"Kook-Kroach-Killer" kills; no mistake about it. Glass Block. Dr. T. J. Gray is at the Hotel Hyser. He will be in his office as usual.

Recognized Fashion Headquarters, The great Plymouth Clothing House.

THE WEATHER PREDICTIONS

Minnesota—Generally fair to-night and Friday; variable winds, mostly east. Wisconsin—Generally fair to-night and Friday; probably warmer Friday in western portion.

4th Semiannual Reduction Sale, 1882-1903. Plymouth Clothing House.

A MOUNTAIN OF GOLD ORE

Gen. S. E. Olson, Back From "The Hills," Tells of Reliance Company's Property There.

"We're going to strip the top off Bald Mountain and then we are going to show the world something about quarrying gold ore," said General S. E. Olson at his seat in his Walton block offices this morning.

General Olson, who, since his retirement from the general merchandise business three years ago, has been turning his attention to mining, has just returned from two weeks in the Black Hills country, more than enthusiastic about the region.

Insurance Commissioner E. H. Dearth received a complaint from William S. Burroughs of La Crosse that Webster & Sons, proprietors of a woolen mill at La Crosse, Minn., had a \$10,000 fire loss recently.

State Superintendent Olsen has sent out the questions for the fall teachers' examinations, which will be held Aug. 3, 4 and 5 in 150 different places.

William Bunnell, the 12-year-old son of Mr. and Mrs. Willard Bunnell, 501 Third avenue SE, is attracting attention because of his remarkable recovery from a severe case of tetanus, which has been so fatal in the twin cities this year.

CLIME AND MORALS HORSES ARE BURIED

Former Not to Blame for Deterioration in the Letter in Philippines.

Dr. Don F. Fitz Gerald Declares the Theory Groundless—His Observations.

That moral deterioration is caused by the Philippine climate is a new theory in which Dr. F. Fitz Gerald, the son of a former acting surgeon at Manila, has little confidence. Dr. Fitz Gerald, brother of Dr. R. J. Fitz Gerald, surgeon of the Thirteenth Minnesota, was lieutenant of B company, same regiment, and was for some time in charge of the military hospital for convalescents at Manila.

Dr. Don F. Fitz Gerald had read the suggestion of the Manila Times, reported by way of Washington, that a tropical climate has a tendency to weaken the moral fibre, making men indifferent to the consequences of criminal acts; and that this assumption accounts for the fact that military and civil officers, guilty of pecculations in the Philippines, have taken so little precaution to conceal their misdoings or to escape punishment.

"It's not the climate," commented Dr. Fitz Gerald, "but the man. I think of other features of environment. The climate doesn't even injure your health out there, if you take any reasonable care of yourself, and are not imbued with a moderate use of liquor. During the whole year that our company was working and fighting in Luzon we didn't have more than a dozen cases of serious illness. This is in spite of the fact that we spent months in active campaigning, and the further fact that Manila, when we first lived there, was horribly filthy and unwholesome. I didn't notice that our company showed the slightest falling off in discipline or effectiveness after a year's service."

"But I did observe some soldiers in our army, men with weak character and bad instincts no doubt, committed outrages that they wouldn't have thought of attempting here. I think these men would enter the house of a native, level guns at his head, and demand all the money and jewelry that the family had. And other soldiers, imbued with a moderate use of liquor, would enter the house of a native, level guns at his head, and demand all the money and jewelry that the family had."

"These offenders simply thought that they were defrauding ignorant foreigners who had been deceived by some unscrupulous merchant and probably wouldn't complain. If they did, the American officers wouldn't take the word of a native as against the word of a soldier. It was a big mistake, of course."

"In general, too, men that are far away from their home moral centers are likely to slacken up a little. As for special cases, one that's important is the desire of army lieutenants on small salaries to keep up the pace set by superiors, getting three or four times as much pay."

"But all such inducements to crime have nothing to do with climate. They would exist just the same in the middle and civils sent out among the natives of Alaska."

HORSES ARE BURIED

Regan Brothers' Barn and Thirteen Horses Destroyed Last Night—Loss \$10,000.

A Fire at the University Causes a Loss of \$2,000 to Medical Building.

The barn of Regan Brothers, Seventh avenue N and Sixth street, was nearly destroyed by fire last night. Thirteen horses were burned to death, eleven wagons were destroyed and 10,000 loaves of bread were spoiled by heat and water. The damage is estimated at \$10,000, fully covered by insurance.

The fire broke out in the basket-room, probably from crossed electric wires, and spread to the main building. It was discovered. One of the stablemen turned in an alarm and others began to battle with the flames. When the firemen arrived additional apparatus was called in.

