HEAVY IMMIGRATION

Current Figures Will Approach The Loss on the Exclusive Resort of Closely Those for Record Year, 1882.

Sweden Contribute in the Order Named.

Washington, April 28.-Immigration figures for the fiscal year 1903 seem likely to surpass those of any preceding year except 1882. The figures of the bureau of immigration furnished to the bureau of statistics for its monthly publication, Commerce and Finance, show that the total immigration into the United States for the nine months ending with March, 1903, was 494,425, against 370,575 for the corresponding months of last year. This makes it almost certain that the total immigration into the United States for the fiscal year which ends sixty days hence will exceed that of any preceding year except 1882, in which the total was 788,992.

Italy supplied the largest number of im-migrants in the nine months ending with March last, the total from Italy (including Sicily and Sardinia) being 129,800. The next largest number considered by nationality was from Austria-Hungary, 123,234; and third in rank, Russia (including Finland), 81,731. Sweden ranked fourth, 25,-080; Germany, 23,482; Ireland, 16,930; Japan, 15,185; England, 14,621; Norway, 11,-136; and Rumania, 7,358.

The table which follows shows the total

number of immigrants into the United States from each of the principal countries in the fiscal years 1872, 1882, 1892 and

The World's Greatest Skin Torture

with Eczema It's the Only Thing Some Folks

Have Left When They Die

THE ONLY INFALLIBLE CURE IS CUTICURA

It is in the treatment of this most distressing of torturing and disfiguring skin and scalp humours, with loss of hair, that the Cuticura remedies have achieved their greatest success. Original in composition, scientifically com-

pounded, absolutely pure, unchangeable in any climate, always ready, and agreeable to the most delicate, they present to those suffering from Eczema the most successful curative of modern times. We know that this will be considered strong language by those acquainted with the character and obstinacy of the disease under consideration, but it is justified by innumerable successes where all the remedies and methods in vogue have failed to cure, and, in many cases, to

relieve, even. The first step in the treatment of the chronic forms is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. The scalp, ears, elbows, hands, ankles and feet will require frequently a thorough soaking in order to penetrate the thickened skin and crusts with which these parts are often covered. Dry carefully, and apply Cuticura Ointment, lightly at first, and where advisable spread it on pieces of soft cloth and bind in piece. Take the Resolvent, pills or liquid, in medium doses. Do not use cold water in bath-

ng, and avoid cold, raw winds. Sold throughout the world. Cutieura Resolvent, Se, in form of Checolate Coated Pilis, 26c, per vis 0 69, hantment, 50c, Soap, 25c. Helena's Rich Men Is \$200,000.

Italy, Austria-Hungary, Russia and Firebugs, 'Tis Said, Had Made Several Attempts Before to Burn the Building.

Special to The Journal.

Helena, Mont., April 28.—Charred walls alone remain to mark the spot once occu-pled by the most exclusive club in the northwest. Fire of undoubted incendiary origin started after midnight and de-stroyed the Montana club, located at Sixth avenue and Fuller street, in the heart of the business section.

There was absolutely no water for fire purposes until the blaze had gained unconquerable headway and when it was secured the firemen were compelled to use it for the protection of two large department stores and the postoffice building. A stiff wind was blowing and the sparks were carried for blocks. A mixed rain and snow storm had prevailed all the evening, which fact saved most of the business section of the town.

Several blocks caught fire, but the flames were extinguished before they had gained any headway. The loss is estimated at \$200,000, partly insured.

Within two weeks three attempts have

been made to burn the structure which was magnificently furnished and in the banquet rooms of which have been entertained all the dignitaries visiting Mon-tana. The club had a very large member-ship and because of the wealth represented it is believed it will be rebuilt.

The building is believed to have been set

on fire by discharged employes. No cas-ualties occurred, but there were several narrow escapes.

THEY PRACTICE BIGAMY

Chicago Lithuanians Told That the Law Permits Them a New Wife at Pleasure.

Chicago, April 28.-A startling state of affairs is said to exist in the Lithuanian colony on the West Side. Revelations made in the Maxwell street police court resterday caused Justice Sabath to order

a rigid investigation. According to the evidence given to him, many Lithuanian residents of Chicago are innocently living as bigamists. The law of the country has been misrepresented to them, and they have been led to believe that a marriage in the United States exists only six months. After that period, hey have been informed, married couples are at liberty to separate and to remarry without securing divorce. According to statements made to Justice Sabath, many such persons are living in the Lithuanian colony on the West Side as bigamists be-cause of the representations made to them and because of their ignorance of the law. The revelations resulted when Anton Kovansky and Mary Colukous were taken into court and charged with bigamy.

Mr. Colukous, father of the woman, made the charge that Kovansky has three wives living, but this the defendant denied.

nied. He admitted, however, that he has a wife and child in the old country. The woman also admitted that she was married, but both insisted that this fact and been made known to Justice Murphy efore he performed the ceremony

before he performed the ceremony.

"We told him we were married," declared Kovansky. "We were told by our friends that the law in America was different from that in the old country, and after six months of married life we were at liberty to part and remarry.

At this point the magistrate was told of the serious state of affairs which is said

War Department Experts Test the New McLean Weapon.

Cleveland, April 27 .- A committee from the war department at Washington, com-posed of Captain Gibson, recorder of the board of ordnance and fortification; Major Pratt and Major McCombe of the artillery board, and G. H. Powell, clerk of the board, witnessed a test of the McLean guns in this city to-day. The tests were made by sample guns for the army. The results are said to have been satisfactory to the officers. The one-pounder machine gun was fired into the lake and showed Many Infants are Born a speed of over 300 shots per minute. The recoil of these guns was so controlled that at a range of three miles the shots struck the water so closely bunched that all would have hit a rowboat.
