

BEAUMONT STILL HAS A CHANCE

Congressman Steenerson Persuades the President to Interfere in the Land Office Contest.

Commissioner Richards Is Ordered to Make an Investigation and Report to the President.

From The Journal Bureau, Room 45, Post Building, Washington, June 25.—Whether the new land office in northern Minnesota shall be located at Cass Lake or at Beaumont is still an open question; a very wide open question, in fact. President Roosevelt, this morning, after an interview with Representative Steenerson and L. H. Bailey, an attorney from Beaumont, dictated a letter to Commissioner Richards of the general land office, in the presence of Messrs. Steenerson and Bailey, in which he advised that the question of the location of the new office should be carefully inquired into by Richards, who he said, should secure all available evidence, written and oral, and then recommend one town or the other as the evidence may warrant. This recommendation is to be forwarded to the president, who will review it and make a final decision.

This is a great victory for the Beaumont people, in view of Commissioner Richards' action in definitely locating the office at Cass Lake, and thus, as many supposed, finally disposing of the matter. Mr. Steenerson feels jubilant over the success of his visit to the president, and will return home to prepare for the hearing before Mr. Richards, which will come in a month or two, probably. Whether Beaumont will ultimately secure the land office, he does not know, but he says the people of that town are perfectly willing to submit their case on its merits and abide by the president's decision, based on a full inquiry into all the facts to the convenience of settlers, railroad lines, etc.

Originally there were some matters of patronage connected with the case, and these have something to do with the early victory of Cass Lake. Mr. Steenerson, however, announces that he is entirely willing to permit the newly appointed officers of the new district to serve. He has no objection to their places, and will not bring the question of patronage into the controversy. All he wants is that the land office itself shall be at Beaumont.

Before starting for home it is probable that Messrs. Steenerson and Bailey will make a flying trip to Old Point Comfort by boat from Washington.

Judge Page, after visiting in Virginia and attending the commencement exercises of his alma mater there, will start for Duluth to-night. He is all ready to begin his work as federal district judge next week.

A New Red Lake Treaty. Representative Steenerson this afternoon called on Secretary Hitchcock to talk about the Red Lake treaty. It is the opinion of Senator Clapp that it would be a good plan for the interior department during the summer season to see what can be done towards securing a new treaty with the Indians so it can be made a basis for action in congress next winter. He is confident, however, that the present treaty will not be ratified.

The present bill, however, which took this matter up with Secretary Hitchcock late to-day at Senator Clapp's suggestion.

Architectural Competition. Some time ago Assistant Secretary Taylor decided to call for proposals for the so-called Tarsney act which provides for the competition of private architects in drawing plans for public buildings.

The war department officials received copies to-day of last Saturday's Journal, containing articles regarding the saloons at the St. Paul end of the Snelling bridge. The articles will be forwarded to the board of Snelling, with the request that an immediate report on the conditions as set forth in The Journal.

CONCILIATION BOARD It Perfects an Organization and Adopts Rules.

Wilkesbarre, Pa., June 25.—The conciliation board organized yesterday by the selection of J. W. Nichols as president and T. D. Nichols as secretary.

In order that matters for settlement be properly brought before the board, rules were adopted, providing that employees who may have grievances to submit to their foreman for adjustment. Should this prove unsatisfactory, an attempt is to be made to secure an adjustment from the nine members, in which the board will act to effect a union of interest between the two sides. Complaints must first be referred to that member of the board who has jurisdiction of the district affected, and no complaints will be entertained unless the men urging it shall remain at work pending the action of the board.

BREAKS THE RECORD Chicago Plant Turns Out 1,844 Tons of Rails in One Day.

Chicago, June 25.—The South Chicago plant of the Illinois Steel company yesterday turned out 1,844 tons of steel rails, breaking the world's record, which has been 1,772 for a day's work.

In celebration of the successful day the company presented every man in the rail department with a box of cigars.

WENT VISITING What She Learned at the Old Home.