Seventeen horses were in the barn and only four were saved. The others became unmanageable, the fire soon reached them and the barn men were compelled to leave them.

The barn was a frame structure covered with corrugated iron. Lines were carried thru the bakery and after an hour's hard fight the fire was under control.

BLAZE AT THE "U"

Dental Department of Medical Building Suffers \$2,000 Loss.

Soon after the Regan Brothers' fire, an alarm was turned in from the state university, a fire having been discovered in the main building. As soon as Chief Canterbury arrived additional apparatus was called. The fire was extinguished before it had done more than \$2,000 damage.

Firemen discredited a rumor of incendiary, but have no theory to advance. The fire was discovered by Otto Frykman, caretaker of the anatomical laboratory. The flames were confined to the dental department. The first floor of the building was flooded to prevent the spreading of the flames.

16,000 MEN WANTED

The Number Needed to Care for the Crops in Northwest.

Reports received by the Northern Pacific and the Great Northern roads indicate that 16,000 men will be needed in the harvest fields Aug. 1. Wages will run as high as \$1.50 a day, plus board.

The demand for diversified farming and the introduction of dairying, regular hands are employed the year round so that the demand from many stations in Minnesota has fallen off. Only eleven of the forty-five Northern Pacific stations which want hands are in Minnesota. The Northern Pacific wants about 7,500 men and the Great Northern about 9,000.

FOUND SON HAD DIED

Father Comes to Visit Sick Son and Learns That He Is Buried.

Gilard Griffith, insurance man of Des Moines, Iowa, went to St. Paul yesterday to visit his son, who, he heard, was ill in the city hospital. When he arrived he learned that the boy had been dead since July 2. The father was notified at the time the boy took ill, and telegraphed Dr. Ancker, the city physician, to notify him if the boy grew worse. The telegram never reached Dr. Ancker. The boy died, he was buried without his parents being notified.

Don't Neglect Your Feet.

Keep them comfortable in a pair of cool Nickel Plate Oxfords.

BISCUIT CO. RUMOR

Has the National Bought Up the Independent?—Report Says Yes.

Neither confirmation nor denial of the rumor that the National Biscuit company has bought the independent cracker plants in Minneapolis, Kansas City, Dallas and St. Louis can be given. The general opinion is that the trust has no need for the extra plants unless it is to make up for the reduced output at the principal factory in Chicago, caused by the fire. The planters in touch with the management of the two companies believe the story is unfounded.

SETTLERS FROM NEBRASKA

Party of Fifty-one Pass Three Cities on Their Way Northward.

The Omaha fast mail yesterday brought in two special cars of Nebraska farmers—fifty-one in number—in charge of W. E. Strub of Lincoln, Neb. The party spent the day sight-seeing in Minneapolis, under the guidance of Frank Crowell, and left last night for the Northern Pacific and the Minnesota coast. Some of the settlers will go to Brainerd and others to Bemidji.

JUDGES TO BE ELEVATED

Municipal Court Soon to Occupy Rooms on Fourth Floor of City Hall.

The clerk of the municipal court, the municipal judges and the municipal courtrooms will occupy quarters on the fourth floor of the new city hall. The rooms will soon be completed and furniture will be purchased at once. The change is desirable as will be the removal of the court from the noisy and crowded quarters in their present position.

THEY ATE BAD PORK

John Hehl, his wife and four children are lying very ill, the out of danger, at their home, 423 Webster street, St. Paul. They were yesterday, and a physician says that the poisoning is due to some pork eaten a few days ago.

COURT RUNS BREWERY

And Makes Half Million Profit in Doing It.

New York, July 23.—Thru John M. Bowers, as receiver, the supreme court of New York yesterday rendered a decision so successfully that the business last year realized a profit, it is believed, of \$500,000. These facts and the additional information that for his services Mr. Bowers will receive a fee of approximately \$150,000, were disclosed upon application by the receiver for permission to resign and turn over the property located in his city to the widow of one of the former proprietors.

ELKS HAVE CRAB FEAST

Baltimore, July 23.—70-day 12,900 Elks now attending the national convention at the Elks club here, are participating in a crab feast which had been prepared for them by the local lodge.

RAILROADS.

THE I. C. C. SAYS NOT

Commission Holds That Rates From Cannon Falls Are Not Unjust.

Relief Was Sought in Connection With Charges on Chicago Shipments.

The state organization of municipalities, with headquarters at Cannon Falls, has had something of a setback in the turning down by the interstate commerce commission of an application in the matter of rates which it was backing. Railroad men believe that the matter was pushed rather as an advertisement than because justice was inherent in its demands.

