

Normannaheimen GOOD WORDS FOR U.S.

Olaf Huseby, Norwegian Publisher,
Pleased With Minneapolis—He
May Locate Here.

Thinks Policy of Norwegian Papers
Which Belittle America Is
Short-Sighted.

Olaf Huseby, a well-known publisher of Christiania, is in the city and for the time being is the guest of Editor Stavneim of the *Normannaheimen*. Mr. Huseby has been in the west nearly two months and is beginning to feel at home in Uncle Sam's domains.

As his publishing home has been swallowed up in merger it is more than probable that he will locate in this country and in Minneapolis, for of all the cities he has visited Minneapolis suits him best.

During his stay here Mr. Huseby has acted as correspondent for *Dagbladet* of Christiania, and in his correspondence he has sharply criticized that portion of the Norwegian press which delights in printing articles discreditable to America and the Americans. As in the English papers the American news in the journals of Norway is limited to lynchings, railway accidents and crimes.

Mr. Huseby believes that the United States is the most powerful country in the world and that its work in the cause of education and charity is simply marvelous.

There are over a half-million Norwegians in this country and that they with their numerous progeny in themselves wield a mighty influence. It is shortsighted for the Norwegian press to belittle the United States. The Norwegian emigrants love America for what it has done for them, which is proper and commendable, says Mr. Huseby, but there is no reason why the papers should seek to estrange the Norwegians in America from their kinsfolk at home. Norway has profited much by the United States and may need its friendship again.

DR. FINSEN'S CURE

Wonderful Results Are Obtained and His Methods Are Approved.

An interesting account of the Finsen Medical Light Institute at Copenhagen, Denmark, is obtained from Dr. F. Christian of Cambridge, who has been at that institute this summer studying the Finsen ray. It was in this institute that Dr. Niels R. Finsen demonstrated the value of the ray of light which bears his name. The hospital is supported by state and municipal allowances, private donations and the fees of those who can afford to pay for the treatment. Probably four among ten patients receive treatment free.

Finsen is a physician and a scientist. Work has been a pleasure to him, and he labored without thought of pecuniary considerations till his strength was gone and his health impaired. Dr. Christian says that Finsen to-day is emaciated and weak, suffering from a disease that has necessitated his retirement from active participation in the medical work of the hospital, but his assistants are trained to carry out his methods to perfection. When he visits the institution it is for brief periods only. He remains there some months and a carefully selected diet were regarded as necessary to restore his health. He is hopeful of once more being able to take up his research work in the laboratory.

ROMANTIC COURTSHIP

Long Distance Proposal From Japan to Iceland—Marriage in America.

A romance in real life is the story of the courtship of Miss Sophie Fischer and Toby von Syberg Petersen. Mr. Petersen was born in Savannah, Ga. When still a child he was taken by his parents to their native country, Denmark. He remained there shortly after his arrival, he met Miss Fischer at the home of her father.

She was then a girl of 8 years. The children were intimate and the boy visited. When it came time for him to return to America, they kissed each other good-bye, pledged friendship, and promised to write to each other.

A year later Emil Fischer was appointed governor of Iceland, and the little rosy-cheeked daughter accompanied him. Petersen took to the sea and became a master mariner. From ports scattered all over the globe he sent letters to the little girl in far away Denmark.

Finally one found its way to Miss Fischer, now a young lady, breathing love and devotion. At the Port of Kobe, in the sunny-banded Japan, the answer found him. It was written with it came a picture, which in Petersen's opinion was that of the most beautiful woman in the world.

He shortly after retired from an active life on the seas and when finally settled in New York, wrote to his fiancée, begging her to wait for him here. Her father consented and started her on the journey with his blessing. She arrived on the steamer *Oscar II*, the Scandinavian-American line, and Petersen was on

VITAL FORCE.

Is Crushed by Chronic Troubles.

One of the most weakening, undermining troubles which mankind is heir to is hemorrhoids or piles. The victim is careless and neglectful of the disease. He is not able to sit, stand or walk without pain. The slightest and the bleeding may only occur occasionally, or he may be reassured by the occasional disappearance of the sore. He is not able to do the very start he had found a rational remedy to soothe the inflammation, he would probably never have had a return of this irritating malady.

Piles may develop at any season of the year, and at almost any age of the victim; the abuse of cathartics often causes this trouble, and a period arrives when the dread of pain is so great that the sufferer begins to neglect the calls of nature, and the bowels are either forced to retain the feces or are only partially cleared, on account of the suffering attendant upon a thorough movement.

Before you reach this stage use a remedy which removes the cause thereby eradicating the disease, and that is the Pyramid Pile Cure, which is sold by all druggists at fifty cents a package. It is in the form of a suppository, is applied directly to the parts affected and brings about a complete cure, quickly and painlessly. A valuable little book on the cause and cure of piles is published by the Pyramid Drug Co., Marshall, Mich., and we advise every sufferer to send for a copy of it.

People who have suffered from piles for years are often astonished at the instant relief experienced from the first application. Another important advantage is the fact that anyone can use the remedy without detention from business or interference with daily occupation.

"I feel it my duty to recommend the Pyramid Pile Cure, for after suffering ten years with a most distressing form of Piles, I am entirely cured, thanks to this remedy. I am writing this to you as a testimonial. My name is Margaret Brady, 156 Whitman st., Cleveland, Ohio."

MINNEAPOLIS STORE,
HARRY MITCHELL, Manager.

SCANDINAVIA INTERESTED

Her Best Customer, She Thinks, Needs Careful Watching.

