

Salt Rheum

You may call it eczema, tetter or milk crust. But no matter what you call it, this skin disease which attacks the face, neck, hands, feet, discharge a watery matter, dry and scale, owes its existence to the presence of humors in the system.

It will continue to exist, annoy, and perhaps agonize, as long as these humors remain.

It is always radically and permanently cured by Hood's Sarsaparilla

which expels all humors, and is positively unequalled for all cutaneous eruptions.

body, but the late king was himself an assassin in heart as well as a manager of the constitution. Alexander's last plans provided for the assassination of more than a score of his ablest subjects. He could have escaped death had he yielded to the demand for abdication, but he refused.

Comment in the European press on the so-called butchery of Serbia produces in our sentiments of contempt, and is based wholly on ignorance, coupled with perverse blindness as to the national aspect of the Belgrade tragedy. To King Peter to punish the murderers would be to ask him to reverse the revolution he has so long and intelligently fostered. Now that he is seated on the throne, martyrdom of the men who delivered Serbia is impossible. The rule of Alexander would have caused the very stones of Belgrade to rise and mutiny."

ACT WITH MAJORITY American Minister Will Follow Lead of European Diplomats.

New York Sun Special Service. Washington, June 24.—By direction of the president, Secretary of State Hay has sent instructions by telegraph to John B. Jackson, United States minister to Serbia, for his guidance in the present position in relations between the government of that country and other nations.

Mr. Jackson was told that in determining the question of recognizing the new king he should guide himself by the decision of his diplomatic colleagues in Belgrade provided it is unanimous or nearly so. Much is left to Mr. Jackson's discretion in this regard, but it is practically certain that should most of the ministers of the great powers at Belgrade decide to recognize King Peter Kara-georgewich, Mr. Jackson will do so.

A decision on their part to condemn the assassination of King Alexander and Queen Draga and a declaration to recognize the new monarchy unless assurances are given that the assassins will be punished, would likewise be endorsed by the American minister. Should the diplomatic body at Belgrade decide to recognize King Peter unconditionally, leaving it to the Serbian government to take or not to take action condemning the murder of the king and queen, the United States may regard it as expedient to express its horror over the tragedy and also to make known the hope that the assassins will be punished. This, however, is a matter for the future.

King Kisses Girl. Vienna, June 24.—King Peter of Serbia passed through this city yesterday en route to Belgrade. Crowds of Serbian students wearing their national colors met him at the railway station where he majestically made a speech. There was much enthusiasm when a girl presented a bouquet to him and he took her in his arms and kissed her. The Swiss officials who were watching the king are now returning to their ordinary avocations, and King Peter's house in Geneva has been rented.

Prince Bodjzar Kara-georgewich, a cousin of King Peter, is making researches in the libraries of Paris for the purpose of obtaining details regarding Serbian legends to be used in making the one for which King Peter has given an order to a Parisian goldsmith. The Serbian kings have not worn a crown since the fourteenth century and consequently there are many difficulties in the way of preparing instructions for the goldsmith.

Insult the King. Vienna, June 24.—A dispatch from Bucharest says the king of Rumania has received an insolent telegram signed by several officers of the Sixth Serbian infantry which regiment he recently resigned the honors of colonel. The officers declare that King Charles is not competent to judge their actions. They say that he himself ascended the throne of Rumania by a military breach of faith and add that they regard with pleasure the distinction of their regiment bearing the Rumanian king's name.

COMPANY YIELDS TO MEN

Prolonged Strike at Dubuque Is Settled by a Special Arbitration Committee.

Special to The Journal. Dubuque, Iowa, June 23.—The street car strike was settled by a special arbitration committee of the Dubuque club, assisted by President Ulrick of the State Federation of Labor, and State Labor Commissioner A. C. Brown.

The Union Electric company agrees to discriminate against non-union men, recognize the union's grievance committee, allow appeals from the general manager to the directors and give clearance cards to Deveraux, Noonan and Hennessy, whose discharge caused the strike, the union contending that they had been discharged for acting as a grievance committee, and the company asserting the cause was a violation of the rules.

