The Shanghai Mercury gives an interesting account of a banquet given May 17 at the United States consulate-general by Consul-General John Goodnow, who is senior consul at the port. The banquet was in honor of Wei Kuang-tao, the new viceroy of the Liangkiang provinces. Three days later it was followed by a dinner given by the viceroy of Nanking to practically the same official body. The photograph shows the latter event. Regarding the Goodnow dinner the Mercury said: "Last evening the United States consulate general, on Whaupoo Road, was the scene of a memorable gathering of Chinese and foreign officials. It is more than a coincidence that when the American legation at Peking and especially Mrs.

Conger, its mistress, is taking such a leading part in the recently instituted social intercourse between the hitherto rigidly secluded ruler of China and the western representatives in the capital, the American representative in Shanghai, by virtue of being senior consul, has been enabled to take the lead in the social courtesies shown to the new viceroy of these provinces, together with the large number of high officials whom his visit has brought here. Never in the history of the port have so many highly placed Chinese officials met at once around the festive board in company with so many foreign representatives. Besides H. E. Wei Kuang-tao, viceroy of the Liangkiang provinces, the guest of the evening, there was present H. E. En Shou, governor of Kiangsu, Li, the commander in

chief of the forces of the province, the Tartar general of Hupeh, H. E. Cho Yuan, Taotai of Shanghai, Wang Taotai of the Nanking bureau of foreign affairs, besides the commissioners of the revision of the treaties, H. E. Lu Hai-huan and Wu Ting-fang, with the Taotai in charge of the Kiangnan arsenal, Wong Kai Khan, the assistant commissioner to the St. Louis exposition, Wu Chung-si, deputy director general of the telegraphs, and two interpreters. These were met by all the consuls-general in Shanghai, Messrs. A. E. Hippisley, F. E. Taylor and J. C. Ferguson, assistant treaty commissioners, F. A. Carl, Chinese commissioner to the Louisiana Purchase exhibit, Captain Mahan of the U. S. S. Monadnock, Dr. J. R. Hykes, vice consul general, and Dr. Barchett.

The scene was, apart from its significance, a very brilliant one, the Chinese gentry being clothed in the brightest robes with full official insignia, while the members of the consular body, also in full uniform, added variety to the coloring. The effect of this brilliancy was enhanced by the very beautiful decorations of the large rooms of the consulate, which had been turned for the nonce into a perfect bower of roses, these flowers in the greatest profusion occupying every available nook and corner of the room, the taste shown proving that this detail had not been left to the hands of the usual decorators. The banquet itself was a great success. At its conclusion the host, the senior consul, proposed the health of the respective rulers of those gathered there, and of the principal guest, H. E. Wei, H.

He, the viceroy, replied briefly, thanking his host and those who showed him honor by being present, at the same time expressing the pleasure the visit to Shanghai had afforded him. He said this was his first visit, but he had been so pleased and astonished at what he had seen he hoped it would not be the last. He added that with the completion of the railway to Nanking, which would be pushed on with, this would soon be an easier matter. He also expressed his thanks to the municipalities of Shanghai for the courtesies shown him. "The string orchestra of the town band was present during the banquet and added greatly to the pleasure by rendering an excellent selection of music in its usual finished style."

WAR ARTIST TO LONDON "BLACK AND WHITE"

Found Pe-ru-na of Benefit in the Climatic and Nervous Strain of War and Travel.

[The accompanying picture shows Mr. Manley in the uniform he wore during the late Chinese uprising in China where he was acting as Assistant War Artist to London "Black and White" and "Collier's Weekly."]

Mr. H. B. Manley, care "Black and White," 688 Craig Street, Montreal, Canada, writes: "When a man travels in extreme hot or cold climates, he realizes how valuable a friend he has if he carries a bottle of Peruna. I know of no article in my traveling outfit which I have learned to prize higher. "If you are suffering with the extreme heat of a summer, or if you are afflicted with a cold, la grippe or bronchitis, Peruna restores you in a short time. Or if you suffer with sleeplessness or if your appetite is poor, again Peruna acts as a good, true friend and is the tonic needed. "I have tried it for months and am only too glad to acknowledge it as a true loyal standby in times of trouble. I do not hesitate to recommend it to all." -H. B. Manley.

