

THE MINNESOTA LEGISLATURE A HOME RULE PLAN FIGHT ON MATCHAN

Tighe's New Bill Provides Additional Restrictions on Bonded Debts of Cities. Senator Cooke of Wabasha, Would Prevent the Minneapolis Man's Confirmation.

The Special House Committee to Investigate Minnesota Fuel Conditions Is Named. He Brings Charges Dating Back to a Bank Failure in 1893.

(Additional legislative news on page 11.) PROCEEDINGS TO-DAY

SENATE—Senator McGill offers bill for state security, added by an appropriation of \$2,500. Senator Wilson offers amendments to the state barbers' examining board bill. The state will pay two-thirds of value of condemned cattle, if the Barker bill passes. The Wilson reciprocity resolution went over to Friday. HOUSE—Mr. Tighe offers a new municipal home rule bill, dealing with limitations on bonded indebtedness. Speaker names the fuel famine investigation committee. Mr. Dowling wants \$2,000 for the mother of triplets whose father has vanished. The public accounts committee was authorized to employ an expert on capitol commission books. The senate free lumber memorial went over till to-morrow.

Ambrose Tighe of St. Paul introduced another home rule bill in the house this morning to take the place of the bill presented earlier in the session. The new bill limits the powers of charter commissions regarding the bonded indebtedness permitted to cities. The maximum bonded indebtedness is fixed at 10 per cent of the assessed valuation of city property, but where the issue exceeds 5 per cent all propositions for additional bonds must be submitted to the people either at a special or general election. However, certificates of indebtedness issued to create a revolving fund for general municipal purposes, for bonds, bonds to fund indebtedness existing at the time the charter was adopted, and bonds issued for purchasing, extending or maintaining water or light plants or any income-producing public utility, do not come under these restrictions. This last exemption will enable cities to contract for lighting facilities. The bill provides for a three-fourths vote to adopt any charter submitted.

The Fuel Investigators. The speaker announced the committee to investigate the local fuel famine, as provided under the Jacoby resolution adopted last week. The committee is made up of one member from each congressional district as follows: First, Pehler; second, Hinton; third, Ole Peterson; fourth, Jacoby; fifth, H. J. H. H. Bouck; sixth, Bullison; eighth, Hugo; ninth, Hawley. For "The Mother of Triplets." A bill introduced by Mr. Dowling evoked a roar of laughter. The bill provides for an appropriation of \$2,000 for the mother of triplets some time ago, a feat which so startled her husband that he deserted her. An error in the wording of the bill caused the merriment. The passage reads: "for the relief of Mrs. Annie Nelson, the mother of triplets, now living, and whose ages are 16 months." The statement that Mrs. Nelson's husband was a small man, a triplets' nearest to strike the house as a huge joke. Mr. Lewis of Duluth introduced two bills, one for a school board of education to defray the cost of transportation of pupils in non-graded schools to graded schools in certain cities, and the other to place in St. Louis county, where the board desires to close several non-graded schools at which the attendance is small and at which it is possible for children to attend the nearest graded school. The committee on public accounts and expert accountants to audit the books of the state capitol commission. The committee on military affairs reported for passage the Bouck bill appropriating money for the maintenance of the camp grounds at Lake City and the buildings thereon. The committee on elections advised the passage of the Hinton bill providing for the printing of proposed constitutional amendments on separate ballots, when they are to be submitted to the voters at a general election.

Lumber Memorial Sidelacked. The joint memorial calling upon congress to place lumber on the free list, was sidetracked by Mr. Cole who suggested that logs should be included with lumber. Mr. Burns has introduced a memorial on the free list, but in the absence of definite information on the point the matter was printed until to-morrow. PRINTERS AT PEACE Agreement Made in the Printing Trades' Convention. New York Sun Special Service. Under an agreement ratified last night by the allied printing trades convention, peace is again restored in that branch of union labor. All trades in the "big city" of Chicago are to be under a general central body with power to settle all disputes which may arise. Each of the different orders will have an equal representation in the central body. Under the new arrangement the branch of the International Photo Engravers, which seceded from the International Typographical union a few years ago, is given control of all photo engravers. The photo engravers will be recognized by the national labor body and will have a right to use the label.

All Stuffed Up That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat. No wonder catarrh causes headache, inflames the taste, makes breathing painful, deranges the stomach and affects the appetite. To cure catarrh, treatment must be constitutional—alterative and tonic. I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial; but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since.—Eugene Forbes, Lebanon, Kan. Hood's Sarsaparilla Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.

A MORMON STORY THE MAXIMUM AND MINIMUM

Miss Dickinson Says She Was Urged to Enter "A Spiritual Marriage."

She Renounced the Church and Has Since Received Threatening Letters in the Young Case. Letters About It Should Be Sent to Senators Lodge or Hansbrough. From The Journal Bureau, Room 46, Post Building, Washington.

