

# RUSSIA LOOKS FOR WAR WITH AMERICA

## Newspaper Declares Czar Must Meet Western Power as Well as Japan.

Special to The Journal.

St. Petersburg, Feb. 19.—Much annoyance is felt here over the zealousness of would-be friends of Russia in proclaiming great victories upon the mere fact of a Japanese attack being repulsed. These exaggerations are quite foreign to Russian ideas, where charlatanism is held in abhorrence. They prefer to leave that kind of thing to the Japanese.

The Vicksburg controversy caused the commander of the ship would not join in the international protest causes this expression in the Novoye Vremya.

There is no clear we must be prepared not only to meet Japan, but a western power.

The same sentiment inspires a violent article from the London correspondent of that paper, who says:

"The United States has gone outside the bounds of neutrality. Japan offers the United States special trade advantages in Korea, which are taken as being the price paid to America by Japan."

### AMERICA NOT INVOLVED

Small Chance That United States Will Go to War.

New York Sun Special Service.

Chicago, Feb. 19.—Walter Wellman in a Washington special to the Record-Herald says:

There is not a chance in ten million that the United States is to become involved in the Asiatic war. This statement was made to me by a member of the American government, whose relations with President Roosevelt and Secretary Hay are so close and confidential that it will be said he spoke for them.

The somewhat excited and hysterical outpourings of the Russian press, prompted in part by the Russian government itself, have served to increase the feeling of anxiety and to lead to the belief that sooner or later the United States may be involved. On this account I have sought information as to the actual state of opinion in our government with reference to this possibility.

There is here not the slightest fear that the United States may be drawn within the vortex of war. There is no belief that this country has any stake in the outcome of the present hostilities which could in any probable contingency warrant the drawing of the sword by the United States.

Russians may feel that American sympathies are with Japan; they may feel that there exists a real danger that the United States may in the end take part in the struggle on the Japanese side. The only way in which Russia could draw the United States into a hostile war would be by making war upon the United States.

RUSSIA WARNS CHINA

Neutrality Will Be Ignored if Bandits Are Not Controlled.

Special to The Journal.

Shanghai, Feb. 19.—According to reports received here from Peking, the Russian minister has threatened to ignore China's declaration of neutrality unless China controls the mounted bandits of Manchuria. The Japanese have destroyed large Russian stores of provisions and forage at Khenchow, thirty miles from Port Arthur. The Japanese force has routed a Russian garrison at Hunchun in the northeastern frontier of Korea, and has captured the entrance to the Kirin. The Russians at Mukden and Kirin are reported to be demoralized. Russian troops are mostly concentrated near Hsinminan and threaten to seize the railway.

### LOSS FOR JAPANESE

Last Foreigner Expelled from Port Arthur Tells of Battles.

New York Sun Special Service.

Niu-chung, Feb. 19.—The last foreign subject from Port Arthur has just arrived here, having been expelled Friday. He says that in the Japanese attempt to block the entrance to the harbor Feb. 24, part of the crews of the sunken steamers were drowned or killed, while a few were captured ashore.

On the following morning, at 1 o'clock, the Japanese fleet, consisting of twelve warships and four smaller ones, together with a torpedo boat, returned and attacked the forts. Firing continued four hours. At 8 o'clock the Askold and Bayan left the harbor and firing was heard at sea. At 11 o'clock both returned. The Petropavlovsk and Sevastopol have been repaired in the naval harbor. Their damages were principally to the deck and for parts.

Naval authorities are making a mud dock and causeway near the railway station between the old and new towns to repair the Czarevitch. The Retvizan is still fast across the middle entrance and there is only room for vessels for parts.

### WAR ARBOR COOLS

Patriotic Demonstrations Followed by Calmness on Part of Russians.

St. Petersburg, Feb. 19.—Grave rumors in circulation here concerning the severities of troops crossing Lake Balkal were communicated to the officer in charge, who telegraphed that there was no case of severe frostitis causing either death or amputation.

It is said that the journey of twenty-five miles, which takes twelve hours, is broken at a relay station in the center of the lake, where a hot dinner is served, and that particular care is taken of the weaker.

The blockade of Port Arthur continues. The Russians seem resigned for the present not to expect to accomplish much by sea, realizing that the Port Arthur fleet is overmanned in both ships and guns.

Serious consideration also is being given to the feasibility of spending about \$5,000,000 on torpedo boats to be sent in sections to Vladivostok and Port Arthur.

The war excitement here and throughout Russia generally seems to be dying down. The patriotic demonstrations which everywhere followed the outbreak of hostilities have been succeeded by calmness on the part of the people, but the crowds still eagerly gather about the bulletins from Viceroy Alexieff, which are posted in various parts of the city and which are issued soon after they are received.

### SIX PORT ARTHUR FIGHTS

Four Attacks Made After Attempt to Block Channel.

New York Sun Special Service.

Tokio, Feb. 19.—Detailed official reports show that six distinct operations took place at Port Arthur.

