

GREAT CROP IN S. D.

Experts Declare That a 50,000,000 Bushel Wheat Yield Is a Conservative Estimate.

Except Where Hail Struck the Crop Is Immense—Stand of Corn Is Good.

Sioux Falls, S. D., Aug. 5.—The wheat harvest is in progress in the southern part of the state, and will become general in the northern portion in a week or ten days. Some fields in the northern part are ripe and the grain is being cut this week. Reports from all sections of the state continue to indicate that except where injured or destroyed by hail, the wheat yield will be one of the greatest in the history of the state.

Estimates of a total yield of 50,000,000 bushels are regarded as conservative by experts who have recently traveled over the state. Owing to the warm weather early last week grain ripened very rapidly, and farmers have been pushed to their utmost to harvest it before serious losses take place from shelling in the fields.

In many sections the grain is very heavy, and more than the usual amount of binding twine is necessary. Reports from two and one-half to four pounds of twine being used to the acre are nothing unusual. Returns from early threshing bear out the estimates that the crop is one of the largest in the history of South Dakota.

Corn is making a really wonderful growth and will be a large crop unless early and killing frosts are experienced.

WHEAT IS UNEVEN

Harvesting Season Entered Upon in the Vicinity of Steele.

Steele, N. D., Aug. 5.—The wheat harvest has begun in this section, and is spotted as to returns. Oats and rye, as well as barley, will be good in many fields. The feed crop is an important one, as in many cases farmers have had to ship in feed in the spring. Flax is a doubtful proposition at present. Some was too far gone when the rain of Saturday fell to get any benefit, but there will be a field now and then which was late enough to be helped. Corn is doing well, and bids fair to be the best crop this year. Potatoes will be very good, but the yield will be less than last year.

LESS THAN LAST YEAR

Harvest Becomes General in the Fergus Falls District.

Fergus Falls, Minn., Aug. 5.—Harvesting is general in this vicinity and farmers continue to report a fair yield, the lighter than that of last year. The fields are surprisingly uneven, some of them being a perfect patchwork of heavy and light grain.

An inch and a quarter of rain has fallen in the last three days, but the weather appears to have cleared again, and the general opinion is that the rainfall has done the grain no harm, while it has helped corn, potatoes and pasturage. No damage from insects has been reported, and with favorable weather a satisfactory crop will soon be in shock.

Fields Too Wet.

Graceville, Minn., Aug. 5.—Harvesting operations have been delayed by the soggy condition of the ground caused by heavy rains. Muggy, damp weather has prevailed. Heavy wheat and oats are badly lodged and the low places in the fields are filled with water. Some oats have been cut, but no start has yet been made on the wheat. Many fields of the latter have been ready for the harvester for three days.

Good Weather in South Dakota.

Rodfish, S. D., Aug. 5.—The weather continues favorable in this section for harvesting. The barley harvest is about completed and the yield will be larger than for many years. Wheat harvesting has just begun and the yield is far above the average. Corn and hay crops are exceeding expectations.

Fosston's Drought Broken.

Fosston, Minn., Aug. 4.—The drought in this section has been broken by abundant rains. Grain on high ground has suffered some, but no material damage has resulted in this region as a whole. The barley harvest has begun.

Light Yield 'Round Jackson.

Jackson, Minn., Aug. 5.—Harvesting is about completed and many farmers have been stacking well under way. One threshing machine began operations south of town this morning. The yield will be light.

Rains Causing Rust.

Slayton, Minn., Aug. 5.—Much ripened grain is being damaged by rain. It is almost impossible to cut the grain as the ground is kept soft and the straw is so badly rusted it is breaking down.

Pain from Indigestion, dyspepsia and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this.

GOOD ADVICE.

Constipation clouds more lives than almost any other ailment. One of the greatest orators once gave this most important advice: "Keep your bowels open and your head cool." Any sensible person will agree that keeping the bowels open and cleansed is absolutely essential to good health. Don't take pills and harsh purgatives that only aggravate the trouble, but try Chase's Constipation Tablets. They will cure you to stay cured. These tablets are put up in neat watch-shaped bottles which just fit the vest pocket. Price twenty-five cents.

Sold by druggists under a positive guarantee to give satisfaction or money refunded. Nothing else like them.

IMMUNE TO WEEVIL

Department of Agriculture Experts Develop New Strain of Cotton Plant. Will Probably Save the Industry in Texas and Win Reward for Uncle Sam.

