

suffer considerably, altho I am much stronger than a few weeks ago. This morning, however, the former mayor looked refreshed and ready for the fray and showed every evidence of confidence in the ultimate outcome of the proceedings.

The work of examining jurors was resumed promptly upon the appearance of Judge Elliott. Andrew Esby, a teamster of Wayzata, was the first man called, and when challenged for general disqualification, was promptly excused upon the state's admission.

Louis H. Erickson, a salesman for the Lyons Clothing company, admitted that he had a preconceived opinion as to the guilt or innocence of the defendant and was promptly excused. Charles R. Vaughn, a contractor, was found to have had business relations with County Attorney Boardman and also admitted that he had opinions which would prevent him from being an impartial juror.

Why I thought you said you were from Massachusetts? A ripple of merriment was occasioned and the venireman was excused. Charles H. Van Buskirk, a carpenter, 20 years old, swore that evidence would be required to change the opinion he had previously formed and the defense's challenge was found true by the triers.

A venireman apparently to the liking of the defense was found in L. J. Humphrey of Richfield. He was passed by Mr. Erwin and Mr. Boardman proceeded to institute a searching examination which resulted in the discovery that the venireman had a decided opinion. He was excused. Emil H. Busse, a cigar dealer, was passed by the defense but the state's challenge was later admitted and the man excused.

Charles O. Nelson was excused for implied bias. Samuel J. Austin was excused after a dozen questions. The ninth juror was Fred A. Cutler, a dealer in mortgage loans and the metemorphosis of his election caused much amusement to the attorneys and spectators, but evidently was regarded with little favor by the juror himself.

After a few preliminary questions Mr. Cutler was passed by the defense. A conference of the state's lawyers followed, at the end of which Mr. Boardman remarked: "We have no objection to the juror if satisfactory," and the venireman was sworn amid general laughter caused partially, at least by the juror's remark to the effect that he had no run for his white ally and he would have liked a chance to tell of his opinions.

Then came and were excused in rapid succession, William Ray, a Richfield farmer. Ernest S. Benschaw, John E. Malmsten, James Newhouse and Charles S. Sewell. Crime of Being Young.

Charles E. Sampson of Excelsior was next called. "He's a young man," whispered Mr. Nye to his colleague, and thereupon proceeded to put the young man thru an examination which would have rattled a less shrewd youth. His answers were of such a nature, however, that the defense related and fins or his challenge. Mr. Boardman had no objections, and Mr. Sampson was sworn.

The challenge of George W. Curtis of Champlin, was also overruled. Fred Emholz, a farmer of Maple Grove, under a quiz by Mr. Boardman made statements resulting in his being excused. State Uses a Peremptory.

Byron P. Jones, sworn and being passed by the defense, stated, in reply to Mr. Boardman's questions, that he had had some business dealings with Mrs. Ames, and that he did not think these dealings or his received opinions would affect him if sworn as a juror. The state's challenge was submitted to the triers and found not true. The state used a peremptory and Mr. Jones withdrew.

SIX SECURED YESTERDAY Eight Jurors Had Been Sworn Up to Last Night. Within the space of an hour and a half late yesterday afternoon two more jurors were selected in the Ames case. The last two men named were Charles F. Peterson, a carpenter living at 111 Twenty-sixth and avenue N, and Frank De Camp, a farmer from Maple Plain. This completed two-thirds of the jury and the eight men were locked up for the night.

The selection of Mr. De Camp was unique in that the challenge in his case was submitted to the triers and was the first one to be found not true by them. The venireman admitted that he knew Dr. W. E. Rockford, the defendant's son-in-law, and that he had an impression concerning the guilt or innocence of the accused, but that he would be able to lay this aside and make a fair and impartial juror.

Other men examined yesterday and excused on account of their preconceived impressions or opinions, were as follows: John A. Wallford, Charles H. Wallace, E. K. Henry, William E. Loeffler of Greenwood, Leander D. Lullmer, W. C. Scott, Edward L. Rust of Robbinsdale, Arthur L. Gross, Edward E. Brown, John F. Hyland, Benjamin H. Gilbert, Samuel E. King, George W. Alford, Alfred Hawkins, Joseph Becker, John M. Igle, Oliver Brigham of Brooklyn. Up to the time of adjournment last night sixty-two veniremen had been examined and fifty-four rejected.

