SUMMER OUTING WORK

Collections Being Made to Pay for the Trips of This Season.

The Minneapolis Outing association has begun its preliminary work for the summer and Mrs. Eleanor Howland, who is the only one authorized by the society, is making the collections for the annual outings. Mrs. Howland has looked after the collecting and the transportation for twelve years. Several applications have been received from country homes and as soon as school closes parties of children will be sent out. The office will probably be in the same place as last year and

Mrs. R. S. Smith, the president, will arrange for the outings. Money and clothing are needed for the children's trips. The outing association is the organization in the city which sends the young people and their overworked mothers into the country for a few weeks of country air and fare from which they return brown and sturdy.

Club Women in Legislative Work. It is said there was never a year when club women were so actively interested in legislative work. In almost every state bills were introduced in the legislature at the request of club women, and there is hardly a capital city where women have not assembled in the interests of some measure. In Vermont the club women have presented a bill asking that a woman be placed on the examining board of public institutions, such as asylums for the insane, houses of correction, etc., but their petition was denied. In Massachusetts the state federation supports bills relating to the care of truant girls, and another bill to protect parkways, boulevards and public pleasure grounds from advertising signs. A third bill, introduced by club women is for further prevention of cruelty to animals.

BETROTHAL OF A PRINCESS. London, May 10.—The betrothal is announced of Prince Alice, the favorite grand daughter of the late Queen Victoria, to Prince Andreas, fourth son of the King of Greece.

UNAUTHORIZED INSURANCE. Insurance Commissioner Deane has made complaint to the St. Louis county grand jury against a Virginia insurance agent, who is accused of acting for two companies not authorized to do business in this state. They are the Security Fire and Marine Assurance company, of London, and the Commonwealth Savings and Insurance company, of Richmond, Va. The penalty for writing insurance in companies not admitted to the state is \$500.

ST. PAUL STRIKE IS OFF. The St. Paul union putty glaziers will not strike. As was threatened last week when 200 of their number, employed by the Pittsburgh Plate Glass company, were discharged for refusing to work under the terms of a new contract because of the strike here. Trouble was averted by the company relating the men and agreeing not to insist upon their doing Minneapolis work.

MUSIC TEACHERS' CONCERTS

Saturday was the closing day of the State Music Teachers' convention and it ended literally in a blaze of glory. The management had succeeded in almost all respects in making all expenses and had given the visiting musicians a royal welcome, which was participated in by many of the musical organizations of the city.

The program opened with the overture to Elgar's "Cockaigne," a work seldom if ever heard here. While not heavy it was well played and afforded an opportunity to judge of the good thing that was coming. The work of the string instruments in the orchestra in Bolzoni's "Finlet" was simply superb, especially the solo part of the first violin.

EVANS, MUNZER, PICKERING & CO.

his men to prevent the chaos which threatened. Our thanks are due Miss Richards for her gallant success, and to Mr. Mollenhauer who made it possible. The vocalists were Mrs. W. N. Porteous, who sang Saint Saens' exquisite "My Heart at Thy Sweet Voice" from "Samson and Delilah," and Mrs. Maud Ulmer Jones, who sang the "Jewel Song" from "Faust." Both were as nearly perfect as heart could wish.

The Evening Concert. In the evening another large audience completely filled Wesley church, and it was fully as enthusiastic as the afternoon audience had been. The program opened with Giazoumoff's fine "Symphony, No. 6, in C minor," first movement, a work said by many to be the best composition since Tschakowsky's famous works. It is simply tremendous in its strength and is markedly Russian in its effects produced and the orchestration which accomplishes this result. It was magnificently played. The "Andante" from Tschakowsky's "Quartet in B flat," played by the strings captivated the audience and was beautifully rendered.

The presentation of the four "Fairy Tales" by Suk was a novelty, and was listened to with great interest. The music is daring and intended to be descriptive, and is decidedly of the new school; however, the dissonances are so marked and frequent and without seeming cause, that it is difficult to ascertain

one's self to the music, save in the larger sense of getting some meaning out of the results as a whole. The closing orchestral number, was the now familiar "Tannhauser overture." The conductor follows the Nikisch rendering, playing the climax at the end with the tenor horns an octave above the melody. The result is tremendously effective. The orchestral work for the whole of the two programs will be long remembered.

Four soloists from the east appeared with the orchestra in the evening. Miss Anita Rio sang "Elsa's Dream" from "Lohengrin" and was accorded a generous reception. Her voice is a sweet soprano of good timbre and resonance and she sang with more than usual good taste. She was recalled a number of times, as were the other members of the quartet, but the inflexible rule of "no encores" prevailed. Mme. Bouton sang "Ariadne's Aria" from Wagner's "Rienzi," with wonderful effectiveness and verve, altho it is a little difficult to understand why she should be called a contralto. Her voice is of purely mezzo quality, and she sings with the purely German method. Her enunciation of the German was peculiarly felicitous.

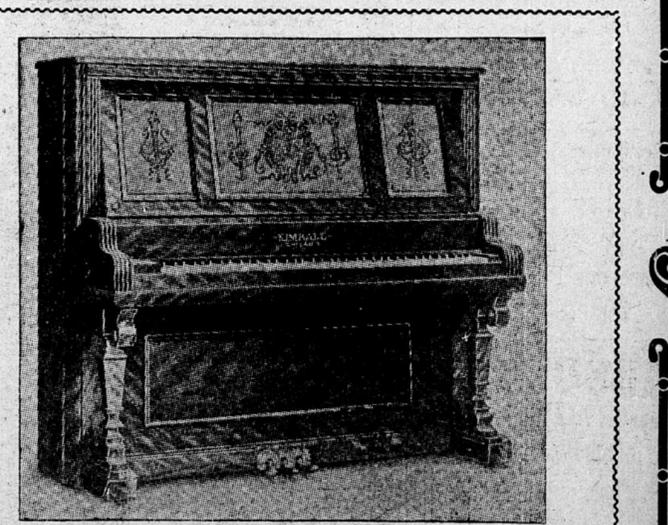

William Wegener, the tenor, quite carried away the honors of the evening in the estimation of the audience. He sang "Lohengrin's Narrative" in English instead of the regular program number, but the change was not unwelcome. His