The company agrees to reinstate all other men. Boycott and mob violence have been features of the strike, which began May 6. Former speaker Henderson lost his coachman this morning, and the striking conductors and motormen have been reported promptly and working people filed the same charges.

STOUX FALLS, S. D.—Rev. F. P. Leach, pastor of the First Baptist church, has resigned to accept the general secretaryship of the State Sunday School association.

OVER THE FENCE

Neighbor Says Something. The front yard fence is a famous council place on pleasant days. Maybe to chat with some one along the street, or for friendly gossip with next door neighbor. Sometimes it is only small talk, but other times neighbor has something really good to offer. An old resident of Bald, Texas, got some mighty good advice this way once. "Drinking coffee had led me nearly dead with dyspepsia, kidney disease and bowel trouble, with constant pains in my stomach and back and side and so weak I could scarcely walk," he says.

"One day I was sitting at my table and my neighbor asked me to try his coffee. I did not take her advice right away, but tried a change of climate, but it did not do me any good and then I dropped coffee and took up Postum. My improvement began immediately and I got better every day I used Postum. My bowels became regular and in two weeks all my pains were gone; now I am well and strong and can eat anything I want to without distress. All of this is due to my having quit coffee and used Postum regularly."

"My son who was troubled with indigestion thought that if Postum helped me so it might help him. It did, too, and he is now well and strong again. We like the Postum as well as the coffee, and use it altogether in my family in place of coffee and all keep well." Name given by Postum Co., Battle Creek, Mich.

HAY STANDS IN RUSSIA'S WAY

The American Secretary of State Is Opposing the Russianization of Manchuria.

Persists in His Demands That Consulates Be Established at Mukden and Taku-san.

New York Sun Special Service. Chicago, June 24.—Walter Wellman, in Washington special to the Record-Herald, says: Secretary Hay is still carrying on the battle for American commercial rights in Manchuria, and incidentally for the preservation of a semblance of Chinese authority in that province. There is an intimate relation between the news which the associated press brings from Peking that Prince Ching has acceded to the demands of Russia as to Manchuria and the announcement which was made that Count Cassini, the Russian ambassador to Washington, had for the third time postponed his sailing for Europe.

The truth is that the United States, thanks to the energy and zeal of Secretary Hay, is the only obstacle which now stands in the way of complete Russianization of Manchuria. One is surprised at the tidings that Prince Ching, the Chinese foreign minister, has acceded to the demands of M. Lessor, the czar's representative at Peking. Prince Ching is pro-Russian. He is "on the staff" of the astute Lessor. It is generally believed in diplomatic circles at Peking that Prince Ching has been subsidized by Russia. He is apparently prepared to cede away anything that Russia wants and then excuse himself to his government on the plea that the czar holds a club over his head in the form of an army which completely dominates the province.

Demands Consulates. Secretary Hay does not directly raise the question of Chinese sovereignty in Manchuria, but he takes his stand upon the demand of the United States that American consulates be established at Mukden and Taku-san. These consulates are to be established, if at all, by virtue of a treaty with China and the consuls are to be credited to the Chinese government, thus maintaining, at least, the fiction of Chinese sovereignty. Ostensibly the American government is negotiating at Peking with the Chinese authorities but actually the business is with Russia.

What is to come out of it no one pretends to know. Secretary Hay is hopeful. At any rate he is determined to fight to the end. He has the moral support of Great Britain and Japan. There is abundant proof that Russia's policy as to Manchuria has from the very first been one of duplicity and mendacity. Promises were made which it was never intended to keep. The pledge of evacuation of the Great Wall was never intended to be fulfilled. Russia will ever withdraw from the province, and the only question is as to whether or not the sovereignty of the czar is to be openly established and maintained, at least, the fiction of Chinese ownership is to be perpetuated. This fiction, if continued, may be of prime importance in the events of the future.

CHINA IS BALKY Commissioners Refuse to Open Manchurian Ports to Trade.