After being away from the old home for years folks sometimes go back and find some surprising changes. An Ohio lady says: "I learned something valuable about coffee when I tried some while on a visit to my father's home. It was made by my father and mother using Postum Food Coffee and both feeling so fine and well. They both begged me to try Postum, and I finally did so to please them. And to my great surprise I began to improve immediately. After using Postum in place of coffee for a short time the heart trouble stopped entirely and did not return except when I tried some coffee while on a visit to a friend's house. Now we use Postum exclusively in our family, and husband and the children enjoy the fine drink as much as I do and we are well. "There is a lady living near us who had been sick for years, doctoring all the time and not getting any better. We sold her a package of Postum Food Coffee and now they use it all the time, and she is well. "I enclose the names of my father and mother, who are fine healthy examples of the advantages of using Postum in the place of coffee." All the above names given by Postum Co., Battle Creek, Mich.

FLOUR EXPORTS TO THE ORIENT

Have Doubled in Value Since 1892 and More Than Double in Amount.

Shipments to Hongkong, a Distributing Point for China, Are Especially Large.

From The Journal Bureau, Room 45, Post Building, Washington, June 25.—The popularity of American flour in China is attracting attention on both sides of the globe. The British consul general at Canton, in a report sent from China to London and published in that city, states that the demand for flour among emigrants returned from the United States is so great that the quantity of flour imported in 1902 exceeded that of 1901 by \$5,831,328 pounds and was also some 78,400,000 pounds in excess of the average for the past five years.

These figures of increase in Chinese consumption of flour are justified by the figures of the treasury bureau of statistics showing exportations of flour to China and adjacent ports. Indeed, it is only when the shipments to the ports adjacent to China are considered that the rapidity of increase in exports of flour to that part of the world is realized. To China alone, the exports of American flour have grown from 12,818 barrels in 1892 to 29,424 barrels in 1902. This increase of 85,904 barrels is small, however, compared with the increase in the shipments to Hongkong, from 1,684,382 barrels in 1892 to 2,149,203 barrels in 1902. This increase of 85,904 barrels is small, however, compared with the increase in the shipments to Hongkong, from 1,684,382 barrels in 1892 to 2,149,203 barrels in 1902.

Grouping the three statements of exports of flour from the United States to China, Hongkong and to Russian and British China, the total for 1902 stands at 471,408 barrels, and for 1901, 1,549,032 barrels. This shows an increase of over 200 per cent in the exportation of American flour to China, Hongkong and to Russian and British China, the total for 1902 stands at 471,408 barrels, and for 1901, 1,549,032 barrels.

From the standpoint of dollars, it may be added that the value of American flour shipped to China grew from \$67,441 in 1892 to \$2,149,203 in 1902, an increase of \$2,149,203. In 1901, the value was \$1,492,862, and in 1902, it was \$2,149,203.

The above figures cover simply the years 1892 and 1902, since the fiscal year 1903 is not yet sufficiently completed to enable a comparison of its figures with those of completed years of an earlier date. The bureau of statistics' figures for ten months, however, show a slight reduction in the quantity of flour shipped to China and Hongkong, but a marked increase in the quantity shipped to Russian China; while the total value for the year 1903 will be considerably in excess of that of 1902.

The following table shows the total quantity of flour exported from the United States to China and Hongkong in each year from 1892 to 1902, including the shipments to Russian and British China:

Year	Barrels	Dollars
1892	12,818	207,512
1893	10,675	188,991
1894	10,675	188,991
1895	10,675	188,991
1896	10,675	188,991
1897	10,675	188,991
1898	10,675	188,991
1899	10,675	188,991
1900	10,675	188,991
1901	10,675	188,991
1902	29,424	2,149,203

PALLIUMS CONFERRED Ceremony Took Place To-day in a Private Chapel.

Rome, June 25.—The ceremony of conferring palliums on the new archbishops and bishops took place to-day in the private chapel at the residence of Cardinal Luigi Macchi, dean of the cardinal electors and secretary of apostolic briefs. Monsignor Farrelly, secretary of the American college and privy chamberlain to the pope, the postulant for Archbishop Farley of New York, took in the archbishop's name, the prescribed oath and then Cardinal Macchi placed a pallium on Monsignor Farrelly's shoulders. The same ceremony took place in the case of Monsignor Jacquemin, who was postulant for Archbishop Guigley of Chicago and Father Descubri of the propaganda, the postulant for Archbishop Orth of Vancouver.

SHORTAGE IN FLOUR Philadelphia Houses Find Themelves Short of This Commodity.

