Tammany Leaders Secretly Favor Parker, but Want "Understanding" with Him.

Democrats in Congress Lament Lack of Leader and Policy, and General Apathy.

Hearst Is the Only Active Candidate, While Gorman's Tactics Are Discredited.

Washington, Feb. 26.—"Did you mean to say that the laborers in the shipyards at Glasgow can do 60 per cent more work with the same tools and in the same time that can be done by American ship yard workers?" James O'Connell, president of the International Association of Shipbuilders, asked this during the progress of a hearing on the eight-hour bill before the committee on education and labor.

Wallace Bowney, a shipbuilder, representing the New York Metal Trades Council, replied: "I do mean to say that most emphatically. It has cost me, in the last five years, \$500,000, in adding to gray hairs, to find it out. I spent \$30,000 in purchasing the best tools, in acquiring knowledge of methods in Glasgow, and tried for two years to induce American workmen to learn that by doing piece work they could accomplish more. They would not see it and the shipbuilding interests have suffered. In addition the laborers have been deceived by the weekly payrolls have been decreased."

An arbitrary eight-hour day, which would prohibit overtime of any kind, would place a handicap on the American shipbuilder that would lose for him all opportunity of participating in foreign trade.

LA FAY CASE WITH JURY

Special to The Journal. Washburn, Wis., Feb. 25.—The La Fay murder case is now in the hands of the jury, having been completed at noon today. The state has made a strong case against the defendant, but the evidence is practically all circumstantial and the result is in doubt.

ALARM CLOCK

Scientific American. Surely laziness and not necessity is the mother of many present-day inventions. Pennsylvania inventor has devised a scheme for making his alarm clock tick the kitchen fire, thus allowing him time for an extra nap in the morning. The fire lighter comprises a friction plate on which a block is mounted. The block is secured to a bracket, which is fastened to the stove. A slot is cut in the side of the block to receive a spring arm extending from a coiled spring secured in the block. This arm, at its free end, is provided with a small pin, which acts as a stop for the spring arm. When the alarm clock is sounded, the alarm spring, the latter then, under action of the spring, lights the match by sweeping it over the friction plate. At the end of its course, the match comes into contact with and ignites a fuse leading to the kindlings, thus lighting the fire.

Fought Death all Night—Grew Worse.

Doctor Said Baby Would Die.

Dr. Miles' Nerve Revived and Cured Her.

When your nerves are tired and deranged, your troubles begin and remain with you until your nervous system is toned up and regulated. Dr. Miles' Nerve Reviver is the great Nerve Tonic and Regulator. Read what a grateful mother writes of what it did for her baby:

"My baby had sinking spells so bad we despaired of her life. Four or five times she would faint away and be at all appearances dead. When she was eight months old she took a very severe cold and the doctor and all who saw her thought it impossible for her to recover. We hardly revived her from one sinking spell until she would go into another. One morning after a most wretched night spent fighting death and when all symptoms were growing worse, I remembered an almost empty bottle of Dr. Miles' Restorative Nerve Reviver without saving any thing about it I gave the baby nearly a half teaspoonful. Then I noticed she slept more naturally and had no more sinking spells; day and in the evening I gave her a few more drops, which was all there was, and now though she is three years old she is well and strong and has never had the slightest symptom since the first attack. I know of several persons, among them relatives, who have used the Nerve Reviver with excellent results. I saved my baby's life, and I beg my permission to publish this as I wish to do them, to benefit others."—Mrs. W. I. Totten, Portland, Ind.

Send me no money.
You certainly know of some one who is sick—some sufferer who will be grateful for the help you can give. Send for my book on the Heart. Add that book tells of a way to help. Tells of the world over now as Dr. Shoop's Restorative. It tells how for thirty years in hospitals and at bedside I searched for a way to cure dyspepsia and the vital organs. It tells how I perfected my prescription for the sick on trial. They will thank me for the experiment I traced out the causes that bring on chronic diseases. I found a weakness that where there was a weakness, the inside nerves were weak. Where there was a lack of vitality that the vital organs lacked power. Where weak organs were found, I always found weak nerves. Not the nerves of the brain, but the vital organs. The inside—the "invisible" nerves. It was a revelation. Then my real success began. Then I combined ingredients that would strengthen that would vitalize these nerves. That prescription I called a restorative. It is known the world over now as Dr. Shoop's Restorative. After that I did not fail to cure one case in each hundred. In the extremely difficult cases my failures for five years were one in each forty treated. I found chronic incurable. Caret for surgery, not medicine. Then how to get this prescription to sick ones everywhere was my thought. I must announce it in the public press. But thought I will realize the truth of my discovery—the real power of Dr. Shoop's Restorative. Then a way came to me—like an inspiration—"I will offer it to the sick on trial. They will thank me for the experiment. If you say to the druggist "It did not help me," that will relieve you of any expense. He will bill the cost to me. This is my way of clearing your mind of all doubts as to what Dr. Shoop's Restorative can do. No matter how prejudiced you cannot dispute this ability security I offer. You cannot resist an offer like this if you are at all sick. If you have a weakness, write me. If you want to do things like you used to do them, tell me about it. Write me with confidence. A physician I will tell you a way to help. Get my book now—today. Address Dr. Shoop, Box 8620, Racine, Wis. Mild cases, not chronic, are often cured with one or two bottles. At druggists.