Washington, June 24.—Negotiations with China for a trade treaty have reached a point of no return. The demand of the United States and Japan for the opening of ports in Manchuria. The Russian government has professed to entertain no objection to this demand but the Chinese commissioners now take the ground that the ports mentioned will be opened to foreign trade in the future when trade necessities seem to require it.

Therefore they propose to let this matter lie in abeyance and conclude the trade convention without this section. The United States refuses to accept the suggestion. Japan takes the same position; the English influence leans in that direction and the negotiations are deadlocked pending the arrival of some messengers by the three powers named to bring some pressure upon China.

ANOTHER GIFT FOR SYNOD

Independent Chinese Mission Worth \$15,000 Is Accepted by the United Church.

Special to The Journal. Duluth, Minn., June 24.—At the session of the United Norwegian Lutheran church this morning an independent Chinese mission, which in a flourishing condition, was offered to the church and accepted with less than a half-dozen negative votes. The mission has property valued at \$15,000 and three stations and a newspaper with 5,000 paying subscribers.

The church has now so many charitable institutions under its control that it is deemed advisable to have a board of charities to manage the same and a committee was named to report a plan at the next session. The members are Rev. G. G. Kravetz of Cambridge, Wis.; Rev. S. J. Lockwood of Sheridan, Ill.; and Rev. P. A. Gearnsome of Gary, Minn.

Rev. C. O. Ambol of Minneapolis was re-elected editor of Luther, the official organ of the church. Two other nominations were made, but the convention decided to make no change.

Several delegates have deserted and gone home and this led to the adoption of a resolution to the different congregations urging the appointment of delegates who will remain thru the session. Proposals looking to the establishment of pension funds for ministers in foreign lands were advanced, but action was postponed for another year.

THOUSAND UNDER ARMS

Troops Guard Richmond Street Cars and Strikers Torpedo the Tracks.

Richmond, Va., June 24.—A thousand troops are under arms here this morning and detachments are distributed at the various power-houses and barns within the city limits. Cars will be run with four soldiers on each. One of the barns of a certain street was torpedoes and the sheriff having refused to ask military aid, claiming he could give ample protection, County Judge Wickham has called for troops over his head.

While troops were attempting this morning to start cars from the East End barns, a mob assembled and torpedoes the track, and Captain Shipchase of Company C, Seventy-first regiment, was shot in the leg. There was no return fire. More troops are being hurried to the scene.

COLLECTED \$22,000.000. Peoria, Ill., June 24.—The internal revenue collections for the fiscal year ending June 30, 1903, amount to \$22,000,000, or twenty-two per cent of the entire revenue of the United States. The record exceeds the figures of last year by over \$1,000,000.

LEGISLATURE ASSEMBLES

Kansas Solons Meet in Special Session to Pass Flood Relief Measures.

Gov. Bailey, in His Message, Speaks of the Necessity for Immediate Action.

Topeka, Kan., June 24.—The special session of the legislature called by Governor William J. Bailey, to enact a flood relief measure, convened this morning at 10 o'clock, members having arrived to insure a working quorum in both houses. The principal subject of contention will be whether a general relief bill or a bill shall be passed. There seems no doubt about the "enabling bridge act" law being passed quickly.

It also is announced, from expressions of members here, that a charity bill of some nature will be passed. The best authorities differ as to the legality of such action, but as one well-known legislator remarked to-day after viewing the ruins in north Topeka: "The crisis is great and needs are so pressing that relief will undoubtedly be granted and the courts can settle the legality of such action later."

There is some difference of opinion over the question of organizing the legislature. The majority think, however, that the old organization will stand. The legislators were shown over the North Topeka ruins to-day before convening.

The Governor's Message. "The floods which sweep over a portion of our fair state have created conditions unusual and extraordinary. The valley of the Kaw and its tributaries, the most fertile and most productive of rich harvests, has been devastated by the angry waters, villages and cities have been inundated, homes have been obliterated and the property loss to the citizens of our state is at this time its amount is but a conjecture.

