A SECOND DIVORCE

After Two Trials, Annie Sebastian's Hudson Marriage Is Set Aside.

Anna Weyer Testifies That Her Husband Attacked Her With a Pitchfork.

Love's young dream has been rudely shattered in the case of Annie Sebastian and Frank Sebastian. The wife appeared in Judge Harrison's court this morning and was one of the five women to secure legal separations from their husbands. In 1898 Annie, then but 17 years old, decided that she would marry only if she were to be married to the young man who visited Hudson, Wis., where the knot was tied.

Trouble came, and in December, 1901, she secured a divorce for cruel and inhuman treatment. Reconciliation followed, and in May, 1902, relying on the man's protestations of reform, the young woman for the second time became Mrs. Sebastian. This morning, in court, the unfortunate young wife related how her spouse had failed to live up to his promises and how, one week after the second marriage, he had imbibed large quantities of intoxicating beverages and then proceeded to choke, beat and abuse her in all conceivable ways. She says this separation is final.

Because Ferdinand Weyer attacked her with a pitchfork, Anna Bertha Weyer appeared before Judge Harrison and asked a legal separation from her cruel and inhuman husband. The court granted her request.

Mattie Francis Brower swore in court this morning that her husband, Charles Brower, had never supported her, and that she had been compelled to earn her own living by working as a domestic servant.

Other divorces granted this morning were: Elizabeth A. Wilson from Sylvester Wilson, desertion; Johnson M. Jones from John H. Jones, desertion.

THE RIGHT TO ATTACH

Another Decision Filed Affecting Care of Outside Corporations.

Judge Gray of the Hennepin district court yesterday filed an order in the case of the Conroy Fruit company against the Quincy, Omaha & Kansas City Railway company, denying the application of the latter company for an order to dissolve and set aside the writ of attachment in the case under which a car had been attached in this city some time ago. The plaintiff in the case was represented by George C. Stiles, who contended for the right of the claimant to attach and hold cars of foreign railway companies within this state for the purpose of procuring jurisdiction in other proceedings of substantially the same character—two decisions having been recently handed down by Judge Holt of the municipal bench and one by Judge Searle of the seventh district bench, all affirming the right of the plaintiff to seize and hold such cars in attachment proceedings.

The question involved is, of course, an important one from any point of view and is of vital interest to shippers and receivers of carloads of merchandise outside the state by whom the progress of this litigation is watched with great interest and concern. Two of the cases have already been appealed to the supreme court, and in the other appeals are being perfected and a final decision by that court may be expected during the October term.

MORE ARE ARRAIGNED

Criminal Court Work is Getting Well Under Way.

Judge C. M. Pond this morning listened to more arraignments. The immediate effects are a sense of great fatigue, headache, backache, mental dullness, etc. In the early stages these sensations are ordinarily of short duration, and may entirely disappear in the interval between the emissions. In an advanced stage of the malady the disturbances are more generalized; the patient restless, cannot sit still or remain long in any position, and in more aggravated cases involuntary twitchings, trembling of hands, etc., are noticeable. The effects of abnormal seminal losses upon the highest intellectual centers are more characteristic; the essential mental faculties are weakened; the patient finds that his receptive powers are less active; he cannot concentrate his mind upon any subject, and this is, therefore, entirely incapacitated for intense or prolonged mental exertion; his memory is impaired, especially his memory for words; he constantly pauses in his speech for loss of a word, and his articulation becomes halting or stammering. Mental disturbances are also manifest. The patient shuns society, does not like to be alone, considers his trouble imaginary, that his humiliating secret may be read in his face; his glance is furtive and he rarely looks one straight in the eye. As a result a fixed melancholy settles upon him; this condition of extreme depression is most deplorable and forms the darkest stages in the clinical picture of the debilitated and discouraged man.

John H. Johnson, indicted for grand larceny in the second degree from James Croddy, pleaded not guilty.

Bert Puffer, charged with grand larceny and robbery in the first degree, withdrew his plea of not guilty and pleaded guilty to the grand larceny indictment. He was remanded for sentence.

Thomas Moran withdrew his plea of not guilty to the charge of forgery in the second degree and pleaded guilty. He was remanded for sentence.

John Ryan, indicted under the name of Edward Johnson for assault in the first degree, pleaded not guilty. The defendant is accused of attacking Thomas Finn with a knife. The case is set for trial Sept. 25.

Henry is Convicted.

Frank Henry, indicted for grand larceny in the second degree by a jury this afternoon. The defendant was remanded for sentence.

Walter Lathorn, who pleaded guilty to forgery in the second degree, was sentenced to Stillwater on the reformatory plan by Judge Pond this afternoon.

The next case taken up before Judge Pond was that against John Wilson, indicted for burglary in the third degree.

