

# PROMINENT JUDGES AND A BARBERIES WHO USE PE-RU-NA

JUDGE W. H. SEBRING.

Hon. W. H. Sebring, late Brigadier General of the Florida State Militia, also ex-County Judge of Levy County, Florida. This prominent gentleman in a letter from 133 West Fourth street, Jacksonville, Florida, writes:

"I can cheerfully recommend your valuable remedy, Peruna, as a very excellent tonic, and also good for coughs, colds, catarrh and general debility."—W. H. Sebring.

## There Is No Remedy Known to the Medical Profession That is Used and Endorsed By So Many Men of National Prominence and Undoubted Integrity.

**A** GREAT many remedies to temporarily relieve catarrh have been devised from time to time, such as sprays, snuffs, creams and other local applications, but, as a rule, the medical profession has little or no enthusiasm in the treatment of catarrh.

It is generally pronounced by them to be incurable.

It therefore created a great sensation in medical circles when Dr. Hartman announced that he had devised a compound which would cure catarrh permanently.

The remedy was named Peruna and in a short time became known to thousands of catarrh sufferers north, south, east and west.

Letters testifying to the fact that Peruna is a radical cure for catarrh began to pour in from all directions.

Thousands of such letters are on file in the office of the Peruna Medicine Co.

In every city and hamlet in the land the phrase that Peruna cures catarrh wherever located has become almost an axiom.

Peruna is a specific for all catarrhal diseases. It acts quickly and beneficially upon the inflamed mucous membrane, thus removing the cause of catarrh.

Catarrh is catarrh wherever located. Catarrh is essentially the same everywhere. The remedy that will cure catarrh in one situation will cure it in all situations.

**CATCHING COLD**  
**How Prevented—How Cured—By the Renowned Medical Author and Physician, Dr. Hartman.**

**C**ATCHING cold is really the acute stage of catarrh. A sudden chilling of the surface of part of the body drives the blood to the interior of the body, and its presence in unusual quantities causes temporary congestion of some organ, which may continue long enough to produce the disturbance called "a cold." The mucous membranes of the respiratory tract are oftenest damaged by this rush of blood to the warmer parts of the body because of their loose structure, which affords little or no support to the delicate vessels turgid with an unusual supply of blood. Peruna acts directly on the vasomotor system of nerves, which give tonicity to these overcrowded vessels, and enables them to regain their usual elasticity and thus prevent further derangement.

Chronic catarrh is so undoubtedly and directly the result of an ordinary cold that it would be quite correct to call chronic catarrh a settled or old cold. At least one-fourth of the inhabitants north of the fortieth degree of latitude are more or less afflicted with catarrh in some form. To say that this vast multitude of people is miserable is only to give a mild statement of the case.

**An Ounce of Prevention is Worth a Pound of Cure.**

The treatment of colds ought to begin with the appearance of the first symptoms. Since a cold has the invariable effect of producing congestion of some mucous surface, the remedy for it ought to operate there also. The compound, Peruna, was devised with especial reference to this effect. It operates by increasing the circulation in the mucous membranes of the whole body, and, no matter where the cold may have settled—whether in the head, throat, lungs, kidneys or urinary organs—Peruna will immediately relieve the congested membrane and stop the discharge.

There is no fact of medical science better established than that a teaspoonful of Peruna before each meal during the winter season will absolutely protect a person from catching cold. Now if this is true (and there is no doubt of it), thousands of lives would be saved and tens of thousands of cases of chronic catarrh prevented by this simple precaution with in reach of every one.

**A Cold, the First Step Toward Chronic Catarrh.**

After a cold has been contracted a teaspoonful of Peruna every hour will shortly leave no trace of it behind. After chronic catarrh has become established or the first stages of consumption have been reached, it will take much longer to effect a cure. It seems strange that as well known and as well established as these facts are that any one should neglect to profit by them, and yet no doubt there are many who pay little or no attention to them and go on catching cold, acquiring chronic catarrh and consumption.