"Bridges that spanned our rivers, and that are absolutely necessary for the every-day business, have, in many cases, been swept away, and others have been made impassable, making necessary the expenditure of large amounts of money in the repair of commerce can again be opened. Especially is this true in Wyandotte county, where the immense business between Kansas City, Kan., and Kansas City, Mo., is suspended until the river can again be bridged.

"While conditions are perhaps the most acute in Wyandotte county, yet the same situation obtains in several of the other counties. In some of the counties those charged with the responsibility of repairing these great losses find themselves helpless under the law to meet these unusual and extraordinary conditions, and it is for the purpose of giving such enabling legislation as is necessary to meet this emergency, that I have exercised the power vested in me by the constitution of our state to convene the legislature in extra session.

"I regret very much that the exigencies of the hour have impelled me to this action at this time. It is my belief that the legislature necessary, giving the counties so desiring, the authority to use their credit to raise the money to repair their roads, can be passed in a few hours, and I trust the great calamity that has come to us will not be utilized in an attempt to pass general legislation.

"Assuring you of my highest personal regard and interest in the welfare of the people, I pledge you my hearty co-operation."

LODGE TO BE CHAIRMAN

Politicians Say He Will Succeed Hanna as Manager of the Republican Campaign.

Washington, June 24.—There is something more than summer gossip in the report that Senator Henry C. Lodge of Massachusetts will succeed Senator Marcus Hanna as chairman of the republican national committee before the opening of the campaign of 1904.

Senator Hanna's refusal to accept the nomination of the republican party and his close friends and political advisers express the belief that the next republican national convention will be dominated and controlled by Senator Lodge, Senator Foraker and other pronounced Roosevelt men, while Hanna and his particular friends will take a back seat.

Senator Hanna's connection with the movement to prevent Roosevelt's inauguration by the Ohio convention has left its scar, and it is predicted that Roosevelt will never be convinced of Hanna's devotion and loyalty to him. Without such faith Senator Hanna could not act as chairman in a campaign where the president's political future is at stake, and therefore it is expected that at the proper time the name of Henry C. Lodge of his health compels him to give up the chairmanship.

SIR THOMAS HAS ARRIVED

President Roosevelt Sends Him an Invitation to Lunch at the White House.

New York, June 24.—The White Star liner Oceanic, from Liverpool, was reported at 10:30 at Nantuxet. Aboard are Sir Thomas Lipton and J. P. Morgan. As soon as the steamer was reported Sir Thomas' yacht, Erin, conveyed by the ocean steamer, which was sent across the bay. Ex-Commodore Smith's yacht, the Privetear, which has been the regatta committee's boat at all the races of the 90-footers held under the New York club's auspices, also started to greet Sir Thomas.

On the Privetear was Adjutant General Corbin, who will welcome Sir Thomas on behalf of President Roosevelt. General Corbin bears an invitation to Sir Thomas to take luncheon at the White House, Friday.

The Oceanic arrived in the Narrows at 11 o'clock. At quarantine the flag of Sir Thomas Lipton. She was closely followed by the Erin and Mr. Morgan's yacht, the C. Orsair. At quarantine Sir Thomas said he was glad to arrive in port once more. He said the challenger would have a spin outside on Saturday. "She is a remarkable boat," he added. "I know you people have a good one, but the Shamrock III. is a remarkable boat." He fondled themselves with guns until a sufficient force of police arrived at the scene of the disturbance and quelled the disorder. The persons were wounded and many arrests were made. The riot was caused by the refusal of the circus management to issue complimentary tickets.

"HEY, RUBEN!" IN PORTO RICO. San Juan, P. R., June 24.—A mob of 800 at 10 o'clock last night attacked a circus which was giving a performance there. The employees defended themselves with guns until a sufficient force of police arrived at the scene of the disturbance and quelled the disorder. The persons were wounded and many arrests were made. The riot was caused by the refusal of the circus management to issue complimentary tickets.

