

THE U. S. STEPS IN

Title of Chandler-Dunbar Company to St. Mary's Water Power Held Invalid.

What the Success of the Government Suit Means to Consolidated Lake Superior.

Special to The Journal. Marquette, Mich., Sept. 11.—The United States is to take a hand in the litigation over the water power of St. Mary's river at Sault Ste Marie, and its action gives an entirely new aspect to the suit of the Chandler-Dunbar Water Power company against the consolidated Lake Superior.

The purpose is to quiet title to certain islands in the St. Mary's river, the government alleging that the title of the Chandler-Dunbar company is invalid and void; that the patent issued was without authority and that all the land north of the so-called canal reservation has been since 1847 a United States reserve.

The Chandler-Dunbar company owns extensive hydraulic works on the St. Mary's river. Around this the great canal project by F. H. Clergue and his syndicate was built, beginning above the Chandler-Dunbar plant and reaching below it.

The action of the government in stepping in with the evident intention of ousting the Chandler-Dunbar company, puts a different phase on the litigation. The fight has been one of extreme bitterness with millions of dollars at stake.

The water power canal is one of the most valuable assets of the Consolidated Lake Superior company and the fact that it stands in danger of being rendered useless has had a depressing influence upon the securities of the corporation and has hampered the officers in their efforts to make loans and effect a reorganization.

If the government now establishes federal ownership to the land on the St. Mary's river, it will leave the Consolidated Lake Superior supreme on the American side.

TEDDY JR. GETS BACK He Had Good Hunting in the Black Hills.

New York Sun Special Service. Roosevelt Bay, N. Y., Sept. 11.—Theodore Roosevelt, Jr., returned home yesterday afternoon with his cousin, George Roosevelt, from South Dakota, where the boys have been spending a month, hunting and fishing with Seth Bullock, superintendent of the Black Hills.

When they started out, they said they were going for big game, but they came back without game, but with a bear and a mountain lion. In other respects, the trip was most successful; they had fine partridge hunting and made some big catches of trout.

It was close season on deer during their stay and although they saw many they had to forego the sport of drawing a bead on them.

THEY STAND FOR SMOOT Lutheran Synod Refuses to Condemn Mormon Senator.

New York Sun Special Service. Albany Park, N. Y., Sept. 11.—Senator Smoot, the Mormon senator, who has been anathematized by church conventions all over the country, has found friends in the Lutheran camp.

The usual resolution of condemnation and memorialization to congress on the polygamy question were introduced in the Lutheran synod of New York and New Jersey yesterday by Rev. C. W. Helmer, Albany, who championed the cause of the anti-polygamists with impassioned zeal.

Strong arguments were made in favor of Smoot and when rising vote was taken the resolutions were defeated by a majority of three and the question was tabled. The incident caused a great sensation in the convention.

SEE NEGRO HUNG Crowd Tears Down Canvas Enclosure to Gain Privilege.

New York Sun Special Service. Raleigh, N. C., Sept. 11.—Two thousand people broke through a canvas enclosure at Statesville yesterday to see the execution of Wilford Roseboro.

The sheriff designed to have the hanging in the presence of a limited number of witnesses, according to law. The crowd tore down the tent. Roseboro, who was a negro, was hanged for the murder of Mrs. Adolph Hoover after committing an outrage on her. He admitted his guilt soon after his arrest.

AN AUTO REPAIR SHOP

War Department to Test a Traveling Smithy for Use in the Army.

New York Sun Special Service. New York, Sept. 11.—An auto car equipped with outfits for horseshoe, saddle, carpenter and blacksmith for use in the army will leave this city for the war

department at Washington in a few days. After inspection by department officials it will be sent to Fort Leavenworth, Kan., for a test in actual service.

The auto car is the only one of its kind ever constructed. If it comes up to the expectations of its designers, any necessary repairs to the equipment or arms of the artillery, cavalry or any other branch of the service may be made in camp, or even while the forces are on the march.

The car is simply a large box on which are numerous doors that open and reveal all sorts of tools and appliances from the blacksmith's anvil to artillery wheels. The car, stripped of its equipment, weighs 6,500 pounds, and the equipment sent on for the test weighs 4,000 pounds.

SENATOR GOULDN'T PAY

"Young Mr. Beveridge" Has Unpleasant Experience in Fort Wayne Lunch Room.

New York Sun Special Service. Indianapolis, Ind., Sept. 11.—While going from this city to South Bend, where he was to speak before the state bankers' association, United States Senator Beveridge stopped at Fort Wayne and had luncheon at the railroad restaurant. After

he had eaten he went thru his pockets nervous and then announced to the waiter that he had no money. He said that he was United States Senator Beveridge.

The waiter grinned and said that he had been tried on him before. Manager Hubbard was called, but when the senator explained who he was the manager looked at his guest with the slouch hat and no waistcoat with evident suspicion. The senator finally took out his railroad pass and several letters and succeeded in convincing the restaurant man that he was really Indiana's senator.

He said that he left home with \$50 in his pocket, but whether he lost it or was robbed on the train he did not know.
