THE MINNESOTA LEGISLATURE

'ANTI'S' ARE SUITED

House Has a New Health Bill Which Omits Compulsory Vaccination.

Fight on the Peachey Board of Control Bill Is Delayed.

The Fosseen public health bill, which had been made a special order for to-mor-row, but was recommitted to the health committee for amendment, was killed by the committee which reported to the house this morning a new bill in its stead. It differs from the original bill in several im-portant particulars. The compulsory vaccination clause is stricken out, as state board of health requested, and the bill will therefore have no opposition from the anti-vaccinationists. The section compelling counties to pay the cost of caring for contagious diseases is strick-en out, because the house has already before it the Deegan bill, dividing this expense equally between the county and the town. The state boardof health in the new bill is made appointive for fouryear terms, and the secretary is by the board as before. He serves for an indefinite period, until removed by a ma-jority vote of the board. Under the Fosseen bill, he could be removed only for

Board of Control Fight Delayed.

Once more the house was disappointed in the expected fight over the Peachey board of control bill, for the committee failed to report. Its friends were about to move to recall the bill from the com-mittee, but after a conference agreed to let it go until Friday, when the committee promises to make a report. Be-fore that time the committee will be called together, and there will be an ef-fort to change the report. Some of the mmittee are tired of being turned down house, and they want to send the bill out without recommendation. If this is done there will be no fight on the re-port, and by common consent the bill will be made a special order for Tuesday or Wednesday of next week.

Sam Peterson Gets Busy.

B. D. Peterson introduces his antichamber of commerce resolution in the house, this morning, but the matter went over under notice of debate by George W. Armstrong of Hennepin. The resow. Armstrong of Hennephi. The resolution instructs the speaker to appoint a committee of three to investigate busispent in hearing the arguments of the Senator Morgan added similar testicommittee of three to investigate business methods of the Minneapolis chamber. In the preamble Mr. Peterson states that the chamber makes a commission charge of one cent per bushel for all grain sold by its members and that members who cut rates are punished by being fined, the

Game Commission Inquiry.

Mr. Nyquist mapped out some trouble for the state game and fish commission. The commission has asked for an in-creased appropriation and the member from Blue Earth wants to know why. He 3 to 4 per cent, and adding the proviso accordingly secured the adoption of a accordingly secured the adoption of a resolution calling upon the commission to submit to the house within five days a detailed report of the conduct of the department, including the salaries paid, receipts from licenses, from the confiscation of game and other sources.

For Bobleter's Bondsmen.

S. D. Peterson introduced a bill appro priating \$22,000 for the relief of sureties of former State Treasurer Joseph Bob-leter who were obliged to pay that amount to the state for losses incurred in insolvent banks. The sureties are Mayor Robert A. Smith of St. Paul. Charles T. Mil-Edward N. Saunders and the William Dawson estate.

Abolishes Days of Grace. P. C. Deming of Minneapolis, sent up a

bill doing away with days of grace. bill was offered as a substitute for a similar measure, introduced early in the sion and was put upon general orders. To Curb the Ice Man.

A bill introduced by Lawrence H. John son of Minneapolis makes it a misde-meanor to cut or sell ice from lakes or ponds located within cities of 50,000 o more. A similar measure was introduced In the senate at the last special session signed to prevent the cutting of ice on Lake Calhoun, where icemen and sports men have had several clashes within the past few years. It went to the Hennepin, Ramsey and St. Louis delegations.

More Minneapolis Bonds.

The Hennepin delegation introduced a bill authorizing the issue of \$100,000 water works bonds by the city of Minneapolis The bonds are to bear interest at the rate of 31/2 per cent, and are to be paid within ten years, out of the sinking fund. Falled to Reconsider.

'An attempt was made to secure a re-consideration of Ole Peterson's bill, passed vesterday, which devotes all moneys paid tions. censes to the road and bridge fund. The motion to reconsider was lost, however, and opponents of the bill will now have

motion to reconsider was lost, however, and opponents of the bill will now have to fight it in the senate.

Loggers' Protests Heeded.