EAST IS WATER SOAKED. New York, June 24.—After thirty-two days during which New York, New England, Pennsylvania and the middle West were suffering from a drought, receiving hardly one-third of an inch of rain while the west was drenched, more rain fell here this morning and the drought is over. PACIFIC NAVAL ASSIGNMENTS. Vallejo, Cal., June 24.—The approaching retirement for age of Rear Admiral Louis Kempf will cause several changes of station among naval officers in the Pacific coast. Rear Admiral Miller has received orders to relinquish the command of the Mare Island navy-yard and to assume command of the battleship Oregon at San Francisco. Captain B. H. McCall at present in command of the Great Lakes training school, will succeed Admiral Miller as commandant at Mare Island.

NOT AS PROTECTED

The Grand Trunk Pacific Outlook in the Light of Recent Developments.

Government Will Subsidize Only One New Line—Indifferent as to Amalgamation.

Special to The Journal. Toronto, June 24.—There is very little likelihood that the Grand Trunk Pacific, as now projected, will be built. Basis for this belief is found in the fact that Sir Wilfrid Laurier has declared, in the Dominion House of Commons, that the government did not care whether the Grand Trunk Pacific and the Canadian Northern amalgamated or not, so long as a new transcontinental line was built. It was the intention, he said, to subsidize only one new line.

It is asserted that the new portions of the Canadian Northern will be a part of the Grand Trunk Pacific scheme. Mr. Blair, minister of railways, suggested that it was quite possible that the government, in aiding the Canadian Northern, was aiding the Grand Trunk Pacific. The government's proposals provide that the Canadian Northern shall not amalgamate with the Canadian Pacific, but do not prohibit coalition with any other road. The apparent object is to guarantee competition for the protection of the public.

ONLY ONE ARREST MADE Authorities at Wilmington Take No Further Steps to Punish Mob Leaders.

Wilmington, Del., June 24.—The arrest of Arthur Corwell, who was taken into custody last night on suspicion of being implicated in the lynching of the negro White, the negro murderer of Miss Bishop, is the only one made thus far. The arrest was made at the instance of Attorney General Clegg, who has arranged for a preliminary hearing on a charge of murder as soon as the state authorities can make the necessary arrangements.

It is reported that other arrests will follow, but the attorney general said to-day that no additional warrants had been issued and he did not know whether any more would be sworn out.

Peter Smith, the boy who was shot during the assault by the mob on the county workhouse on Monday night, is still recovering from his wounds. The hospital say there is not the slightest hope of his recovery.

Rev. Dr. T. A. Bishop, father of the murdered girl, in an interview last night declared that he had not heard of the life of his daughter's assailant. He said, however, that it was the impression of the citizens that had a speedy trial been promised, the tragedy could have been averted.

Mrs. Bishop, mother of the murdered girl, is in a state of extreme nervousness. White was put to death within a few hours after the lynching. The mob could be plainly seen and heard at the house.

Governor Is Distressed. Dover, Del., June 24.—Governor Hunt says he is greatly distressed over the lynching of the negro White. When pressed for a statement he said: "There is nothing to say now. Let the people become quiet, once more and reflect upon what has been done in a great frenzy of excitement. I shall confer with the attorney general to see what course we can take."

Mr. O'Connell, the man under arrest in connection with the lynching, claims to be a resident of Hartford City, Ind. He says he is a member of the fraternal order of Eagles in that city and that on the night of the lynching he was at Shellport park, six miles from where White was lynched, attending a carnival of the local lodge. It transpired to-day that City Solicitor David J. Reinhart witnessed the lynching and says: "The scene sickened me and I went home. It is a blot and disgrace upon the name of the state. I am satisfied that the police in the night and immediately before White, for had they started to kill members of the mob they would have been blown up themselves with dynamite."

TELLS NEGROES TO ARM Colored Pastor Says They Should Buy Guns.

Chicago, June 24.—At a meeting of the colored people here last night to protest against the lynching of the negro, David E. Wyatt, at Belleville, Ill., Rev. C. H. Thomas, one of the speakers, advised his hearers that they should, if the hanging and burning of colored men is not stopped by the regular authorities, sell their coats and buy guns with which to defend themselves.

