

NEWS OF THE NORTHWEST

MINNESOTA OPENING NEW MINES

Two Very Important Ones Are About to Be Added to the Mesaba Group.

Open Pit Mining at the Flynn on State Lands Going Day and Night.

Special to The Journal.
Duluth, Minn., July 24.—Iron ore shipments are smaller than last month from independent shippers and from old mines. On the other hand, the United States Steel Corporation's Mesaba mines are very active and their ships are exceedingly busy. A new and very large ship has been added to this company's properties in the open-pit Burt, which is scheduled to produce before the close of the season about 1,000,000 tons of ore. Their other mines are not unprofitable to the extent that additional shippers increase business, and the conclusion is that the corporation is to produce as much ore as ever.

As a matter of fact, 1902 shipments from the lake were just about 5,000,000 tons more than was wanted, and the present season the extra weight on the market will have to be absorbed, either by lessened shipments to lower lakes or by increased consumption.

Lake records for cargoes have again been broken by the Pittsburgh Steamship company, the lake subordinate company of the United States Steel. Its 500-foot steamer, William Edson, took a cargo from the docks of the Duluth, Mesaba & Northern road in this city containing 7,715 tons of iron ore. This exceeds this ship's previous records by 56 gross tons.

Two important mines are to be opened on the Mesaba range. One is the Flynn, the United States Steel corporation, coming to that company through a purchase recently concluded. The other mine is a small property, containing at least \$50,000,000, opened, not over 1,000,000 tons, but of a magnificent grade of ore, exceptionally high in iron, low in phosphorus and exceedingly coarse in structure. This mine has been discovered by Duluth men on lands belonging to the Williams estate, and lies in section 4, township 58, range 14, a mile west of the Duluth. It is about thirty-five feet of surface and the property will be opened as a milling proposition. Prior to the present exploitation on the Mesaba, no other property had been spent in punching holes and sinking shafts on the same eighty-acre tract. Part of this work was in the early days of the Mesaba, and part immediately before the present lessees took hold.

Mesaba ore is moving to Canadian cargoes to some extent, several cargoes having gone the next week to Midland for the Canada Iron Furnace company. What has been called the Flynn mine, adjoining Hibbing, has been sold to the steel corporation for \$10,000,000, and is a state lease and an important factor. The steel corporation has commenced shipments from its new Burt mine at Hibbing. This was a small underground property until now, but last fall immense stripping contracts were undertaken and the open pit is now accumulating two shovels day and night in mining. The product for this will come off a state lease adjoining and included in the same operation. Mountain Iron, Fayal and other large shippers are moving about as usual.

In the Hibbing district the United States Steel corporation's mines number one, with one more to come immediately. These include the Burt and Morris open pit mines, the Hull, Rust, Day, Sellers, Pillsbury, Clark and Chisholm, underground, and the St. Clair, also underground, and until very recently the property of the Oliver-Snyder interests, operated under a contract by the Minnesota Iron company.

The Penn Iron Mining company (Cambria Steel company) will improve at Sturgeon river and is planning to expend \$500,000 there for power. The current derived from this power will be used to operate four of the company's mines near Norway. The Oliver Iron Mining company is expending \$100,000 in improvements at its water power at Guinness falls, which is now used at the Chapin mine. With the completion of these improvements much additional machinery will be placed in the Chapin.

Explorations have commenced west of Little Lake, Marquette county, and have demonstrated the existence of ore in considerable quantity. This section has not been explored up to this time and the discovery of ore in any large quantity would be of the utmost importance. W. Snyder & Co. are also exploring there and others are preparing to go in shortly. The Cleveland cliffs comprise the best buying much land in that section and seems to have confidence in its value.

Helen mine shipments this year will probably reach 400,000 tons. A diamond drill has been in excellent ore for a distance of 107 feet below the bottom of the opened mine, and lower levels are widening out materially. The current has developed by drills 125,000 tons of high grade pyrites running 42 to 48 per cent in the bottom of Boyer lake, which they will mine and sell. They expect to increase their tonnage of pyrites materially with additional development.

