PIANO RECITALS

An interesting affair of Saturday afternoon was the piano recital by the pupils of Mrs. George A. Henry which was given in the Hampshire Arms. The dining-room was hung with greens and holly wreaths were in the windows. Palms flanked the stage and the piano was a great cluster of pink and white roses. Many of Mrs. Henry's pupils who took part in the program were so small that their feet could not touch the floor, but they played their simple numbers with an earnestness and assurance that roused both admiration and amusement. Several pieces were loudly applauded. Nearly all of the numbers were played from memory and in a manner which showed Mrs. Henry's great skill as a teacher. Miss Mary Geeseman gave MacDowell's "Lullaby" and "The Vogrich's 'Staccato Caprice' with feeling and expression, and Miss Clara Hudson played Dennee's "Parantelle, Op. 28" in excellent style. Miss Alice Knapp's numbers were from MacDowell, "To a Water Lily" and "To a Wild Rose." Clifford Field gave a pleasing rendition of a singing composition, "The Garden," and played Reinhold's "At the Fountain." Frederick Porter Wheeler opened the program with the Lohengrin bridal chorus, and later Bohm's "Fairies Song," playing with easy grace and expression. Little Florence Moore gave "The Butterfly" by Lage; Alice Westley, "Summer Song"; Engelmann; Lewis Wheeler; Barrow; Kroszman; and "The Younger Children, Katherine Dwinell, Marjorie Kilgore, Frederick Wheeler and Lewis Barrow, also gave an original and interesting program. Miss Helen Wheeler played two of MacDowell's compositions, "Romance" and "Tartarella," and Miss Katherine Dwinell gave a beautiful rendition of "The Lullaby" by MacDowell. Miss Margaret Tucker a Lichner selection, and Miss Marguerite Sexton one of Wacks. The program closed with an eight-hand piece brilliantly played by Miss Helen Wheeler, Miss Margaret Tucker, Miss Katherine Dwinell and Agnes Yerxa. There was a large attendance of parents and friends who were enthusiastic in their praise of the efforts of the young musicians.

The Worst Kind of Poverty.

Though a man own neither houses nor land nor money, yet if he has an cultivated mind and a healthy body, and is able to appreciate the beauties of the world and enjoy his health, he has found the secret of success and happiness. What is money to the sick or blind, what is it to the man who has no mind to enjoy it? The worst poverty is a stunted mind in a sick body. This sort of poverty is overcome with golden grain beet beer, for it puts both body and mind in perfect condition. Health, exercise and golden grain beet beer with the meals will make any man healthy and happy.

REAL GIRL; REAL LIONS

They Come Together in the Play Soon to Be Staged by Ferris.

Manager Dick Ferris of the Lyceum theater completed arrangements for the morning of the presentation, next month, of a religious melodrama entitled, "The Prince of the World." The play has been taken from the Bible, and Pontius Pilate and Judas Iscariot are among the characters. An elaborate production will be given and from now on the Lyceum scene painters will be kept busy turning out scenic scenery.

One scene which has caused much comment shows a Christian girl thrown to the lions. The lions themselves will be the real attraction. Particular management arrangements to have two fine African lions sent on. What is more, a woman will, in reality, enter the very den in which the wild beasts are confined.

"The Prince of the World" was originally produced at Albany, N. Y., before an audience composed entirely of clergymen and students. The leading invitations were sent to every divine in the city to attend and more than a hundred of them did so. The management provided each ruler with a pair and general and each one to note anything in the play considered objectionable, fear having been expressed that the dramatist had gone too far in his religious fanaticism. Only one criticism was made, however, a Roman Catholic priest suggesting that the expression "the Nazarene" be substituted for "the Nazarene" in the text. This change was made and the play was heartily endorsed.

The Ferris stock company will be especially well prepared for the presentation, nine role having been entrusted to a well known actress who has appeared in it with great success elsewhere. This is an experimental return to the old traveling star system.

BURTON HOLMES COMES

He Gives Lectures on Sweden and Norway Next Friday and Saturday.

Those picturesque and highly interesting countries, Sweden and Norway, furnished by Burton Holmes, the travel lecturer, with topics for the two elaborate lectures he is to deliver in the New Century course at Plymouth church next Friday and Saturday nights. No one who has read Norse mythology, or heard of the Vikings or followed Gustavus Adolphus and Charles XII but has a desire to look same day upon the rough and rugged lands of the north, the land of old and the godlike men of later times. Mr. Holmes spent the summer of last year in Scandinavia and was amazed at the wealth of narrative, descriptive and scenic matter for the lectures he was planning.

Friday evening Mr. Holmes will take his numerous auditors to Sweden as well as to the other things the capital, Stockholm, the country and the canals. A feature of the lecture on Sweden will be a delightful account of a delightful trip to the islands of the archipelago with its lakes and rivers. Another feature will be a trip among the islands of the Baltic to the Godland port of Visby, with its superb walls and churches dating from the thirteenth century when Visby, the richest city of her times, was mistress of the commerce of the north.

In the Saturday evening lecture Mr. Holmes will take his audience on a trip into that strange, ghostly, northland of Norway, the land of the midnight sun.

It is not possible to say too much in praise of the wonderful illustrations of these lectures. The stationary illustrations in color, for which Mr. Holmes is so well known, will be much in evidence. Besides there will be many motion pictures and some of the most beautiful pictures which Mr. Holmes now brings to Minneapolis for the first time. The sale of seats for these lectures will begin Wednesday at the Metropolitan Music Store.

The Proverbial "Peck"

It is said that everybody "eats a peck of dirt." No one is anxious to get more than their share, yet a few people still buy soda crackers in bags.

Crackers sold from a can or barrel are likely to collect dust and other things in the cleanest of groceries. The store must be swept; boxes and barrels moved and the cracker box uncovered now and then for a thoughtless buyer.

If you don't want to eat a peck of dirt buy **Uneeda Biscuit** in the airtight, dust-proof, moisture proof In-er-seal Package with red and white seal. Baked and packed in perfect cleanliness they reach you in the same condition.

Whether bought at the general store in the country or at the great city grocery, they are equally fresh, and good, and wholesome.

You will naturally say, "If all these things are true about BORAX, why haven't we known them before?"

The reason is simply this. The peculiar properties of BORAX have been known to large manufacturers for years. They employ experts who have tested BORAX in the most exhaustive manner and have found it invaluable to them for many purposes. This has created a tremendous demand which has kept us so busy that we have not had time to make known to housekeepers facts which large manufacturers have proven for themselves.

Now we are going to take the time so that individuals may share the benefits of this expert experience.
