Story of the
Eiker-Hoff Cure.

But a short time ago the entire scientific world, especially that portion of it devoted to medicine, was startled by the results reached by a physician of Vienna, Doctor Adolf Hoff, a man who had been trained in the best universities of Europe, and who had the ripe experience that comes of a large practice and of association with one of the largest and best equipped hospitals in the world. For years he had made a study of the respiratory organs of man, and particularly had sought to fathom the mysteries of consumption that he might be able to afford relief to suffering humanity.

The New York Journal heard of the wonderful cures effected by Professor Hoff and resolved to prove the matter for itself. That paper sent a consumptive abroad at its own expense to test this discovery and to prove to the world that consumption is curable. The patient was selected from one hundred other cases at New York's famous hospital, the Vanderbilt Clinic. The presence of tubercle bacilli was fully established by eminent bacteriologists. Placed under treatment by Professor Hoff, the world-renowned lung specialist of Vienna, six guinea pigs were inoculated with this patient's sputum. All of them developed tuberculosis and died.

After three months' treatment the Journal patient returned home completely cured.

Upon his return the New York Life Insurance Company issued a policy on his life. Later he married, and at this time the New York Journal, in an extended account of the ceremony, certified to his cure.

Full details of the cure, together with the prescription, were published in the New York Journal, and a history of the case was embodied in a paper read before the Tuberculosis Congress and the Medico-Legal Society of New York by Dr. Carleton Simon, the eminent lung specialist. Among the other distinguished physicians who have figured in this remarkable case of cure, and who were named in Dr. Simon's paper, are: Drs. Daniel Cook, J. Mount Bleyer, Henry P. Loomis, B. F. Cline and Henry T. Brooks, of New York City and Dr. Sylvester Willard and Dr. Henry Broadbent of London.

The Eiker-Hoff Cure is the outgrowth of this remarkable case. What it has accomplished is shown in part in the accompanying testimonials, and those that are handed out with the free trial bottles.

A more extraordinary feature of the Hoff Cure remains to be told. It is that in this marvelous discovery Professor Hoff built more wisely than he then knew. It has been found that his cure, while directed primarily against consumption, is just as efficacious and more prompt in its action in cases of Asthma, Catarrh and Bronchitis. The Eiker-Hoff Cure has demonstrated that his prescription is but the advance guard of Consumption, requiring but a few weeks at the most for their successful eradication. It has cured radically great numbers of people afflicted with these maladies, besides those suffering from coughs, colds, and other disorders of the breathing organs of the human body.

In carrying out the humane work inaugurated by Professor Hoff, the Eiker Drug Company would invite attention to the extreme reasonableness of price, but one dollar (\$1.00) per month, of the Eiker-Hoff Cure. In a large number of cases a one-month treatment effects a complete cure. Never before was a positive cure offered to the public for so small a charge, which places it within the reach of all classes of people.

However, the immediate purpose of this announcement is not to sell the Eiker-Hoff Cure, but to persuade readers to call at the address given and procure sample bottles in order to demonstrate for themselves the virtues of this remarkable remedy.

From New York Journal.

Hoff Cure From a
Scientific Standpoint.

Dr. Stoffella, the aged dean of the Vienna University Faculty of Medicine, the professor under whom Dr. Hoff studied, has written: "To Hoff belongs the credit of setting us to work internally acidum chymicum, suspended in his solution. Hitherto it has been used merely as an injection. Patients gain weight by the use of it. Other medicines, such as creosote, ruin the stomach; creosote makes patients lose appetite, produces nausea and causes them to vomit; it may help the lungs, but at the expense of everything else. The so-called inhalation cure is also a failure. I prescribe arsenic because it creates blood and kills fever."

Dr. Stoffella is one of the foremost physicians in the world. He has been for many years the head of the medical faculty of the University of Vienna, itself one of the greatest medical institutions in the world. Prizes from such a source is possible only when it is deserved in the highest degree.

1,200 Original Autograph Testimonials for Public Inspection.

TEN THOUSAND Trial Bottles of the Eiker-Hoff Cure have been placed at VOEGELI BROS.' DRUG STORE, corner Washington and Hennepin Avenues, for free distribution for three days only, one bottle to each applicant. There will also be placed on file at this store for public inspection, TWELVE HUNDRED (1,200) ORIGINAL AUTOGRAPH TESTIMONIALS, printed copies of which will be handed out with the free trial bottles. A remarkable feature of these 1,200 testimonials is, that each and every one of them is a voluntary and unsolicited contribution to the merits of the Eiker-Hoff Cure, all of them dated and received within the period of 4 months (300 of them in January alone) with full name, street and postoffice address given in every instance. They present the most extraordinary evidence of cures of Chronic cases of Consumption, Asthma, Bronchitis and Catarrh ever submitted to a suffering public.

THE EIKER-HOFF CURE is the latest and greatest discovery of Prof. Adolf Hoff, Vienna's world-famed lung specialist. It is a scientific preparation never before advertised, which, in the short space of six months and solely on merit, has attained widespread favor and unprecedented sale. It is not a patent medicine, but a non-secret preparation, manufactured under an open formula, given to the world for the benefit of suffering humanity. It is a clear, transparent and almost tasteless solution (prescribed in 6-drop doses) which does not derange, weaken, nauseate or affect the stomach. See that the "BULL'S EYE" trademark, "Seal of PROF. HOFF" and fac-simile signature of the EIKER DRUG CO. is on every bottle.