Lumbermen's protests against the sections in the forestry bill requiring them to burn "slashings" were heeded by the house forestry committee. The bill was reported back to-day with an amendment striking out the four sections which imposed the objectionable requirements. Another amendment raises the salary of General Andrews as chief fire warden from al Andrews as chief fire warden from

Bills Recommended to Pass. In committee of the whole the house

recommended for passage the following bills: By Mr. Lohren—Amending the primary election law, so that the polls in cities of less than 4,000 shall be open from 9 a. m. until 10 p. m.; in cities of more than 4,000 and less than 12,000 from 6 a. m. until 9 p. m. Provided that for municipal primary elections in cities of less than 4,000 for nominating candidates for city officers, the polls shall be open only until 5 o'clock.

By Senator Witherstine—Providing for the transportation and instruction of the pupils of

"Will-Power" Will Not Cure It. Drink is the greatest curse of mankind. Many a young man of greatest promise has found the dishonored grave of a drunkard instead of an honorable place in society.

a young man of greatest promise has found the dishonored grave of a drunkard instead of an honorable place in society.

Physicians have long recognized that continued indulgence in alcoholic stimulants causes the stomach and digestive organs to become diseased. In the vast majority of cases, therefore, habitual drunkenness is a physical disease, and no amount of mental resolve or "faith cure" will cure it.

"ORRINE" WILL POSITIVELY AND PERMARENTLY CURE THE DRINK HABIT. We guarantee this and will refund the money should the remedy fail. But it never does fail!

"ORRINE" is tasteless, odorless and coloriess, and can be given without the patient's knowledge in tea, coffee, water or milk. It tones up the diseased stomach and gives a hearty appetite and good digestion.

Members of the W. C. T. U., clergymen, physicians and public men all over the land endorse this wonderful remedy.

Bey Thos. C. Easton, D.D., 627 E. Capitol St., Washington, D. C., writes: "I can safely affirm, from cases under my personal observation, that ORRINE is a marvelous and permanent remedy for chronic inebrlates."

31 per box, 6 boxes for 35. Securely sealed; postpaid. Sealed booklet mailed free on request. Address ORRINE CO., Pope Building, Washington, D. C., or call on

VOEGELI BROS. DRUG CO. MINNEAPOLIS, MINN.

PROCEDINGS TO-DAY.

HOUSE-Taxes committee reports Fryberger gross earnings bill to pass as amended, and it is made a special order for next Wednesday afternoon Resolution passed calling for de-tailed statement of came and fish

commission receipts.
S. D. Peterson introduces his resolution for investigation of the Chamber of Commerce.
Bill introduced to tax grain in

Bill introduced to refund \$22,000 paid to state by bondsmen for Former Treasurer Bobleter.

Delegation introduces bill for \$100, 000 waterworks bonds.

SENATE— Mr. Laybourn Introduces a bill in the interest of fraternal beneficiary associations.

Mr. Buck introduces bill to prohibit adulteration of sorghum.

Mr. Coller introduces bill to create Insurance committee turned down and bill for referees in fire loss ad-justments is advanced.

n Lake Calhoun. Adjourned to Thursday, 10 a. m.

one school district in an adjoining district or districts. This bill is designed to promote a consolidation of small country schools. By Mr. Cole—To provide for sending official ballots to village and town clerks and certain election judges by registered mail or express. And for sending election returns to county auditor by registered mail.

By Mr. Sinclair—To create in cities of the state which now have or hereafter may have between 10,000 and 50,000 inhabitants a board of municipal works to define duties and powers of the board and to regulate its management. By Senator McGill—To increase the salary of the attorney general from \$3,500 to \$4,800 annually.

nnually.

By Mr. Ryder—To authorize owners of land

over which a public highway runs, leaving the owner's land on two sides of the highway, to construct a tunnel under the roadway to permit stock to pass freely through the tunnel from one side to the other.

By Mr. Johnson-Extending state aid to rural schools situated in independent school districts.

FRYBERGER BILL MODIFIED House Committee Favors 4 Per Cent Gross Earnings Tax.

Mr. Fryberger's gross earnings bill, various authors, the committee shook the in lieu of special assessments for public improvements. The members of the committee were inclined to favor this clause, but feared that it would arouse opposition and confuse the issue, making it harder

to pass the bill at the next election.