QUARRELED OVER THE COOK John Bishop Shot and Killed at Buffalo Hump. Special to The Journal. Spokane, Wash., April 29.—George Ash shot and killed John Bishop at the mining camp of Buffalo Hump, Idaho, using a 30-caliber Winchester. They quarreled over a woman cook. Ash, a hotel proprietor, demanded a business settlement. Bishop replied, "I'll settle you," starting upstairs as if for a weapon. Bishop refused to stop, Ash fired the bullet penetrating the heart and causing instant death.

Spring Humors Come to most people and cause many troubles,—pimples, boils and other eruptions, besides loss of appetite, that tired feeling, fits of biliousness, indigestion and headache. The sooner one gets rid of them the better, and the way to get rid of them and to build up the system that has suffered from them is to take Hood's Sarsaparilla and Pills.

Hood's Sarsaparilla and Pills Forming in combination the Spring Medicine par excellence, of unequalled strength in purifying the blood as shown by unequalled, radical and permanent cures of Scrofula, Salt Rheum, Scald Head, Soils, Pimples, All Kinds of Humor, Psoriasis, Blood Poisoning, Rheumatism, Catarrh, Dyspepsia, Etc. Accept no substitute, but be sure to get Hood's, and get it today.

REAL WINTER FELT GOOD-BY TO IOWA

A Genuine Blizzard Is Raging at the Head of the Great Lakes. Sleet and Snow Storm in Nebraska and South Dakota Will Do Damage.

Special to The Journal. Superior, Wis., April 29.—Probably the biggest blizzard of the season is raging in Superior to-day. The wind is the heaviest that has been accompanied by snow since last fall.

Street traffic has been interfered with all morning and pedestrians are stopped altogether. The wind is from the northeast and is accompanied by a hard, biting sleet that cuts deep.

Duluth, Minn., April 29.—Duluth is experiencing a heavy, blustering snowstorm following several days of warm spring weather. It commenced to rain last evening, turning to snow early this morning. The storm increased during the forenoon and several inches of snow have fallen, drifting considerably.

NEBRASKA AND SOUTH DAKOTA Snowstorm Is Traveling Eastward, and Strikes Sioux City. Special to The Journal. Sioux City, Iowa, April 29.—A severe sleet storm in Nebraska and South Dakota last night and this morning out of these states largely from telegraphic or telephonic communication. The companies accepted no business for those states from here up till noon.

In South Dakota the sleet was followed by a brisk snowstorm, which struck Sioux City, noon. Trees are coated with ice and damage must result to fruit trees, which are on the verge of blossoming.

South Dakota crops will not suffer until late this spring and is not far enough out of the ground to be seriously injured by snow or ice.

In North Dakota snow will be generally beneficial to crops. The ice coating on the wires of the traction company here tied up the service until the middle of the forenoon.

WILL BE COLD TO-NIGHT Weather Bureau Predicts a Late April Record. The lowest local temperature for the last week in April will undoubtedly be reached to-night. This glacial phenomenon will probably be accompanied by snow.

"It's 23 now," said Section Director Outrath at 2 o'clock this afternoon, "and it will be away below 20, perhaps 25, before to-morrow morning. That will be a drop of nearly 30 degrees since yesterday. It may snow this evening. But to-morrow I think it will be fair. The temperature will then begin to rise again."

Since the local record has been twelve years ago, at 20 above zero has been the lowest temperature for the last week of April. That minimum was reached on three occasions only—on April 28 in 1892, on April 30 in 1897, and on April 25 a year ago.

The appearance of snow is not so exceptional. Rain in flakes is possible whenever the mercury descends to 32. In time to-day the weather is much colder than it will be here. At Langdon, N. D., this morning the thermometer marked 15 degrees above. Pembina, Devils Lake and Langdon all reported 15 degrees.

NEW REFORM SYNAGOGUE Ground Broken for the New Shaari Tov Temple. Ground has been broken for the handsome new house of worship of the Shaari Tov congregation, Hebrew Reformed Church, Tenth street and Fifth avenue S. Then a group of men occupied the ground on which the old frame synagogue stood and its dimensions will be 60x90. It will cost about \$30,000 and construction materials will be ordered at once. The building contract has been awarded to Leek & Prince. The temple will be ready for occupancy by Sept. 1.

The members of the building committee are: H. H. Heller, J. M. Davis, Simon Gittelsohn and Rudolph Munzer. FOUND HUSBAND DEAD Sad Woman That Met a St. Paul Neighbor This Morning. When Mrs. John Schube of 52 MacKubin street, St. Paul, went to call her husband for breakfast this morning she found him dead.