Philadelphia, June 25.—A further advance yesterday of from 10 to 20 cents a barrel in the wholesale price of flour, following a similar gain Tuesday, excited concern among consumers and a number of part of flour and grain operators on the floor of the Commercial Exchange. Attending, as it did, however, a persistent advance, when the more experienced brokers were not taken unawares, although a majority of the jobbers and bakers found themselves uncomfortably short of the necessary commodity. Local warehouses are practically out of merchantable grades of flour, it being estimated that not more than 25 per cent of the normal stock is now available.

TO CONSIDER TREATY Colombian Congress Will Take It Up in Secret Session.

Bogota, Colombia, June 25.—The Colombian congress, which convened Saturday last, has organized. In the senate, J. A. Velez, said to be a vigorous opponent of the canal treaty, was elected president. J. M. Calderon was chosen president of the house. The new officers are declared, however, to be staunch supporters of President Marroquin and his government. It is thought to be unlikely that the treaty will be submitted to the congress until after the arrival of the remainder of the Panama deputies who started June 12. They are due in Bogota about June 30. The first few sessions on the treaty will be secret.

BIG STONE CITY, S. D.—The state G. A. B. encampment closed last night with a capillary and a grand ball. The state G. A. B. encampment closed last night with a capillary and a grand ball. The state G. A. B. encampment closed last night with a capillary and a grand ball.

KING'S BIRTHDAY IS CELEBRATED

Members of Royalty and Foreign Diplomats Attend Ceremony of Trooping the Colors.

The King Appears on Horseback—The Khedive of Egypt an Interested Spectator.

London, June 25.—King Edward's birthday was officially celebrated to-day in London and at all the royal residences and military stations. All the government buildings were decorated with flags, salutes were fired, the warships at all the ports dressed ship and the troops were reviewed. The main feature was the trooping of the colors on the Horse Guards parade ground here, which the king attended on horseback. This was the first time he had ridden since his last illness. The parade ground presented a highly picturesque scene. Queen Alexandra, the Princess of Wales, the Duchess of Albany, the Duke and Duchess of Fife, the Duchess of Connaught, Princess Henry of Battenburg and their children, and the Khedive of Egypt occupied seats in the central window of the Horse Guards building, while the other visiting dignitaries were occupied by smartly dressed women, cabinet ministers, members of the house of lords and house of commons and others. Many Americans were present, including the visiting members of the United States embassy and the American rifle team, who were under the guidance of Major General Lord Chesham.

The king, who wore the uniform of colonel of the Grenadier Guards, rode over the grounds surrounded by a brilliant staff and an unusually large gathering of foreign military attaches. The king halted at the saluting line, where the bands played the national anthem. After an inspection of the troops the ceremony of trooping the colors was carried out. Their majesties returned to the crown palace, heartily cheered by the crowds along the route.

SHOT HIS WIFE AND BABE

Jealous Orion Price of Stites, Idaho, Shot Three and Is Threatened With Lynching.

Special to The Journal. Stites, Idaho, June 25.—In a fit of jealousy, Orion Price killed his own baby, shot his wife and threatened with lynching. The ball in Leech's hand has not been located. Leech's angry knots of men gathered in various parts of town last night and many threats of lynching were heard. Only the absence of a leader prevented the mob from attacking the man who had killed the baby before it lodged in its mother's body. Turning on Edward Leech, Price fired again, the ball striking Leech in the shoulder. Price was then taken to the jail. The tragedy has thrown the town into the wildest excitement.

QUEER ADVERTISING

Ads of a Gold Mining Concern Lead to Investigation. New York, June 25.—An investigation has been ordered by the authorities at Washington of an alleged gold mining concern with offices in this city. For three months the concern has been advertising freely in all foreign newspapers. An advertisement translated from a Greek paper follows: "Do you wish to make money within a month? You are assured within a year and one thousand within a short time?"

TRouble AT OYSTER BAY

Rival Committees Warring Over the Honor of Greeting President Roosevelt.

Oyster Bay, L. I., June 25.—An unseemly clash has broken between rival committees of citizens on the occasion of the reception of President Roosevelt on Saturday but it is now hoped that everything will be settled by Saturday morning. Both committees will have a brass band at the station to meet the president.

GASOLINE STOVE EXPLODED

Fire Losses Sustained by Two Business Men of Valley City. VALLEY CITY, N. D., June 25.—An explosion of a gas stove in the lunch counter, and before the fire was put out, damaged the property of two business men. The explosion occurred in the lunch counter of the Valley City Hotel. The fire department was called and the fire was put out. The damage was estimated at \$5,000.