The patriotic demonstration which everywhere followed the outbreak of hostilities have been succeeded by calmness on the part of the people, but the crowds still eagerly gather about the bulletins from Viceroy Alexieff, which are posted in various parts of the city and which are issued soon after they are received.

ing explosive for the purpose of sinking them, entered the field of the enemy's searchlights and received a heavy fire, which forced one vessel to be by their own crews.

The third operation was the rescue of the crews of these steamers by torpedo boats, which were sunk.

On the night of Feb. 24, three divisions of destroyers searched Tally-ho, Pigeon Bay, and Port Arthur. At the last named place they discharged torpedoes, which forced one vessel to be by their own crews.

On the morning of Feb. 25, the main squadron stood in at Port Arthur and bombarded it at long range.

During the last operation, a cruiser squadron, scouting, sighted two Russian destroyers, which were ashore at Pigeon Bay where she was destroyed.

An official report received yesterday says that the attempt to block Port Arthur, Japanese torpedo boats returned thither, but found no Russian vessels outside.

On the morning of Feb. 25, the whole fleet, including the Askold and Novik outside. The Japanese attacked at long range and the Russian ships entered the harbor, thus indicating that the passage was unobstructed.

Then the Japanese threw heavy shells into the harbor for fifteen minutes and presently observed flames.

Subsequently they sank a Russian destroyer.

There was no injury to the Japanese vessels.

This report was sent by the second in command, Admiral Togo is still before Port Arthur.

### RUSSIANS SLAY KOREANS

Massacres Result in Concessions to Japan to Use Territory.

New York Sun Special Service.

Seoul, Feb. 19.—Reports have been received here that the Russians in northern Korea have killed a number of Koreans and are giving as the reason for so doing that the Koreans had allowed the Japanese to conduct warlike operations in the country. In consequence of the action of the Koreans, Korea has been ordered to join the Japanese and wage war against the Russians.

A number of former officers and military students have petitioned the Korean war office to be allowed to defend their country.

Three months later, the latest of eighteen big guns, for fortifying the hills around Seoul, have arrived at Kew. The Korean government has been appointed. All its members are conservatives and the Russian party is absolutely powerless.

One of its first works was to impeach Yi-Yong-Ik. This willy minister, however, sought the protection of the Japanese consul, to the great exasperation of his opponents, who threaten him with assassination.

The Koreans have commanded to receive Japanese military notes in exchange for goods. These notes will be cashed the 5th and 15th of each month. All employees of the American Mining company, with one exception and children, numbering over seventy, have been withdrawn from Unsan to Ping Yang.

### TURKS EAGER FOR WAR

Sultan May Be Powerless and Austria Hurries Preparations.

New York Sun Special Service.

St. Petersburg, Feb. 19.—Owing to a report that the Russian ambassador at Constantinople has advised that the passage out of the Black sea fleet has been abandoned, much more serious news comes from the near east, giving the idea that Turkey is ready to take advantage of the opportunity to carry out Greek reforms.

An authority here, accounting for the armament of Greece, says an agreement has been entered into between that country and Turkey, whereby, in case of war, Greece occupies Macedonia.

War sentiment of the Yildiz Kiosk has reached such a point that it may at any moment get beyond control of Abdul Hamid. Knowledge of this account has hurried Austria's military preparations.

### EXPULSION OF ANGLO-SAXONS

Russians Drive American and Two Britons from Port Arthur.

Yinkow, Feb. 19.—Four trains of Russian refugees from points south of Tashchiasia went north yesterday. One American citizen and two British subjects were among the refugees, but they were not given the right to move their property.

They declare that they were expelled because of alleged relations with newspaper correspondents, who charge, they say, was unjustifiable, but the authorities declare that they are justified in expelling all who are not required for defense.

The authorities have refused to permit the British Captain Riddle to take his ship, the Foxton Hall, to Chi-Fu. It is understood that the Japanese released a Russian skipper will be sent with her for the purpose of preventing intelligence of the Russian operations being given to the Japanese blockaders.

### CZAR MAKES WAR RULES

Measures to Govern Conflict with Japan Laid Down.

St. Petersburg, Feb. 19.—Rules of war officially were published last night. The original draft of these rules was indorsed by the czar with the words, "It must be so."

According to Rule 1, Japanese subjects will be allowed to carry on business uninterrupted with Russian ports and towns, provided they observe Russian law and the principles of international law.

Rule 3 says that subjects of neutral states will be allowed to carry on business uninterrupted with Russian ports and towns, provided they observe Russian law and the principles of international law.

Rule 4 points out that it is the duty of the high military authorities to take all steps to insure the freedom of the lawful trade of subjects of neutral states in so far as their commerce is permissible under the exigencies of war.