Travelers Should Use Peruna. People going on a journey, either by rail or steamship, should take with them a bottle of Peruna. It is a most effective remedy to prevent railroad sickness, sea sickness, to guard against catching cold, or acquiring contagious diseases. The exigencies of travel, to most people are hard to bear. Change of water, change of diet, change of climate, exposure to unventilated staterooms, crowded coaches, all this creates new environment. A large number of people are made sick in this way. A bottle of Peruna is worth ten times its weight in gold to a person under such circumstances. It prevents the ill effects of bad water. It produces refreshing sleep under adverse circumstances. It keeps the appetite vigorous and the digestion normal. A multitude of people have already made this discovery, and they never think of taking a journey, either by land or sea, without having with them a bottle of Peruna. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice. Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, O.

NEGRO ASSAILANT IS BURNED AT THE STAKE

(Continued from First Page.)

Wilmington Divine Forecasted the Lynching of White.

Wilmington, Del., June 23.—Rev. Robert A. Ellwood, pastor of the Olivet Presbyterian church, preached a sensational sermon last Sunday evening on the probable lynching of White.

In referring to a speedy trial for the negro Rev. Ellwood said: "I call your especial attention to that part of the constitution which says, 'In all criminal prosecutions the accused shall enjoy the right of a speedy public trial.' Officers arrested a man supposed to be the murderer of a woman taken before a magistrate and held without bail. To-night he is in jail with armed guards parading about for his protection, waiting until the middle of September. Is that speedy? Is that even constitutional?"

"Oh, honorable judges, if you do not hear and heed these appeals and if that prisoner should be taken out and lynched, then let me say to you with a full realization of the responsibility of my words, even as Nathan said to King David of old, after his soldiers had killed Uriah, 'Thou art the man.' The responsibility for lynching will be yours for delaying the execution of the law. "Should the murderer of Miss Bishop be lynched? Yes, but only under one condition and that is this—If his trial shall be delayed until September and then, tho he be proven guilty in their might and execute the criminal and thus uphold the majesty of the law."

FORCE IS SAFE

Gen. Manning and Col. Cobbe Reported to Have Effected a Union at Bohote.

London, June 23.—An Aden dispatch to the Daily Telegraph says it is reported there that General Manning, commanding the Somaliland expedition against the Mad Mullah, and Colonel Cobbe, who it was feared had been cut off near Damot, have succeeded in joining their forces and have reached Bohote in safety.

"CONCEIVED IN INIQUITY"

Counsel in the United States Ship Building Insolvency Proceedings Grows Emphatic.

Newark, N. J., June 23.—Argument of counsel in the suit for the appointment of a receiver for the United States Shipbuilding company was heard to-day before the United States Circuit Judge Andrew Kirkpatrick. Mr. Undermeyer declared that he would show the court that the corporation was insolvent. "It was conceived in iniquity, maintained by fraud and is ending in crime," he said. The facts, the counsel said, made out an overwhelming case, warranting the appointment of a receiver. The representative of Mr. Undermeyer declared, if the insolvency was not shown to the satisfaction of the court, the complainants would claim that the plan of reorganization was a definite scheme to wreck the corporation and that the complainants had the right to have the court interfere to preserve their holdings.

SHE USED A HORSE WHIP

Kentucky Woman Publicly Lashes Her Husband Under Order of the Court.

Lexington, Ky., June 23.—Morton Cass, aged 76, a civil war veteran, was publicly whipped by his wife yesterday on the orders of Judge Riley. Cass was arrested for drunkenness at the instigation of his wife, and she told her he would spend his pension money for whisky and lay drunk most of the time, abusing her because she could not spend before him the delicacies of the season. Judge Riley asked her why she did not give him a whipping. "I would do it, judge, if I had your permission." "Well, you have it," said the judge. "Go and get her a whip," he said, turning to an officer. "I don't want you to whip him in the courtroom. Take him downstairs," he said. The husband walked in front, and she followed with a whip, and when they were in the station-house lobby, and a crowd had gathered, she began lashing the lash. The husband begged for mercy and promised to be good. She gave him ten lashes, and then, taking him by the arm, led him home.

DECLARES IT A FORGERY

Chicago University Professor Says Adrian IV Never Wrote the So-Called "Laudabiliter."