REYNOLDS MAY BE CAUGHT
So Mr. Davis Says—Relatives of Poor House Inmates to Be Jugged.

RED WING, MINN.—The county commissioners are instituting suits against certain parties who have relatives in the county poorhouse and who refuse to support them. One complaint is directed against Anton Reynolds, who has a sister in the poorhouse. A second complaint of like nature is served on Henry Wilson of Houston county, who has failed

to contribute to the support of his brother, A. P. Wilson, who is also an inmate of the poorhouse.
T. H. Davis of the New York Life Insurance company is in the city. Mr. Davis is the gentleman whom many business men will remember in connection with C. B. Reynolds, the rapid-check manipulator, who left Red Wing so hastily that he did not have time to bid adieu to his relatives and acquaintances, but remembered to defraud the First National bank out of \$400. Mr. Davis states that the matter is in the hands of the Pinkerton detective and he thinks that sooner or later Reynolds will be trapped.

FOSTON GROWING
Had to Revamp Its Electric Light Plant to 3,000 Lights.

FOSTON, MINN.—Representative B. S. Bennett is spending this week in Crookston on legal business.
L. S. Johnson, a prominent hardware dealer in this city has erected a large two-story building for business purposes. The Union Telegraph company has been repairing its line about the city.
Owing to the drought in the early part of the summer, prairie hay promises to be very scarce in this part of the state. In some places, highland hay is hardly worth cutting. As a compensation the dryness has made possible a harvest on the good meadow lands of here, parts of which I have usually been too wet.
The growth of the city has necessitated an increase in the capacity of the electric light plant. The work of installing a new dynamo and a new engine has begun. With this addition the plant will have a capacity of some 3,000 lights. The city owns and operates its own electric light plant.

RAISED IT \$118,800
That Is What the Equalizers Did to the Dakota County Valuation.

HASTINGS, MINN.—The county board of equalization completed its labors yesterday, having increased the personal property valuation \$118,800 over the amount returned by the assessors. A stranger named W. H. Mabry was sentenced to ten days in the county jail yesterday by Justice Stephen Newell, upon an alleged charge of distributing obscene literature. The arrest was made by Chief of Police Wilson Nolan, at the instance of Mayor J. C. Steben.
John Wright, of Cottage Grove, broke his right leg at the ankle yesterday by a fall from a load of hay. Mr. Wright is a well-known farmer, one of the proprietors of the New York store.

MISS OLSON'S CONDITION
She Says She Feels Better, but Her Doctors Make No Statement.

MONTPELIER, MINN.—Miss Minnie Olson, the victim of the negro brute, Scott, says she feels better. She is cautious not to talk yet. Her fever is noticeably lower but the attending physicians have not as yet expressed any opinion as to her chances of recovery. It is understood here that the reason the effort to lynch Scott at Minnesota Falls failed, was that the men had no competent leader.

LONG PRAIRIE, MINN.—The summer school for teachers at this place, with J. M. McCollough, of Minneapolis, as conductor; F. O. King, Park Rapids; Gertrude L. Enderle, St. Cloud; and Ethel Case, Minnesota, instructors, is now in its fifth week. The attendance has reached 100, and is believed to be the largest six weeks' school in the state, excepting, of course, those held at normal schools. Last evening J. Watson Cooper of Hamling university delivered his lecture, "The Education of an American," to a large and appreciative audience of teachers and citizens.

NORTHFIELD, MINN.—The Archer house has been purchased from Dr. J. R. Phillips and John A. Smith for \$16,500 by Mr. and Mrs. Brown of Owatonna. They have also purchased the lease and fixtures from Bartlett & Son, and will conduct the hotel after Aug. 1. The name of the hotel will be changed.

A large crop of oats, rye and barley is expected in this vicinity. Threshing was started yesterday.

