PAULLE PLANT GONE

Loss of \$80,000 Caused by Fire in Paulle Showcase Factory Last Evening.

New City Hall Suffered Damage to Extent of \$5,000 in Broken Windows.

Spontaneous combustion was probably responsible for a fire which last evening destroyed the Leonard Paulle show case manufacturing plant at 414 Third avenue S., damaged adjacent property to the amount of several thousands of dollars and promised at one time to spread to other sections of the business district.

The total destruction between 6:45 and 8 p. m. approximately \$80,000, in which there is about \$50,000 in insurances. Of this latter amount \$23,000 is carried by Mr. Paulle, who estimates his losses at \$80,000, \$20,000 being on the building and \$80,000 on its contents, chiefly fine woods.

At one time it was supposed that the engineer, a man recently engaged and known to his employer only by number, had been a victim of the flames, but the man turned up this morning. He said he left the engine-room a half hour before R. C. Cockran, the watchman, discovered the fire, that he had been at the factory for some time as he knows and that he had no idea as to the cause of the fire.

The fire was one of the hottest in the recent history of Minneapolis. It started at 6:45 p. m. and in less than ten minutes it had spread to the four-story building, left a pile of heated brick and tottering walls.

During this rapid and thorough work of the flames adjoining frame houses in the rear of the factory and on Third avenue S. were either totally destroyed or were badly damaged.

The fire started in the rear of the factory and on Third avenue S. were either totally destroyed or were badly damaged.

NEW TAX PROBLEM

What Shall Be Price at Which Delinquent Taxpayers May Redeem?

Question Raised in District Court Never Before Up in Minnesota.

Can a delinquent taxpayer redeem property sold for taxes for the amount of the delinquency and interest or must he pay the amount brought at the sale plus the interest? This question has been raised by the National Fire Insurance company in an alternative writ of mandamus secured to compel the sale of the property in redemption of some valuable property on Nicollet island. The question had never been raised in this state, and if it is decided in favor of the applicant it will mean a revision of a part of the county tax methods.

The property in question was sold for \$28.95 in taxes. It was bid in by C. W. Chase for \$50. Now comes the National Fire Insurance company which holds a \$3,000 mortgage on the property, and says that, although the time for redemption has expired, because the notice of redemption gave the cost of redemption at \$28.95 instead of \$50 the notice is valid and the mortgage must be allowed to redeem.

The county auditor and the county attorney say that the taxpayer may be allowed to redeem for the amount of the taxes and interest notwithstanding the fact that the property was sold at a premium and this has always been the practice in this state. The plaintiff says the taxpayer must pay the selling price.

SEEK TO PROVE FRAUD

Plaintiffs in Hunter Creek Mining Company Case.

Judge Thomas Canty, appearing for the plaintiff stockholders of the Hunter Creek Mining and Milling company, in their suit for \$30,000 damages against W. P. McDonald, M. Lulu Brain and other officers and directors, is busy engaged in attempting to convince Judge Gray that there has been colossal fraud.

The plaintiffs allege that the officers and directors of the company entered into a combination to defraud the public, that they placed 300,000 shares of their stock on the market and sold it under false representations, the property being in fact nothing more than a "hole in the ground."

The defendants allege that the complaint is filled with allegations which emanate from the imagination of the plaintiffs' attorney. They assert that there is a valuable property in Stevens county, Washington, and that the efforts of plaintiffs are wholly misdirected.

BURLESQUE FIELD MEET

Joint Celebration by Young Women's and Young Men's Christian Associations.

It has been the custom for the Young Women's Christian association and the Young Men's Christian association to celebrate Thanksgiving jointly. These holiday gatherings have always been held in the young men's building because the women's association has heretofore been housed in quarters too small to accommodate the big gatherings. This year the Y. W. C. A. will entertain for the first time in its fine new building and the hospitable big reception will give to everyone interested in either association an opportunity of inspecting the fine new association home and to spend a delightful evening for which many careful plans have been made.

The occasion is to be called "A Great Field Meet," and will burlesque the big college athletic meets. An entertainment given in the gymnasium between the "Reds" and "Yellows" will afford much sport, as the association girls know how to carry out anything of this kind in the jolliest spirit. An orchestra will furnish music during the vesper service at the Y. W. C. A. will entertain for the first time in its fine new building and the hospitable big reception will give to everyone interested in either association an opportunity of inspecting the fine new association home and to spend a delightful evening for which many careful plans have been made.

PLEASUED WITH MR. CONNOR

Many Who Listen to Reading by "Sky Pilot's" Author.

"Ralph Connor" read from his writings last night in Plymouth church, and his audience, under the auspices of the Ralph Connor club of Grace Presbyterian church. Members of the club, members of the church and the general public were present. Rev. Donald D. McKay, introduced Rev. Charles Gordon of Winnipeg, the real Ralph Connor.

Mr. Connor does not profess to be a reader, nor to be a lecturer. He said, therefore, that he knew hardly what he should do; however, he would read "The Deep Hole" and "The Sky Pilot." Other selections were from the "Sky Pilot," with such an exact balance of the humorous and the pathetic that the pleasure of the evening was due to the author face to face the audience enjoyed the occasional broad suster, the twangy slang of the broncho buster of the Canadian foothills and the pathetic story of "Gwen."

