JAILED FOR KISSING

Michael Stole a Kiss and Must Serve Two Months.

New York Special Service. Leonminster, Mass., Oct. 29.—Two months in the house of correction is the penalty Michael J. Hevers must pay for kissing a woman who did not want to be kissed. Mrs. Charles L. Damon of Boutelle street was the complainant. She testified that Hevers committed the indignity while making a business call at her house.

HE USED A GUN.

New York, Oct. 29.—John Lenahan, whom the police say is really Jerry Dunn, the well-known sporting character who figured in a sensational shooting in Chicago years ago, fatally shot Tom Baker, alias Jack Russell, in the cafe of the Rossmore hotel on Broadway at 1:30 this morning.

SEARCH FOR LOST STEAMER.

Sydney, N. S. W., Oct. 29.—The British cruisers Pyades and Mildara and four merchant steamers have sailed in search of the British steamer Ovalau, belonging to the Union Steamship company, of New Zealand, eight days overdue from Norfolk Island with twenty-five passengers on board, including Lord Boringdon, eldest son of the Earl of Morley, and Judge Oliver, president of the New South Wales appeals court.

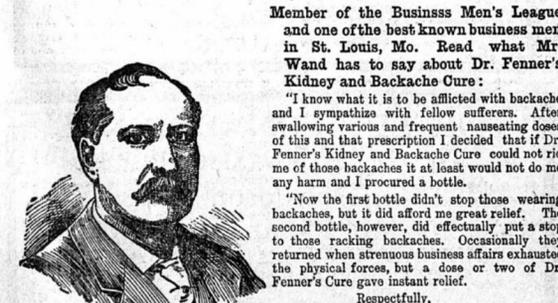

THEY WANT \$2,500,000.

Portland, Ore., Oct. 29.—The legislative committee of the Lewis and Clark exposition has decided to ask congress when it meets in extra session two weeks hence for an appropriation of \$2,500,000 to help defray the expenses of the exposition which is to be held in this city in 1905. The committee, however, does not hope for action in the matter of the appropriation before next year.

DR. FENNER'S Kidney AND Backache Cure

Also Purifies the Blood. Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a lifetime curing just such cases as yours. All consultations are FREE.

Member of the Business Men's League and one of the best known business men in St. Louis, Mo. Read what Mr. Wand has to say about Dr. Fenner's Kidney and Backache Cure: "I know what it is to be afflicted with backache and I sympathize with fellow sufferers. After swallowing various and frequent nauseating doses of this and that prescription I decided that if Dr. Fenner's Kidney and Backache Cure could not rid me of those backaches it at least would not do me any harm and I procured a bottle. "Now the first bottle didn't stop those wearing backaches, but it did afford me great relief. The second bottle, however, did effectually put a stop to those racking backaches. Occasionally they returned when strenuous business affairs exhausted the physical forces, but a dose or two of Dr. Fenner's Cure gave instant relief. Respectfully, Thor Wand"

A PREHISTORIC DIKE SUSPECTS ARE JAILED

Gigantic Engineering Work Discovered Within a Short Distance of City of Spokane.

A More Progressive Type than the Indian Is Believed to Have Evolved It.

Spokane, Wash., Oct. 29.—A gigantic engineering work of prehistoric times is reported to have been discovered within a few hours' journey of Spokane. This discoverer of this enormous work is a surveyor, William Ashley, Jr., who has been engaged in laying out the boundaries to drainage district No. 1 in Hoodoo valley, some thirty miles northeast of Rathdrum, Idaho.

Works that may form a link between the present and the unknown past were found in the valley, works that apparently have been constructed and the employment of many hands. As Ashley was running the line of the drainage district along the edge of a swamp, known as the Hoodoo lake, he ran across a mound of peculiar shape that caused him to stop and investigate. The mound was covered by trees two feet high and it may have been hundreds of years old, yet the sides of the mound and its construction seemed too regular to admit of its having resulted from any freak of nature.

A further investigation indicated the artificial construction of the mound. Broken rocks were found covered with earth. The mound was followed for 6,100 feet. It is stated that it was 8 feet at the base, 4 feet high and 4 feet wide on top.

In one place it has been cut in recent years, but in another it has the appearance of having been broken and swept away by floods in time long past. Mr. Ashley had heard of the dike before, but was inclined to the belief that it was an old morain of the glacial period, such as are frequently encountered. Upon seeing it, however, his attention was arrested by the singular regularity of its form, and his investigation convinced him that it was the work of man.

The dike lies along the edge of a swamp which is known as Hoodoo lake, the country being thickly covered with timber and under the present condition of the earth's surface in that section, there is some question for what the dike was built. Unless there has been some change in the earth's surface, the dike would have been useless for irrigation purposes, but it might have been constructed to keep the water from the lake. The theory is that it was not built by the Indians, but by some prehistoric race of a more peaceful and progressive type than the Indians. But if so, who were they? Whence did they come and how did they perish from the land?

WRONG MAN IN COFFIN
Body of William F. Rogers, Who Died at Independence, Iowa, Has Gone Astray.

Sioux City, Iowa, Oct. 29.—Somewhere in Iowa lies the corpse of William Rogers, but where his friends do not know. A funeral concourse listened to the rites over the body and afterward passed before the coffin. The Mrs. James Ferguson Rogers, the mother-in-law, saw the face of the dead she cried out: "Why, that is not Mr. Rogers."