Peruna kept in the house and properly used will therefore not only act as a safeguard against the ailments which result from sudden cold waves, but will also prove a sure remedy for this class of ailments.

**Pe-ru-na Cannot Be Imitated.**

Some things may be successfully imitated, but Peruna cannot be. Every one purchasing Peruna should look out for imitations. Examine each package carefully. If you have ever used Peruna or if you have ever tasted it, you are not in the slightest danger of being misled by the slightest imitation, but all those beginning the use of Peruna should beware.

Beware of imitations. Believe no one who tells you that he has a remedy that is making the same cures that Peruna is making. If you have any doubt as to the genuineness of the bottle of Peruna you are using, write to Dr. Hartman, and the fraud, if there be any, will soon be detected.

**The Tenacious Character of Chronic Catarrh.**

Perhaps the majority of physicians believe chronic catarrh to be incurable, but no wonder. It is a hard disease to cure. Many physicians cannot cure it, at least only temporarily. A very few have had the extensive experience to cure catarrh permanently.

Among these few stands Dr. Hartman. His fame in curing chronic catarrh is known far and wide. His principal remedy is Peruna. He has used this remedy for nearly forty years. It cures catarrh permanently—old cases slowly but surely; new cases quickly and lastingly. There need be no failure.

Coughs, colds, la grippe, influenza, bronchitis and all diseases of the throat, chest and lungs are promptly curable by Peruna.

As a remedy for winter diseases it has no equal.

**Men of Prominence Do Not Hesitate to Indorse Pe-ru-na.**

Over fifty members of congress, twenty-eight generals of our army, governors, admirals, mayors, prominent lawyers, physicians, business men, club men, literary men and scholars of prominence and many other men of national reputation indorse Peruna.

Thousands of people in the humbler walks of life use it as a family medicine. Used once in the home, it always stays. Almost all the diseases of winter are due to catarrh; Peruna cures catarrh wherever located.

**Promptness of Pe-ru-na Unequaled.**

Peruna can be relied upon to cure slight colds and coughs and other catarrhal ailments with a promptness that is unequalled by any other remedy.

It first invigorates the system, increases the appetite, then the patient begins to gain flesh, hope takes the place of despondency, and all the mischievous symptoms which the chronic catarrh has produced will disappear one by one in the reverse order of their appearance. It has cured thousands upon thousands of the harassing and distressing malady,

**T**HE day was when men of prominence hesitated to give their testimonials to proprietary medicines for publication. This remains true to-day of most proprietary medicines. But Peruna has become so justly famous, its merits are known to so many people of high and low station that no one hesitates to see his name in print recommending Peruna.

The highest men in our nation have given Peruna a strong indorsement. Men representing all classes and stations are equally represented.

The most distinguished men of the United States have no hesitation in lending their influence to assist in letting the people know of the virtues of Peruna. Nearly one-half the people are in some degree affected by catarrh. Therefore it is almost a national curse, and it is of national import that the people should know of Peruna.

Catarrh is an American disease. Peruna is an American remedy. Catarrh is the result of a changeable climate. Peruna is the result of long and careful experimentation. Catarrh enters the system thru the nerve-centers. Peruna enables the nerve-centers to repel and expel catarrh from the system.

Catarrh is a systemic disease, curable only by systemic treatments. A remedy that cures catarrh must aim directly at the depressed nerve centers. This is what Peruna does.

JUDGE W. C. DURHAM.

Judge W. G. Durham, a well-known local Judge of Greensboro, Ga., gives his experience with Peruna in the following words:

"Some time ago I contracted a severe cold which settled on my lungs and in my head. I tried many remedies, all of which gave me no relief. I concluded that my case was catarrh of the head and lungs, and seeing Peruna so highly recommended I began using it, experiencing the very best results from the first bottle. I continued using Peruna for a short while, and have never felt the least symptoms of catarrh since. Peruna is certainly a good medicine, and deserves the highest praise which is given it by the general public."—W. G. Durham, Greensboro, Ga.

JUDGE D. Y. CORBIN.

