

CITY NEWS.

WEATHER NOW AND THEN
Maximum Temperature To-day 69
Degrees; a Year Ago 77 Degrees.

Serious Blood Poisoning—Dr. C. A. Lapiere, 314 University avenue NE, is seriously ill of blood poisoning, which developed from a slight cut in his hand. He was slightly improved to-day but it got out of danger.

Secretary James Comling.—Secretary of Agriculture Wilson has notified E. W. Agriculture James Comling, secretary of the Commercial club, that he will attend the sessions of the American Forestry association in Minneapolis next August.

Lumber Exchange Company Election.—At the annual meeting of the Lumber Exchange company, which operates the Lumber Exchange building, H. C. Akeley was elected president. F. A. Chamberlain vice president and J. S. Forteous secretary and treasurer.

Insular Squatters Move.—The Phelps Island ejection episode, in which several squatters, including the Indian Chief Joseph La Frabois and some of his head-selling tribesmen, appeared as objectors, and Sheriff Dreger's whole force assumed the role of law-enforcers for the Western Realty company, is closed. Considerable persuasion was required to make the Indians realize that they must leave their camping grounds, but that result was finally accomplished, and this morning all squatters moved. Carlington Phelps' effects were removed onto some of his lots by the deputies. He made no resistance. Deputy Ueland is still on guard.

Clancy's Strenuous Time.—It cost J. E. Clancy \$10, a suit of clothes and a pint of turpentine to be run over by a peddler's wagon at Tenth avenue. The wagon, which was run down by the peddler who was trying to elude some small boys. He had a pint bottle of turpentine in his pocket and a new suit of clothes under his arm. In the collision, the bottle was broken and the turpentine ruined the suit. A quarrel ensued and when patrolman Joseph W. Haggren of the South Side police attempted to arrest him, Clancy tripped the officer and escaped. Ecklund swore out a warrant for Clancy charging him with assault on Haggren and the man was arrested by Sergeant A. D. Johnson and Patrolman John Thompson. He pleaded guilty and Judge Holt fined him \$10 to-day.

THE JOURNAL'S SWEET PEA SHOW.
All amateur flower growers are invited to take part in the Minneapolis Sweet Pea Show to be held on the second floor of the Dayton Building, 710 Nicollet avenue, Aug. 5, 6 and 7. The Journal and the leading florists and seedmen of the city offer \$384 to be given as premiums in the various classes of exhibits, which include beside sweet peas, asters, dahlias, nasturtiums (tall and dwarf), carnations, marigolds, verbenas, gladioli, dianthus (Chinese pinks), and general garden flowers. All vases or receptacles for flowers will be furnished by the management and no collection of flowers will be too modest to receive consideration.

The object of this show is to promote the growing of flowers in the homes and to assist the Minneapolis Horticulture association in a noble work. The beauty of the exhibits as an attraction will be supplemented during the three days with music by The Journal Newboys' Band and refreshments will be served by the Christian Endeavor society of the Park Avenue Congregational church. Entries are free and entry blanks should be filled out and forwarded as soon as possible to the Journal office, manager the Journal Sweet Pea show. All entries must be in by 10 a. m., Monday, Aug. 3.

NECROLOGICAL
MISS ALICE VAN ANDA, youngest daughter of the late Dr. C. A. Van Anda, died yesterday morning after a long illness of typhoid fever. The funeral will be held to-morrow at 2:30 p. m. at 2217 Portland avenue. The interment will be private. Miss Van Anda lived in Minneapolis for many years during her father's pastorates at Wesley, Franklin Avenue and First Methodist churches, but had been living in Chicago and Indianapolis for several years. In the winter she returned with her mother to Minneapolis to make an extended visit to the family of her sister, Mrs. A. F. Bruchholz and the many family friends. Her death will be great shock to a large circle of friends.

S. C. ROBINSON.—The funeral of S. C. Robinson, who died while driving Saturday, will be held from the late residence, 1813 Park avenue, to-morrow at 2 p. m. Interment will be in Lakewood cemetery.

JOSEPHINE CROWE, aged 18 years, died Sunday at the home of her aunt, Mrs. John Garvey, 3019 Girard avenue N. Funeral Tuesday, 8:30 a. m. Interment at St. Anthony cemetery.

