Special to The Journal. White Earth Agency, Minn., Feb. 28.— United States Indian Agent Simon Michelet and his office force are making the long looked for stumpage payment. The agent will disburse \$22.000 in all, about \$50.000 of which has already been paid out.

The deputy United States marshal is making almost daily trips to the agency for either prisoners or witnesses. No serious trouble is expected, as Agent Michelet is confident he will be able to control affairs and punish all offenders. CHURCH IS GROWING

LIVED AS AN INSANE PAUPER Mrs. Melcher, Probably Sane All the Time

APPLETON, WIS .- Through an investi gation completed to-day by the Outagamie county board of supervisors and county court it has been proven that Mrs. Ryka Melcher of Black Creek, has been content to live for sixteen years as an al-leged insane pauper and her parents have been content to let her so appear, that the cost of her maintenance might be paid

by the county.
In July, 1887, Mrs. Melcher was examin county court and declared in-For some unexplained reason the court allowed her to return to her father's home, where she has remained since, the cost of her maintenance being paid by Outagamie county, though she has at all times been able to work and was to-day declared by a commission of physicians and the court to be mentally sound and presumably in that condition all the time.

The story of Mrs. Melcher's life is a peculiar one. Twenty-two years ago she was a servant in Appleton, and here met and married Peter Melcher. They removed to Black Creek, bought a farm, and by hard work and economy amassed a competence. Soon after their marriage Mrs. Melcher developed a severe sore throat, which grew rapidly worse until within a few years it became so bad that food had to be administered to her through a tube. At this time Melcher induced her to consent to a sale of the farm and took her to Cincinnati for treatment in a hospital. He paid her board in the taking their children disappeared and has never since been heard of. At the expiration of two months the authorities of the hospital sent her home to Black Creek. Upon her arrival application was at

once made to the authorities of the town for compensation for her maintenance, which was paid for a time, and then after two ineffectual attempts the woman was finally declared insane and the cost of her maintenance saddled upon the county. At none of the four examinations as to her sanity did she protest against being considered insane, and upon the last examination resulting in her sanity of satisfaction.