Scandinavia is following with intense interest the development of the fiscal struggle in Great Britain for the exports of Sweden, Norway and Denmark are chiefly to the British Isles, England is, in particular, the best customer of Denmark. Sixty per cent of all Danish products go to England, while 43 per cent of all the products of both Sweden and Norway also go there. Denmark's import tariff on industrial products is low and Danish agricultural products in of a class that meets with much favor in Great Britain. Denmark therefore hopes much from British self interest and does not fear overmuch colonial competition. Furthermore, the Danish government is willing to adapt its tariff to British conditions.

Sweden and Norway will probably develop a preferential tariff system to hold the British market. All three are interested in free navigation, especially Norway, which does a large business with British colonies. The three countries are ready to make considerable concessions to retain the British market.

SWEDISH COPPER

Large Mining District Was Recently Opened in Norrbotten.

Extensive copper deposits exist in Norrbotten, Sweden, and in a short time mining will be carried on by several companies which are already organized. The field is about four miles long and one mile wide and a rough estimate by geologists places the amount of ore at 30,000,000 tons.

HANS SELAND ON THE WAY

He Will Arrive in Minneapolis Not Later Than Oct. 21.

Hans Seland is leaving a wide trail of friends wherever he goes. Naturally he is not so well known as Ole Bull and Bjornstjerne Bjornson but he is achieving a great success as an entertainer. He is due in Minneapolis on Oct. 21 and on that same evening will be the guest of honor at a "sexa."

NORWAY COMING TO ST. LOUIS

Government Has Decided on Official Participation in World's Fair.

The Norwegian government, in response to the invitation to take part officially in the St. Louis exposition, has decided to introduce a bill in parliament providing an appropriation for a Norwegian exhibit. The amount that will be asked has not yet been decided.

Ibsen Takes Walks.

Henrik Ibsen is often seen in Queen's park this fall. He is quite feeble, however, as he invariably leans on the arm of an attendant while taking his daily walks. When the royal family arrived in Christiania last month the park gates were closed, but the king ordered that a key be sent to the venerable author.

Ibsen's "The Master Builder," with Fru Dybwad, the Norwegian actress, as Hilde, was played at the royal theater in Copenhagen on Sept. 21. Fru Dybwad's genius was recognized by all, and she was called before the curtain repeatedly to acknowledge the great applause.

King Oscar's Long Reign.

Only one Swedish monarch has ruled longer than Oscar II. That was Gustaf Wasa. On Sept. 21 King Oscar passed the record of Fredrik I, who was on the throne thirty-one years and two days.

A Faithful Soldier.

General Orange, commanding general of the Norwegian army, has reached the age of retirement. In recognition of his services he was decorated by the king with the grand cross of the Order of St. Olaf and received a personal letter from the king thanking him warmly for his attention to duty.

Stockholm Expensive.

General complaint is made over the high cost of living in Stockholm. The prices surprise every one, and the Finnish families who have been compelled to immigrate declare that the difference in prices between Stockholm and Helsingfors is simply enormous.

A Shake in Scandinavia.

Ostergotland, in Sweden, had a little earthquake Sept. 19. Houses shook in Skanningen and also in Vadstena and Motala, but no damage was done. Near Eldsvold, Norway, heavy sounds, apparently coming from the interior of the earth, were heard for several days, greatly alarming the people.

Fishers Are Happy.

Good catches are reported all along the Norwegian coast this season, and the conditions among the fisher folk are greatly improved. Not only are the catches larger, but the quality of fish is uniformly good and the prices on all kinds generally satisfactory. Up to Sept. 25 the total haul of herring reached 340,000 barrels, as compared with 184,000 barrels for the corresponding period of last year.

A Rich Lapp.

Mickel Nilsson of RantaJarvi, Norbotten, is the richest Lapp in Sweden and possibly in the world. His wealth lies in his reindeer herd, which numbers over 9,000 animals. He is a successful breeder and has received a medal from the government for his work.

To Secure of the Best Glassware.

That is, the most nearly flawless, most carefully and artistically cut, always go to the dealer that handles

CANCEROUS ULCERS

ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly and often a very insignificant scratch or bruise

becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties.

If you have an old sore or ulcer, write us all about it, and medical advice or any information you may desire will be given by our physicians without charge. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

Broke BAD BLOOD

Down With Nervous Prostration.

Confined to Bed. Doctors Failed,

But Dr. Miles' Nervine Cured Permanently.

"Some six years ago I completely broke down from overwork. I suffered from nervous prostration and stomach trouble and was confined to my bed and room for months. While I had as good a physician as this city affords he failed to pull me out, and I tried many remedies and they were so hard on my stomach that I could not take them. At last I found Dr. Miles' Nervine. Ah, that was a mail in a sure place and enabled me to cry out 'Eureka.' I was soon able to be out and at work. I consider Dr. Miles' Nervine the thing for nerve and stomach trouble. I also use in my family most of Dr. Miles' Medicines, as household remedies."—Rev. C. W. Draper, Danville, Ill.

"About a year ago I failed in health and my case was said to be nervous derangement and heart trouble. My stomach was also affected and I suffered from a variety of symptoms such as wind on the stomach, shortness of breath, smothering spells, pain around the heart and left shoulder. My ankles were frequently swollen and my face was often feverish. There were little puffs under my eyes at times and I had headache almost constantly. I wrote to you for advice and in addition to general directions as to taking care of myself you prescribed Restorative Nervine, Heart Cure and Nerve and Liver Pills. I will state that my complete and permanent return to health followed."—Miss Josephine Kern, Galena, Ill.
