DECEMBER SELLS TO 77C AND CLOSES STRONG RISE IS CONTESTED

The Wheat Market Stimulated by Better Demand for the Cash Article.

Also Larger Weekly Clearances Weather Not the Best and Receipts Moderate.

The Bear Arguments All Thought to Be Discounted in Good Part.

Minneapolis Chamber of Commerce, Oct. 2.—Wheat jumped almost a cent this morning. December opened at 76%c, and sold quickly to 76%c, while May opened at 77%c, and sold to 78c. The buils were confident that the turn had been made and that further advances were to come, but at the higher figures enough selling came out to force December back to 76%c, where it stuck. Decidedly less bear talk was heard, however, and the general tone of the market was greatly improved. Some new buying was shown and outside orders were more numerous than for several days. The bears had a long line of weakening facts and figures to set out, but their gossip was not new. While there are many bearish things in the view, there are few bearish items that are new. The local stocks were shown to have increased 1,200,000 bu, but this had been discounted long ago. The cash market is still unsatisfactory on the whole, but not more so than earlier in the week, and by comparison with the worst time, the cash market really shows improvement. For the first time in some days the foreign markets showed disposition to come up a little and Liverpool was ½d higher. Paris cables also showing moderate strength. The September option is out of the way and it is a long look ahead to December. The weather now is not good. Two days of rain brought no precipitation heavy enough to cut down the movement of grain or do any harm. Still no one pretends to say that damp weather is the desirable thing. Present atmospheric conditions certainly do not advance northwestern wheat conditions any, and with showers again predicted for to-night and Saturday, the outlook as to threshing and the movement in general is not the best. Receipfs are not heavy, and the three principal points all ran under last year, Minneapolis getting 355 cars against 374. Duluth 348 against 362, and Chicago 43 against 121, while Kansas City had 171 cars against \$6, and \$1.00.00 bu, Meanwhile the flour mills, badly crippled as they are by the strike, are doing some business, and the fact that the

showed 560,000 bu. Baltimore cleared 66,000 barrels flour.
Bearish news continues coming from eastern Europe, and it was reported that wheat stocks at Odessa increased 4,720,000 bu during the week.
Argentine shipped 448,000 bu this week, against 088,000 in the previous week.
Broomball's agent at Barcelona sent a summary of Spanish wheat yields which makes the total for Spain 16,000,000 bu below last year, or 107,000,000 bu. The five year average for mary of Spanish wheat yields which makes the total for Spain 16,000,000 bu below last year, or 107,000,000 bu. The five year average for Spain is 111,000,000 bu.

The Modern Miller says: Weather conditions continue favorable for the seeding of winter wheat, which is making seasonable progress, excepting in scattered sections, where there has been a lack of moisture, and where farmers are delaying this work in order to avoid insects. The movement of winter wheat to market is of moderate volume, especially of the soft variety. Weekly clearances showed 4,02,000 bu, which was so much better than the last two weeks that the bulls were encouraged by it.

December wheat having been sold off to 7614c, rallied to 77c, and closed firm at high point.

Millers made their appearance in the cash market and bought a fair quantity of wheat with the result that the market was stimulated all thru and a much more satisfactory showing was made than on any previous day of the week. No. 1 northern brought 79@79½c and 80c for choice and No. 2 northern sold at 77c for much of the offerings.

GOOD DEMAND FOR FLOUR-OUTPUT WILL BE LARGER.

BE LARGER.

Shipments, 18,708 barrels.

The new feature to-day is the prospect of increased production which looks more favorable. Flour demand is good and more orders are being entered than earlier in the week. Millers were buyers of cash wheat to some extent this morning and say that they expect to grind more from the beginning of next week.

The price situation shows little change and quotations are about the same.

First patents in wood, f. o. b., Minneapolis, are quoted \$4.45@4.55; second patents, \$4.35@4.45; first clears, \$3.65@3.75; second clears, \$2.75@2.85.

THE BOUNDARY HEARING

Alaska Commission—Session

MONEY REPORTS

WASHINGTON, Oct. 2.—To-day's statement of the treasury balances in the general fund exclusive of the \$150,000,000 gold reserve in the division of redemption shows: Available cash balances, \$240,312,657; gold, \$109,645,682; silver, \$22,321,134; United States notes, \$10,200,912; statement of the state o London, Oct. 2.—Sid Edward Carson, the solicitor-general, consumed the morning session of the Alaskan boundary commission to-day in endeavoring to refute the arguments of David T. Watson and Hannis Taylor, of counsel for the United States, especially protesting against Mr. Taylor's contention that the term "trend of the coast" could be solved. ical coast line. He also maintained that the principle of acquiescence was not applicable to the present dispute and somewhat surprised all by declaring that under the powers of the treaty of 1903 the commissioners had no authority to define questions submitted to them, and that they could neither lay down the boundary nor decide what constitutes the coast. All the commissioners could downs to answer questions submitted to them, and boundary nor decide what constitutes the coast. All the commissioners could downs to answer questions submitted to them by the treaty negatively or affirmatively. If they gave certain answers they might make matters more confused nearly perfect for both making down to 9.36c soon after the call. After the early weakness the market steaded a point or two and was slightly less active. The market was weak at noon under stubborn bear pressure, and offerings of long cotton.