From The Journal Bureau, Room 45, Post Building, Washington, Aug. 5.—The government may claim the reward of \$50,000 which has been offered by the governor of Texas for the discovery of any cotton which will check the ravages of the boll weevil, which is destroying the cotton crops in the southern states. The weevil, which is reported, have already succumbed, and the plague, which began in the fields farther north and east, has worked its way to Texas, and is rapidly devastating the state.

Albert H. Woods, head pathologist of the plant breeding bureau of the department of agriculture, is convinced that the problem has been solved. Dr. Herbert J. Webber has been working for years on the boll weevil and he will soon make formal announcement of his discoveries. All other remedies having failed, Dr. Webber decided that the only recourse was to breed or discover a variety of cotton resistant to the boll weevil. He has succeeded in breeding and experimenting with different varieties, making careful selections and testing the results under all possible circumstances, and he is convinced that he will soon have the glad news for cotton growers. The department may not insist upon the reward, but the secretary of agriculture is inclined to collect the \$50,000 and turn it into the public treasury. Dr. Webber, however, although he has done the work, will not claim the reward. Like other specialists in the employ of the government he is bound in honor to turn over to the government all the beneficial results.

A Secret of Nature.

The secret of breeding a variety of plant which will resist certain pests and diseases is not disclosed by the man who breeds and did it. The power of which the expert makes use is really one of nature's secrets. Whence it comes, and how it is a mystery never solved. The different plants, under the microscope, and examined in all other ways, are to all appearances identical. But experience shows that one of the plants has the power to grow in a field which has been devastated by the pest, by the boll weevil, for example, and never be attacked by it. With death and devastation all sides, with all its environmental conditions, the plants will stand up and hurl defiance at the disease or animal which causes the destruction. It has in itself some mysterious power which keeps it immune. The scientists have a theory that there are certain anti-toxin compounds developed in the plant which makes it immune. The soil, in other words, becomes as if vaccinated, or as if it had been thru one attack of the disease, and is now immune for reasons similar to those which make human beings who have had smallpox or yellow fever immune. But the plant has the fortunate faculty of transmitting its immunity to its offspring. This is the foundation of the work of the experts in evolving a resistant strain. The individual plants which have survived in a field ravaged by the pest are carefully selected, and set apart by themselves as the parents of a crop of seed grown carefully and in isolation. From this seed other crops are grown under conditions where they will be exposed to the pest, and these survivors are again made the parents of new strains. Thus, finally, by selection, strains are evolved which, when grown beside a field of cotton ravaged by the boll weevil, will remain quite untouched.

New Stock Must Be Planted.

The cotton planters will probably have to get out all their present stock, replacing it by stock obtained from the government. Several years will be required to get the new stock substituted. But the trouble will amply repay the planter, who is now threatened with ruin from a pest, which there appears to be no successful way to combat.

The government's bureau of plant industry has shown what can be done to save them from a pest, in the case of the root-rot disease which struck the sea island cotton district in the Carolinas last year. This district is off the coast of the Carolinas and is off the coast of the Carolinas island.

The plantations, before this plague arrived, were worth \$500 an acre. In about eighteen months the land and dropped to \$3 an acre and no purchasers at that. The planters believed the sea island industry doomed.

Sea Island Cotton Saved.

But Webber and Woods came to the rescue with a variety of sea island which they discovered, and which they demonstrated was resistant to root-rot. The planters have to destroy all the old stock, and get new resistant stock from the department. In four years the new strain has been raised, and the land was once more worth \$500 an acre.

ROCKEFELLER ACCUSED

Chicago Official Says His Tax-Dodging Breeds Anarchy.

Chicago, Aug. 5.—John D. Rockefeller was virtually accused yesterday by the board of review of creating a spirit of anarchy in the United States. The accuser was Reviewer Upham and the cause of the accusation was the attempt of the Union Tank Line company to keep down the amount of its assessment.

"You spent thousands of dollars last year to hire lawyers to fight the payment of any tax," said Mr. Upham, "even carrying the case up to the supreme court; did you not?"

"I don't know exactly how much we spent," responded one of the representatives, "but it was quite a sum."

"It was way in excess of the \$250 tax on the property. I am sure of that," continued the reviewer. "It is just such things as this that inspire anarchy in this country."

POLICE ARE SEARCHING

For Stolen Jewelry Valued at \$100,000 or More.

New York, Aug. 5.—Bearing lists describing twenty cases of jewelry valued at more than \$100,000 which they admit have been stolen, private detectives have been watching pawnbrokers and other establishments in New York and other cities for a week. They have refused to allow a pawnbroker to keep a copy of the list, and when questioned about names declare they are in ignorance as to the name of the person robbed.