HEAD OF TRADE SCHOOL
Miss Suzanne Miller Holds Important Place in New York.
Miss Suzanne Miller, formerly a teacher at the Madison school in this city, is now principal of the Manhattan trade school in New York city, the only institution of the kind in the country and possibly in the world. A New York daily received this morning by Dr. C. M. Jordan gives a full account of the work of this school and compliments Miss Miller very highly. This institution, which is at 283 W. Fourteenth street, is a private venture and is supported by voluntary contribution. The chairman of the executive board is Miss Virginia Potter, a sister of Bishop Potter. It is a school to fit girls for remunerative occupations. There are classes in dressmaking, millinery, embroidery, lace work, decorative needlework, bookbinding, sample mounting and kindred occupations. Recently an exhibition of the school's work was held and the display was the marvel of all who visited it.

THE TROCHA IS CUT

Railroad Fence Barring Access to Minnehaha Pavilions Is Badly Wrecked.
Resorts Resume Traffic Thru Newly Opened Gateways—Railroad Vows Vengeance.

Lawless destruction of property has superseded the sedate legal sparring which has marked the controversy over the pavilions at Minnehaha. Having secured the specific approval of the court, the Milwaukee railroad company proceeded to erect the new historic wire fence along its right of way, cutting off access to the pavilions. Last night unknown persons with wire cutters attacked the barrier at points where it would do the most good. This morning seven panels of the fine wire fence had disappeared. Seven gaping holes exist in the railroad's defenses and gateways are furnished thru which the crowds may go at will to the buildings.

This move has caused considerable excitement among Minn. residents who are interested in exterminating the pavilions and who were instrumental in having the fence built.

Further trouble seems assured for the railroad officials have been notified of the depredation and have expressed themselves as being of the opinion that the case is not yet closed.

"It is a serious thing to destroy railroad property," said a man connected with the Milwaukee road this morning. "Of course it will be difficult to catch the vandals, but every effort will be made to locate the right parties. The openings in the fence are so evidently placed for the benefit of the vandals that the purpose of the work seems plain. If the proprietors of those places think they can win anything by that manner of proceeding, they are mistaken, and they will be given all they want."

It is understood that the fence will be repaired without delay and the benefit of the openings will be comparatively small.

200 GLAZIERS OUT

They Want to Force Big Employers to Recognize Their Union.

Firms Affected Say Time Favors Them Because Business Is Dull.

Because the larger dealers in plate, leaded and window glass have refused to recognize the union, some hundreds of glass workers went out on a strike this morning and with the exception of one small unionized shop there will be nothing in the glass work for several days.

The putty glaziers have been out on a strike for shorter hours at the same pay for about ten weeks. The strike affected the putty men and is expected to be successful until Forman, Ford & Co. decided a short time ago to employ non-union glaziers. The other union glass workers refused to work with them and the conference between Frank W. Forman, of the company, and a committee from the glass workers' union gave no comfort to the union, so it was decided last night to go on strike and the strike was on to-day.

Forman, Ford & Co., the Pittsburgh Plate Glass company and Ford Brothers have continued all work for local use in leaded or other mounted glass. The one shop which is not affected began business Jan. 1 and has been steadily increasing its output. This morning the glass workers met at Alexander's hall and formally declared the strike on and this afternoon the work in the unionized shop where access to them was denied to all.

Statements from the principal glass houses of the city indicate that the strike, which is expected to have little effect on the business.

"Our men didn't want to quit, as they were perfectly satisfied with their hours, their pay and their treatment. They were simply outvoted and had to go out," said Frank W. Forman, of Forman, Ford & Co. "Some committee of men were walking delegates came to me Saturday afternoon and tried to get me to sign some agreement to recognize the union. I declined, knowing all the possible consequences."

"A strike will not affect us much, anyhow. This is our dull season and there isn't much work to be done. The out-town work is done where they don't have any unions. If the glassworkers wanted to declare a strike, they couldn't have done so under the present conditions. A lot of them will get hungry before we do."

The Pittsburgh Plate Glass company offered about the same explanation of the strike and about the same prophecy as to its results.