The body in the coffin was sent from Independence at the same time that another was transported and it is supposed the labels were accidentally exchanged.

HE DIDN'T SAY IT
Bryan Denies that Judge Stoddard Called Him a Liar.

New York, Oct. 29.—William Jennings Bryan, smiling and hopeful, was a visitor at the Victoria hotel yesterday, and when asked about his recent suit over the Bennett will at New Haven, said: "The trouble there is simply that Judge Stoddard is thinking more of politics than law. He is a gold democrat and would rather expose me to some embarrassment than win his fee. Do he call me a liar? Why, no; that was a false report in the newspapers, due, I suppose, to some typographical error. He called me a lawyer, which I am, and he said, 'I am a liar.' "Did you notice in the morning papers that Senator Hanna was to retire from political life owing to ill health?" was asked. "Mr. Bryan smiled broadly. "Yes—but to-morrow he may be well again."

CONNELL THEIR CHAMPION
Janesville Lovers May Use the School Steps for a Trysting Place.

Special to The Journal. Janesville, Wis., Oct. 29.—Sweethearts may continue their "spooning" on the school steps at night at any of the public schools without interference by the police, says the city council. The decision is a victory for Alderman Edward Connell, who has championed the cause of young lovers. Alderman Connell is the only member of the Janesville council who is not wedded. "I used to be a boy myself," he says, "and it was not many years ago that I used to visit those same school house steps. Of course, I don't favor any couples kissing so loud that they keep the neighbors awake, but within reason, why not?"

MUST NOT STRIKE
This is the Advice Given to Rural Carriers by Superior.

New York Special Service. Joliet, Ill., Oct. 29.—"Under no circumstances are you to think you can gain what you want by going on a strike. It does not do to strike when in national employ, and you must not allow the people to think the association is formed to get higher wages or to order a strike." This advice was given the rural free delivery carriers by Chief Mailing Clerk Q. H. Chapin at a meeting of the Will county association, held in Lockport. Mr. Chapin thought the desired increase in salary was just and would be granted in time. The rural carrier, he said, came into personal touch with the people in a far greater degree than employees in any other division of the postal service.

FIGURES FALL OFF
November Industrial Dividend Disbursements Will Be Smaller Than Usual.

New York, Oct. 29.—Industrial dividend disbursements during November will be, according to reports so far made, \$15,977,800, the smallest monthly aggregate in several years. These figures compare with \$19,854,525 in October and \$17,278,400 in September. In November a year ago the payments to shareholders were \$18,370,017. To a considerable extent the falling off in next month's grand total is due to the retirement by the United States Steel Corporation of \$18,411,000 preferred stock under the conversion scheme.

Brother and Sweetheart of Murdered Mabel Bechtel Await Action of Coroner's Jury.

Allentown, Pa., Oct. 29.—No ball has been offered as yet for Thomas Bechtel and Alfred Eckstein, brother and sweetheart of Mabel Bechtel, who was murdered last Monday. The young men were committed to prison in default of \$1,000 bonds. Neither is charged with the murder of the girl, but both are detained as witnesses. Mayor Lewis said to-day: "One of these two men is the murderer of Mabel Bechtel. Of that I feel morally certain. We have nothing but circumstantial evidence to guide us, but so positive and indisputable is the evidence that I am ready to say our work is done. As far as the police are concerned the case is ready for presentation to the coroner and the grand jury. It now remains for the district attorney to do his work. We have no further clues to run out. There are no other channels which might lead to another suspect. No other person but those whom we have under arrest had any direct connection with the crime. We will now wait and see what the coroner's jury will say." The coroner's inquest will be held to-night. The funeral of the dead girl will take place this afternoon.

MEN ARE LOCKED OUT
No Work for Bricklayers Because of Building Trades Strikes.

Chicago, Oct. 29.—Fourteen hundred brickmakers have just been laid off in Cook county and when given their pay were told there would be no more work until late next spring. Four hundred will be discharged in December and the industrial district will be closed down. The prevalence of strikes and the increased cost of building in Chicago has stopped all construction work. The brick companies have on hand enough stock to last for months and do not intend to increase the supply. The movement to lay off men is alleged to have begun with the Illinois Brick company, known as the trust, and came unexpectedly to the men.

HUNDREDS SWINDLED
Small New York Merchants Victimized by Worthless Checks.

New York, Oct. 29.—Fully 1,500 business men in the upper section of Brooklyn and on the east side of Manhattan have been victimized to the probable extent of \$25,000 by a gang of clever check swindlers. One of them opened a small account with a Brooklyn bank. By some means they got hold of a certification stamp. Then checks were cashed at every small shop that would accept them and the gang disappeared.

INNES' FAMILY TROUBLES.
New York, Oct. 29.—Bandmaster Frederick N. Innes, who was arrested yesterday afternoon charged by his divorced wife George with larceny, was arraigned in the West Side police court to-day and discharged. Mrs. Innes alleged that before she secured her divorce from the bandmaster, Innes put some of their belongings in a storage warehouse. Last June, she declared, he had the goods shipped to St. Louis, and included some things which were her personal property. Innes promised to send the things she wanted back to her.