The cause of the mysterious search, it is hinted, is a robbery of the country home of a woman of wealth, near White Plains, a fortnight ago.

TOLD IN A LINE

Oyster Bay, L. I.—Bishop Dougherty called on President Roosevelt yesterday on the eve of his departure for his new see in the Philippines.

Bay View, Ga.—Judge D. B. Brumby has been remanded to the United States court under bonds of \$10,000 on a charge of smuggling cigars from Cuba.

Tidewater, Va.—Professor Langley has worn out his welcome with the club which has been entertaining his workmen here. His alibi does not fly yet.

New York—Charles E. Keator of the Dunlap Hat company says a officer of the company whose name he declines to give, has defaulted for \$200,000.

Buffalo—The schooner Sandusky was entirely destroyed with a cargo of 800,000 feet of lumber, burned yesterday. John Kent, a sailor of Buffalo, Mich., lost his life.

Winthrop—Bert Therat, aged 20, was killed on his father's farm near Mansonia, N. W. T., by a lightning bolt. An arrowhead was struck dead by lightning near Souris, Man.

Oyster Bay, L. I.—President and Mrs. Roosevelt entertained at luncheon yesterday Judge W. H. S. S. of St. Paul and Hamilton Fish, assistant treasurer of the United States.

Seattle—George Val Hoyt, alias Val Asselt, alias Humboldt, an ex-convict, confessed that he had held up and beaten the Klondike millionaire, Thomas S. Lloyd, in his home here Sunday night.

New York—In the fire at Babcock's, L. I., which destroyed the dwelling occupied by Commodore D. C. Babcock, the family, one of the servants was burned to death, and another seriously burned.

Chicago—Little Edie Krieger, who was kidnapped from his grand parents' home on Vernon avenue several weeks ago by his father, Dr. Krieger, has been found at Alton, Germany. Dr. Krieger is with him and has announced his defiance of any attempt to recover the child.

We close at 1 o'clock Fridays during August.

Dayton's Daylight Store

Geo. D. Dayton, J. B. Mosher, —Formerly Goodfellow's.— D. D. Dayton, Frank H. Carlton.

This is the Stand-by Store

"I'll go to Dayton's and be sure"---That is something often said, literally and in substance. You like the store that stands by its statements, that is modest in its claims, that is fair in its prices, that is careful in its service and that is courteous in its treatment.

Dress and Walking Skirts Must Go

Lucky is the Woman who can now find use for a skirt or two. They will satisfy her dress requirements for some time to come at so little expense that she will hardly feel the cost.

Walking Skirts

Materials of All Kinds in black, tan, blue and gray, an assortment that affords easy choosing—

\$7.50 Skirts for \$3.50. \$10.00 Skirts for \$5.50.
\$12.50 and \$15.00 Skirts for \$7.50.

Dress Skirts

Stylish Skirts in blue and black, trimmed with stitched bands of black taffeta, and made of the correct materials—

\$12.50 Skirts for \$5.75. \$16.50 Skirts for \$13.50.

Misses' Duck Skirts

Misses' Skirts of blue and white duck, trimmed with white braid, reduced from 50c to 29c.

Shirt Waists

White Lawn Shirt Waists—Fronts trimmed with lace and small tucks, \$3.25 values, at \$1.49.
White Lawn Shirt Waists—Fronts trimmed with wide lace, \$1.98 values, at \$1.29.

Wrappers

Light Lawn Wrappers, trimmed with white embroidery on shoulder, full skirts, \$1.50 values, at 98c.
Dark Print Wrappers—A variety of black-and-white stripes, navy-and-white stripes, red-and-white stripes, \$1.25 values at 79c.

Dressing Sacques

Lawn Dressing Sacques in black and white, 98c values, at 59c.
Lawn Dressing Sacques in pink, blue and black-and-white, \$1.50 values, at 79c.

Embroideries

White Embroidered Gallons—Bands, beadings and separable medallions, 2 inches wide; sold up to 25c per yard, at 11c.
Fine Nainsook—Swiss and cambric edges and flouncings, a lot of odd pieces as wide as 9 inches; sold up to 50c per yard, at 25c.
Finest Swiss Flouncings—Beautifully sheer, as wide as 12 inches; sold up to \$1.25 per yard, at 69c.

Rugs and Muslin Curtains

All Wool Smyrna Rugs in a variety of beautiful colorings—Oriental effects; about thirty rugs that we can sell at these lower prices: 28-inch, \$2 value, \$1.49. 30-inch, \$2.50 value, \$1.98. 36-inch, \$3.50 value, \$2.98.

