

MR. SETON IS SORE MORGAN AND THE CLUB

Naturalist John Burroughs, Once His Friend, Holds Him Up as a "Sham."

He Refuses to Reply in Kind and Still Insists Animals Reason and Talk.

Special to The Journal.
Milwaukee, March 11.—Ernest Thompson Seton, whom John Burroughs, the famous naturalist, recently denounced as a sham in the Atlantic Monthly, said today that the attack was unjust. "I have not seen the article," he said, "and do not want to, and further than to deny the accusations Burroughs makes. I do not wish to discuss the question. The attack is very unpleasant to me and unfair, and I cannot understand it. Mr. Burroughs and I used to be friends and the sudden change is beyond me. I know nothing about the particulars of the attack and I do not care to investigate them."

When told that Mr. Burroughs said that it was untrue and absurd that a fox sought safety from a pack of hounds by jumping upon the back of a sheep, riding several hundred yards, Mr. Seton said he had nothing to say.

Mr. Burroughs also said in his article that it was all a sham to think that a fox or a skunk reasons, or that these animals use miraculously analytical strategy, or that a bear philosophizes soulfully.

He also says that animals Seton has shown have been known by none else and that Seton so deftly blends fact and fiction that only a real woodsman can separate them, and that he has been palming off a lot of ridiculous statements. Mr. Seton insists, however, that wild animals reason and talk.

SUGAR PLANT CLOSED

Rumor That It Is Sold to the Trust Denied.

San Francisco, March 11.—The fine, large cane and beet sugar refining plant of the California & Hawaii Sugar company at Hockett, near this city, is to be shut down to-morrow indefinitely. This means that between 300 and 400 men will be out of employment.

The Chronicle says that on the best of authority it is stated that the plant has been bought by the Spreckles Refining company for the sugar trust. R. F. Rihet, the president of the California & Hawaii company, denies that it has sold out to the trust.

CAPITAL CULLINGS

The Pan-American railway is again under discussion.

Castro's blockade of the Orinoco river is causing the diplomats worry.

The Northwestern National bank of Minneapolis, and the International bank of New York, have been approved as reserve agents for the Farmers National bank of Minnesota.

Matthew F. Meled and Anton Sanders have been appointed carriers on the rural routes at Anckerly, Minn., and Robert H. H. and Christ Sanders substitutes. Thomas F. Welliver and Timothy O'Brien are regular substitutes on the rural route at Murdock, Minn., and William A. Strand regular and George Hanson substitute on the route at Penock, Minn.

Sick and Helpless Come Unto Me.

I Have Discovered the Marvelous Secret of Life and I Give It Free to You.

My Mission on Earth Is to Heal the Sick and Cure the Maimed—Come Unto Me and I Will Give You Health and Life and Youth.

My Vital Life Fluid, the Most Marvelous Compound Ever Discovered, I Send to You Free for the Asking.

I have discovered the marvelous secret of life and I can make you live, for I can make you well, no matter what your sickness; I can make you strong and well, no matter how weak or crippled you are. With my Vital Life Fluid, the secret of which is known only to me, I cure every known ailment of the human flesh. Cripples throw down their crutches and walk away.

He Has Discovered the "Secret of Life" for He Cures All Disease With His Marvelous Vital Life Fluid.

well and happy; the sick take up their beds and walk. There is no ill or ailment under the sun which my marvelous Vital Life Fluid will not banish, and it restores to the perfect bloom of health every poor and unfortunate sufferer.

I do not seek to demonstrate a theory. I have no time for that, for I am accomplishing facts. I am curing thousands who had given up all hope of life. I am bringing joy and happiness into hundreds of homes. I cure you from kidney and liver disease, lung and stomach or heart trouble, consumption, constipation, rheumatism, neuralgia, blood and skin diseases, catarrh, bronchitis, paralysis, diabetes, lost vitality, nervous debility, insomnia, blood poison, anemia, female weakness and ailments, eczema or salt rheum, headaches, backache, nervousness, faints, coughs, colds, asthma or any disease or weakness of the vital organs, come unto me and I will cure you and make you well.