FARIBAULT, MINN.—O'Neill & Son have been awarded the contract for the erection of an addition to the Shaft Pierce shoe factory. The bid was \$5,836. The harvest is completed and will yield bountifully. Barley is nearly all in shock and is much better in quality than for many years. A few days will put small grain in this section out of all danger.

MANKATO, MINN.—The Business Men's association is to erect a electric plant for street lighting and commercial purposes with a view of selling to the city when practicable.

COKATO, MINN.—Fred Skold has sold his residence property in south town to S. W. Larson of Carver county. Consideration, \$2,700.

MICHIGAN
FIVE POUNDS OF ROCK

Chunk From a Meteor Embeds Itself in a Jackson, Mich., Dooryard.

JACKSON, MICH.—During a terrific storm of rain and wind at 8:30 o'clock last night a piece of a spent meteor, weighing a little less than five pounds, fell within three feet of the dooryard of the residence of Edward B. Taylor, 230 North Gorham street, and imbedded itself in the earth three inches. The son, Montford, saw it and after the storm went out to pick it up, but it was too hot to handle and for thirty minutes retained its high temperature. The strange stone, which is of a reddish brown color and oblong in shape, has attracted considerable attention.

DON'T FRIGHTEN PRODUCERS
The Copper Mines in Michigan Selling Their Product.

CALUMET, MICH.—The present apathy of the copper market and the low prices for the refined metal excite no alarm among the producers of the district. The mines continue producing at their normal rate, and the better class of properties are making good money even on the existing metal market.

NEBRASKA
DIED IN A DENTIST'S CHAIR

Mrs. Nora Blue Overcome by the Effects of Chloroform.

HASTINGS, NEB.—While sitting in a dentist's chair and having teeth extracted Mrs. Nora Blue of Juniata, Neb., died in this city from the effects of chloroform. Before the drug was administered to alleviate the pain Mrs. Blue was examined and pronounced able to take the necessary quantity. After fourteen teeth had been taken out she revived, sat up in the chair, spoke to the dentist and then sank back and died.

OMAHA, NEB.—Because his hair turned from jet black to snowy white within a month as the result of a stroke, a local man, Thomas J. Currie of this city is suing the Omaha Street Railway company for \$5,000. He was confined to bed for months, suffering, as he claims, great agony.

SEATTLE, WASH.—The Kennel Salmon cannery, owned by the Pacific Packing and Navigation company, was destroyed by fire July 19. The plant is a total loss, but is fully covered by insurance. The cannery was one of the largest in Alaska. It was formerly owned by the Pacific Whaling company.

IOWA MORAL DEGENERATE

Fifteen-Year-Old Lad With a Record That Laps Over Anything Gone Before.

A Puzzle to the Medical Fraternity, Tho Evidently a Case in Their Line.

Special to The Journal.
Mason City, Iowa, July 24.—The boy Willie Nichols, who was arrested for stealing at Britt last week, has had a sensational career for one only 15 years of age. At the age of 9 he began to steal anything he could lay his hands on, no matter whether he wanted it or not. He has stolen thousands of dollars worth of property in addition to the cash he has taken, picked locks and broken locks and stolen keys. His father says he will get a pocketful of keys in a day. At school he stole twenty-four jackknives one day and was not detected, although all were from the pockets of his companions. He was experimenting with a battery at Pipestone, Minn., a few months ago—had stolen the battery, stolen the dynamo cap, and broken three locks to get them. The explosion took two fingers off his left hand and badly mangled it otherwise. One would think that he would have had a reforming tendency, but the lesson did not last until his hand had recovered. Within thirty days he went through a half dozen or more buildings, business colleges, furniture store, lumber office, etc., and stole hundreds of things, carrying them home and burying them in his father's cellar. They were recovered and he was stored and all this with his hand still in the sling. His father has spent a fortune trying to reform him and has settled hundreds of dollars of this money. He is well as watching him and returning thousands of dollars of his pecuniations. The specialist in the hospital at Rochester, Minn., has had the lad under his care and has pronounced him insane to the degree of kleptomania. The lad is bright and intelligent, is good looking and shows no remorse whatever, and does not seem to be under the influence of any morbid influence. He is a puzzle to the medical fraternity, yet he will lie to the very last before admitting anything in regard to the theft. He has been chastised in every possible way during his incarceration at Red Wing, with no effect whatever. The father is willing to do anything whatever to reform the lad. He seems to be a moral degenerate, completely, so far as stealing is concerned, yet he could be treated with hundreds of dollars if given him and sent to the hospital at Rochester, Minn., as he has been at this time. It is a case that has puzzled the best physicians of Minnesota and they say it is one of the worst cases of kleptomania they have seen.