Ralph Connor will preach Sunday morning at Grace church and Sunday evening at Westminster church. Monday evening he will be the guest of Westminster club at an open meeting to be held at the house of J. S. Porteous on Harmon place.

JOHNSON A ROBBER

Jury Says He Committed Robbery in First Degree.

Sues for \$5,000 for Injuries.

Amiel Esser has commenced an action against the Telephone company to recover \$5,000 damages for personal injuries alleged to have been sustained while in defendant's employ.

A Difference of \$5,000.

Mike Anderson is the plaintiff in an action for \$5,000 damages against the Red Star Telephone company. The complaint is filed before Judge Brooks. The plaintiff alleges he had a contract with the defendant company, under which he had the right to use all the telephone lines of a certain section of land in the northern part of the state, that he worked one winter but did not complete his task and that when he was called back to the state he was denied the use of the lines.

MUCH TRAVEL TO CALIFORNIA

Business This Year is Surpassing All Former Records.

California's trade with Minneapolis and tributary territory is growing wonderfully. This year it is surpassing former records. The reason given for this increase is publicity.

The St. Louis road claims to do more California tourist business than all the other Minneapolis lines. It has carried 100,000 tourists to California this year. Last year were taken Tuesday and three Thursday. Two cars will leave for California over this line Tuesday next, two on Wednesday and three Thursday. After the Duluth train will be a daily train to St. Louis. The St. Louis road said this morning: "The travel is very unusual this season. The California business grows every year. We have colonist train in this year a month longer than usual and the people are taking advantage of it."

The line offers three routes. Some go by the Rock Island-El Paso route. Others go by way of the day express in connection with the Santa Fe. The St. Paul and Northern Pacific and Omaha limited in connection with the Rock Island and the Denver & Rio Grande scenic line.

WAS KLEINE BRUTAL?

Serious Charges Made Against Officer Who Arrested a Boy at Paulle Fire.

Police Officer Kleine is being pursued by a number of citizens headed by A. D. Holburn, 204 Northwestern street, E. J. St. Louis, 214 Sixth avenue S. In handling the crowd at the fire last night there was some disorder which resulted in the arrest of Mr. Kleine, a half-grown boy, on the charge of disorderly conduct.

The crowd resented the treatment of young Kleine by the police and several were so incensed that charges of brutality were preferred against the officer last evening.

At the hearing the police court this morning Holburn and two other witnesses testified that Officer Kleine, after the boy was thrown down, kicked him about on the pavement.

"It was the most damnable piece of inhumanity I ever saw," declared Holburn. "The crowd was very angry and called out 'Lynch him! Lynch him!'"

The police declare that the boy was very obstreperous and defiant and had not complied with any of the orders of the police.

The case was continued until Monday.

DAIRYMEN REMEMBERED

Two Who Had Been Fined Had High Grade Milk.

Milk inspector W. D. McCall has been watching two dairymen who were fined last September for selling milk which was too low in fats. They tried then to argue that the city demanded a standard that was too high and insisted that they could not maintain it all the year round.

The law demands a 3.50 percentage of fats in milk offered for sale and the majority of dairymen have no difficulty whatever in maintaining the grade. A few days ago inspector McCall stopped the two men he had in view and took samples from their cans. He was not surprised to find that the tests showed from 4 to 4.50 per cent.

The Only Records That are the genuine imported ones are the Victor records. We have them, prices 50 cents to \$7.50 each. W. J. Dyer & Bros., 21 W. Fifth street, St. Paul.

MISSIONARY MATTERS

Discussed at District Meeting of Methodist Women.

The different branches of work were reported at the twenty-second annual meeting of the Minneapolis district of the Women's Foreign Missionary society in the First M. E. church yesterday. Dr. C. W. DON'T WORRY CLUB

Undoubtedly Helps Many of Its Members.

There is little doubt that the less one worries about his troubles, the more will those troubles scatter themselves and disappear. Life is a struggle too short to make mountains out of molehills, and little troubles grow to mountain heights when one worries and frets about it.

At least 90 per cent of life's worries grow from part of health. A poor stomach is responsible for most of these. It is hard for a sick man to see the bright side of life. His elements obscure a radiant horizon. The more he dwells on them, the darker will appear his prospects. Just as soon as his stomach gets in normal condition and his blood gets active, he braces up and life saves worth living.

A stitch in time saves nine, and the sooner one gets a tired, bilious, dyspeptic stomach into good running order, the quicker will he get a place in the race for the good things of life. There is nothing better in the world to brace a man up and cause his troubles to disappear than a bottle of Walther's Peptonized Port—a combination of pure pepsin and rare port. It is better than a life membership in a "Don't Worry Club," for it removes the cause of your trouble. No need to have dyspepsia, nervousness, biliousness, flatulency or any other kindred stomach troubles when you have a bottle of Peptonized Port in the house.