Colds are considered one of the necessary ills of life. One is liable to catch cold both summer and winter. Very often a cold is the starting point or cause of a lengthy and dangerous catarrhal disease. Colds are always dangerous and should never be neglected a day.

**H**ON. D. Y. CORBIN is ex-United States Senator and cousin of Adjutant General Corbin of the United States Army. Judge Corbin is one of the best known lawyers in Chicago and stands high professionally and socially. The following indorsement coming from such a man cannot help but add weight and importance to the thousands of testimonials from the humbler walks of life:

Gentlemen—"The use of Peruna has been a blessing to those troubled with catarrh. So many of my acquaintances have been cured and benefited by its use that its curative qualities should be generally known. I do not hesitate to recommend it as the best remedy yet discovered for that disease."—D. Y. Corbin, 916 Chicago Opera House, Chicago, Ill.

**T**HERE are two things that the whole medical profession agree about concerning catarrh. The first is that catarrh is the most prevalent and omnipresent disease to which the people in the United States are subject. All classes of people have it. Those who stay indoors much and those who go outdoors much. Working classes have it and sedentary classes have it.

The doctor finds catarrh to be his constant and ever-present foe. It complicates nearly every disease he is called upon to treat.

The second thing about catarrh on which all doctors agree is that it is difficult to cure it. Local remedies may give relief but they fail to cure permanently. Sprays or snuffs amount to little or nothing except to give temporary relief.

**Catarrh a Systemic Disease.**

Catarrh is frequently located in internal organs which cannot be reached by any sort of local treatment. All this is known by every physician.

JUDGE SILAS HARE.

Silas Hare of Sherman, Texas, was born in Ross county, Ohio, removed to Hamilton, Texas, when thirteen years of age. Served one year in the war with Mexico. Was Chief Justice of New Mexico in 1862. Practiced law in Indiana in 1850. Settled in Sherman, Texas, in 1865. Was District Judge, and was elected to the 50th Congress, was defeated by Hon. Joseph W. Bailey, now United States Senator from Texas. Is the father of Major Hare, who served with distinction in the Philippine War. This distinguished gentleman in a letter from the Hamilton House, Washington, D. C., says:

"I earnestly recommend your Peruna to all persons suffering with catarrh or nervous disorders. I am satisfied that it is a good and wholesome remedy."—Silas Hare.

**APPROACH OF CATARRH NOT ALWAYS NOTICED.**

Catarrh is silent and insidious in its ravages, but it pervades nearly every household and hovers like a pestilence over every hamlet and city in our land.

Catarrh (and its legitimate consequences) has desolated more hearthstones, made wretched more happy lives, and ended more brilliant careers than all other diseases combined.

Catarrh may end in deafness, blindness, loss of smell, loss of taste, or the entire loss of voice.

Diphtheria, bronchitis, pneumonia, consumption and pleurisy begin almost always as the result of a catarrhal attack.

The worst forms of dyspepsia and Bright's disease of the kidneys are also the direct consequence of neglected cases of acute catarrh.

Even when the victims of acute catarrh escape all of the above mentioned liabilities, there remains the great probability of its ending in chronic catarrh.

The only hope of success in the permanent cure of a case of chronic catarrh is to devise some remedy that will stimulate the nerves which supply the capillary blood vessels.

There is but one remedy that has this most desirable effect, and that remedy is Peruna.

Peruna is not a temporary palliative, but a radical cure. It is the only reliable internal remedy ever devised to cure any case of catarrh, however long the case may have been standing.

To devise some systemic internal remedy which would reach catarrh at its source, to eradicate it permanently from the system—this has been the desire of the medical profession for a long time. Forty years ago Dr. Hartman confronted this problem. He believed that he had solved it. He still believes he has solved it. He cures thousands of people annually. During all these years Peruna has been the remedy upon which he has relied.