Petticoats of Many Kinds

Women's Wash Petticoats of Chambray, Gingham, Linen and Percale, at half—

\$1.50 Petticoats at 75c
\$1.75 Petticoats at 88c
\$2.25 Petticoats at \$1.13

Misses' Wash Petticoats for school wear; should be bought now to get the benefit of these prices; \$1 and \$1.25 qualities, at 70c.

White Petticoats for Women, made with five rows of lace inserting and lace at bottom; \$2.25 values, at \$1.69.

Silk Petticoats in colors only, at these reductions—

\$10 Petticoats at \$7
\$15 Petticoats at \$11
\$20 Petticoats at \$16

Men's Underwear

Balbriggan and Lisle Thread Shirts and Drawers; shirts have long or half sleeves; drawers, regular sizes and "stout" values up to 75c each, at 37c.
Balbriggan and Silk-and-Lisle Shirts and Drawers; shirts, long sleeves; drawers, regular and "stout" sizes; all our \$1 grades at 59c each.

Wash Goods

English Dimities—Printed Batistes, the remainder of our stocks of these popular fabrics, sold at 15c and 18c, 5c.
Imported Printed Dimities—Mercerized Batiste, Egyptian Tissues and Printed Organdies, 25c, 30c and 35c values, at 12c.
Cotton Suitings—Splash and stripe suitings, vestings and solid color suitings, for shirt waist dresses or separate skirts, 25c values, at 15c.

Woolens

White Embroidered Robes—Consisting of embroidered skirt with ruffled flounce, embroidered waist and two yards plain material to match; worth \$12.50, at \$4.39.

Trimming Braids

Black and Colored Braids that were 10c to 20c a yard, at 3c.
White Silk Braid—Three-quarters of an inch wide, was 10c a yard, 3c.

Silk Gloves

Black and White Silk Gloves, long, plain, reduced like this—75c Silk Gloves, 47c. \$1 and \$1.25 Silk Gloves, 69c.

CHRONIC SORES

Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till the brain grows weary and with it until the patience is exhausted, and the very sight of the old festering, sickly looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some serious disorder. The taking of strong medicines, like mercury or potash, will sometimes so pollute and vitiate the blood and impair the general system that the merest scratch or bruise results in obstinate non-healing sores of the most offensive character.

Often an inherited taint breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood is always at fault, and, while antiseptic washes, salves, soaps and powders can do much to keep down the inflammation and cleanse the sore, it will never heal permanently till the blood itself has been purified and the deadly germs and poisons destroyed, and with S. S. S. this can be accomplished—the polluted blood is purified and invigorated, and when rich, pure blood is again circulating freely throughout the body the flesh around the old sore begins to take on a natural color, the discharge of matter ceases and the place heals over.

S. S. S. is both a blood purifier and tonic that puts your blood in order and at the same time tones up the system and builds up the general health. If you have a chronic sore write us. No charge for medical advice.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

BUDWEISER

The Standard of Excellence holds first place and has for 28 years. In that period 1,310,000 BOTTLES have been sold. More than all other beers combined. It has rightly earned the title "King of Bottled Beers."

Orders promptly filled by A. D. GIANNINI, Manager Anheuser-Busch Branch, Minneapolis.

Bed

Ridden From Severe Heart Trouble. Pale, Weak and Constantly Tired. Dr. Miles' Heart Cure Cured Me.

"I write to thank you for the cure I received from your remedies. When I began taking your medicine I was confined to my bed most of the time. Our best home doctor told me there was no cure for me on account of the weak condition of my heart. I was pale and weak, constantly tired, had no appetite and could not sleep. I was exceedingly nervous and easily irritated in consequence. At last I began taking as a last resort, Dr. Miles' New Heart Cure together with Dr. Miles' Wine of Sarsaparilla. I was helped from the start and I cannot say enough in praise of these wonderful remedies. I can truthfully say they are the best medicines I ever took. They cured me and I am now able to work on the farm every day. I gladly recommend your remedies to all sufferers."—Wm. B. Campbell, Mantorville, Minn.

"For years I could not turn my head to the right but it caused great pain in the back of my neck and it seemed at times my head would burst with pain. I would sometimes lie down, and could not get up without help. My neck was so stiff. About once a week I would have to go to bed with a very severe headache. By using one of Dr. Miles' Nerve Plasters on my neck and occasionally using the Anti-Pain Pills, which always relieved the headache instantly, I completely overcame my trouble, and both headache and stiffness have disappeared."—Miss Lucy Bilows, Cleveland, Ohio.

All druggists sell and guarantee first bottle of Dr. Miles' Remedies. Send for free book on Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.
