

that while uprisings in the Turkish dominion were more or less chronic, the present state of affairs assumes the proportions of an insurrection of considerable magnitude.

He would not disclose the contents of the cablegrams received last night from Minister Lelshman but said that the minister's advice was to desire to meet such a report on the assassination of Mr. Magelsen was due to the use of the wrong code number and not to any error in transmission.

The information given in the cablegram was that the governor called at the consulate, offered prompt action and promised to make every effort to find out and punish the would-be assassin. Mr. Lelshman further advised the secretary that several of the consulates have reported to their governments that the condition of the city of Beirut at the present moment is unsafe.

With a view to furnishing Secretary Hay with the fullest facts concerning the reports which have come from the consulates in Turkey, a committee representing the board of American missions will call upon him to-morrow or Monday, he having indicated a desire to meet such a committee and to obtain from them all the information in their possession.

THE EARLY DISPATCHES

Text of Minister Lelshman's Messages to the State Department.

Washington, Aug. 29.—Full text of the dispatches of Minister Lelshman, bearing on the Magelsen affair, with the exception of the one received last night, saying that the vice consul had not been killed, is as follows:

"Therapia, Aug. 27.—Secretary of State, Washington: Just received telegram from Beirut, Aug. 27, from the British consul, advising me that our vice consul was assassinated last Sunday night while driving in carriage. Murderer unseen and unknown. No explanation given for delay in reporting the case but consul adds that reply of governor is unsatisfactory. Have asked for further particulars and will at once make vigorous representations at the sublime porte.

"Lelshman."

"Therapia, Aug. 27.—Secretary of State, Washington: I have made proper representations to the sublime porte with reference to the assassination of vice consul, but pending receipt of fuller details and also your instructions I have made no demands other than asking for investigation and explanations which the minister for foreign affairs assured me will be given immediately.

"The troubles in Macedonia become worse and more extended each day and outside of the immediate area of the present itself of sending a ship to Beirut, it seems to me advisable to keep a ship within easy range of Turkish waters in order to be in a position to more fully protect American citizens and property. Revolution assume more alarming proportions.

"The insurgents have become more aggressive in eastern Rumania since the visit of Russian and American envoys. Passenger train from Europe was blown up with dynamite this morning about fifty miles from Constantinople. Killing or wounding most of the passengers.

"Lelshman."

"Therapia, Aug. 27.—Secretary of State, Washington: Minister for foreign affairs has just sent me word stating that reported assassination of the vice consul entirely false, adding that security in the Beirut district is perfect. Am without further advice from Consul Ravndal and unable to account for such conflicting statements. Will endeavor to ascertain as soon as I can obtain necessary information.

"Lelshman."

British Were Mistaken Also.

London, Aug. 29.—Officials of the foreign office here are greatly puzzled over the error in the official cable message announcing the assassination of William C. Magelsen, the American vice consul at Beirut, Syria. They reiterated to-day that the message was transmitted through the British ambassador at Constantinople from the British consul at Beirut. No correction has been sent either by the ambassador or by the consul.

Ships on Their Way.

Washington, Aug. 29.—The navy department has received a cable message from Captain Henry McCrea, in command of the gunboat Machias, saying that he had finished coaling the ship and that it would sail at once from Genoa for Port Said.

A message also was received to-day from Admiral Cotton announcing the arrival of the Brooklyn and the San Francisco at Genoa and saying that they had begun coaling.

Acting Secretary Darling has advised Secretary Hay that as soon as the Brooklyn and the San Francisco finish taking on coal they will sail for Beirut under present orders.

Squadron Goes to Beirut.

Oyster Bay, Aug. 29.—President Roosevelt was informed last night of the incompetence of the British consul at Beirut, Syria, had been assassinated.

The president expressed gratification that Consul Magelsen was alive and uninjured. He announced, however, that no change at present would be made in the plans of this government and that the European squadron would proceed to Beirut as ordered.

The president and Secretary Hay both regarded it as advisable, in view of the present state of unrest in Turkey, to have American war vessels in Turkish waters.

His Family Notified.

La Crosse, Wis., Aug. 29.—News that Vice Consul Magelsen was alive and uninjured was conveyed to the family of the vice consul's mother, Rev. H. C. Magelsen, and to the parents of the vice consul at Highland Prairie, Minn., last night. Mrs. H. C. Magelsen had from the beginning refused to believe in her brother-in-law's death.

News From Beirut.

New York, Aug. 29.—In response to a telegram of inquiry regarding the reported assassination of Vice Consul Magelsen at Beirut, Syria, the Associated Press as follows:

"Beirut, Syria, Aug. 28.—Although the attack made on Vice Consul Magelsen was evidently premeditated, the bullets missed him, and he escaped uninjured.

"—Freyer."

Approves American Course.

Rome, Aug. 29.—The newspapers here warmly praise American energy, which they say, "does not wait for red tape diplomacy," but when the United States is offended, "proceeds to the point immediately, showing Turkey what she may expect if the United States fails to receive prompt satisfaction."

The newspapers add that the methods of the new world are likely to take effect.

What are Humors?

They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but are sometimes inherited.

How do they manifest themselves?

In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, and in weakness, languor, general debility.

How are they expelled? By

Hood's Sarsaparilla which also builds up the system that has suffered from them.

It is the best medicine for all humors.

General Dry Cleaners and Dyers. Telephone 970-7.

whereas the sultan laughs scornfully at old world diplomats.

Machias of Her Way.

Genoa, Italy, Aug. 29.—The United States gunboat Machias left here to-day bound for Beirut. She was saluted by the Italian warships whose crews wished her good luck.

The Brooklyn and San Francisco arrived to-day and are being fully equipped to leave here Sunday morning.

SHIP ASHORE

"Execution Rocks" in Long Island Sound Claim Another Bargue as Victim.

New York, Aug. 29.—A report received here to-day says the British ship, Charles R. Whitney, from Rouen for New York, is ashore near Execution Rocks, in Long Island sound, opposite New Rochelle.

PROTECTS HIS PATRONS

East St. Louis Saloon Man Adopts a Novel Expedient to Attract Custom.

East St. Louis, Ill., Aug. 29.—To protect his patrons from highwaymen, who for several weeks have been infesting East St. Louis, C. Reeb, who conducts a saloon on Tenth street, furnished his patrons with a revolver and a guard when the patron goes home late at night.

Reeb conceived the idea of hiring two men as guards to protect his customers when they are on their way home. Tuesday he laid in a supply of a dozen revolvers and enlisted Harry Williams and James Johnson to act as guards. The men were each \$2.50 each and are on duty from 6 p. m. until midnight, when the saloon closes. When one of the guards goes to escort a patron home each carries one of Reeb's revolvers, and when the man has reached his door he turns the revolver over to the guard.

CASS LAKE VS. BEMIDJI

Location of Land Office Will Be Decided Shortly—Washington Post's Comments.

From The Journal Bureau, Room 45, Post Building, Washington.

Washington, Aug. 29.—Congressmen Buckman and Stearns are both in Washington on this subject. Buckman is expected to make a report on the Cass Lake-Bemidji land office contest. Buckman is accompanied by A. C. Bernard of Cass Lake and Stearns is supported by A. A. Crawford and L. H. Bailey of Bemidji.

In a column article in the Washington Post this morning the claims of Bemidji people are set forth. The article says that the location of the office was located at Cass Lake. On this subject the Post says:

"There are five land offices in Minnesota. About a year ago all land around the office at Bemidji was sold. Not to abandon an office, it was decided to move the force from Marshall to St. Cloud, and the office from St. Cloud to Bemidji. This necessitated a re-arrangement of the boundaries of the land districts. At a conference of representatives of the congressional districts affected, with Commissioner Richards, the boundaries were agreed upon. The location of the land office in the northern Minnesota district was to be left open for the time being. Cass Lake and Bemidji were two points at which the office might be located. "Despite the fact that the location was to be left open for a time, before the friends of Bemidji had time to make any showing of their advantages an order was issued locating the office at Cass Lake.

Representative Stearns immediately came to Washington upon the return of President Roosevelt from his western trip and after laying the matter before him on the ground that the office should be so located as to give settlers the best accommodations, Commissioner Richards is said to be entirely impartial in the affair and, like the president, desires to have the office at the most commodious point."

FAVOR THE CANTEN

Army Commanders Say the Anti-Canteen Law Has Proved a Failure.

From The Journal Bureau, Room 45, Post Building, Washington.

Washington, D. C., Aug. 29.—Annual reports of various military departments are now received at the war department. While they contain the usual variety of statistics and reports, one of the other of interest to their particular departments, there is a unanimity among these high officers of opinion that the anti-canteen act, the repeal of the anti-canteen act, the increase in the number of desertions, the increase in the number of enlisted men on account of drunkenness, and the consequent deterioration of men as soldiers.

Attention is also called in these reports to the increase in the number of saloons in the neighborhood of army posts, with their consequent increase in crime and injury to discipline.

Many commanders of departments made similar recommendations in their reports a year ago, but no action was taken on them either by the war department or by congress.

MILLER LOSES PAY

Can't Collect for Time He Was Not in Government Employ.

From The Journal Bureau, Room 45, Post Building, Washington.

Washington, Aug. 29.—Controller of the Treasury Tracewell to-day made public his decision on the claim of W. A. Miller for payment for the time he was out of the government service. In transmitting this claim Public Printer Palmer stated that Miller was suspended for a certain time and was finally discharged from the government service. He claimed a total of \$408.20, and was paid for 28 1/2 days' leave of absence, the balance alleged to be due being \$352.80.

The controller cites various cases relating to the employment and discharge of government appointees, and says that under the decisions rendered he has no authority to review the question of whether Miller was unjustly separated from the service, but can only decide whether he is entitled to pay for the time he was out of service. In deciding that he says:

"I have no doubt as to the fact that you are not authorized to pay Mr. Miller any sum for wages after date of his discharge until his reappointment to office."

PRINCIPALS IN THE BRAINERD CHILD MURDER CASE

JOHN BURRIG. GEORGE DILL. MARY WILLIAMS. Photo by A. M. Opsahl of Brainerd.

SIX WERE DROWNED MURDERED A BABE

Fort Crook City, Near Omaha, and Portions of Council Bluffs Under Water.

Two Large Bridges and Much Track on the Burlington Road Washed Away.

Omaha, Neb., Aug. 29.—Fort Crook City, seven miles south, is under water, which is five feet deep in many homes. The sudden flood was caused by a cloud-burst. Fifty families are being taken care of in tents.

Three deaths are reported as a result of the high water. Jefferson Keet and Edgar Hamilton, boys, went swimming in some backwater in south Omaha and drowned. Willie Paulson lost his life in the flooded cellar of his home in Council Bluffs.

At Nodaway, Iowa, in an attempt to rescue William Sanborn, his wife and four children, the mother and two children were drowned.

Council Bluffs, Iowa, Aug. 29.—All the lower portions of the city are still under water that has reached the lower floors of many homes. Rowboats are used in several of the down-town districts to-day. That portion of the country between here and Lake Manawa, five miles south, is a lake.

Street cars were abandoned on the line to Manawa, and launches are used instead. The lake itself, which is partly artificial, overflowed, and extensive damage was done. Only one railroad had clear tracks out of Council Bluffs yesterday.

Billings, Mont., Aug. 29.—Advices from Morecroft, Wyo., report a disastrous cloudburst. Two large bridges on the Burlington, with a large amount of track, were washed out, delaying traffic many hours.

All Danger Is Past.

Kansas City, Aug. 29.—The local weather bureau to-day predicted that the Kansas river will reach its greatest height this evening when it will begin to fall slowly and that the Missouri after rising about another foot will reach its next twenty-four hours, will come to a standstill.

Kansas streams west of here continue to fall fast and all danger of a rise that would wreck Kansas City's bridges seems to have passed. Men are expected to work today on the main street bridge, a portion of which was washed out yesterday for the second time. The Kansas river here has gone up an additional two feet, and a half since yesterday, while the Missouri has risen two feet.

MINES WILL BE MERGED

Copper Range and Trimountain to Pass to Interests Close to the Amalgamated.

Special to The Journal.

Houghton, Mich., Aug. 29.—A merger of the Copper Range Consolidated Mining company and the Tri-Mountain will be broached at the stockholders' meeting called for Sept. 8 in Boston. This is generally believed to be the case, and means that the Copper Range will pass into the control of Lawson & Bursage, who are closely affiliated with the Amalgamated Copper company.

The Copper Range has always held that the property should never be affiliated with the Amalgamated until it could be shown that the Copper Range would be benefited. It is believed the recent deal, engineered by the Amalgamated interests to secure control of the Copper Range, which consists of the Champion and Balmuccia mines, was a part of this plan.

Lake people in general look upon the merger with disfavor. It is understood the stock will be changed share for share.

UNION IN CHICAGO P. O.

It Is Made the Subject of a Secret Report to General Bristow.

Washington, Aug. 29.—A report has been received by Fourth Assistant Postmaster General Bristow from Postoffice Inspector Stuart at Chicago regarding the organization of unions among employees of the Chicago postoffice. It is believed the report was made by one of the postoffice inspectors, by whom it is held in the strictest secrecy. Both Mr. Bristow and Mr. Cochran, chief of the postoffice inspectors, refuse to discuss the matter on the ground that Mr. Stuart's report is confidential.

The controller cites various cases relating to the employment and discharge of government appointees, and says that under the decisions rendered he has no authority to review the question of whether Miller was unjustly separated from the service, but can only decide whether he is entitled to pay for the time he was out of service. In deciding that he says:

"I have no doubt as to the fact that you are not authorized to pay Mr. Miller any sum for wages after date of his discharge until his reappointment to office."

—W. W. Jernans.

THEY WON'T BOLT

Greater New York Democracy Will Not Go Back to Tammany.

New York, Aug. 29.—At a meeting of the Greater New York democracy executive committee, resolutions were adopted binding the organization to abide by the decision of the fusion conference committee in the matter of a candidate for the coming mayoralty campaign.

This places the organization practically in the same position which it occupied during the campaign which resulted in the election of Mayor Seth Low and dissolution of the recent rumor that the organization would again return to the support of Tammany Hall. The resolutions urge, however, that an independent democratic shall be placed at the head of the city ticket.

BUILDINGS BLOWN DOWN

Storm at McCallsburg Pronounced a Tornado.

Marshalltown, Iowa, Aug. 29.—A tornado at McCallsburg, Story county, last night, did much damage. Barns were blown down, the debris being carried two blocks. Outbuildings were destroyed, but no one was hurt. A heavy hail striped the corn fields today.

BACKACHE AND DIZZINESS
Pe-ru-na is a Tonic for the Weakness and Debility Incident to Hot Weather.

Two Beautiful Women Cured by Pe-ru-na.

MISS CAMILLE CHARTIER, 5 West Lexington Street, Baltimore, Md., writes:

"Late summers gradually affected my digestion, and made me a miserable dyspeptic, suffering intensely at times. I took several kinds of medicine, which were prescribed by different physicians, but still continued to suffer. But the trial of one bottle of Pe-ru-na convinced me that it would rid me of this trouble, so I continued taking it for several weeks, when I was in excellent health, having gained ten pounds."

—Camille Chartier.

Miss Mayme Kearns, 1005 Dean Street, Brooklyn, N. Y., writes:

"Pe-ru-na means health, and health means happiness. To me Pe-ru-na means both. Last summer I felt unusually prostrated from the heat. My appetite and sleep failed me, and my strength seemed to ooze out with the perspiration, and I had a weak, gone feeling.

"Three bottles of Pe-ru-na changed all this. I recuperated quickly and blessed the name of Pe-ru-na. Pe-ru-na is better than a seaside trip, better than a vacation; in fact, better than anything I know to build up the system."

—Miss Mayme Kearns.

Pe-ru-na is just as sure to bring an appetite as the sun is to bring the day. A good healthy appetite and good digestion of food generally correct a host of ailments. Loss of strength and loss of sleep depend in a majority of cases upon a loss of nutrition. If the appetite fails, sufficient food will not be taken. If sufficient food is not taken, the system suffers from starvation. This will surely lead to a host of ailments in time. Pe-ru-na, by restoring the appetite, cures the whole matter. By freeing the mucous membranes and stomach, as well as the digestive organs from every trace of catarrhal congestion, Pe-ru-na corrects the whole trouble.

ple think that catarrh is a disease confined to the head alone.

This is not true. Catarrh is liable to attack any organ of the body—throat, bronchial tubes, lungs, stomach, kidneys and especially the pelvic organs.

Many a woman has made this discovery after a long siege of useless treatment. She has made the discovery that her disease is catarrh, and that Pe-ru-na can be relied upon to cure catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Mrs. M. Brickner, 99 11th St., Milwaukee, Wis., writes:

"I have strong faith in the efficacy of Pe-ru-na to cure the ills peculiar to the sex.

"A short time ago I found my condition very serious. I had headaches, pains in the back and frequent dizzy spells, which grew worse every month; I tried two remedies before Pe-ru-na, and was pretty discouraged when I took the first dose but my courage soon returned, as I could see that I was being benefited, and in less than two months my health was restored."

—Mrs. M. Brickner.

Catarrh of the Pelvic Organs is a Very Common Disease Among Women Nowadays.

This Affection is Generally Called Female Weakness, Female Disease and Many Other Similar Names.

Most of the women afflicted with pelvic diseases have no idea that their trouble is due to catarrh. The majority of the peo-

MIXED THE BABIES UP

Parents Leave Infant on Train—Return to Find a Deformed Child in Its Place.

Joplin, Mo., Aug. 29.—Last night the 2-year-old son of Ray Fullerton of Shreveport, La., was kidnapped from a Kansas City Southern train and in his place was left a horribly deformed infant.

Mr. and Mrs. Fullerton were on their way to Kansas City and the discovery was made about 10 o'clock in the morning. The child was left on a seat wrapped in blanket. When the change was made the parents were at luncheon.

The tug St. Croix, owned by Musser, Sauntry & Co., broke a shaft and lost her wheel in the lake. She will be taken to the South Stillwater boat yards for repairs.

The South Stillwater authorities will open bids on Monday for new waterworks and an electric light plant.

The steamer Ben Horsey and bow boat cleared last night with a tow of logs for the Empire Lumber company of Winona.

Ladies of the library board are preparing to open the Carnegie library building about Oct. 1. The interior work on the building is practically finished.

Dr. D. Kalloff, physician at the city hospital, has been appointed physician at the prison to succeed Dr. Joseph Millett, resigned.

WILL RETURN SEPT. 26.

The President Plans to Reach Washington by Then.

Washington, Aug. 29.—President Roosevelt and his family will return to Washington Sept. 26, if nothing happens to interfere with present arrangements for the summer home at Oyster Bay will be closed at that time and again Washington will be the home of the president.

The presidency is the only office which follows the incumbent. During the absence of a cabinet official from Washington some one is left in his stead. However, wherever the president goes there goes the executive of the nation.

During the summer many minor improvements have been made at the White House. All these must be finished by Sept. 15 and the house put in order for the homecoming. Nearly the entire interior has been repainted.

A SERIOUS JOKE

May End in the Death of Its Victim.

Richmond, Va., Aug. 29.—Mrs. George E. Passmore, wife of a prominent business man of Yorkville and former member of the house of representatives, is in a critical condition as the result of a practical joke. While Mr. Passmore was on a visit to this city, one telegraphed that he was dead. Passmore arrived home last night, but his wife failed to receive his and has not recovered.