New York Sun Special Service. Chicago, June 23.—Ireland was never given to Henry II. of England by Pope Adrian IV. The famous papal bull known as "Laudabiliter," which the pope is supposed to have offered the emerald isle to the English monarch is a spurious document, the laborious work of some unknown student of the middle ages, and Ireland never obtained possession of Ireland by right of grant or in any other legal manner. Such are the startling conclusions reached by Oliver Joseph Thatcher, professor of medieval history in the University of Chicago, in a monograph entitled "Studies Concerning Adrian IV," just issued from the University of Chicago press. They are the result of a trip to Europe, a year's study of the middle ages, and the reading of innumerable Latin documents. The "Laudabiliter," so called from the occurrence of the Latin word in the salutation, has long been supposed to be a grant made by Pope Adrian IV, conferring on Henry II. of England the island of Ireland, and the pope's genuineness or genuineness or falsity historians have long been in dispute.

THE CABINET MEETS

Attention Divided Between Cuban Treaty and Postal Affairs.

Washington, June 23.—At the cabinet meeting to-day Secretary Wilson submitted an elaborate set of plans for the new building for the department of agriculture. Considerable modification was suggested in order to bring them within the cost proposed by congress. Secretary Hay referred briefly to the pending treaty looking to the acquisition of naval stations in Cuba and the settlement of a title to the Isle of Pines. As to the naval stations, it appears that the treaty is not yet signed, and the acquisition of the land in advance of payment thereof, the question of price to be settled hereafter. This is necessitated by the fact that the Cuban government proposes to acquire title from individual holders and transfer the land to the United States and thus is unable at this time to estimate the value of the property required. Some consideration was given to affairs in the postoffice department, but it is understood no definite action was taken. The investigation is being continued, and would be pressed until no trace of suspicion attached to the department. "While absolute confirmation of the statement is withheld, it is reasonably certain that Holmes Conrad, former solicitor general of the department of justice, and Charles Nonaparte, have been assigned to assist the district attorney in the prosecution of the postoffice cases.

STOMACHS ON STILLS.

The man who puts on stills does not know his actual stature by the breadth of a hair. He feels taller while he's on the stills, and when he's off them he feels shorter than he ever felt. Stimulants are the stills of the stomach, and the nutrition on which a man feels better for the time being, but he feels a great deal worse for them afterward. The need of the man whose stomach is "weak" is not stimulation but strength. Dr. Pierce's Golden Medical Discovery perfectly answers that need. It cures the disease of the digestive and nutritive system which make the stomach "weak." It enables the digestion and assimilation of food, so that the body receives the nutrition on which depends its strength. "I took two bottles of Dr. Pierce's Golden Medical Discovery for stomach trouble," writes Clarence Carnes, Esq., Taylorstown, Loudoun Co., Va. "It did me so much good that I didn't take any more, I am now so well pleased with it I hardly know how to thank you for your kind information. I tried a whole lot of things before I wrote to you. A gentleman told me of your medicine, and how it cured his wife. I thought I would try a bottle of it. Am now glad that I did, for I do not know what I should have done had it not been for Dr. Pierce's Golden Medical Discovery."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; You lose. Therefore accept no substitute for "Golden Medical Discovery." The sluggish liver is made active by the use of Dr. Pierce's Pleasant Pellets.

CUMMINS FAILS, TOO

Dubuque Street Car Strike Just as Strenuous as Before.

Dubuque, Iowa, June 23.—The efforts of the strikers to secure a settlement of the street-car strike, have proved futile. At one time an agreement seemed certain, but later the company withdrew a proposal that the strikers had decided to accept. The company now refuses any compromise and stands by the terms offered the men when the strike began. Governor Cummins says the city must prepare to do its own policing, as he intends to withdraw the militia after a reasonable time has elapsed. May Be Settled To-night. The citizen's committee, appointed to endeavor to bring about a settlement of the street car strike, was in conference all the morning with the representatives of the strikers. This afternoon the committee conferred with representatives of the Union Electric company and hopes to be able to announce a settlement of the strike to-night. Governor Cummins departed for the east last night disgusted with the tactics of both sides.

BEILS FLEES

Leaves Lexington Secretly to Escape His Enemies.