The bill as amended practically re-enacts the present law, raising the rate from increase, the railroad companies must pay the tax which they would be required to do under the present law. This provision was also in the Johnson-Shearer bill.

OPPOSED BY THE COUNTRY

Hugo Bill May Not Pass House-Minneapolis Interested. The Hugo bill, which obligates the

state to pay over to municipalities such funds as would be assessed against railroad corporations for local improvements were it not for the gross earnings tax, came up in the house at 2 o'clock p. m. as a special order. The measure is favored by delegations from the larger cities of the state but has enemies among the country members, whose I ocalities have nothing to gain by its passage. The bill is generally regarded as a just measure, but owing to country opposition it is doubtful if it can be passed.

In Minneapolis, for instance, the passage of the bill would enable the city to collect from the state money to pay the construction of a sidewalk adjoining the Milwaukee tracks on Washington avenue, an improvement long needed.
Mr. Hugo has agreed to an amendment which removes much of the opposition It provides that the state shall pay only half the expense of special improvements adjoining railroad property. The municipality must pay the other half. This willoperate to check extravagance on the part of cities and towns in drawing on

Ald for County Fairs.

the state fund.

The senate committee on towns and counties has recommended the passage of Senator Benson's bill authorizing ties to appropriate \$500 for aid in holding county fairs. Only such fair associations as are members of the State Agricultural society shall be entitled to such appropria-

Effort to Kill Morgan Bill.

A similar effort was made to kill the Morgan bill covering the same ground. Senator Laybourn argued that it was practically the same as the Somerville bill and there was no occasion for hav-ing both before the senate. Mr. Morgan objected. While the Somerville measure was a separate enactment, his was an amendment to the present law and was different in some particulars that might find favor among the senators. At any rate, in case the Somerville bill was knocked out, he wanted something in re-

So did the senate, for the minority re port, favoring the bill, was adopted by an overwheiming vote. E. Smith introduced a bill similar to that offered in the house to-day designed to prevent the cutting of ice at

Creates County Assessor.

A bill by Senator Coller creates the office of assessor in counties of less than 75,000 to be appointed by judge or judges of the district court. He is to appoint deputies and have general supervision of fixing valuations for purposes of taxation. A companion bill by the same author provides for boards of equalization in counties of less than 75.000, subject to the state board of equalization. The former bill is somewhat similar to the Schain bill providing for a county supervisor of assessments except that it abolishes elective town assessors.

For Pure Sorghum. The people of Minnesota are to have pure sorghum syrup, for Senator Buck presented a measure prohibiting the mixng of adulteration of amber cane or sorghum syrup with glucose or corn sugar syrup. In the case of such mixing, the casks or packages must labeled showing what substances have

Senator Somerville Is Angry. Senator Somerville is considerably exrcised over the publication in a morning paper of the details of a bill which he ontemplates introducing. He says he is not in the habit of advertising beforehand measures he draws. The bill, which the senator admits he has had under consideration, is designed to bar foreign corpor ations from doing business in Minnesota unless they establish an office in the state

and go on the same basis as home cor-Benefits Fraternal Orders.

Senator Laybourn presented a bill in hich fraternal beneficiary associations are defined as institutions of public charproperty of such organizations, including buildings, assets, dues and departion.

NEW SENATE BILLS.

insurance recommending the indefinite postponement of Senator Morgan's S. F. 61 and Senator Somerville's S. F. 116 providing for the appointment of referees by the district court in cases of controversy between insurance companies and the insured over losses by fire.

Senator Shaller presented a minority report recommending both measures for passage and immediately stirred up a hornet's nest.

Senator Calhoun charged that the measures were drawn in the interest of lawyers and were intended to increase litigation.

It would greatly increase the expenso of adjusting losses and would in consequence greatly hamper the settlement of small claims and place small merchants at a disadvantage.

Senator Somerville gave a brief resume of his bill and sought to show that it was eminently fair to both parties that the court should name the referees and that a simple method of taking an appeal should be provided.