FAIR PRIVILEGE SALE

It Will Be Held at State Fair Grounds Saturday, Aug. 1.
Lyman D. Baird of Austin, Minn., superintendent of privileges for the Minnesota state fair, announces that the annual privilege sale will be held on the fair grounds, midway between Minneapolis and St. Paul, on Saturday, Aug. 1, at 10 a. m. Previous to that time no concessions will be allowed and all applicants for privileges will be treated alike. When the sale opens Aug. 1, the places allowed for concessioners will be knocked down at auction to the highest bidder, the auctioneer to be treated alike and as rapidly as possible. These annual sales of privileges are rather picturesque affairs.

The draw together was composed of many diverse elements ranging from cheap chairs to the committees of ladies from church societies which desire to run refreshment stands. Competition for the best places is usually very spirited. It is expected that prices will range high this year, as the Minnesota state fair has a first-rate reputation among people who desire something to sell to a crowd and the prospects for the coming fair are very bright that privilege buyers are very likely to be numerous and eager for places.

The board of managers will hold an important meeting to-morrow, beginning at 10 a. m., at the office on the fair grounds, at which they will report on the divisions and a general clearing up of business all along the line. As the fair opens to-morrow, it is expected that much to be done from now until Aug. 31.

BLOWING UP FISH

Dynamite at Work on Lakes—One Is Convicted.
Dynamite has been used extensively this summer by unscrupulous market fishermen in northern Minnesota. Lakes were stocked with pike and black bass have been cleaned out by exploding charges beneath the water. This kills the fish and brings them all to the surface, where they are scooped into boats. The same warden has been on the trail of offenders, and at last a conviction has been reported from Grand Rapids, where a dynamite was fined \$15 and costs.

Last year one Yale student spent \$11,000. Another who got along with \$200 knows just as much and has fewer expensive tastes to cater to.

BIG SHIPPING FEAT AHEAD OF THE GAME

60,000,000 Bushels of Wheat to Be Carried Out of Canada in Thirty Weeks.
Several City Departments Spend Money in Excess of Their Appropriations.
Police Department Will Show a Deficit—Others May Finish With a Good Surplus.

City Controller Joshua Rogers in his semi-annual report to the council on the condition of the city's current expense accounts. Out of total appropriation of \$1,023,165.50 for the current expenses \$513,546.82 has already been expended leaving a balance of \$509,618.68.

The fire department is more than \$20,000 ahead of the game, but as this money has gone largely for supplies, which will last during the year, the department does not expect a deficit. It is otherwise with the police department, and unless the salaries are trimmed to meet the appropriation this department will show a big deficit. The condition of the other funds indicate a healthy surplus at the end of the year unless the police department should pull the balance down. The expenditures from the various funds, not including park, board of school board, and other separate funds, with balances on June 30 are as follows:

Expenditures. Balance.
Fire department \$1,023,165.50 \$509,618.68
Police department 127,877.91 108,122.09
Engineers 10,000.00 10,000.00

It HAS TWO TAILS
Borley's Comet Will Be Visible With the Naked Eye All This Week.
Can Be Seen Half Way Between the Star Vega and the Milky Way.

Thereby hangs two tails. If you could see them both, it would be easier to make out to-night the very latest comet in the sky. This is Borley's comet, whose appearance was announced by the astronomers several weeks ago.

The two-tailed wonder is already visible to unaided eyes, but checked also location every night. Last Tuesday the comet was seen not far from Alpha Cygni, that is, star A in the constellation of the Swan. Soon after midnight, observations taken in St. Paul, the comet had moved nearer to the star called Vega. The spot of hazy light is traveling southwest at the rate of five degrees in twenty-four hours.

This comet now looks like a nebulous star or bit of the Milky Way. One stump tail is visible with the naked eye, brief, fox-terrier projection. But thru the telescope two tails can be seen.

Those who have forgotten how many rings are worn by Saturn can easily find the bottled comet. They can locate the dipper without trying, and the north star, of course, above the dipper and in direct line with the outer stars in the basin of the dipper. The very bright star called Vega, then, is on the left of the dipper at a distance of one-quarter of the circle around the star.

This comet now looks like a nebulous star or bit of the Milky Way. One stump tail is visible with the naked eye, brief, fox-terrier projection. But thru the telescope two tails can be seen.

Those who have forgotten how many rings are worn by Saturn can easily find the bottled comet. They can locate the dipper without trying, and the north star, of course, above the dipper and in direct line with the outer stars in the basin of the dipper. QUIGLEY BOYS' CASE

Officers of the State School at Owatonna Will Demand an Investigation.

They Say Charges Are Unfounded and Suggest Board of Control Inquiry.