The wicked may scoff and cry "fake," but the people whom I have snatched from the very jaws of death and lifted up and given strength and health are living witnesses to the everlasting power of my marvelous Vital Life Fluid. To me diseases are alike. It matters not how long you have been afflicted; it matters not how hopeless and helpless you may be; it matters not what doctors have said or what remedies have failed to cure you; it matters not whether you have faith, or if you will perform its miracles, I have brought them back to life and none need doubt, for I will send to every sufferer some of my priceless Vital Life Fluid absolutely free.

That is my duty, and it will perform its miracles, I assure every person who writes me, whether they are rich or poor, a prompt and courteous answer and enough of my precious Vital Life Fluid free to continue them. I have truly discovered the secret of long life and perfect health.

Condition of the Two Treaties Now "Under Consideration" in That August Body.

From The Journal Bureau, Room 45, Post Building, Washington.
Washington, March 11.—Senator Morgan, while he has gained some support from the new democratic senators, lacks the one-third necessary to defeat the treaty. Most of the democrats under the lead of Gorman will support Morgan's amendments, but when these are rejected, as they will be by the solid republican majority, the democrats will fall in line with the exception of a small personal following of Morgan's, and ratify the treaty.

Mr. Morgan's offer to consent to a vote on Saturday provides the seal of secrecy be removed from his speech, has been met by the counter proposition that Mr. Cullom be authorized to prepare and make public a statement of his views, representing the republican position. It is moreover proposed that certain parts of Morgan's speech reflecting on the integrity and good faith of Colombia, be omitted from the version of it to be given publicly. This is not what Morgan wants. His speech arraigns Colombia as a weak and corrupt nation, and the democratic associates said this morning, in speaking of the negotiations:

"Poor and weak as Colombia is, she would come up here and fight us if we should officially make public what Morgan has said about her."

It is assumed that this is Morgan's reason for proposing these terms of surrender; the treaty is yet to be ratified by Colombia, and he doubtless thinks he can say things so repugnant to her as to make ratification at that end impossible. Many of the republican senators wish that the terms of the treaty reposed authority more completely in American hands, but they take the state department view that this is the best that can be had. Morgan is fighting in his last ditch.

Representative Hepburn of Iowa, who has long been the Nicaraguan leader in the house, regards the battle between the routes as over, and expects to see the great American ditch constructed at Panama.

The Cuban Treaty.
Little thought has been given to the Cuban treaty, which will come up as soon as Panama is out of the way. The weak point in the Cuban treaty is that nobody in the senate is extremely eager for it, while the latent opposition is considerable. It is too early to predict that this combination means failure, for the administration is very earnest and the republican majority very large. These senators who incline to press hardest for it, in deference to the wishes of the administration, are embarrassed by other reciprocity treaties which they would not like to have the best sugar senators take up in good natured retaliation.

London and Liverpool exporters object to the inside track which the treaty would give manufacturers in the trade of the island. American manufacturers have not yet accustomed themselves to fighting for an export market, or to the pressure to bear on congress for the preservation of one. If they had, the movement here in behalf of this treaty would be as vigorous as that in England is against it.

MORGAN WASTING TIME

He Has the Spooner Act Attached to the Treaty.

Washington, March 11.—Senator Morgan yesterday secured the first material concession in connection with the Panama treaty. This consisted of an agreement to attach the Spooner canal act bodily to the treaty.

Mr. Daniel expressed the opinion that as the Panama treaty, which the attachment of a copy of the act, that attachment was necessary to preserve the terms of the document intact. Senator Morgan contended that without this attachment the treaty was absolutely invalid. Senators Teller and Hoar took the opposite view, urging that as the act was in existence and of record in the statutes of the United States, the attachment was of no consequence whatever. Senator Lodge, however, suggested that no injury could result from the attachment of the act, and unanimous consent was given. It was expressly stipulated, however, that this concession did not mean any amendment of the treaty.

Senator Morgan consumed the remainder of the closed session discussing the canal question, going over much ground he already had covered. Most of his speech was written, when Senator Cullom asked if the speech he was reading was new or old, he replied with manifest vexation that it was new, adding that he did not have to repeat his addresses.

There was more or less discussion of the proposal to permit Senator Morgan to publish his remarks in the Congressional Record, but there was no effort to reach a conclusion.