Others expressed similar sentiments and before the meeting adjourned the negroes present were worked up to a high pitch of excitement. Mrs. Ida Farnell said the negroes must organize to fight their own battles, adding that they never could expect the white men to fight for them until they had shown themselves capable of fighting for themselves.

NEGRO IS HUNG Mob Makes Short Work of Child's Assailant.

Elk Valley, Tenn., June 24.—Case Jones, the negro accused of criminal assault on 12-year-old Margaret Bruce yesterday, was caught in the night and immediately hanged before his little victim, who identified him. Jones broke down then and confessed his crime. He was promptly strung up by the police this morning and his body riddled with bullets.

MOB IS FOILED Tried to Lynch Negro Murderer, but They Failed.

Peoria, Ill., June 24.—The attempt of a mob to take "Billy" McRay, a negro, from the jail here and hang him, was frustrated by the authorities. McRay shot and killed Detective William E. Murphy last night and within a few minutes a mob was storming at the jail to which he had been hurried. McRay, armed with a warrant for McRay on the charge of burglary, approached the negro, who was standing on a street corner, and fired a shot which wounded McRay. Without a moment's delay McRay drew a revolver and shot the officer in the breast. He then attempted to escape, but was caught by Detective Chadwick.

DEMS ARE AFTER SMOOT

Will Seek to Make Political Capital Out of Attack on Utah Senator.

New York Sun Special Service. Washington, June 24.—A move is on foot among democrats to bring about the unseating of Senator Reed Smoot of Utah in the hope of making political capital out of the lynching of the negro White. The move is being made by the democrats of New York by the hundred have been sent by temperance societies and church organizations to members of the senate urging that Smoot be removed on account of his alleged practice of polygamy.

It has now become known that democratic senators are preparing to make a fight against Smoot, ostensibly in compliance with the wishes of their constituents. The real purpose of the democrats is to make a bid for the support of the church people all over the country and at the same time endeavor to put the republicans in the attitude of deserting Smoot.

It is generally believed in political circles that a deal was consummated between the republican party and the Mormon church in Utah, which democrats say, accounts for that state going republican in 1900 and 1902.

SOUTHERN TIMBER

Options on Large Tracts Held by Stillwater Men.

Special to The Journal. Stillwater, Minn., June 24.—John McCaskey has returned from Florida and South Carolina, where he has been exploring timber lands for William O'Brien of St. Paul. A. J. Lammers of Stillwater and others in the northwest who have taken options on large tracts in the south.

WOMEN ORGANIZING

Innovation Started in the Synod Meeting at Decorah.

Decorah, Iowa, June 24.—An innovation started at the Norwegian Lutheran synod sessions yesterday at Decorah, which has attracted more than 100 ministers' wives are present at the semi-centennial jubilee, and several of them held separate meetings in the college chapel to discuss the duties and dignity of their calling as ministers' helpmates, and to perfect, if possible, a permanent organization. The membership is limited to the wives of men who are or have been clergymen, and professors in the synod.

Mrs. A. Bredesen, of Stoughton, Wis., is the leader of the movement. This cablegram was prepared by Professor Stub and sent to the king of Norway to His Majesty, King Oscar the Second. Recognizing the gracious favors conferred by his majesty in word and deed the Norwegian Lutheran synod begs leave to express its deepest gratitude and pray God to bless the king and the fatherland.

HARVARD IS WINNER

Crimson Captures Four Oared Freshman Race from Yale. Gales Ferry, Conn., June 24.—Harvard took the first trick in the racing game to-day by winning the freshman four oared race. This scrub contest the unimportant compared with the events of to-morrow has nevertheless been awaited with interest. It was for three-quarters of a mile down river. Both crews got away smartly at the pistol shot, Yale taking a slight lead which the Harvard men overcame. Through the race there was never a lead by either crew. The Harvard crew, however, advanced, each boat having the lead several times. At the finish Harvard was about three-quarters of a length ahead. The time was three minutes.
