TOO LONG ON BABIES

Police Believe Overstocked Baby Farmers Responsible for Recent Door-Step Foundlings.
Yet They'll Inquire How Far Wires Are Being Put Under Ground.

Has some local "baby farm" become overstocked and adopted the plan of leaving infants upon doorsteps in order to reduce the surplus? The police are inclined to think so, as they are unable, in any other way, to explain the finding of so many foundlings as have been left on Minneapolis doorsteps within the last few months. An effort will be made to solve the mystery.

John Hafstaler, who lives in the second story of a store building at 2119 Cedar avenue, was disturbed last night by the wails of a baby, and upon going to the door found a baby of five or six months in an old carriage robe. The family took the little one in, and this morning notified the police. The baby was taken to Mrs. Sarah Schaefer, the police matron, and placed in a local institution for foundlings.

Shortly after some one called up headquarters by telephone, asking about "a baby that had been left on a doorstep on Cedar avenue," and wanted to know what had been done with it. No publicity had been given to the find, and the police thought the query came from some one very interested in the little one's fate.

WALKOUT OR LOCKOUT?

Bank Following Street Parade.
A strike occurred at the National Bank of Commerce this morning. It was all on account of the horse shows at Hamline. The Journal Newsboys' band passed the bank, three girl stenographers rushed out to see the redcoats, the major domo of their department locked the door to their department and the girls haven't been seen since. Therefore the strike partakes of the nature of a lockout. The newsboys are laboriously writing out letters by hand.