JUDGE W. H. PARSONS

W. H. Parsons is ex-State Senator and ex-Special Judge of the Supreme Court of Texas, also Brigadier-General in Confederate Army. In a recent letter from 925 H street, N. W., Washington, D. C., this prominent gentleman says:

"Upon the recommendation of personal friends and many strong testimonials as to the efficacy of Peruna in the treatment of the numerous symptoms of the grippe with which I have been afflicted for four months past, I have been induced to undergo a treatment with this justly celebrated formula. I feel a decided change for the better after using it only one week. It is especially good in toning up the stomach and has a decided effect upon my appetite. I therefore feel much encouraged that I am on the road to complete restoration."

"My numerous friends in Texas, where I have had the honor to command a brigade of her Veteran Cavalry in a four years' war, may accept this voluntary testimonial to the merits of Peruna as a sense of obligation on my part for its wonderful efficacy."—W. H. Parsons.

**Catarrhal Symptoms Vary According to Their Location in the Body.**

Every organ of the body is liable to catarrh. Symptoms of catarrh differ according to the part affected. If the catarrh is confined to the nose the symptoms will be sneezing and mucous discharges, or the formation of dry scabs, corresponding to the stage of the disease.

When in the pharynx it causes hoarseness, enlarged follicles and tonsils, and sometimes deafness. In the larynx it produces hoarseness, and often loss of voice.

As soon as it reaches the trachea and bronchial tubes, cough, with abundant mucous expectoration, ensues.

Upon reaching the lungs catarrh speedily causes consumption, and all of the symptoms of that dread disease follow sooner or later. Catarrh also attacks the urinary tract, producing in the kidneys "Bright's Disease," in the bladder chronic cystitis, and in the urethra small, frequent and painful micturitions. Peruna is a specific for catarrh wherever located and at all stages.

Catarrh is capable of changing all the life-giving secretions of the body into scalding fluids, which destroy and inflame every part they come in contact with. Applications to the places affected by catarrh can do little good save to soothe or quiet disagreeable symptoms. Hence it is that gargles, sprays, atomizers and inhalants only serve as temporary relief.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

**W**ILLIAM FARR, President of National College of Law, Nashville, Tenn., writes:

"Two years ago I had a serious attack of la grippe, which seemed to baffle the physicians, and I was unable to attend to my office work and it seriously interfered with my routine of business. One of my students who had been cured and benefited by using Peruna, advised me to try it, and acting on his advice, I did so, but with misgivings, I can assure you."

"I was heartily surprised to find that a change for the better set in almost as soon as I had finished the first bottle and I was able to take up my work again in a week, and in two weeks I had entirely recovered my good health. Peruna is well deserving of praise."—William Farr.

**THE SEASON OF CATCHING COLD.**

**T**HE season of catching cold is upon us. The cold and the sneeze and the nasal twang are to be heard on every hand. The origin of chronic catarrh, the most common and dreadful of diseases, is a cold.

The order in which the symptoms of chronic catarrh occur are nearly always as follows:

A cold which hangs on longer than usual; a sensitiveness of the air passages, by which one catches cold easily; a continual settled cold in the head, throat or chest; discharges grow thicker and more offensive, loss of flesh, despondency, loss of appetite, headache or cough, and general lassitude.

Now this is about the order in which symptoms of chronic catarrh make their appearance, and if the sufferer is fortunate enough to find a cure the symptoms will begin to disappear in exactly the reverse order. There may be at first no perceptible improvement in the earliest symptoms, while the latter symptoms show prompt improvement.

PRESIDENT WILLIAM FARR

JUDGE JOHN V. WRIGHT.

John V. Wright, Law Department, General Land Office of Tennessee, in a letter written from Washington, D. C., says the following of Peruna for catarrh:

"I have used Peruna in my family and can cheerfully recommend it as being all you represent, and wish every one who is suffering with catarrh, general debility or prostration could know of it. I would advise all such to take it in time and forestall the terrible consequences. I regard it as a most valuable remedy and most cheerfully recommend it."—John V. Wright.

JUDGE H. HENRY POWERS.

Judge H. Henry Powers, of Vermont, writes from Morrisville, Vt.:

"Peruna I have used in my family with success. I can recommend it as an excellent family remedy and very good for coughs, colds and catarrhal affections."—H. Henry Powers.
