EDUCATION IN MINNESOTA...ITS HISTORY IS TRACED Abstract of Professor D. L. Kiehle's Valuable and Important Paper Recently Read Before the Minnesota Historical Society at Its Annual Meeting.

Following is an abstract of a valuable paper by Professor David L. Kiehle, of Minneapolis, on the history of education in Minnesota, read before the Minnesota Historical Society at its annual meeting in St. Paul, Monday evening, Jan. 19.

The planting and fostering of a system of education in a new state is the momentous task of its history, and the pioneers who did this service stand as the representatives of the world's civilization at its high-water mark.

SCHOOLS FOR DEFECTIVES Besides the education of the future citizens, the state has been mindful of other classes, who by reason of physical defects, or the lack of the proper moral environment in family and social life, are beyond the influence of the public school.

THE UNIVERSITY'S CAREER. After the organization of the state government in 1858, the friends of the university pressed themselves to remove the burden of indebtedness of \$30,000 that lay with crushing weight upon it.

THE PRESIDENT ADDS TREE CHOPPING TO HIS OTHER ACCOMPLISHMENTS—Some Good Ax-work.

Washington, Jan. 22.—President Roosevelt has added tree chopping to his accomplishments. The Dutch Reformed church of which he is a member, has acquired some valuable property on the Tennytown Heights northwest of Georgetown, which is wooded.

THE LESSON OF THE COAL STRIKE. The corporations most essential to the public welfare are the life insurance companies. We can find a substitute for anthracite coal, but the security of our families is dependent on the continued soundness and good management of life insurance companies.