The interstate commerce commission has denied the application of the Cannon Falls Elevator company for a readjustment of the grain rates between Minneapolis and Chicago and Cannon Falls and Chicago. The complaint charged discrimination on the part of both the Great Western and the Milwaukee roads.

It was charged that in connection of the interstate commerce law these roads exacted a rate of 15 cents a hundred pounds on small grain from Cannon Falls to Chicago and Milwaukee, while making a rate of 7 1/2 cents from Minneapolis to these points, 40 miles farther from Minneapolis than from Cannon Falls.

The complaint was many stated that it was a large buyer of rye at Cannon Falls, and that with a parity of rates it could market its grain at Louisville, Ky., but that with existing rates it was unable to compete with Minneapolis shippers.

Under the present tariff, the rate from Cannon Falls is 15 cents and the rate to Minneapolis 7 1/2 cents, so that by reshipping at Minneapolis the grain makes one-half cent less, but this discrepancy applied only to shipments east of Chicago so the relief was denied.

A GIANT SYSTEM

Long Figures Necessary to Indicate the Pennsylvania's Business.

A writer in the commercial advertiser in New York yesterday compared the condensed income accounts of the Pennsylvania road for the year ending Dec. 31, 1902, with the New York Central's figures for the year ending June 30, 1903, as follows:

Table comparing Pennsylvania and New York Central financial figures for 1902 and 1903. Columns include Pennsylvania and New York Central, with sub-columns for 1902 and 1903. Rows include Gross earnings, Operating expenses, Other incomes, Rentals and charges, Dividends, Surplus, and Bonds.

Within the present year the Pennsylvania has increased its capital stock by an amount which will bring the total up to \$501,000,000. No other railroad has had any increase in the capital account of the New York Central, also both bonds and stock issues have been authorized by the stockholders. It is, however, generally understood that the Central has acquired securities of a total cost about \$25,000,000 to be financed in the near future.

The most significant item in the income accounts given above develops the tremendous financial strength of the Pennsylvania. Its annual income can be increased by cutting operating expenses and fixed charges at the rate of 10 per cent, and with the increase of present outstanding capital stock at the present rate and still have a surplus.

POND DENIES AGAIN

Says Wisconsin Central Has Not Asked for a Differential.

General Passenger Agent Pond again denies denial to the story that the Wisconsin Central has asked a differential for the shortest route from Chicago to Minneapolis and Chicago. He believes that, instead, the Central will be asked for a differential for the shortest route from Chicago to Minneapolis and Chicago.

COMBINATION AT WATERLOO

Waterloo, Iowa, July 23.—The first step for improvement between the Great Western and the Cedar Falls and Waterloo Rapid Transit company were taken this week when a force of men began laying track to connect the two systems here. It has been rumored that a new track will be built to this city and that the entire business of the Great Western will be turned over to the Rapid Transit company to handle, and thus do away with the stub line of the Great Western leading from Cedar Falls to Waterloo Junction.

MISSOURI WAR ON BROKERS

St. Louis, July 23.—Attorneys of the Baltimore & Ohio Southwestern have applied to the St. Louis circuit court for an injunction restraining ticket brokers from selling non-transferable railroad tickets. Injunctions were obtained by several railroads from state courts against the involuntary ticket brokers three weeks ago restraining them from selling non-transferable tickets. Subsequently Attorney Judson secured from the supreme court of Missouri a writ of prohibition restraining the circuit judges from enforcing their injunctions.

RAILROAD NOTES

The American Express company will establish regular service on the new Madison branch of the Omaha road Aug. 1.

A large delegation of home-seekers passed thru the city yesterday and to points in Canada and Washington. All coast lines were obliged to add extra equipment to regular trains on account of the traffic.

J. P. Centillon has been appointed assistant superintendent of the North-Western with headquarters at Glasgow, W. D. He has been in the service of the North-Western for several years.

The St. Louis has announced a rate of \$1.50 to New Ulm and return Sunday, July 26, on account of the G. & N. encumbrance at St. Paul. St. Paul at 8:30 o'clock for Minneapolis and New Ulm Sunday morning, and returning on account of the G. & N. encumbrance.

The Omaha will run tourist sleeping cars from the twin cities thru to California Aug. 4 and 11, on account of the G. & N. encumbrance at St. Paul. The tickets at the special of A. R. rate will be on sale from Aug. 1 to 14, inclusive, but the train sleepers will run only on these dates. The Omaha will carry the cars to Omaha, where they will be turned over to the Burlington and taken to Denver. The route then will be over the Denver & Rio Grande and Southern Pacific.
