CHARGES OF PLAGIARISM

MARQUETTE, MICH.—A stir in upper peninsula scholastic circles has been caused by charges of plagiarism against two of the debaters in the recent debate at Marquette. It is alleged by the Marquette school that two of the Ishpeming orators drew largely and to the great extent verbatim from the subject matter of the Cornell debaters, who won a joint debate in which they supported the same side as the Marquette debaters.

The question was "Resolved, That compulsory arbitration between employees and employers should be required in the cases of all corporations operating under franchises of a public nature." Marquette had the affirmative and lost by a fair margin of points.

ROW OVER PAVING

Marshalltown City Council Decides to Re-advertise for Bids.

MARSHALLTOWN, IOWA.—The indications are that much strife will be developed over the paving situation. In the first place the council ordered the paving in the face of the protests of a large majority of the owners of property abutting the proposed improvement. The Barber company was the only bidder and the price was so high that the council decided to re-advertise.

It now looks as if the Barber company will have opposition, if the council can be induced to change its specifications in regard to the kind of asphalt to be used. J. J. SOUTH DAKOTA

SUES AN IOWA DEPUTY

Renshaw of Charles Mix County Wants Damages for False Imprisonment.

ARMOUR, S. D.—C. M. Renshaw, living near Lake Andes in Charles Mix county, has brought suit against E. W. Pecant, a deputy sheriff of Woodbury county, Iowa, for \$15,000 for false imprisonment. Service was secured on the deputy sheriff in Charles Mix county and he must come to South Dakota to defend the case.

It seems that Renshaw bought 200 head of cattle from C. F. Gill of Sioux City in 1902, giving a mortgage on the stock in part payment. During the heavy snows of last winter many of the cattle died and the rest were sold. Renshaw turning the money received from the sale over to Gill. Among the cattle sold were twenty-five head belonging to Renshaw on which there was no mortgage, and this money he used in meeting the expenses of last year's heavy hail. Gill contended he should have turned this money over to him, too, and applied to the governor of Iowa for requisition papers, which the governor of South Dakota honored.

Renshaw was accordingly placed under arrest by the Iowa deputy sheriff, but upon legal advice Pecant decided not to push the matter, and Renshaw immediately served papers on him for damages to the amount of \$10,000. The merits of the case will develop in the next term of circuit court, which convenes in Charles Mix county this year in an unusual manner.

Grasshoppers, which caused the loss of crops in Charles Mix county for two years, have not made their appearance as yet. It is believed they are a thing of the past.