Rule 5 says that in regard to neu-

neutral trade the following points must be observed: (a) The flag covers the cargo for a belligerent, excepting contraband of war. (b) Neutral goods or the enemy's flag, except contraband of war, are not subject to capture. (c) Blockades to be obligatory must be effective—that is, they must be sufficient force out of approach to the enemy's territory. (d) According to rule 6, the following will be regarded as contraband of war: (a) Every kind of small arms and arm. (b) Parts of firearms and ammunition, fuses, shells and bullets. (c) Caps, cartridges, cartridge cases, powder, saltpeter, sulphur, explosives or materials for purposes of explosion, such as mines, dynamite, pyroxylin, various explosive substances, conductors and everything for exploding mines. (d) Everything pertaining to artillery, engineering and troop trains, such as gun carriages, limbers, carriages, ammunition boxes, field smithies, field kitchens, instrument wagons, ambulances, bridges, treadles, barbed wire, horse harness for transport service, etc. (e) Material for equipment and clothing for troops, such as handkerchiefs, knapsacks, awnings, blankets, tents, clothing, tools, drums, field kettles, saddles, harness, uniforms, tents, etc. (f) Ships bound for the enemy's ports, even if sailing under a neutral flag, if their construction and internal arrangements or any other indication makes it apparent that they have been built for warlike purposes or are for sale or are destined to be handed over to the enemy on reaching their destination.

### FRENCH ASSIST JAPAN.

Mikado Accepts Gift of Two Field Hospitals and Medicines.

Special to The Journal.

Yokohama, Feb. 19.—The news that China is about to intervene in the Russo-Japanese hostilities causes some apprehension here, since it is feared that Russia may regard any breach of Chinese neutrality as activity for France.

According to the Politische Correspondenz, the French government has informed Japan that the treatment of the Russian squadron at Jibuti was strictly in accordance with French neutrality. It was assurance to Japan that France intends to maintain neutrality in the future.

Mr. Motono, the Japanese minister, has informed the Marquis de Vogues, president of the French society for aid to the wounded, that his government has accepted an offer to supply ambulance material.

He will to-morrow take for delivery at Boulogne two field hospitals, each of 100 beds, together with all the requisites for treatment of 200 wounded. The acceptance of a similar offer made Russia was adjourned for several weeks, the military authorities being unable to arrange for the conveyance of material to the seat of war. The French national subscription for the Russian wounded now amounts to \$13,000 sterling.

### Butter Next.

It is quite generally known that typhoid has been frequently communicated in milk, either from washing the cans in infected water or because the milk has been diluted with water from a polluted source. It is now proven that when vessels are washed with polluted water and afterwards used for milk, the bacilli are found in the cream and in the butter made from the cream. The most approved sanitary methods are observed in the drawing of golden grain best beer for the object is to produce a beer which shall be, at the same time, a healthful tonic and a delicious beverage. A trial case will prove this to your satisfaction.

### Great Northern Ry. Changes Time.

Do not get left. See new time card, in effect Sunday, Feb. 28. Trains leave earlier.

### We Will Buy

A 50c Bottle of Ligozone and Give it to You to Try.

The result is a product that does what oxygen does and oxygen is the very source of vitality, the most essential element of life. The effects of Ligozone are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter. That is why Ligozone kills every disease germ, and with a product which to the human body is life.

**Germ Diseases.**

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

**Not Medicine.**

Ligozone is the result of a process which has been in use for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases are made part of the liquid product.

**We Paid \$100,000**

For the American rights to Ligozone—the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We paid it because Ligozone does what no other medicine can do. It must leave what the patient loads their cargoes, which must not include contraband of war. Sufficient time will be allowed for loading, but in any case these vessels will be allowed no more than forty-eight hours after publication of this proclamation.

Rule 3 says that subjects of neutral states will be allowed to carry on business uninterrupted with Russian ports and towns, provided they observe Russian law and the principles of international law.

Rule 4 points out that it is the duty of the high military authorities to take all steps to insure the freedom of the lawful trade of subjects of neutral states in so far as their commerce is permissible under the exigencies of war.

Rule 5 says that in regard to neu-

### Broke

Down With Nervous Prostration.

Confined to Bed. Doctors Failed.

But Dr. Miles' Nerve Cured Permanently.

"Some six years ago I completely broke down from evangelistic work. I suffered from nervous prostration and stomach trouble and was confined to my bed and room for months. While I had as good a physician as this city affords he failed to pull me out, and I tried many remedies and they were so hard on my stomach that I could not take them. At last I found Dr. Miles' Nerve. Ah, that was a nail in a sure place and enabled me to cry out 'Eureka.' I was soon able to be out again at work. I consider Dr. Miles' Nerve the thing for nerve and stomach trouble. I also use in my family most of Dr. Miles' Medicines, as household remedies."—Rev. Geo. W. Draper, Danville, Ill.

"About a year ago I failed in health and my case was a most nervous derangement and heart trouble. My stomach was also affected and I suffered from a variety of symptoms such as wind on the stomach, shortness of breath, smothering spells, pain around the heart and left shoulder. My ankles were frequently swollen and my face was often feverish. There were little profits under my eyes at times and I had headaches almost constantly. I wrote to you for advice and in addition to general directions as to taking care of myself you prescribed Restorative Nerve, Heart Cure and Nerve and Liver Pills. I will state that my complete and permanent return to health followed."—Miss Josephine Kern, Galesia, Ill.