He cause of his death, according to Coroner A. W. Miller, was heart failure. Schube was 48. He was born in Germany and came to St. Paul twenty-four years ago, and had worked at the foundry. He leaves a wife and two children, both young, and was a member of the Sons of Hermann.

PRISON VISITORS Michigan Legislators Look Thru the State's Twine Plant. Special to The Journal. Stillwater, Minn., April 29.—A delegation of senators and representatives from the Michigan legislature, also the superintendent of the board of control for penal institutions, spent the forenoon at the prison, examining the twine plant. They will report to the legislature which is considering a proposition to build a similar plant in connection with the prison at Jackson, Mich.

Members of the Wisconsin board of control and Warden Towne of the penitentiary were also at the prison to study the problem of convict labor thru the medium of object lessons. Judge Williston granted a divorce today to Mrs. W. B. Birge on the ground of desertion. The defendant died no answer, but came here from London, Eng., to secure the custody of his child. This was granted with certain restrictions.

The Glenmont cleared with logs for E. P. Taber & Co. at Keokuk. The Musser took out logs for the Empire Lumber company of Winona. The board of education met last night and instructed Superintendent Stewart to enforce the regulation for two fire drills each month. The treasurer was instructed to pay on May 6, \$12,000 of outstanding bonds, making \$38,500 paid in the last fiscal year. The outstanding bonds of the district amount to a little more than \$70,000.

The residence of Rudolph Wetzel, near Valley Creek, was destroyed by fire. A lamp exploded. The loss is estimated at \$2,300, and is only partially covered by insurance. One of the Wetzel children had a narrow escape. STRIKE THREATENED New York, April 29.—At a secret meeting of the Engineers' Protective and Beneficial association last night it was decided that unless a settlement is reached with owners the entire commerce in this harbor will be left up with forty-eight hours. It is said the employers are engaging non-union marine engineers at many places. The local engineers stand for a ten-hour working day, an increase of 25 cent in pay and recognition of the association.

GOOD-BY TO IOWA Presidential Party Is Welcomed to the "Expo" State by Governor or Dockery.

Last Speech in Iowa Made at Keokuk—Miniature Flag for the President. Keokuk, Iowa, April 29.—The president left Iowa ten minutes ago, this morning for Burlington on his way to Quincy and St. Louis. At the station in this city, Governor Cummins of Iowa bade him good-by and Governor Dockery of Missouri welcomed him to the state of Missouri.

The party arrived at 8:50 over the Rock Island road from Ottumwa, and was met by the reception committee consisting of city officials and prominent citizens, and escorted to carriages. In the carriage with President Roosevelt was Mayor Andrew J. Dimond and John N. Irwin, ex-governor of Arizona and United States minister to Portugal under McKinley.

Escorted by the old Fifthth band and six companies of the Iowa National Guard the procession moved along Main street which was lavishly decorated with flags and banners and thronged with fully 30,000 people.

At Rand Park the president, standing in the pit of a natural amphitheater, made a ten-minute speech, which was heartily applauded. The grave of the Indian chief, Keokuk, from whom this city gets its name, is located here and the carriages were halted a few moments before his monument.

The party was then driven back to the train and departed southward at 10 o'clock. The president while here was given a miniature facsimile of the first American flag, as made by Betsy Ross.

This banner was of silk with the thirteen stars and was made by Mrs. Rachael Albright of Fort Madison, Iowa, who is the 91-year-old great grand daughter of Betsy Ross.

Good News From New York. President Roosevelt to-day received a telegram from Frank T. Deyo, the state's commissioner of new York, congratulating him that the cur of measles of that state has handed down a decision declaring constitutional the franchise tax law. The president is highly gratified over the outcome of the case.

CURRENCY LEGISLATION Greater Elasticity Required—The President's Address at Quincy. Quincy, Ill., April 29.—President Roosevelt stopped here for about forty-five minutes this morning. A large crowd greeted him and amid cheers he was driven to the courthouse where he delivered a short address. He discussed the currency and said in substance:

"Our currency laws have been recently improved by specific declarations intended to secure permanency of values. But this does not imply that these laws may not be still further improved and strengthened. It is widely admitted that our present currency system is wanting in elasticity; in fact, the volume does not respond to the varying needs of the country as a whole, nor to the varying needs of different localities.