Officers of the state school at Owatonna will demand that the case involving the three Quigley boys of Minneapolis be thoroughly investigated by the board of control.

The boys were sent to the school upon the solicitation of Mrs. Clara Quigley, 3209 Twenty-first avenue S., and in accordance with the rules of the institution were, after a hearing, committed to the custody of the state.

As to the child law, Mr. Merrill says the children adopted from the school into home as a rule, just as well as they had been born in their new homes. Any farmer's children are expected to work in the fields or elsewhere as occasion demands. They are allowed to attend school, and as a rule are in good homes.

The case of the Quigley boys is not out of the ordinary, not less than six personal letters were written to neighbors and reliable people asking concerning the families they were with, and, according to Superintendent Merrill's statement, the boys had been with the Quigleys for some time and were well recommended. The boys have frequently been visited by representatives of the school, and it is claimed, were contented and interfered with and induced to run away. An investigation convinced the school officials that the charges against the Quigley family were unfounded. The records of the board in charge of the school show the following in regard to this investigation of the case:

"The report of Mr. Jager of his investigation of the situation of Mrs. Clara Quigley, who petitioned for the return of her boys, James M., Harry B. and William T. Quigley, was given careful consideration. In view of the fact that the boys had been placed out in other homes before the mother applied for them and the reports of our agent showed that they were well treated and that they were in good homes, it was decided that the boys should be returned to their mother. Therefore, on motion, the request was denied."

"Mr. Merrill states: 'I would urge that these complaints be left with the board of control of state institutions for investigation.'"

THE DOCTOR STUMBLER.
Youngstown Telegram.
When the average lawyer attempts to cross-examine a doctor the latter seldom fails to show up the barrister's lack of medical knowledge, also occasionally the doctor shows himself well up. The lawyers tell a story of a well known physician who, while on the stand in common pleas court, declared that the plaintiff in the case then on trial was "ambiguous."

"What do you mean by the term 'ambiguous'?" inquired the lawyer.
"I mean that he can use one hand as well as the other!" replied the medical man.

BETTER CANAL OUTLOOK

Colombian Political Situation Clearing Up a Little—Caro's Tactics Fail.

Private advices state that the possible candidates for Aug. 4, 1904, are: First, General Rafael Reyes, then General Gonzalez, Valencia and Rudeo Cuervo Caro are not considered practical possibilities, but a dark horse may come up later. Ex-Dictator Aristides Fernandez is out of the race entirely. President Merroquin does not countenance re-election, desiring to retire to private life when his term of office expires on Aug. 5, 1904.

Regarding canal matters a quieter feeling is prevailing, but progress is slow. It is generally admitted the strongest opposition to the canal is in the hands of the Quigley boys. The opposition is much less. President Marroquin is reported as having admitted a strong hostility in congress on Aug. 5, 1904.

As to the child law, Mr. Merrill says the children adopted from the school into home as a rule, just as well as they had been born in their new homes. BURIED TREASURE TROVE

Philadelphia Man Said to Have Dug Up Confederate Bullion Buried in War Time.

New York Sun Special Service.
Savannah, Ga., July 20. It is reported that W. W. Haslip, the Philadelphia treasure-seeker, has found gold and silver which were buried on Warsaw Island, off the Georgia coast, during the civil war by a confederate blockade runner, to escape capture by federal ships. The treasure amounts to several hundred thousand dollars, and Mr. Haslip was here making arrangements for the transportation of his find. He would not admit that he had found the money, but he bought a lot of canvas bags and made other arrangements which indicate that he had built to transport. Haslip has been on the island digging for the treasure for more than a week. He obtained the secret of the treasure from Amos Beman, who was first mate on the confederate blockade runner, Lucy Verne, which sailed out of Baltimore for Charleston, carrying large sums in silver and gold.

The treasure belonged to the Starke family of Baltimore, who captured the blockade runner, and he had bought the treasure for more than a week. He obtained the secret of the treasure from Amos Beman, who was first mate on the confederate blockade runner, Lucy Verne, which sailed out of Baltimore for Charleston, carrying large sums in silver and gold.

Private advices state that the possible candidates for Aug. 4, 1904, are: First, General Rafael Reyes, then General Gonzalez, Valencia and Rudeo Cuervo Caro are not considered practical possibilities, but a dark horse may come up later.