He has been at North Platte, Neb., Kansas City, Fort Scott, Springfield, Mo., St. Louis, Sioux City and Fort Smith, Ark., all since the last of March, sometimes staying a week, sometimes paying his fare. He is a boy who will make a dozen friends in any town, in an hour. The boy will be sent back to Red Wing, where he was arrested, but that he will not be within the confines of the reformatory more than a day.

HIS MOTHER WAS DEAD
After Seventeen Years Unjust Imprisonment Haulenbeck Is Two Weeks Too Late.

DES MOINES, IOWA.—Minard L. Haulenbeck returned to Des Moines yesterday after giving his note for \$5,000 to bind a two week term before his arrival. He was pardoned from the Colorado state prison July 3; Paul Miller Cook, whom he was four years in this city, to-day from St. John's cathedral, the ceremonies being the most elaborate Catholic demonstration in the history of the city. Among those in attendance were Archbishop Quigley of St. Paul and Archbishop Guilley of Chicago, several bishops, 400 priests, 400 sisters of religious orders and representatives of Catholic societies in the city, having a membership of 15,000. The services at the church were also attended by Governor La Follette and staff and Mayor Rose and the city council, judges and other city officers. At 4 o'clock, twenty-five priests, in their robes, left the cathedral, went to the right and left of the center aisle. There they sat for nearly an hour. Then followed the celebration of the mass for the dead.

HE COULDN'T QUIT DRINKING
So a Former South Dakota Man Shoots Himself.

SIOUX CITY, IOWA.—Discouraged because he couldn't quit the drinking habit, acquired while engaged in politics in South Dakota, J. F. Robinson, who owned a grocery at Morningstar, shot himself thru the head for \$5,000 to bind a two week term before his arrival. He was pardoned from the Colorado state prison July 3; Paul Miller Cook, whom he was four years in this city, to-day from St. John's cathedral, the ceremonies being the most elaborate Catholic demonstration in the history of the city. Among those in attendance were Archbishop Quigley of St. Paul and Archbishop Guilley of Chicago, several bishops, 400 priests, 400 sisters of religious orders and representatives of Catholic societies in the city, having a membership of 15,000. The services at the church were also attended by Governor La Follette and staff and Mayor Rose and the city council, judges and other city officers. At 4 o'clock, twenty-five priests, in their robes, left the cathedral, went to the right and left of the center aisle. There they sat for nearly an hour. Then followed the celebration of the mass for the dead.

WATERLOO, IOWA.—Silverman, a Chicago merchant, is being sought after by the officers here. He negotiated for the stock of George Frank & Son, and after giving his note for \$5,000 to bind a two week term before his arrival. He was pardoned from the Colorado state prison July 3; Paul Miller Cook, whom he was four years in this city, to-day from St. John's cathedral, the ceremonies being the most elaborate Catholic demonstration in the history of the city. Among those in attendance were Archbishop Quigley of St. Paul and Archbishop Guilley of Chicago, several bishops, 400 priests, 400 sisters of religious orders and representatives of Catholic societies in the city, having a membership of 15,000. The services at the church were also attended by Governor La Follette and staff and Mayor Rose and the city council, judges and other city officers. At 4 o'clock, twenty-five priests, in their robes, left the cathedral, went to the right and left of the center aisle. There they sat for nearly an hour. Then followed the celebration of the mass for the dead.