"Our people scarcely need to be reminded that grain raising communities require a larger volume of currency at harvest time than during the summer months. The same principle applies to every industry, to every community.

"In time to-day the weather is much colder than it will be here. At Langdon, N. D., this morning the thermometer marked 15 degrees above. Pembina, Devils Lake and Langdon all reported 15 degrees.

Test for Yourself the Wonderful Curative Properties of Swamp-Root

Thousands Have Kidney Trouble and Never Suspect It. To Prove What Swamp-Root, the World-Famous Kidney, Liver and Bladder Remedy, Will do for YOU, Every Reader of The Journal May Have a Sample Bottle Sent Free by Mail.

I wrote to Dr. Kilmer & Co., at Binghamton, N. Y., for free sample bottle of Swamp-Root, and its effect upon me was so noticeable that I bought a supply, and after taking a few bottles of Swamp-Root I had entirely recovered, and in six months I became the man you see me now. I had kidney trouble, aggravated by bladder trouble. Was obliged to pass water often day and night, had back ache, and was run down generally. A few bottles of this remedy did more for me than a dozen physicians could.

I am a firm believer in that wonderful remedy, Dr. Kilmer's Swamp-Root. It's a great medicine when a man is not feeling well; after exposure or loss of sleep and irregular meals. It is also a great medicine to tone up and regulate a man. There is such a pleasant taste to it and it seems to go right to the spot. I use it and recommend it. There is more Swamp-Root used by Kansas City firemen than any other medicine twice over.

Xours truly, Hugo Hutt, 2223 Vine St., Philadelphia, (Pa.) Fire Dept.

I cheerfully give my endorsement to Dr. Kilmer's Swamp-Root, which I sincerely believe, from my own experience, stands at the head of all known curatives for kidney, liver and bladder troubles.

My own cure and also my personal observation during years of service in the Toledo Fire Department, have convinced me that Swamp-Root is a medicine of wonderful merit. I have seen many who have been pronounced incurable, speedily restored to health by Swamp-Root.

Xours Respectfully, J. W. Fraser, No. 1 Engine House, Toledo, Ohio, Fire Department.

I take a Ripans Tabule after breakfast and another after supper, then I know I am proof against the greatest kind of a dish. I have been taking the medicine about 18 months, and previous to that I had been a great sufferer from bile and indigestion. I don't think there is as good a medicine in the world, for I never have indigestion now.

At Drugists. The Five-Cent package is enough for an ordinary occasion. The family bottle, 50 cents, contains a supply for a year.

THE GOOD OLD BIRD The Stork Will Visit Grover Cleveland's Home in July. Philadelphia, April 29.—The stork is expected to visit the home of Former President Grover Cleveland at Princeton about the last of July. This announcement was made by E. C. Benedict of New York to-day. Benedict was one of a party accompanying the ex-president to St. Louis, where Cleveland is to make the dedicatory address of the exposition grounds. After his return Cleveland will remain at Princeton until after the interesting event, and will then take a long cruise in Benedict's yacht up and down the New England coast. The Cleveland family, it is understood, may again go to Buzzard's Bay late in the summer.

DECIDE BOYS ARE O. K. Chicago, April 29.—Member of the Freshmen Girls' Club of the University of Chicago have formally called off the boycott they organized against the men during the winter quarter and publicly announce that they are weary of doing things on the segregation plan, and that henceforth they stand for coeducation. In a social affair, at least, the move ends the strained relations which for three months have existed between the young men and women of Dr. Harper's school.

GENERAL TYNER IS ILL

It Is Said That He May Not Live to Stand Trial in Court. New York Sun Special Service. Washington, April 29.—General Tyner's physical condition is breaking rapidly under the great strain that followed his summary removal from office on the charge of complicity in the looting of a government safe. He is now seriously ill. There is a growing belief that he may not live to be the subject of prosecution in the federal court for his part in the sensational safe tapping incident. He is under the care of trained nurses and two physicians.

Altho General Tyner's condition is known to Postmaster General Payne and the law officers of the government it has not operated to stay the machinery of justice. There is now more indication than there has been since the incident occurred that the government is really in earnest in attempting to inflict punishment on the aged veteran and his wife and sister-in-law, who were the principals in the safe looting affair. The belief is gaining ground that a shake-up in the postoffice department is imminent. One report has it that the postmaster general who is keeping the president informed by wire of the progress of the investigation has received a hint from the chief executive that it would look better if some of the men now under fire were suspended pending the conclusion of the investigation.

