excellent Showing Made by the Retail Lumberman's Insurance Association.

Three Minneapolis Directors Are Re-elected—J. H. Queal's Re-election as President Expected.

Delegates attending the thirteenth annual meeting of the Northwestern Lumbermen's association this morning disposed of the business of the Retail Lumberman's Insurance association. J. H. Queal, of Minneapolis, vice-president of the association, congratulated the members upon the success of their undertaking.

W. G. Hollis, the secretary, reported that the association's new Series B had grown far more rapidly than expected. He had thought the series might obtain two million dollars of insurance within twelve months from the last annual meeting. But there is now more than \$3,000,000 of insurance in Series B. Series A, meantime, had gained \$1,000,000. Although part of the surplus fund was used at one time during the year, three times as large a sum was "carried to surplus" at the close of 1902. Mr. Hollis estimated that the surplus of Series A, on account of \$17,352.58 on account of Series B. The surplus under Series A is \$33,968, and that under Series B, \$4,695.32.

The association re-elected three Minneapolis directors whose terms had expired—J. H. Queal, H. E. Bacon and S. H. Bowman. W. R. Wood of Parker, S. D., was made a director in place of F. M. Slagle of Alto, Iowa. The directors will re-elect Mr. Queal president of the association; Mr. Bacon, vice president; and Mr. Bowman, treasurer.

The finance committee was named as follows: Ralph H. Burnside of Oskaloosa, Iowa; H. Van Tassel of Waubay, S. D.; and Ed. Baler of Kansas City.

Dr. Harry Cohen Pays \$10 for Failing to Appear as Witness.

"The summons of this court are imperative and must be obeyed without fail. I find you guilty of contempt and will assess a fine of \$10, in default of which you will be committed to the county jail."

With this very pointed remark Judge Harrison this morning disposed of the matter of Dr. Harry Cohen, a witness, who failed to appear at the proper time yesterday for the trial of the case of Dora E. Wilcox vs. Barrabas D. Wilcox, and Nettie Hagerty vs. Jeremiah Hagerty.

DIVORCES GRANTED TO TWO

Judge Gray continues to dispense freedom to unhappily mated men and women. This morning he granted divorces to William D. Vaudin from Katherine R. Vaudin and to Ella Luckinger from Henry Luckinger. He also heard testimony and took under advisement the cases of Dora E. Wilcox vs. Barrabas D. Wilcox, and Nettie Hagerty vs. Jeremiah Hagerty.

MAY CONTEST C. D. GILLILAN'S WILL

A contest of the will of the late C. D. Gillilan of St. Paul, who left an estate of about \$1,000,000, is said to be a probability. There is considerable dissatisfaction over some of the provisions of the document, and although the heirs do not state positively what will be done, it is admitted by the attorneys that a friendly contest is very likely to be carried on.

ANOTHER FOR COHEN

The New Indictment Charges Him With Compounding Crime—Pleads Not Guilty.

His Bail Is Fixed at \$1,000 and His Trial Is Set for January 22.

Joseph Cohen, one of the pawns in the game of graft played with the city of Minneapolis by the late Ames administration, has been reindicted on the charge of compounding a crime and will either have to plead guilty or stand trial on the new charge some time in the near future.

The defendant was notified of the indictment last evening and this morning was arraigned before Judge Harrison. He pleaded not guilty, with the privilege of changing his plea at any time before Saturday morning. His trial was set for Jan. 22. Bail was fixed at \$1,000 and the defendant allowed his liberty for the day or until the bonds are filed.

The crime alleged in the new indictment is that of receiving \$25 from Augusta Haden on the understanding that this payment should exempt her from prosecution by the city of Minneapolis. The other indictment standing against the defendant is similar and charges the receiving of \$15 from Ethel Ford with a like understanding.

Several other indictments were brought but were later all nolle.

Vauney C. Zierath, accused of grand larceny in the second degree appeared before Judge Harrison and entered a plea of guilty to the charge against him. The trial was set for January 16 and his bonds fixed at \$500.

John Peterson was arraigned on the charge of receiving stolen property. He entered a plea of not guilty, his trial was set for January 26 and his bond fixed at \$500.

LESSONS OF SCIENCE

State Agriculturists Discuss Their Application to Certain Problems of the Farmer.

Economy in Production of Meats and Differences in Disease Symptoms Included.

The second day of the convention of the Minnesota Agricultural society at St. Paul brought out an attendance of about 150 agriculturists. The discussions were along scientific lines. Professor Robert Shaw of the Agricultural College of Michigan, in a talk on "Economy in the Production of Meats," criticized the farmer for allowing his stock to run down in breed.

Many composite breeds go from Minnesota to the markets. Professor Shaw urged the importance of allowing stock constant access to water, instead of but for a few minutes each day. It was important also to keep each animal constantly producing, never idle. Dr. Reynolds of the Minnesota experimental station, endeavored to make plain the differences between the symptoms of black leg and spinal meningitis as they appear in cattle. He recommended vaccination as a preventive for black leg. In spinal meningitis there is no such help.

SHEEP FOR MUTTON

Can Be Grown in Minnesota with Profit, Says George McKerrow.

The woolly sheep might become as bald as a Mexican dog, yet American shippers would lose no money, said George McKerrow of Sussex, Wis., yesterday afternoon, addressing the State Agricultural society at the Commercial club, St. Paul. There is no longer any profit, Mr. McKerrow declared, in American wool. But good mutton is still a source of wealth. Minnesota and Wisconsin farmers should be especially eager to raise sheep. Contests had proved that these states produce mutton equal to the best in the world.

"U" ELECTION CHANGED

Date Will Be Jan 17, Not Jan. 31—New Candidates.

The date for the election of the new athletic board of control has been changed from Jan. 31 to next Saturday night on account of the junior ball, which is to be held on the 30th. "Mike" Kiefer has added his name to the list of candidates for president and "Sig" Harris will be supported by the engineers. The fact that no agreement has been made by the board with Dr. Williams has caused Jay I. Durand to announce his candidacy openly.

Northrop Field was flooded this morning and tickets for skating privileges will be placed on sale at once. The hockey team will begin practice at once. A game is being arranged with Wisconsin. The debating team will leave to-night for Evanston, where it will contest with Northwestern university Friday night. The team is composed of Messrs. Chase, Lundeen and Grannis.

Friction

Silver pastes or powdered polishes depend upon friction for results. Friction will wear out silver—will wear out anything—that's a law of nature. It is a fact; not a theory.

Silver Salt dissolved in boiling water makes a bath that cleans every crevice in silver or cut glass without any rubbing or polishing and gives a mirror like luster never seen except on the silver in a jeweler's showcase.

Silver Salt makes water—clean water—do the work. Friction polishes mean blackened rags and reddened, roughened hands. Silver Salt in hot water is as harmless as pure soap suds, so the chemists say.

You wouldn't think of using sand soap to polish silver. Well, don't, even if it is ground fine. Suppose you try Silver Salt—"The Easy Way."

Now, Silver Salt is just as good for cleaning China or Glassware Jewels or Bric-a-Brac, Brass, Nickel or Paint Work; for Porcelain Sinks, Bath Tubs or Enamelled Ware; in fact for everything meant to shine.

Silver Salt is for sale by druggists and grocers generally. If you don't like it, send us his name and we will send you a package free. We guarantee every package of Silver Salt. Large package 25c. If you don't like it, your dealer will refund your money.