A VALUABLE PIECE OF LOOT.

San Francisco, March 11.—A valuable piece of jade looted from Peking during the Boxer trouble has been found by customs officers in the baggage of an army captain whose identity is not disclosed. The jade is valued at \$2,400. The inscription on it was written 200 years ago and was a tribute from the reigning emperor to his predecessor. The army captain claims to have purchased it in China for \$50.

TOLD IN A LINE

Peking.—The governor of Chi-li province is beheading Boxers.

Manila.—William Crozier, editor of the American, arrested for libeling General Davis, has been convicted.

St. Louis.—Heart disease, brought on by seeing robbers beat his aged father, terminated fatally for Julia Bolonnen, 18 years old.

New York.—The sickness on the Anchor Line steamer Karamania is suspected to have been cholera. Passengers, 235 in number, are held.

New York.—J. Hobart Herrick, former president of the Produce Exchange, was perhaps fatally injured when he fell from a balcony late last night by falling down a stairway.

San Francisco.—A force of men has gone to Mill Rock, at the entrance to the Golden Gate, and began the work of preparing for the erection of a lighthouse on the jagged peak.

Ostersund, Sweden.—The Slange copper fields, which extend many miles on both sides of the border between Sweden and Norway, have been sold to an American company for \$500,000.

Chicago.—It is rumored that Miss Lulu Kerr, daughter of William R. Kerr, former alderman, is about to marry Daniel W. Kaufman, of Marquette, Mich., a millionaire copper miner.

Chicago.—The trustees of Northwestern university have requested President James to make them a formal report upon the desirability of shortening the college course from four to two years.

Vienna.—The distress in Dalmatia is so severe that the people in parts of that province are reported to be subsisting on the bark of trees and on wild herbs. A committee has been formed in Vienna to raise funds for relief.

San Francisco.—The general committee of management of the G. A. R. has sent to President Roosevelt an invitation to attend the thirty-seventh annual national encampment of the order to be held in this city next August.

San Francisco.—Colonel John William Hall, of the diocese of Sacramento, is to be placed on trial in San Francisco, April 22, to determine whether or not he was guilty of the murder of Dr. William Bickard, of Vallejo.

Boston.—Rev. William Fickard, of the Charles Street Baptist church, has demanded an investigation of the murder of Perry's treatment in the jail hospital. The church is determined to determine whether or not death was due to natural causes.

Colorado Springs, Col.—Governor James H. Peabody is expected in Colorado Springs this afternoon to investigate for himself the strike conditions in the coal fields. He is expected to determine the strike headquarters have been withdrawn.

Detroit, Mich.—The democratic state judicial convention nominated Judge George L. Yapple to succeed Judge Frank A. Hooker. For request of the state university, Wellington B. Burr and Willis J. Abbott were nominated. The national platform was "pledged."

New York.—Detectives at the West Thirtieth street station are mystified over the finding of the body of a young white woman lying at the foot of the stairs leading to a billiard room owned and patronized by negroes, on the second floor of 104 Thirtieth street. Fifteen colored men were taken to the station-house and four of them were locked up.

ALL DRUGGISTS

To Men Whose Strength Is Gone.

Dyspeptics, men with varicose, vital weakness, nervous debility: You can be cured by Dr. McLaughlin's Electric Belt.

IT RESTORES MANHOOD.

Give me a man broken down from excesses, or from the result of early mistakes—one of those men who have lost vitality—and I will make him feel like a youth of 20 within a month. How? You ask. Simply by pumping a vital stream of electricity into his body in the right way while he is sleeping. It does wonders in a few applications. It arouses all the dormant energies, develops muscular and nerve life, and restores that feeling of youth, courage and manhood. It makes men over; it makes men of the puniest, weakest specimens of "half men."

C. Johnson, Minneapolis, Minn., writes: "Dear Sir—I consider your Belt is the greatest remedy for nerve exhaustion that there is in the world."

The failure of medicine, or quacks, and even of other so-called electric belts, is no argument against Dr. McLaughlin's Electric Belt. No other treatment, no other belt, is in the same class with it. Everything else may fail, but Dr. McLaughlin's will cure. It HAS cured thousands who tried other remedies without success. I give a test free to all who call. If you men over; it makes men of the puniest, weakest specimens of "half men."

Illustrated book with full information free. Call or write now. Don't delay.

W. L. Douglas 7% Stock

SAFEST INVESTMENT IN AMERICA.

Less than \$250,000 of the issue of \$1,000,000 Preferred 7% Stock of the W. L. Douglas Shoe Co. of Brockton, Mass., Remains for Sale in Lots of One Share or More. If you want some of this Gift-Edge Stock You Must Act Quickly. Stock Pays 7% Annual Dividends. Payable Semi-Annually.

SHARES ARE FULL PAID AND NON-ASSESSABLE.

Sold at Par (\$100.00) One Hundred Dollars Each.

The reason I am offering this stock for sale is solely to perpetuate the business. I am offering the safest 7 per cent investment in America. I retain a one-half interest in the business, my interest being represented by the common stock. Not a single dollar's worth of watered stock is offered to the public. The W. L. Douglas Shoe Co. is a successful corporation, probably the most successful of a money-making standpoint of any shoe concern in this country.

The property of the company is absolutely free from encumbrance of any sort, and it has sufficient cash capital to conduct a business of \$7,000,000 a year.

The W. L. Douglas Shoe Co. owns and operates at Brockton, Mass., the largest Goodyear welt (hand-sewed process) plant and makes more shoes of this kind than any other manufacturer in the world. In 46 of the principal American cities in the country, the W. L. Douglas Shoe Co. has 46 retail shoe stores.

Every one of the contributors to the net profits of the business. The company also sells its product to retail shoe dealers in towns and cities where it has no store. The Douglas business has been prosperous for more than 25 years.

In four years the business has more than doubled. The net cash earnings available for the payment of dividends in the year 1902 were sufficient to pay 7 per cent dividend on more than \$4,000,000. There has not been a year in the past twelve that this business has not earned much more money than an amount necessary to pay 7 per cent dividend on \$1,000,000.

The capitalization of the company is but \$2,000,000. This is divided into 1,000,000 preferred stock and 1,000,000 common stock. Only the preferred stock is offered for sale. Behind the preferred stock is \$1,000,000 of actual, tangible assets. I cannot receive one cent of dividend until the 7 per cent has been paid to preferred stockholders.

The business is now, and has been for several years, managed by a Board of Directors composed of capable business men. If you are a careful, conservative investor—one who will be satisfied with a safe and permanent 7 per cent investment—you should buy this stock to-day while it can be secured at par—one hundred dollars per share. This 7 per cent preferred stock will bring a premium of \$5 per share within two years' time.

This stock is in the nature of a first mortgage on all the present assets of the company or assets it may in the future accumulate. No bonds or mortgages can be placed on the property of the company to lessen the security of the preferred stockholders.

There is no better investment in the country now available to the public. Large blocks of this stock have been sold to careful business men. I have also sold many single shares to working people and persons who have small amounts of money in savings banks. This is a good investment for the large investor, and it is equally as good for the workingman and small investor.

All stock sold this month will receive the full six months' dividend the first day of next July.

The most searching investigation of all the books, papers and records of the W. L. Douglas Shoe Co. is invited, and every facility will be afforded any prospective investor or his representative who may come to the corporation's office at Brockton.

W. L. DOUGLAS.

How to get this 7% Preferred Stock.

You can get one or more shares of this 7 per cent Preferred stock at once by sending cash, certified check, cashier's check, express or postoffice money order to W. L. Douglas, Brockton, Mass.

30-DAY OPTION CERTIFICATE

In order to give plenty of time and opportunity for investigation, 30-day option certificates are being issued. To secure one of these option certificates, fill out the coupon below, stating the number of shares desired, giving your name and address. On receiving this coupon I will send you an option certificate good for 30 days, and convincing information. This entails no obligation on your part. Out the coupon, secure the 30-day option first and do your investigating afterwards.

W. L. DOUGLAS, Brockton, Mass.
Please enclose prospectus of the W. L. Douglas Shoe Company and special option certificate sending me to purchase within thirty days.
