perhangers' union, repudiates Health Commissioner P. M. Hall's assertion that the union is seeking to boost its business in asking that an ordinance be enacted requiring property owners to scrap and repair the interior walls of all houses in which contagious diseases have existed. Mr. Frye says that the need of such an ordinance in the interest of public health delphia and New York, and that it is no more an infringement on personal lib-erty than compulsory vaccination. Disgerms, he says, are constantly being bred in houses whose walls are covered with many layers of filthy paper.