Senator Schaller in forcible language described how completely the insurence work in the power of the insurance companies. The adjusters and were the paid gents and attorneys of the companies. The settlement of the provided with an arbitration tribunal also appointed by the insurance tons and statisfied with the adjustment he was confronted with an arbitration tribunal also appointed by the insurance to make and properly assessments. STRAIGHT FRONT CORSET

How to Crowd a "Middleweight" or "Welterweight" Lady Into Its Bondage.

New York Sun Special Service. New York, March 11.—Three heavyweights were the candidates for corset honors at the living model exhibition of the dressmakers' convention yesterday afternoon. A middleweight and a welterweight, what had previously assisted, were also called in for the sake of contrast and to further elucidate Miss Elizabeth White's arguments in favor of the straight front corset. Four models, each weighing in the neighborhood of 200 pounds, slipped out from behind the screen at a signal from Miss White, and after the audience had seen how they looked "before taking" the latter were privileged a few minutes later to see the effi-ciency of the treatment "after taking." Almost a tragedy occurred when, after working some twenty minutes to force forty-two-inch waist into a nineteen-inch corset, it was discovered that the mid-dleweight model had the lightweight's When this difficulty was ad-the show proceeded until the

AD BLOOD

\$1.25 values, Thursday, ea 980 bottle; regular 25c. Sale... 116

You have the most convincing evidence of this fact every day. Otherwise beautiful faces marred with black heads, blotches and pimples, muddy or sallow complexions, and red, rough or oily skins are some of the

most common and conspicuous symptoms of bad blood. You can hide these ugly and humiliating blemishes by glazing them over with face powders and rouge, and the rough and discolored skin is made white and smooth by a lavish use of cosmetics, but these artificial complexions and false skins only last for a day, when the eruptions and spots stand out as bare and brazen as ever. The natural beauty and smoothness of the skin cannot be permanently restored by the use of external applications, for the reason that these skin diseases are due to some poison or humor in the blood that must be antidoted and eliminated before the skin can or will return to a healthy state.

Under the purifying and tonic effects of S. S. S. all impurities are expelled from the blood, the general health is invigorated, and all disfiguring and annoying eruptions promptly and permanently disappear from the skin, and it becomes as soft and smooth as ever.

Bad blood tells in many other ways. Itching and burning eruptions, rashes and sores, boils and carbuncles show the presence of some irritating poison or unhealthy matter in the blood, and these aggravating troubles will continue until the weak and slow circulation has been quickened and the deteriorated blood made rich and strong

HER BEAUTY RESTORED.

When my daughter was three months old Eczems her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadcelebrated health springs, but received no benefit. Many patent medicines were taken, but without result, we decided to try S. S. S., and by the time the first bottle was finished, her head began to heal. A dozen bottles cured her completely and left her skin perfectly smooth. She is now twenty years old, and has a magnificent growth of hair. Not a sign of the dreadful disease has ever returned.

2814 Pine Street, St. Louis, Mo.

again. Some are born with bad blood, and it begins to tell in infancy; scrofulous affections, sore eyes, scalp diseases, nasal catarrh, stunted growth, brittle bones and soft, flabby muscles are some of the early manifestations of bad blood by inheritance. These symptoms, if neglected, may develop into some deep-seated and serious blood trouble later on in life, but the timely use of S. S. S. will check the disease in its incipiency, remove all taint from the circulation, and the little sufferers grow into healthy manhood and womanhood.

When the blood is healthy and pure it tells a different story, a smooth and flawless skin glowing with health, a sound body and active brain, well nourished system, good appetite and digestion, and restful and refreshing sleep. S. S. S., combining both purifying and tonic properties, contains all that you need in the way of a blood builder and skin beautifier.

S. S. S. is Nature's Remedy. It contains no Arsenic. Potash, or other mineral, but is strictly a vegetable blood purifier and tonic that can be taken without fear of any hurtful effects, and with perfect assurance of a speedy and lasting cure. Our illustrated book on the Skin and its Diseases contains much plain and practical information about eruptive diseases, their cause and cure, how to take care of the skin, etc., that will be of inestimable value to all sufferers. We will mail you a copy free.

Write us about your case and our physicians will gladly furnish any information or advice desired without charge. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA
