 CORNER NICOLLET AVENUE AND THIRD STREET.

THE
Sniff of Autumn
 Is In the Air.

Every man should allow the question of Fall clothes to occupy a corner in his mind.

We are "At Home" to all who call to buy or to see what's latest in men's wear.

New Fall and Winter beauties in Suits and Overcoats are being unfolded here every day. These garments have been selected from the best productions of a dozen or more of the

World's Best Tailors.

There are many new ideas in Fall styles. Prices are as reasonable as can be named for high class garments.

We're ready to show you whenever you're ready to look.

Smart new styles in single and double breasted Suits at \$10 to \$30.

Handsome Fall Top-coats in new shades and mixtures at \$10 to \$25.

Cravenette Rain-coats in newest Scotch effects, with plain or belted backs, will take the place of an overcoat for Fall wear, very stylish, \$12.50 to \$25.

In Labor's Field.

SATISFACTION FELT

Laboring Men Generally Are Pleased at the Settlement of the Strike.

Peace in Building Circles Is Assured for a Long Time to Come.

Satisfaction is expressed on all sides in labor circles at the outcome of the strike of the building laborers, which was called Thursday, Aug. 6, and was declared off Tuesday, Sept. 8.

The settlement of this difficulty practically insures peace in Minneapolis in the building trades for a long time to come. Commenting upon the outcome, The Union, in part, says editorially to-day: The principle of arbitration has won another substantial victory by the consent of the contractors to submit the differences between themselves and the building laborers to a board of arbitration, the findings of which shall be binding upon both parties. Common sense and common prudence on both sides prevailed, and the spirit of fairness which has generally prevailed in the dealings of the masters of the Minneapolis contractors with their men has been again shown. We think the laborers were clearly within their rights in asking what they did, and that the board of arbitration will grant them all they asked for, and that the contractors will be glad to have the matter settled on that basis.

Aug. 6, the date of the commencement of the strike, the Building Laborers' union had a membership of about 400. To-day there are 787 members in good standing, and all are at work.

A. E. KELLINGTON.

Secretary-Treasurer of the International Union of Flour and Cereal Mill Employees.

A. E. Kellington, whose portrait appears herewith, was born in Paris, Mo., in 1870. He spent the early years of his life at Fairbault, Minn., where he learned the miller's trade. In 1889 he came to Minneapolis, and for the past ten years has been head miller in the Zenith mill. When the Northwestern Mill Employees' union was organized, Mr. Kellington's name was on the charter, and since that time he has been one of the leading spirits in the organization. He was one of the early advocates of an international union for mill employees, and was secretary of the organization committee appointed by the Minneapolis unions. When the first convention met he was the unanimous choice of the delegates for the position of international secretary-treasurer, and local committee members are proud of the able and successful manner in which he has performed the duties of his office.

ORGANIZING MILLERS

President Finley Working at Niagara and Buffalo.

John Finley, president of the International Union of Flour and Cereal Mill Employees, is working in the interest of his union at Niagara Falls and Buffalo, where he is meeting with some success. Five new locals have been added to the list of locals affiliated with the international in the past two weeks, and this phenomenal growth bids fair to continue. After finishing his work at Buffalo and the Falls, Mr. Finley will proceed to Rochester, N. Y., where he will devote some time to bettering the conditions of the milling crafts in that city. From Rochester, Erie, Pa., Cleveland, Akron and Toledo, Ohio, will be visited, in each of which cities Mr. Finley will turn his attention to the work of organization. The principal milling centers of Indiana and Michigan will be touched and the return home made by easy stages. There are now seventy-one locals affiliated with the international.

Tuesday morning the employees of the mills at Fairbault went on the eight-hour shift. Two crews formerly ran the mills working twelve hours a day. Under the new arrangement, three crews, each working eight hours a day, will be employed. Flour Mill Employees' Union, No. 2, will meet at Union Temple, Sunday, when some important matters will come up. The executive committee are now in consideration the wage scale question, will report to the union at that time and the matter may be brought to a conclusion at once.

The officers of the international union have been removed from the first to the fourth floor of the Corn Exchange building, where more commodious quarters have been secured. A suite of three rooms affords separate offices for the president and secretary and provide many other conveniences which were lacking in the former quarters.

Among the Metal Polishers. F. D. Burns of the Metal Polishers' Union was elected a delegate to the district council, which meets at Milwaukee Oct. 4. Mr. Burns represented the local union at the recent convention at Cincinnati and made an interesting report at Tuesday night's meeting. The St. Paul union asked the support of the local union in an effort to secure an eight-hour day in that city.

Off for Salt Lake. Delegates Louis Foss, Arthur Sellers, Frank Finnigan and E. Ackerman left last evening for Salt Lake City to attend the eighth biennial session of the Brotherhood of Electrical Workers, which city next Monday, Sept. 14. J. I. Reynolds of this city, fourth vice president of the international brotherhood, accompanied the delegates.

Auxiliary's First Party. The Ladies' Auxiliary of the Minneapolis Typographical Union, No. 42, will give a social card party at the hall, 45 Fourth street S., next Tuesday evening, being the first of a series of card and dancing parties to be given during the winter. All members of the union and their families are invited.

Carver Takes a Holiday. J. H. Carver, organizer for the State Federation of Labor, has finished his work in St. Cloud, where he succeeded in forming several new unions. Mr. Carver has gone to Kansas City, ostensibly on a pleasure trip, but while in the northwest will devote some time to matters concerning the cooperatives.

Daniel Doran Dead. Daniel Doran, formerly a member of Carpenters' Union, No. 7, died in Winthrop yesterday, after an illness of a month. Mrs. Doran was with him when he died and William Doran, brother, has gone to Winthrop, where deceased will probably be buried.

Painters Visit Stillwater. A delegation of Minneapolis and St. Paul painters visited the Stillwater prison the afternoon of Labor Day and were royally entertained.

Lost

The Use of Arm. Heart Trouble.

Could Not Eat, Sleep or Walk.

Dr. Miles' Heart Cure Cured Entirely.

"If it hadn't been for Dr. Miles' Remedies I would not be here to write this letter. Two years ago last June I lost the use of my left arm, could not use it and could only move it with the help of my right hand. My heart was so weak I could not sleep nights for smothering spells. I was out of sorts all over and could eat nothing. I grew so weak that I could not walk without staggering like a drunken man and my home doctor said he could do nothing for me. I was in so much pain I was almost wild. I could not take morphine nor opium as they made me worse. So I got to thinking about Dr. Miles' Heart Cure and Nerveine and the more I thought about it the more I wanted to try them. I wrote to the Dr. Miles Medical Co. for advice which I followed to the letter. I can say today that I am glad I did as I am a well woman now; can work and can walk two or three miles and not mind it. I can also use my arm again as well as ever. You do not know how thankful I am for those grand medicines Dr. Miles' New Heart Cure and Nerveine. I think Dr. Miles' Remedies are the best in the world, and if I should get sick again I should take the same course. The remedies also helped my daughter Vida so wonderfully that I should have written you before to thank you, but I wanted to be sure that the cure was permanent, which I now know to be the case."—Mrs. Frank Loomis, Allen, Mich.

10c, 25c, 50c. THEY WORK WHILE YOU SLEEP. BEST FOR THE BOWELS

An interesting program of music and speeches was provided, refreshments were served.

Seek Shorter Hours.
 A meeting of the Retail Drug Clerks' association was held at Century hall Wednesday evening at which action was taken toward securing a reduction of the hours of work. The drug clerks are in most cases working not less than twelve hours a day and the association has gone on record for a ten-hour day. Clerks in both Minneapolis and St. Paul are interested in the movement, and a meeting will be held in the latter city Sept. 24, when it is thought some decisive action will be taken.

Labor Notes.
 Six charters were issued by the International Typographical union in August. A joint meeting of the Retail Salesmen's and Retail Salesladies' unions was held Monday night. A dance will be given by the Flat Janitors' union Oct. 3, at Dania hall, Fifth street and Cedar avenue. George Harvey, president of the Federal Labor union, returned Tuesday morning from St. Louis, where he delivered the Labor Day oration. It is said 12,000 were in the parade, which marched from the city hall to the fair grounds, where the exercises of the day were held. The dance given Monday evening at A. O. U. W. hall by the Suspenders Workers' union was a very successful affair. The headquarters of the International Association of Machinists have been removed to rooms 402-407 McGill building, Washington, D. C. It is announced that the stone quarriesmen's strike has been declared off and permission given the men to procure employment wherever possible. John Swift has returned from Brainerd, where he went to investigate into the trouble in the railway shops there. The differences will be settled amicably. The business agents of the Stationary Engineers, Stationary Firemen, Heating Engineers and Team Drivers' unions have discontinued headquarters at Union Temple. The state branch of the Painters and Decorators, formed in this city last week, has selected a committee to draft new constitution and bylaws, which will be submitted to the state unions for their approval. Owing to the fact that the delegates of the Team Drivers' union were unseated in the local Trades Assembly, no provision was made for them in the Labor Day parade. But the union was determined to be in line and brought...

the rear as an independent organization, making a fine showing. John Farinorum of Carpenters, No. 7, sustained serious injury to his back as the result of a fall from a building. He was taken to his home at 2434 Cedar avenue. Wednesday night, at a special meeting of the plasterers' union, application was made for a charter from the international Hod Carriers and Building Laborers' union. An open meeting of the Boot and Shoe Workers' union was held at Alexander's hall Sunday afternoon. Vice President Lovely of the international union gave an address. John Durker of the local Cigar Makers' union is in the northern part of the state in the interests of the label. Fred Hoffman, of St. Paul will also "hit the road" for the same purpose the first of next week. The current Machinists' Monthly Journal publishes the text of the wage agreements entered into between the association and the Middle and Ohio, the Northern Pacific and the Great Northern railways, all of which show gains in hours and wages for the men. The local Stonemasons' union is an entirely independent organization, not being affiliated with its international. Masons coming here from outside places are required to pay initiation fees, regardless of whether they hold a card in an outside "regular" union or not.