GARNER, IOWA.—The Hancock County Institute is being held in Garner this week and next. Many celebrated teachers are here. This is the largest institute that has been held here for some time, 120 being present.

AMES, IOWA.—The 7-year-old boy who was shot by his 8-year-old playmate on Wednesday night here for some time, has no vital organs are penetrated.

NORTHWEST WEDDINGS
LA CROSSE, WIS.—The marriage of Lucius Parmenter and Miss Lou Gilman took place last evening. Judge John Brindley officiating. Both of the young people are prominent La Crosse people.

FARIBAULT, MINN.—Medrick Durand of Cannon City and Anna Henry of Waterville were married here last evening. The bride is a daughter of the late Mr. Durand. The ceremony was performed by Rev. Father Slewin officiating.

Chinese Exclusion Comes High.
According to statements made before Judge Cox in the United States circuit court, it has cost the government about \$50,000 a year because of the attempts of Chinamen to steal into this country from the Canadian border, besides an additional cost of about \$100 for every Chinaman who was ordered to leave the country. To order a case of golden grain belt, call Main 486. This pure, delicious and nourishing beverage has no equal.

GOOD ADVICE.
Constipation clouds more lives than almost any other disease. One of the greatest orators once gave this most important advice: "Keep your bowels open and your head cool." Any sensible person will agree that keeping the bowels open and cleansed is absolutely essential to good health. Don't take pills and harsh purgatives that only aggravate the trouble, but try Chase's Constipation Tablets. They will cure you to stay cured. These tablets are put up in neat water-tight boxes, which just fit the vest pocket. Price twenty-five cents.

Sold by druggists under a positive guarantee, to give satisfaction or money refunded. Nothing else like them.

LIFE IN EVERY DROP

There is no doubt that every drop of "Blood Wine" means a lengthening of life, for every drop contains vitality, strength, health, life. "Blood Wine" is the most remarkable medicine now known to medical science, and its great volume of cures the past season has proven that it is indeed a superior and different sort of medicine from anything you have ever before seen or taken. Fancy a person in the last stages of consumption—so far gone she could not raise her hand above her head, given up by several physicians and cured by "Blood Wine."

Imagine a man so near dead with bowel trouble that as a last resort he was operated upon, and only to be cured in the end by "Blood Wine." There are just tons of many, many miracle-like cures. If you have chills, fever, malaria, ague, kidney disease, weak lungs, rheumatism, dyspepsia or are all run down and played out, "Blood Wine" will cure you and make you like a new person, because it drives every bit of disease out of your system, and makes you strong and healthy. Try it to-day, and you will bless the day you bought the first bottle. Fifty cents a bottle.

"McDonough, Mich., March 3, 1903.

"Words fail to express the benefit I have received from 'Blood Wine,' and I can honestly say that your remedy I should not to-day be alive.

"For nine months I suffered continually from some serious stomach and bowel trouble, which developed into chronic diarrhoea and threatened my life. I consulted altogether fifteen doctors in various cities, and none gave me the slightest hope or relief. Fortunately I saw Blood Wine advertised and purchased a bottle. I had little faith, but took the medicine faithfully. It worked wonders, and in three days the diarrhoea ceased. In three weeks I had gained twenty-five pounds, and I have used 'Blood Wine' constantly since. I would not be without 'Blood Wine' at any cost, and I am perfectly honest when I tell the world that it saved my life."

(Signed) C. J. CARROLL.

BLOOD WINE

Contains no Wine or Opium

WARRANTED TO RESTORE Health and Activity

Cures all Diseases of the Blood, Liver and Kidneys

The best known remedy for ELDERLY PEOPLE, creating an appetite at once and restoring youth and strength.