FALSE TEETH GRATIS

The War Office Supplies Losses Resulting from Active Service. Commercial Tribune. The war office has already got to work upon its plan for supplying false teeth gratis to soldiers who have lost their teeth as a result of active service, and local dentists have been approached in various centers with the offer of the army's free teeth.

THE BLACK FOX

Philadelphia Press. "What are you doing about the black fox?" asked the young wife of a man who was wearing a scrap of newspaper.

DINED THE AMERICANS

Emperor William Entertains Admiral Coffin and the American Commanders at Dinner.

Kiel, Prussia, June 25.—Emperor William gave a dinner last night on board the yacht "Hohenzollern" in honor of the Americans. At its conclusion he himself proposed a toast to President Roosevelt. The text of his cablegram to the president follows:

The President of the United States of America, Washington: On my arrival at Kiel I was welcomed by the American squadron and had the pleasure of receiving Admiral Coffin and his captains. It was a very happy and interesting occasion. I was very glad to see the squadron and to meet the admirals and captains. I was very glad to see the squadron and to meet the admirals and captains. I was very glad to see the squadron and to meet the admirals and captains.

The emperor, with Rear Admiral Cotton, Commander McRea of the Machesias; Captain Walker of the San Francisco, and Captain Cornwell of the Chicago, on board his guests, called the Emperor, sitting on the deck, the Emperor, sitting on the deck, the Emperor, sitting on the deck.

SOCIALISTS MAKE GAINS

Rebelling in Germany Gives Them 25 and Possibly 27 Additional Seats.

Berlin, June 25.—With four districts not yet heard from and with two more balloting to-morrow at yesterday's voting, results in the two conservative parties elected thirty-two members of the Reichstag, the national liberals forty-four, the socialists twenty-seven, the Progressives nine, the South German radicals the center party twelve and the socialists twenty-five, giving them eighty-one seats in all. The vorwärts, however, says the socialists elected twenty-seven members. The minor factions elected twenty-six members. Dr. Barth, a leading free trader, was defeated.

The result of the election is a situation has developed in the kingdom of Saxony, twenty-two of its twenty-three mandates having been given to socialists. There is an especially interesting situation in Leipzig, where a leader of the socialists, Professor Haase, a Bismarckian nationalist, among the elected are Eugene Richter, the radical leader, Herr Mommsen, a liberal who is a son of the Emperor's, and Prince Herbert Bismarck, a son of the late chanceller.

In the new rebelling, the social democrats will hold the second place numerically, and the Progressives will be in position with about a hundred members. The agrarians, as a party, have almost completely disappeared. They will probably be merged with the Progressives. The result of the election will certainly not affect the tariff, which will be modified only so far as is necessary for concluding commercial treaties.

MUCH TOO DRY

Further Reports From North Dakota That Crops Are Suffering.

Special to The Journal. Valley City, N. D., June 25.—Crops are suffering on account of rain. Late sown crops in many instances has not yet emerged. It is believed that rain should come soon so it is not believed that crops will be able to escape fall frosts. Wheat that two weeks ago covered the ground has gone backward and farmers say they can no longer distinguish the rows the length of the field.

NOREAL DAMAGE YET

Good Rains Will Repair Any Injury Done the Wheat Crop

Except in Dryest Spots, the Plant Can Stand Another Week's Siege.

Several Minneapolis elevator men were in the country this morning after a look at the situation in the districts covered and personal investigation made over a considerable extent of territory. It is the general opinion that no damage has been done by dry weather that good rain will not repair, and that there is nothing in the situation as yet to warrant apprehension of any curtailment of the yield as compared with the average. The Van Dusen-Harrington company, Osborne-McMillan company, F. H. Peavey company and other companies operating in the country elevators all report the prospect very favorable, but for the fact that the precipitation in June has been very light and much under normal. This makes the ton soil very dry, and that the situation is such as to cause apprehensions they do not deny. The assertion is made, however, that the wheat can go a long while yet without more rain and that actual damage need not be apprehended for another week except in the dryest places.

F. B. Wells of the Peavey company says the reports from country stations are favorable, and while there are places where the soil is too dry, it is not probable that there is nothing to indicate serious damage. Elevator lines thru South Dakota report dry weather and the need of rain in that section is such as to cause apprehensions they do not deny. The assertion is made, however, that the wheat can go a long while yet without more rain and that actual damage need not be apprehended for another week except in the dryest places.