Washington, Jan. 28.—It is perhaps natural that the northwestern should look with suspicion upon an plan for tariff reform brought forward by members of either house of congress from New England. That section is strongly high tariff in sentiment and its attitude toward reciprocity treaties and proposals for tariff amendment of late years, has not been one to inspire confidence in other sections of the country. The Lodge resolution, looking to an investigation by the senate committee on finance during the coming summer of the merits of the maximum and minimum tariff plan, is a step which might well be thought out of the same bolt with other things done by New Englanders to prevent genuine tariff revision, or to postpone revising, but a careful study of the situation in Washington suggests that Senator Lodge should receive credit for some degree of sincerity. The terms of the resolution, which is something more than a mere study of the situation, are not so broad as to inspire confidence in other sections of the country. The resolution, looking to an investigation by the senate committee on finance during the coming summer of the merits of the maximum and minimum tariff plan, is a step which might well be thought out of the same bolt with other things done by New Englanders to prevent genuine tariff revision, or to postpone revising, but a careful study of the situation in Washington suggests that Senator Lodge should receive credit for some degree of sincerity. The terms of the resolution, which is something more than a mere study of the situation, are not so broad as to inspire confidence in other sections of the country.

EIGHT BODIES FOUND Another Terrible Wreck—Two Passenger Trains Collide in Arizona.

Tucson, Ariz., Jan. 28.—Passenger trains Nos. 8 and 9 collided here on when running at full speed near Tullis, fifteen miles west of Tucson at 3 a. m. The passenger cars were consumed, oil tanks spreading out, which flashed through the wreck like exploding powder. The engine and his fireman and another fireman were seriously injured. Eight bodies have been found. How many more will be known. A relief train with medical aid has just returned bringing several injured. The exact number of the injured is not known. The first known of the collision was the killing of the tourist car which broke loose from No. 9 and ran down grade to Tucson, where it was captured.

WINTER AND SUMMER Husband of 60 Seeks Divorce From His Wife of 20.

St. Paul, Minn., Jan. 28.—Cornelius Bauman of Washington county, who is about 60 years of age, has begun an action for a divorce from his wife, Clara, who is his junior by almost forty years. She is alleged to have deserted him. Fred Peterson of Minneapolis, has purchased the grocery store of Anderson, Dordfield at Withrow, Minn. Mr. and Mrs. M. L. Murphy returned last evening from a trip to California and other Pacific coast states. The Kegel Spielers won two of three games played last night with the Bon Amis in the Kenyon alley tournament. The Get-Cool convention is in session here and the Union Station and Transfer company, will on Feb. 1 become city ticket agents for the city.

CAPITAL CULLINGS Senator Quay obstructed business in the senate again yesterday with the stockhold bill.

Senator Quay obstructed business in the senate again yesterday with the stockhold bill. The Get-Cool convention is in session here and the Union Station and Transfer company, will on Feb. 1 become city ticket agents for the city. Everett Meeds, a young man of this city, was arrested yesterday on a charge of having opened a letter at Ortonville. The letter is said to have contained a check which Meeds endeavored to have cashed at the Ortonville bank. He was taken to St. Paul, but returned to-day, having furnished bonds.

MANKATO MAN HURT C. B. Hunt, Who Was Thrown from a Steep, May Be Internally Injured.

C. B. Hunt, who was thrown from a steep, may be internally injured. The Mankato man was hurt in a collision with a train. The train was carrying a load of cotton goods, and the collision resulted in the death of several people.

Basement price, per pair 25c.

Plymouth Clothing House, Corner Sixth and Nicollet. AWFUL RAH RAH BOY TIME Sophomore Class at the Utah State University is on a Strike. ANOTHER MURDER TRIAL Trial of Frank Bask for Killing Deputy Sheriff Hoffman Started at Park Rapids.

THOUGHTS IN THE AIR Dr. Parkhurst Suddenly Discovers Telepathy and Tells Us About It. NEW YORK SUN SPECIAL SERVICE. New York, Jan. 28.—Rev. Dr. Charles H. Parkhurst, in speaking of his recent remarks on telepathy, said that he had received numerous letters from persons who agreed with his views. Dr. Parkhurst said: "When we had a thought a few years ago which we wished to convey to a friend in Europe, we put it into a telegram in the form of a letter. Then, thanks to Cyrus Field, who was a member of my church, a fine electric cable was substituted for the steamer line. I am now thinking across the ocean by the aid of a medium a million times finer than wire. "By and by, probably, we shall be able to think across the water without going to the trouble and expense of setting up an apparatus at even the shore ends of the route. For telepathy is already a demonstrable fact. "There can be no doubt that two persons or even a greater number of persons, may communicate thought to one another without any material medium. From all we know now, such communication is limited to short distances, but that is no reason the distance should not be increased. "The fact that thought may be communicated from one brain to another without material connection is a vital fact to consider. Two men in the same room may communicate by telepathy, each to each, by telepathy, or whatever you may call it. This is well known, as is the fact that longer distances have been covered in the same way. How long will it be before we will be able to think across great distances is a mere matter of speculation at present, and great minds are giving much attention to the question."

Clean Up Prices. Our ladies' 50c and 60c warm Wool Slippers, now at \$1.25 warm 69c Wool slippers, including Juliet, 75c Misses' \$1.12, fanned lined, lace, 80c Children's 70c, warm, lined, lace and button, now 49c Misses' and Children's Storm Alaska, now 39c Misses' and Children's Buckle 39c Arctic, now 98c Home Trade Shoe Store 215-217 Nicollet