Lexington, Ky., June 23.—Captain B. J. Beils, the leading witness in the trial of Jett and White for the murder of J. E. Marcum at Jackson, left here yesterday afternoon for a secret destination. This action was taken on the advice of friends after Beils had been informed by a man who came from Jackson of a plot to assassinate him. NEW BREWERY AT WINONA. Special to The Journal. Winona, Minn., June 23.—Winona citizens are organizing the Park Brewing company with an authorized stock of \$50,000, to erect a five-story brick brewery adjoining the east end of Riverside park.

N. DAKOTA CROPS SUFFER

Heavy Rains Are Needed All Along the Line—Grass and Hay Falling Off.

Special to The Journal. Dry, warm weather, followed by cloudy and cooler, with light to heavy showers in some localities, prevailed the past week. Crops in all sections, except in a few especially favored ones, are beginning to show the effects of the dry weather that has prevailed the past three weeks, and there is no doubt that some damage has already been done. One hard rain fall, however, would do much to relieve the situation. Wheat is turning yellow in places and getting very weedy. In some places, where that sown late is beginning to head, it is very short, and it is probable that all straw will be short this season. Crops are beginning to suffer from the drought, while the hay crop is being held their own, but would be greatly benefited by rain. Early flax still continues in good condition, but that sown late has not come up yet, and will not, until rain enough to germinate the seed falls. Corn continues backward in all sections; it is large enough to cultivate in the extreme southern portion, but in the central and northern portions it has made but little growth. The drought is having a serious effect on the grass and prospective hay crop; it has fallen off to a great extent during the past two weeks, as in many places the grass is short and fast drying up. One hard rain, doing little or no damage, is reported. Grasshoppers are said to be doing some damage in the northern-western part of Cass county. Mellette, S. D., June 23.—Crops in this vicinity are fair, although in some places rain is needed. Several showers have fallen lately, but covered only a small area. Another hail storm passed a few miles south of here and several farmers were hailed out.

MITCHELL IS OPTIMISTIC

Believes "The Last Great Coal Strike Has Been Called."

New York Sun Special Service. Indianapolis, June 23.—Commenting on an interview with him printed in New York on Saturday, President John Mitchell said to-day that it did not represent him faithfully. He added: "I do not favor the incorporation either of trades unions or employer bodies, but I do advocate the organization of capital by industries and labor by trades. I feel from all I know that all of the great strikes will be terminated early in July and I feel that the last great coal strike has been called."

STOLEN FROM THE STREET

Thief Escapes, but Horse and Buggy Were Recovered.

Special to The Journal. Stillwater, Minn., June 23.—A horse and buggy belonging to Ernest Gillespie were stolen last night from a street in Stillwater. The thief was seen in the morning in the grove of E. W. Clark, near Lily Lake. The horse had been standing out all night. The man who stole the rig drove it into a farm wagon after getting out of town and then, presumably, continued his flight on foot. The tug Baby of the Bronson & Folsom fleet broke its shaft and will be out of commission for a week. The Atwood B mill will be operated nights as well as days in about a week. The night crew from Willow River will be brought down to man the plant. B. J. Mosler and wife have returned from a visit with Mr. and Mrs. L. A. Rosing at Cannon Falls. They also visited with friends at Lake City. Judge Doe of the municipal court united Joseph H. Nolan of St. Paul and Mary M. Mulaney of Silver Bow county, Mont. Gentlemen, having in charge the Fourth of July celebration, met last night and elected J. R. Kollmer, chairman; Carl Brenner, secretary, and J. J. Eichten, treasurer. Committees were appointed on music, amusements, printing, etc. Ample funds have been raised. Judge Williston has granted a divorce to Rosa Schuster, aged 22, from her husband Robert on the ground of desertion. They were married in Afton in 1901 and have one child.

WIFE HOLDS THE SACK

A Sixty-Year-Old Husband Cannot Find Her or the Money.

Special to The Journal. Sioux City, Iowa, June 23.—Charles Sucker, aged 60, called at the police station and asked the officers to find his wife, aged 25, who he says should never have been given his name. They were married at Dakota City, Neb., two weeks ago. "Saturday night," he says, "I gave mama \$410 I had in a sack and asked her to keep it until Monday. I hadn't seen her nor the sack since." She was a dressmaker.