HALL GETS JUDGMENT

He Secures a Verdict Against His Former Employer.

A judgment for \$1,000 in favor of the plaintiff was entered yesterday by Judge Simpson in the case of Samuel H. Hall against William D. Lord. The defendant was convicted of embezzling the property of the plaintiff and sent to the penitentiary about a year ago. He is still an inmate of the Stillwater institution and judgment was entered yesterday in default of his appearance.

Gets Verdict for Diamond.

A verdict of \$245 in favor of Edna Schultz against Adolph Leber, the jeweler, was returned by a jury in Judge Elliott's court yesterday. The plaintiff alleged that she had given the defendant a valuable diamond to be reset and that the jeweler refused to do so. He said the stone had been stolen, and Miss Schultz sued to recover its value of \$250.

To Young, Middle-Aged and Old Men.

A condition brought on through misfortune, ignorance or overwork is nothing to be ashamed of. The disease attaches in allowing oneself to longer remain in it. Also it is well to remember that "An evil tree cannot bring forth good fruit"; so an evil life, vicious habits or hereditary diseases cast their shadows before them, and now, as in the days of David, a man's glory is in his strength.

EARLY POLITICAL TALK

Changes in Hennepin Republican Committee Possible—Matchan May Be Promoted.

Altho the campaign and the reorganization of the various campaign committees is still many months hence, the present republicans of the county are already discussing the personnel of the next republican campaign committee.

At this date two important changes in the Hennepin county committee are being urged by many of the active republicans of the district. One is the retirement of Chairman George L. Matchan in favor of Secretary Thomas H. Girling, and the other is the promotion of Mr. Matchan to the chairmanship of the state central committee to succeed Judge Robert Jamison.

Mr. Matchan has been chairman of the Hennepin county committee for four years and while the results of the off year campaign in the county are not wholly gratifying to the republicans, he is credited with good work that would warrant his elevation.

Mr. Girling has been a member of the committee, representing the third county district for ten years, the last four of which he has acted as secretary of the committee.

While under ordinary conditions the convention would not be called until next June the number of candidates already in the field give promise of the early opening of the campaign and the calling of the convention some time in April or May.

Because of these conditions gossip about the personnel of the next committee is becoming more common than usual at this time of the year.

ELECTION ON 'CHANGE

The Leading Officers are Well Assured of Re-election.

Thursday, Oct. 1, will be election day at the Minneapolis Chamber of Commerce, and gossip has already started on the floor as to the candidates likely to go after the vacancies that will occur. James Marshall, the president, has served one term and is pretty sure of re-election. Frank W. Commons, vice president, stands an equally good show. The terms of five directors, three members of the board of arbitration, and three members of the board of appeals will expire. Five directors, namely, Henry Little, B. H. Morgan, George F. Piper, C. C. Wynant and G. F. Ewe will hold over. On the board of arbitration the hold-overs are W. T. Hooker and W. P. Devereux, and the board of appeals hold-overs are J. R. Martin and John H. Ribbendorfer.

Directors whose terms of office will expire are W. A. Freeman, John L. Tracy, J. H. Martin, Samuel Morse and A. M. Woodward. On the board of arbitration L. Christian, G. Parker Harding and Alex McGregor are the retiring members, and E. N. Osborne, Thomas N. Taylor and George A. Devine stand drop of the board of appeals.

Thomas N. Taylor is spoken of as a likely man for a director, but is not a candidate so far as is known. James Quirk, the miller, and Ben H. Woodworth

TERRIER WAS A TERROR

A small rat terrier, scarcely a foot long, caused Minnie Lamberg's arrest for keeping a vicious dog. The terrier had shown itself to be of a vicious disposition and Hannah Mullen undertook to rid the neighborhood of the dog. Miss Lamberg was fined \$5 but sentence was suspended upon condition that the dog be killed.

TALKED WELSBACH SYSTEM

Robert Seeger Gives Council Committee Light on Street Lights.

Robert Seeger, president of the American Development company of Chicago, was present at the meeting of the council committee on gas yesterday, on the invitation of Alderman F. L. Schoonmaker, to enlighten the aldermen on the merits of the Welsbach system of street lighting. Since Aug. 11 his company has maintained, at its own expense, 107 of its lights on Hennepin avenue, from Kenwood boulevard to Thirty-second street, to give a practical test of their superiority over ordinary gas lamps.

The same company is now placing new street signs on all its lamps. These are transparent with ruby colored letters on a ground glass background and are a great convenience.

The main argument for the system is that with the same consumption of gas, five times as much light may be obtained. If the city is to adopt this system in time to be available next year an item for covering the cost of the Welsbach attachment will have to be included in the estimates which are soon to be considered by the board of tax levy.