TOWNS THREATENED

Woods About Onaway, Mich., Are Blazing and the People Are in Flight. The Town Itself May Be Destroyed—Rain Alone Can Prevent Serious Losses. Onaway, Mich., April 29.—Forest fires threaten the destruction of the city. In every direction the woods are ablaze. Hundreds of citizens fought the flames last night to keep them from the lumber yards and plant of the Lobdell & Bailey manufacturing company. The lumber camps are surrounded by fire, and it is feared that lives will be lost. A high wind from the southwest prevails.

Log trains were kept busy all night bringing down the looting from the fire along the tracks. Residents of the south part of the city are moving for safety. The smoke is so dense as to be suffocating and the sun's rays glow dully thru a casting a yellow shadow. Burned cinders and charred embers fill the air. Unless rains fall to-night the result will be serious.

Alpena, Mich., April 29.—Reports from the surrounding country state that forest fires are raging more vigorously than ever. Many small towns along the line of the northern extension of the Detroit & Mackinaw railroad are in immediate danger of destruction.

A call was sent to Alpena from Onaway for a fire engine to assist in fighting the flames. Dispatches from Traverse City state that fire is threatening the summer resort cottages in that vicinity. Word also comes from Cheboygan that forest fires in that county are threatened.

Houghton, Mich., April 29.—Forest fires on Adventure bluff near Mass City threatened serious damage to the Ad-venture mining property all day yesterday, but were put under control and finally extinguished.

Nothing further was learned about the fire at Ontonagon, except that it started from brush fires made by homesteaders in clearing over cut land. The flames were raging at McMillan Bros. camp about six miles west of Ontonagon on the lake shore.

Traveler Sues for \$5,000. Last July Carrie M. Wickersham of this city set out for Campbell to spend the "Fourth" with friends. She took the Great Northern train, and she alleges some time during the night, on the assurance of the trainmen that everything was all right, she stepped off the car platform, but instead of landing on solid ground fell down a sloping bank. When she recovered from her surprise she found, she says, that she was in Kent, forty miles away from Campbell.

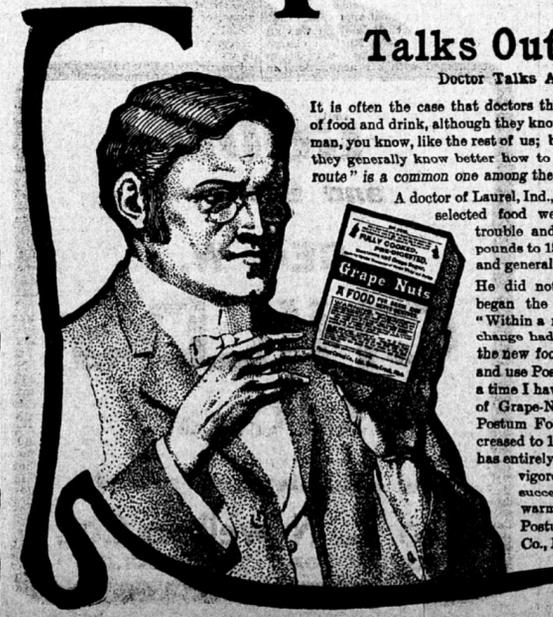

She says further in her complaint that she was obliged to spend twenty-four hours in Kent, arriving in Campbell July 10th late for her celebration of the Fourth. For her unpleasant experiences she thinks she ought to have \$5,000.

GRAPE-NUTS Talks Out

Doctor Talks About Food. It is often the case that doctors themselves drift into bad habits of food and drink, although they know better. But doctors are human, you know, like the rest of us; but when they get into trouble they generally know better how to get out of it, and the "food route" is a common one among them.

A doctor of Laurel, Ind., concluded that coffee and badly selected food were the cause of his stomach trouble and his loss in weight from 184 pounds to 153 pounds, with nerves impaired and general nervous breakdown.

He did not give up coffee at once, but began the use of Grape-Nuts, and says: "Within a month I could see a wonderful change had taken place, due to the use of the new food. I decided to give up coffee and use Postum in its place; so regularly for a time I have been on a breakfast made up of Grape-Nuts, a little graham bread and Postum Food Coffee. My weight has increased to 174 pounds, my stomach trouble has entirely gone and my mind is clear and vigorous as ever. Wishing you every success, I beg to assure you of my warm appreciation of Grape-Nuts and Postum." Name given by Postum Co., Battle Creek, Mich.
